NADIA MARCINKOVA / NADIA MARCINKO: FBI FILE INVESTIGATION

Date: 2026-02-06

Subject: Nadia Marcinkova (later Nadia Marcinko)

Database Sources: primary document text database, OCR text extraction database, image catalog database, Dataset 10 document text database, entity relationship database

Total Records Searched: 1,808,942 redaction records across 376,571 documents; 38,955 OCR records; knowledge graph with 524 entities and 2,096 relationships

EXECUTIVE SUMMARY

Nadia Marcinkova (now Nadia Marcinko) is one of the most significant and anomalous figures in the Epstein FBI files. Despite being identified as both a victim and a co-conspirator who "scheduled hundreds of sexual massages with minors for Epstein," her full name ("Marcinkova" or "Marcinko") returns **ZERO results** across 1.8 million redaction records and 38,955 OCR records. She appears only by first name ("Nadia") in a handful of redacted documents, through her company name "Aviloop LLC" in financial records, and extensively in flight logs through the knowledge graph.

UPDATE (2026-02-12): Full-text corpus revisit substantially revises this finding. DS9 alone contains **133 documents** with "Marcinkova" by full surname, **19 documents** with "Marcinko," and **61 documents** with "Aviloop." DS11 adds 1 document with "Marcinkova," 6 with "Marcinko," and 18 with "Aviloop." The total new document count exceeds **200 unique documents** across DS9/DS11.

Marcinkova's name was not absent from the FBI files -- it appears extensively in court filings, NPA drafts, prosecution memos, civil litigation exhibits, news articles, FBI intelligence reports, and direct email correspondence. The correct characterization is that her name was systematically redacted in *internal FBI materials* (DS8/DS10/DS12) but remained visible in court records and publicly-filed documents comprising much of DS9. See the "DS9/DS11 Evidence" section below for additional findings including: FBI certification as a trafficking victim (I-914), a \$10M trust annuity, the full NPA text with immigration waiver, an FBI intelligence dossier, an aircraft brokerage agreement, and

extensive email correspondence revealing Aviloop as a visa-fraud vehicle.

The investigation reveals:

- Marcinkova was on **124 documented flights** with Epstein (Sept 2003 - Jan 2006), more than almost any other individual
- She flew on the same flights as **Prince Andrew** (Oct 16-17, 2004), **Jean-Luc Brunel** (11 flights), and **Ghislaine Maxwell** (20 flights)
- Epstein wired **\$100,000 to Aviloop LLC** (Marcinkova's company) on November 30, 2018 -- just two days after the Miami Herald series exposed his crimes
- SDNY prosecutors described her as "another Epstein co-conspirator who scheduled hundreds of sexual massages with minors for Epstein but was also a victim of his sexual abuse"
- She was named in the Non-Prosecution Agreement (NPA) as a "potential co-conspirator" for whom "Epstein obtained protection"
- Her identity document (**EFTA01525405**) exists only in redaction data, not OCR -- meaning it was fully redacted in the released files

SECTION 1: THE ANOMALY -- SYSTEMATIC NAME REDACTION

1.1 Zero Full-Name Results in Redaction Databases

Search across all five redaction/OCR databases for "Marcinkova" and "Marcinko" returned:

- **primary document text database:** 0 results for full surname
- **OCR text extraction database:** 0 results for full surname
- **image catalog database:** 0 results for full surname
- **Dataset 10 document text database:** 0 results for full surname

The ONLY instance of her surname appearing in any redaction database is a garbled extraction from her identity document:

EFTA01525405, Page 0 (Hidden Text): *ffl illMIEffi ardv d. iLfi NADIA
LIAIbcINKOVA*

This is clearly a corrupted OCR reading of "NADIA MARCINKOVA" from behind a redaction layer.

1.2 Significance -- Revised (2026-02-12)

Original assessment: The zero-result finding was interpreted as "systematic identity suppression" across all FBI files. **Revised assessment:** The zero results were an artifact of searching only redaction-extraction databases (which capture hidden text behind redactions in internal FBI materials). The full-text corpus (DS9/DS11) contains **200+ documents** with Marcinkova's name in court filings, NPA drafts, civil litigation, news articles, and FBI intelligence reports. The suppression was selective -- her name was systematically redacted in internal FBI materials (DS8/DS10/DS12 redaction layers) but remained visible in court records and publicly-filed documents included in DS9. This represents selective redaction in internal FBI materials. Whether this reflects victim privacy protections (she was later certified as a trafficking victim via I-914), deliberate concealment, or standard redaction practices is not established.

SECTION 2: DOCUMENTS CONFIRMED TO REFERENCE NADIA

Despite the name suppression, Nadia appears by first name only in the following documents:

2.1 Identity Document -- **EFTA01525405**

- **Type:** Identity document (passport or ID card)

- **Hidden text:** NADIA LIALbcINKOVA (garbled OCR of "NADIA MARCINKOVA")
- **Status:** Fully redacted; NOT in OCR text records; exists only in redaction analysis
- **Significance:** An identity document for Marcinkova was collected by the FBI, but its content is entirely redacted in the released files

2.2 Bank Record -- EFTA01286686

- **Type:** Financial transaction record
- **Hidden text (Page 1):** g Money Trust
- **Hidden text (Page 1):** TO BANK 039270903 Preauthorized Debit
- **Hidden text (Page 2):** TOMBANK NA AC 4312480538 NADIA
- **Hidden text (Page 2):** TO JPAIOROAN CHASE BANK. NA NC 3411 34927 SIEHMET VIDA BESKAR1WS FSO
- **Interpretation:** Transaction from the "Money Trust" (an Epstein trust entity) through TD Bank (account 4312480538 in the name of NADIA) to JPMorgan Chase Bank. This documents direct financial flows from Epstein's trust structure to an account in Nadia's name.

2.3 Email -- EFTA01767810 (October 2012)

- **Type:** Email communication
- **Hidden text:** com> To: Nadia wr=te:
- **Hidden text:** day, Octobe= 15, 2012 11:49 PM
- **Status:** NOT in OCR text records; content only visible through redaction analysis
- **Significance:** Email to Nadia dated October 15, 2012 -- demonstrating continued contact years after the 2008 NPA and Epstein's Florida conviction

2.4 Email -- EFTA01825863

- **Type:** Email communication
- **Hidden text:** nadia bject: (fragment of "Subject:")
- **Status:** NOT in OCR text records; fully redacted

2.5 Email -- EFTA02025999

- **Type:** Email communication
- **Hidden text:** Cc: nadia Subject:
- **Status:** NOT in OCR text records; fully redacted
- **Significance:** Nadia copied on email communications, indicating continued contact with Epstein's circle

2.6 "Talk to Nadia" Emails -- EFTA02439416 and EFTA02439434 (June 2009)

- **Type:** Email chain between Jeffrey Epstein and an unidentified young woman
 - **Context:** A young woman writes to Epstein about performing at a show and needing \$50 for dance materials. Later she discusses finding her passport and "diploma" (misspelled as "deploma"), and mentions her mother approving her going "down to work."
 - **Epstein's instruction:** talk to nadia
 - **Additional Epstein instruction:** get 200 \$ from bella call the office
 - **Significance:** Epstein directing a young woman to coordinate with Nadia. The context -- a young performer needing small amounts of cash, discussing travel for "work," needing a passport -- is consistent with the recruitment and trafficking pattern described by prosecutors. "Bella" likely refers to another member of the household staff.
 - **Date:** June 2009 -- AFTER Epstein's 2008 conviction and during his work-release period
-

SECTION 3: AVILOOP LLC -- MARCINKOVA'S COMPANY

3.1 Overview

Aviloop LLC was Marcinkova's aviation-related company. It appears in **18+ documents** across the redaction database:

EFTA Number	Content
EFTA01399653	Financial summary listing Aviloop LLC alongside "FT Real Estate"
EFTA01481226	Banking document for AVILOOP LLC
EFTA01525616	AVILOOP LLC (banking/financial)
EFTA01525696-EFTA01525991	Series of 10+ AVILOOP LLC banking documents
EFTA01577223-EFTA01577325	AVILOOP LLC checking account statements
EFTA01656524	SAR (Suspicious Activity Report) -- Aviloop is "Subject 1 of 25"
EFTA00020685	Wire transfer records -- \$100,000 to Aviloop LLC

3.2 Wire Transfers to Aviloop LLC (Critical Finding)

Document: [EFTA00020685](#) -- SDNY production follow-up requesting wire transfer details from the Butterfly Trust Account at Deutsche Bank.

The OCR text reveals the following wire transfers from Epstein's **Butterfly Trust** account:

Date	Recipient	Amount	Receiving Bank	Routing #
01/28/2015	[Redacted]	\$50,000	JPMorgan	49 999921
04/22/2015	[Redacted]	\$50,000	JPMorgan	49 999921
09/24/2015	[Redacted]	\$23,625.44	JPMorgan	99 999991
11/27/2018	Aviloop LLC	\$45,000	TD Bank	JEGE LLC acct 42953475
11/30/2018	Aviloop LLC	\$100,000	TD Bank	Butterfly Trust acct 44130552
12/03/2018	[Redacted]	\$250,000	Bank of America	026009593

UPDATE (2026-02-12): DS9 wire transfer summaries ([EFTA00092643/EFTA00105307](#)) reveal an additional \$45,000 wire from JEGE LLC to Aviloop on 11/27/2018 -- **one day BEFORE the Miami Herald series began**. Total Aviloop payments in late November 2018: **\$145,000** (not \$100,000 as originally reported).

Timeline significance: The Miami Herald's "Perversion of Justice" series began publishing on **November 28, 2018**. The \$45,000 wire preceded the series by one day; the \$100,000 wire followed two days later. The \$250,000 wire to another individual followed on December 3, 2018. DS9 email correspondence ([EFTA01015397](#)) shows the \$43,876 wire was discussed on November 26, 2018 (two days before the Herald series), with the label "I think it's Aviloop income." The Government cited this labeling in its detention memorandum as part of its argument for Epstein's detention.

This is exactly the payment pattern described in the Government's detention memorandum (see Section 4 below).

3.3 Suspicious Activity Report ([EFTA01656524](#))

Aviloop LLC was listed as **Subject 1 of 25** in what appears to be a financial institution SAR filing. The 25 subjects include the full constellation of known Epstein-controlled entities:

1. **AVILOOP LLC** (Marcinkova)
2. (Missing/redacted)
3. **Butterfly Trust** (Epstein)
4. (Missing/redacted)
5. **DARREN K INDYKE PLLC** (Epstein's attorney)
- 6-7. (Redacted)

6. **HBRK ASSOCIATES INC** (Epstein accounting)
7. (Redacted)
8. **Hyperion Air LLC** (Epstein aviation)
9. **INDYKE** (Epstein's attorney again)
10. **JEJE LLC** (Epstein entity)
11. **JSC INTERIORS LLC** (Epstein entity)
12. (Redacted)
13. **KLEIN** (likely Klein Ltd, Epstein entity)
14. **LSJL LLC** (Epstein entity)
- 17-18. (Redacted)
15. **Neptune LLC** (Epstein entity)
16. **Plan D LLC** (Epstein entity)
17. **SAIPHLR** (Epstein entity)
18. **Southern Country International** (Epstein entity)
19. **Southern Financial LLC** (Epstein entity)
20. (Redacted - Southern ...)
21. **Zorro Management LLC** (Epstein's primary management company)

Significance: Aviloop LLC was treated by financial institutions as part of the same entity network as Epstein's known shell companies and trusts, confirming that Marcinkova's company was integrated into Epstein's financial structure.

3.4 Aviloop Banking Records

Multiple checking account statements ([EFTA01577223-EFTA01577325](#)) show Aviloop LLC held regular checking accounts. One document ([EFTA01577284](#)) references an account notification about "We are eliminat[ing]..." suggesting potential account closure.

3.5 Bank Record Cross-Reference -- TD Bank Account

The bank record [EFTA01286686](#) reveals a TD Bank account (number 4312480538) in the name of "NADIA," receiving funds from the "Money Trust" (an Epstein-controlled trust).

The [EFTA00020685](#) wire transfer document confirms that the \$100,000 payment to Aviloop LLC on 11/30/2018 was routed through **TD Bank** (routing 011400071). This suggests Marcinkova's personal TD Bank account and the Aviloop LLC account were at the same institution, consistent with the entity being a personal vehicle for Marcinkova rather than an independent business.

SECTION 4: PROSECUTION DOCUMENTS -- CO-CONSPIRATOR STATUS

4.1 SDNY Status Update -- Plea Negotiations

([EFTA00013209](#) / [EFTA00018544](#))

Two versions of an SDNY prosecution status memo (likely updates to senior DOJ officials) contain this critical passage:

"U.S. v. Maxwell, 20 Cr. 330 (AJN): This summer, we charged Ghislaine Maxwell with conspiring to entice minors to travel for the purpose of sexual abuse in connection with helping Jeffrey Epstein to abuse his many victims. The case focused on three specific victims that traveled to be abused by Epstein, including instances in which Maxwell herself participated in the acts of abuse. Trial is set for this coming July. We are finishing discovery, and motions are scheduled for December. [...] Relat[edly,] we are in plea negotiations with counsel for [REDACTED], another Epstein co-conspirator. [REDACTED], who scheduled hundreds of sexual massages with minors for Epstein but

was also a victim of his sexual abuse, may plead to an obstruction of justice-related count."

Analysis: The redacted name before "another Epstein co-conspirator" describes someone who:

- Scheduled "hundreds of sexual massages with minors" for Epstein
- Was "also a victim of his sexual abuse"
- Was in plea negotiations for "an obstruction of justice-related count"

Identity assessment (revised 2026-02-13): The redacted person's identity cannot be confirmed from the available documents. Two candidates exist:

- **Sarah Kellen** is the stronger match for the scheduling language. Plea draft documents in **EFTA00089268** reference "hundreds of appointments," "dozens of minors," and "2-3/day" — closely matching the DAG memo's "hundreds of sexual massages." The scheduling role is consistently Kellen's primary documented function. Susan Necheles, who later represented Maxwell at trial, served as defense counsel for this co-conspirator.
- **Nadia Marcinkova** is a stronger match for the "also a victim" language, given her documented history of being brought from Yugoslavia as a minor and Epstein's control over her appearance and health. SDNY Human Trafficking Coordinators described the person under plea consideration as a "victim-participant" (**EFTA00024285**), which is more consistent with Marcinkova's profile. On balance, the plea draft evidence more strongly supports Kellen. Earlier versions of this report stated this "matches Nadia Marcinkova precisely," which was an overstatement given the ambiguity.

4.2 Detention Memorandum -- \$100,000 Payment (EFTA00014493 / EFTA00016748)

The Government's supplemental letter to Judge Berman (July 16, 2019) in *United States v. Jeffrey Epstein, 19 Cr. 490 (RMB)*:

"Records from Institution-1 show that on or about November 30, 2018, or two days after the series in the Miami Herald began, the defendant wired \$100,000 from a trust account he controlled to an individual named as a potential co-conspirator -- and for whom Epstein obtained protection in -- the NPA. This individual was also named and featured prominently in the Herald series."

And on Page 2:

"[This individual was] also named as a potential co-conspirator -- and for whom Epstein also obtained protection in -- the NPA. This individual is also one of the employees identified in the Indictment, which alleges that she and two other identified employees facilitated the defendant's trafficking of minors by, among other things, contacting victims and scheduling their sexual encounters with the defendant at his residences in Manhattan and Palm Beach, Florida. This individual was also named and featured prominently in the Herald series."

Confirmed connection to EFTA00020685: The wire transfer records prove this \$100,000 payment went to **Aviloop LLC** at TD Bank on 11/30/2018. The Government described this as a payment to a co-conspirator protected under the NPA who was "one of the employees identified in the Indictment" and who "facilitated the defendant's trafficking of minors."

4.3 NPA Co-Conspirator Protection (EFTA00014493 / EFTA00016748 / EFTA00027666)

The NPA (Non-Prosecution Agreement) from 2007 explicitly protected Marcinkova and other co-conspirators. From **EFTA00027666** (a detailed NPA analysis document):

"The NPA also provided that [the Government would] not institute any criminal charges against any potential co-conspirators of Epstein, including but not limited to [REDACTED]"

This confirms Marcinkova was explicitly named in the NPA alongside other co-conspirators as protected from federal prosecution.

4.4 Additional Detention Memorandum (EFTA00028785)

"Records obtained by the Government from Institution-1 appear to show that just two days later, on or about November 30, 2018, the defendant wired \$100,000 from a trust account he controlled to an individual named as a possible co-conspirator in the NPA. The same records appear to show that just three days after that, on or about December 3, 2018, the defendant wired \$250,000 from the same trust account to another [individual]."

This confirms the two-payment pattern: \$100,000 to Aviloop LLC (Marcinkova) and \$250,000 to another co-conspirator three days later.

4.5 London Investigation Travel (EFTA00037448)

An FBI travel request from March 2020:

"[Agents] are requesting travel to London, accompanied by [REDACTED], [and] expect to leave on the 17th and return on the 20th. The pu[r]pose is an] offer of a witness/co-conspirator of Jeffrey Epstein's."

This indicates the FBI traveled to London in March 2020 to meet with or obtain information from an Epstein co-conspirator/witness -- potentially related to Marcinkova or other named co-conspirators.

4.6 "Epstein Co-conspirator" Subject Line (EFTA00037629)

An FBI email with subject line "Epstein Co-conspirator pits" includes references to "Human Traffick[ing]" in the redacted text.

SECTION 5: FLIGHT LOG ANALYSIS

5.1 Overview from Knowledge Graph

The knowledge graph contains four entities potentially referring to Nadia:

Entity ID	Name	Notes
11	Nadia Marcinkova	Primary entity; tagged as "enabler," "public_figure," with "no_action" legal status
191	Nadia ?	Single flight 1997-05-09; auto-created from flight logs
237	Nadia Bjorlin	2 flights 1998-2001; auto-created from flight logs (separate person - actress)
398	Marcinkova, Nadia Nadia	124 flights 2003-2006; auto-created from flight logs (main Marcinkova record)

5.2 Marcinkova's Flight Companions (Entity 398)

Top companions by flight count (traveling WITH Marcinkova):

Companion	Shared Flights	Date Range
Jeffrey Epstein	124	Sept 22, 2003 - Jan 19, 2006
Larry Visoski (Pilot)	94	Jan 2, 2004 - Jan 16, 2006
Sarah Kellen	77	Sept 22, 2003 - Jan 19, 2006
Larry Morrison (Pilot)	65	Jan 12, 2004 - Nov 20, 2005
Teala Davies	38	Sept 22, 2003 - Nov 14, 2004
Ghislaine Maxwell	20	Jan 2, 2004 - Jan 19, 2006
David Mullen	18	Aug 13, 2004 - May 16, 2005
Brent Tindall (Chef)	18	Sept 22, 2003 - Jul 25, 2004
Bill Hammond (Pilot)	13	Mar 24, 2005 - Nov 30, 2005

Companion	Shared Flights	Date Range
Jean-Luc Brunel	11	Jan 2, 2004 - Feb 3, 2005
Adriana Mucinska	7	Dec 3, 2004 - Nov 12, 2005
Andrea Mitrovich	6	Jan 23, 2004 - Nov 8, 2005
Jennifer Kalin	6	Jun 20, 2004 - Sept 16, 2004
Valdson Cotrin	6	Mar 3, 2004 - Nov 12, 2005
Dubin (Glenn/Eva)	5 each	Jan 3, 2004 - Oct 10, 2004
Dana Burns	5	Jan 31, 2005 - Mar 29, 2005
Gary Roxburgh (Pilot)	5	Jun 20, 2004 - Jul 4, 2004
Susan Hamblin	4	Sept 22, 2003 - Dec 3, 2004
Aline Weber	4	Feb 2, 2004 - Feb 22, 2004
Igor Zinoviev	3	Nov 8, 2005 - Jan 19, 2006
Prince Andrew	2	Oct 16-17, 2004
Tatiana Kovylyna	2	Nov 20, 2005
Forest Sawyer	1	Feb 24, 2004
Manuela Stoetter	1	Jan 2, 2004
Chauntae Davies	1	Jan 23, 2004
Cristalle Wasche	1	Nov 8, 2005
Paula Halada	1	Sept 25, 2005

5.3 Notable Flight Companions

Prince Andrew -- Marcinkova flew on the same Epstein aircraft as Prince Andrew on October 16 and 17, 2004. This is corroborated by the separate SDNY mutual legal assistance request ([EFTA00022062](#)) seeking to interview Prince Andrew about "females Epstein or his associates arranged for [him] to meet."

Jean-Luc Brunel -- Brunel, the French modeling agent later charged with sex trafficking (found dead in prison in 2022), shared 11 flights with Marcinkova between January 2004 and February 2005.

Sarah Kellen -- Kellen (now Sarah Kensington), another named co-conspirator in the NPA, shared 77 flights with Marcinkova. Kellen was also described as scheduling abuse sessions.

Glenn and Eva Dubin -- The Dubins, prominent financiers, shared 5 flights each with Marcinkova.

5.4 Eastern European Female Companions

Several other Eastern European women appear as Marcinkova's flight companions:

- **Natalya Malyshov** -- 2 flights (Jun-Sep 2004)
- **Adriana Mucinska** -- 7 flights (Dec 2004-Nov 2005)
- **Tatiana Kovylyna** -- 2 flights (Nov 2005)
- **Zina Broukis** -- 2 flights (Jan 2005)
- **Aline Weber** -- 4 flights (Feb 2004)

This pattern of young Eastern European women traveling on Epstein's aircraft with Marcinkova is consistent with allegations that Marcinkova was both a victim and later served as a recruiter.

5.5 Flight Date Range Analysis

Marcinkova's documented flights span from **September 22, 2003 to January 19, 2006** -- a period of approximately 2.3 years. With 124 flights in this period, she averaged roughly one flight every 7 days. She was essentially a permanent fixture on Epstein's aircraft during this period, consistent with accounts that she lived in his residences.

SECTION 6: KNOWLEDGE GRAPH -- FORMAL CLASSIFICATION

6.1 Entity Classification

The knowledge graph classifies Nadia Marcinkova (entity 11) as:

- **Person type:** enabler
- **Occupation:** Assistant
- **Public figure:** true
- **Legal status:** no_action

The classification of "no_action" for legal status, combined with the "enabler" designation, reflects her unique dual status as both victim and co-conspirator who was protected under the NPA.

6.2 Relationships

The knowledge graph records two formal relationships for entity 11 (Nadia Marcinkova):

1. victim_of (relationship 1468):

- Source: Anonymous Victim
- Target: Nadia Marcinkova
- Metadata: abuse_type: sexual_contact; corroborated: true; corroboration_details: "Multiple victim testimonies. Source: [EFTA02731082](#)"; legal_outcome: "Non-prosecution agreement"; notes: "Participated in abuse as directed by Epstein; also described as a victim herself"

2. employed_by (relationship 1481):

- Source: Jeffrey Epstein
- Target: Nadia Marcinkova
- Metadata: notes: "Marcinkova participated in abuse directed by Epstein. Non-prosecution agreement"

6.3 Source Document -- [EFTA02731082](#)

The victim testimony document ([EFTA02731082](#)) referenced in the knowledge graph contains heavily redacted victim interview notes from SDNY meetings in 2019. Fragments visible include:

- References to meetings "On August 27, 2019, we met with [REDACTED] in New York"
 - Descriptions of "sexualized massages" at Epstein's "Palm Beach" residence
 - Payments of "\$200" and "\$300" to victims
 - A woman "who was an adult" present during interactions
 - Maxwell approaching a victim "outside at a picnic table with her [family]" claiming "he gives scholarships"
 - References to victims being "14 years old" and events occurring "in the fall after turning [15/16]"
-

SECTION 7: FINANCIAL STRUCTURE

7.1 Epstein's Entity Network

Aviloop LLC was embedded within Epstein's extensive financial structure. Bank balance documents ([EFTA01381149](#), [EFTA01430750](#), [EFTA01431991](#)) reveal the following Epstein-controlled entities held accounts at the same institution (Deutsche Bank):

Entity	Category	Sample Balance
Jeffrey Epstein (personal)	N	\$1,243,515.74 - \$4,378,298.11
Southern Financial LLC	D	\$376,315 - \$1,536,739
Hyperion Air LLC	D	\$147,203 - \$789,557

Entity	Category	Sample Balance
Plan D LLC	D	\$218,453 - \$285,583
JEGE LLC	D	\$255,684 - \$299,328
Darren K. Indyke PLLC	D	\$167,897 - \$259,740
NES LLC	D	\$114,217 - \$264,466
Neptune LLC	D	\$366,477
Zorro Management LLC	D	\$118,575 - \$424,475
The Haze Trust	D	\$2,503,667 - \$49,460,098
Southern Trust Company Inc.	M	\$102,917 - \$2,470,113
Butterfly Trust	M	\$323,679 - \$733,701
Gratitude America Ltd	M/N	\$268,350 - \$2,075,025
HBRK Associates Inc	D	\$149,498 - \$211,289

7.2 Butterfly Trust as Payment Vehicle

The Butterfly Trust was the specific entity from which Epstein's suspicious post-Herald payments were made:

- **\$100,000 to Aviloop LLC** (Marcinkova) on 11/30/2018
- **\$250,000 to [Redacted]** on 12/03/2018
- Earlier payments of \$50,000 (Jan 2015, Apr 2015) and \$23,625 (Sep 2015) to other recipients at JPMorgan

The Butterfly Trust maintained balances of \$323,679-\$733,701 during the 2018 period and was managed by Deutsche Bank under account officers Jj Litchford and Paul Morris ([EFTA01359500](#)).

7.3 Aviation Connections

Marcinkova's aviation interests connect to Epstein's broader aircraft operations:

- **Aviloop LLC** -- Marcinkova's company, included in SAR filing alongside Epstein entities
- **Hyperion Air LLC** -- Epstein's helicopter company (Sikorsky S-76C, formerly "Air Ghislaine Inc")
- **Air Ghislaine Inc** -- Originally registered to Maxwell; renamed Shmitka Air Inc in Feb 2010; later became Freedom Air International Inc
- **N493LX** -- Raytheon/Beechjet 400A aircraft, previously owned by Flight Options LLC, with connections to Air Ghislaine Inc

Marcinkova later became a licensed pilot and founded "Global Girl Inc" and "Aviloop LLC" -- entities that may have been partially funded through Epstein's financial network.

SECTION 8: VICTIM TESTIMONY REFERENCES

8.1 FBI Victim Interview -- [EFTA01689379](#)

This heavily redacted FBI 302 (interview report) describes victim encounters with Epstein. Key fragments:

- References to "EPSTEIN" throughout and "KELLEN" (Sarah Kellen) who "would usually contact her"
- Description of massage table encounters: "EPSTEIN wanted to touch the..." "could use the massager on [her]"
- References to girls being recruited "from other s[ources]" and being "sixteen" years old
- Being paid for "massag[es]" at Epstein's residence
- Description of "the sexual exploitation" and someone who "works as E[pstein's]..."
- References to "scheduling" of encounters (pages 18-19: "es include sched[uling]")

8.2 Victim Testimony Compilation -- EFTA02731082

The SDNY victim interview compilation (referenced as the source for Marcinkova's knowledge graph entry) describes:

- Multiple victims meeting Epstein at his Palm Beach and Manhattan residences
 - Maxwell's role in approaching victims and their families
 - Payments ranging from \$200-\$300 for "sexualized massages"
 - A woman described as "an adult" present during encounters
 - Victims recruited as young as 14 years old
-

SECTION 9: THE PRINCE ANDREW CONNECTION

9.1 Flight Overlap

Marcinkova was on the same flights as Prince Andrew on **October 16-17, 2004**. The knowledge graph records 2 shared flights.

9.2 SDNY Request to Interview Prince Andrew (EFTA00022062)

A formal mutual legal assistance request (April 3, 2020) from the U.S. Central Authority to the U.K. Central Authority sought to interview Prince Andrew regarding:

- "Females Epstein or his associates or representatives, including Maxwell, arranged for Prince Andrew to meet"
- "Females Epstein or his associates arranged for other adult men to meet"
- "Massage, massages, and/or masseuses"
- "Any sexual encounters and/or romantic relationships involving Prince Andrew and any female he met through Maxwell and/or Epstein"

The document notes:

"There is evidence that Prince Andrew engaged in sexual conduct involving one of Epstein's victims. Prince Andrew is not presently a target of the investigation, and U.S. authorities have not, to date, gathered evidence that he has committed any crime under U.S. law."

SECTION 11: KEY FINDINGS AND CONCLUSIONS

Finding 1: Selective Identity Redaction (Revised 2026-02-12)

Marcinkova's full name is absent from 1.8 million redaction records and 38,955 OCR records in the internal FBI databases (DS8/DS10/DS12). However, the full-text corpus contains 200+ documents with her name in court filings, NPA drafts, civil litigation, and FBI intelligence reports (DS9/DS11). The original characterization of "systematic identity suppression" was accurate for the redaction databases but overstated for the file collection as a whole. The correct characterization is that her name was selectively redacted in internal FBI materials while remaining visible in publicly-filed court documents.

Finding 2: Dual Victim/Co-Conspirator Status Confirmed

The knowledge graph and prosecution documents confirm Marcinkova's dual status as both a victim of Epstein's abuse (corroborated by multiple victim testimonies) and an active co-conspirator. The DAG meeting memo (EFTA00013209) describes one redacted co-conspirator "who scheduled hundreds of sexual massages with minors for Epstein but was also a victim of his sexual abuse" — the scheduling language more closely matches Kellen's documented role, though Marcinkova cannot be excluded (see Section 4.1). Regardless of which individual is named in the DAG memo, Marcinkova's dual victim/co-conspirator status is independently confirmed by multiple prosecution documents.

Finding 3: Suspicious Payment Timing Around Miami Herald Series (Updated 2026-02-12)

DS9 reveals the total Aviloop payments in late November 2018 were **\$145,000** (not \$100,000): \$45,000 from JEJE LLC on 11/27/2018 and \$100,000 from Butterfly Trust on 11/30/2018. Email correspondence labels one payment as "Aviloop income" (EFTA01015397: "I think it's Aviloop income"). The Government cited these payments in its detention memorandum as evidence of potential obstruction, noting the timing relative to the Miami Herald series. Combined with regular financial flows from the "Money Trust" through Marcinkova's TD Bank account, the documents show an ongoing financial relationship that persisted long after the 2007 NPA. Whether these specific payments were routine business transactions or had another purpose is not established in the released documents.

Finding 4: NPA Explicitly Protected Marcinkova from Prosecution

Government filings confirm Marcinkova was "named as a potential co-conspirator -- and for whom Epstein obtained protection in -- the NPA" (EFTA00014493). The NPA additionally provided that the USAO "will not request, initiate, or in any way encourage immigration authorities to institute immigration proceedings against Ross or Marcinkova" (EFTA00176610). She received immunity from federal prosecution and immigration proceedings under the controversial 2007 agreement.

Finding 5: Post-NPA Obstruction Plea Negotiations

By late 2020, SDNY was in "plea negotiations" with counsel for one redacted co-conspirator for "an obstruction of justice-related count" (EFTA00013209). The individual's identity is redacted; plea draft evidence (EFTA00089268) more closely matches Sarah Kellen (see Section 4.1). If Marcinkova, this would indicate her NPA protection did not extend to post-NPA conduct. The plea negotiations collapsed regardless.

Finding 6: Flight Log Connections to High-Profile Individuals

Marcinkova's 124 flights with Epstein included shared flights with Prince Andrew (2 flights, October 2004), Jean-Luc Brunel (11 flights), Ghislaine Maxwell (20 flights), and Glenn and Eva Dubin (5 flights each). These connections place Marcinkova at the intersection of Epstein's social, criminal, and financial networks.

Finding 7: Aviation Entity Integration

Aviloop LLC was treated by financial institutions as part of the Epstein entity network, appearing in a SAR alongside 24 other Epstein-controlled companies and trusts. This suggests Marcinkova's ostensibly independent business was functionally part of Epstein's financial structure.

SECTION 12: DS9/DS11 EVIDENCE (Added 2026-02-12)

The following findings are from a full-text corpus revisit. They substantially expand the evidentiary record from approximately 30 EFTA documents to over 230.

12.1 FBI I-914 Trafficking Victim Certification (EFTA00156551)

The FBI formally certified Marcinkova as a "victim of a severe form of trafficking in persons" for T-visa purposes. Investigation dates: 12/06/2018 - 06/28/2022. Statutes cited: 18 USC 371 (conspiracy), 1591(a),(b) (sex trafficking), 1623 (perjury/false declarations), 2423(a) (transportation of minors), NYPL 130.55 (sexual abuse third degree). The victimization description: "Applicant was recruited, harbored, and obtained by Jeffrey Epstein and others for purposes of a coercive sexual relationship." She cooperated with the investigation.

12.2 \$10 Million Trust Annuity (EFTA00098341)

Epstein's January 2019 Trust (six months before arrest) names Marcinkova as recipient of a \$10,000,000 annuity -- the second-highest individual bequest after a \$100M+\$20M beneficiary. This makes her one of the top 4 individual beneficiaries of Epstein's estate.

12.3 Full NPA Text with Immigration Waiver (EFTA00176610)

Multiple versions of the NPA name "Sarah Kellen, Adriana Ross, Lesley Groff, and Nadia Marcinkova" as protected co-conspirators. The NPA explicitly states the government "will not request, initiate, or in any way encourage immigration authorities to institute immigration proceedings against Ross or Marcinkova." Ross and Marcinkova were the only two individuals singled out for immigration protection.

12.4 FBI Tactical Intelligence Report (EFTA00261437)

Complete intelligence dossier: Slovak citizenship, 4 Alien Flight School Program applications (2012-2017), 4 visa applications (2011-2019), Aviloop LLC (DUNS 96-834-7414, 1 employee, \$97,000 annual sales). The address "Stanley, NM 87506" (2004-2009) is near Zorro Ranch, confirming Marcinkova lived at or near Epstein's New Mexico property. Most recent visa application: March 26, 2019 -- four months before Epstein's arrest.

12.5 Aircraft Brokerage Agreement (EFTA00797507)

Aviloop LLC was formally engaged as broker to sell JEGE LLC's Gulfstream G-IV (N120JE) for \$3,100,000 with a \$100,000 broker fee, effective August 1, 2018.

12.6 JPMorgan and TD Bank Accounts

Aviloop LLC had a JPMorgan Chase business checking account (JPM-SDNY-00054770) produced alongside all Epstein/Maxwell accounts in the grand jury subpoena response (EFTA00096342). SDNY formally requested TD Bank preserve both Butterfly Trust and Aviloop LLC accounts in October 2019 (EFTA00097221). PayPal/Venmo records were also subpoenaed for "Marcinko" alongside Maxwell in September 2019 (EFTA00151227).

12.7 Aviloop as Visa Fraud Vehicle

Multiple emails (2011-2018) demonstrate Aviloop's primary purpose was to provide the appearance of legitimate income for Marcinkova's visa applications:

- "It is less important how it is billed than the fact it shows up asap in Aviloop account, so I can take further steps to divide it between the accounts to satisfy all visa requirements" (EFTA00678472, Aug 2013)
- Epstein: "Do you want me to send aviloop money, booked as what" (EFTA00966117, Aug 2013)
- "Aviloop. As payment for services, to show income for the visa" (EFTA00966384, Aug 2013)
- "Most of the money wired in 2011 was used for Aviloop and my visa" (EFTA00877198, Jun 2012)
- "I think it's Aviloop income" -- wire labeling 2 days before Herald (EFTA01015397, Nov 2018)

12.8 Victim Testimony (EFTA00083816)

Laura Newman's December 2020 FBI interview identifies "NADIA MARCINKO (the NADIA she spoke about earlier), SARAH KELLEN, LESLIE, BELLA" by name. Newman described her as "tall blonde... his main NADIA." Multiple victims in civil RICO filings (EFTA00222648) were "made to perform sex acts on Nadia Marcinkova in Epstein's presence."

12.9 Epstein Redirected Aircraft to Prevent Target Letter Service (EFTA00081180)

Court filings describe Epstein redirecting his aircraft from Teterboro to USVI to prevent FBI agents from serving Marcinkova with a target letter. This indicates that Marcinkova was a target (not merely a witness) of the FBI investigation, and that Epstein took active steps to obstruct service of the letter.

EXECUTIVE SUMMARY

Nicole Junkermann maintained an intimate advisory and business relationship with Jeffrey Epstein spanning at least 11 years (2008-2019), including contact during Epstein's incarceration period. Epstein himself described Junkermann as "my very good friend/old girlfriend" in an April 2009 email ([EFTA00748642](#)), characterizing the relationship as formerly romantic. [Updated Feb 12, 2026: DS9 full corpus expansion reveals 35+ new documents, extending the documented relationship to May 2009 (pre-prison-release correspondence) and establishing Junkermann on Epstein's prison mailing list during his 2008-2009 incarceration.] The relationship continued until just one month before his final arrest on July 6, 2019. She was part of his innermost circle -- invited to his private island for a Feb 2-5, 2019 trip alongside Sultan Bin Sulayem (chairman of DP World/Dubai Ports), Steve Bannon (former White House strategist), Eduardo Teodorani (Fiat/CNH executive), and Jabor Yousuf (Qatari associate). Epstein served as her personal strategic advisor, brokered her introduction to Leon Black (Apollo Global Management), and she pitched him investment deals. In parallel, MC2 Model Management — the Jean-Luc Brunel/Epstein modeling agency — was alleged in victim testimony and court filings to have functioned as a recruitment channel for vulnerable young women. Correspondence in the files shows Russian-speaking models stranded in Italy waiting for promised work that never materialized.

PART I: NICOLE JUNKERMANN -- COMPLETE DOCUMENT ANALYSIS

Document 1: [EFTA02435071](#) -- The Core Advisory Relationship (Oct-Nov 2009)

Source: OCR Database (2 email chains)

Significance: CRITICAL -- Shows Epstein functioning as Junkermann's strategic advisor and power broker

Email Chain A: The Leon Black Introduction (Oct 19, 2009)

Epstein wrote to Junkermann:

"I spoke to Leon Black,, as you know i am not intimately familiar with the complexities of private equity... He said he will take you to lunch or dinner , and be any help he can"

Analysis: Epstein brokered an introduction between Nicole Junkermann and Leon Black, chairman and CEO of Apollo Global Management, one of the world's largest private equity firms. This occurred in October 2009 — approximately three months after Epstein's release from his Florida prison sentence (July 22, 2009). The phrase "as you know i am not intimately familiar with the complexities of private equity" is notable because Epstein was widely reported to manage substantial assets. The casual phrasing suggests familiarity between the two.

Leon Black later acknowledged paying Epstein \$158 million in advisory fees between 2012-2017, ultimately stepping down as Apollo CEO in March 2021. This document shows Epstein was actively brokering introductions between Black and his network immediately after his 2008 conviction.

Email Chain B: Junkermann's Legal/Inheritance Dispute (Nov 6-8, 2009)

Junkermann wrote to Epstein:

"How are you? The process is advancing slowly now after a meeting btw the lawyers, mld wants to have a meeting with the lawyers and me. I remember your words and you said I should avoid her to meet and I think you are right as it will be far too emotional and now

she can deal with the lawyers."

Epstein replied:

"tell them you would be happy to meet , after the negotiations with the lawyers are near an end. It would be nice to have this behind you. do not meet until at least a year from his passing"

Junkermann responded: *"will do- and YOU?"*

Analysis: Epstein was advising Junkermann on what appears to be an inheritance dispute or estate matter following someone's death ("at least a year from his passing"). The reference to "mld" wanting a meeting suggests another party (possibly a family member). Epstein's advice was strategic -- avoid emotional confrontation, let lawyers handle it, delay personal meetings. Junkermann followed his counsel. Her closing "and YOU?" suggests concern about Epstein's own legal situation post-conviction.

Identification of Persons on the Island Trip Guest List:

1. Sultan Bin Sulayem -- Chairman and Group CEO of DP World (formerly Dubai Ports World), one of the world's largest port operators. Extensive correspondence with Epstein found across multiple documents:

- [EFTA02439371/389](#): June 30, 2009 -- Sultan provides Epstein with a new email address

- [EFTA02395027](#): Aug 29, 2014 -- Casual correspondence ("Hello my friend")

- [EFTA02406453](#): Nov 2011 -- Sultan shares flight details (Dubai-Paris-Beirut-Dubai) with Epstein

- [EFTA02517291](#): Sep 30, 2014 -- Epstein forwards Sultan's email about the Port of St. Croix to

attorney Erika Kellerhals. Sultan directs DP World Senior VP Matthew Leech to contact Kellerhals "Regarding port of St Croix" -- suggesting Epstein was involved in DP World's operations in the US Virgin Islands

- [EFTA02644753](#): Jul 15, 2017 -- Epstein asks Sultan: "did you find yours? are you part jewish?" and proposes sending "sheikh mo a 23 and me kit" (referring to Sheikh Mohammed bin Rashid Al Maktoum, ruler of Dubai). This exchange — proposing DNA testing of the Dubai ruler — indicates a level of personal access between Sultan and Epstein that extended well beyond business

- [EFTA02664965](#): Dec 28-29, 2016 -- Epstein tells an architect referred by Sultan: "Eduardo, I've gotten your name from sultan suleiman in Dubai. He and I are great friends. I have two islands in the us virgin islands and want to build a great home. Sultan thought you might be the right fit."

2. Eduardo Teodorani(-Fabbri) -- Senior Vice President, Corporate Development at CNH UK Limited (Case New Holland, a Fiat/Agnelli industrial group). Italian aristocrat connected to the Fabbri banking dynasty.

- [EFTA02439322](#): Jul 2, 2009 -- Teodorani's assistant Denise Jackson contacts Epstein's office to arrange a meeting in Palm Beach on July 14, 2009. His title is listed as "SVP, Corporate Development, CNH UK Limited."

3. Nicole Junkermann -- German-born venture capitalist, founder of NJF Holdings and Junkermann group. Former Executive Partner at United in Sports. In an April 2009 email to David Stem (Asia Gateway Ltd.), Epstein described Junkermann as "my very good friend/old girlfriend" and brokered an introduction: "nicole junkerman, german, doing many things in china.. perfect combo for you. call her. she has a sports fund. ~300mm 37 years old she is moving to berlin. she is partner/girl of robert louis-dreyfuss" ([EFTA00748642](#)). This characterization of Junkermann as a former romantic partner predates the Leon Black introduction by six months.

4. Jabor Yousuf -- Qatari associate of Epstein. Multiple documents show ongoing communication:

- [EFTA02458806](#): Jul 3, 2016 -- Epstein tells Jabor: "karim is in doha"

- [EFTA02616241](#): Nov 14, 2018 -- Epstein tells Jabor about travel logistics: "he doesn't have his own plane. if you organize transport from scotland he's agreed it will work"

- [EFTA02664943](#): Dec 25, 2016 -- Epstein sends message to Jabor on Christmas Day

- [EFTA00362483](#): Sep 22, 2014 -- Epstein's daily schedule lists: "oody, Jabor, Ehud, Leon, Stone, Maldives, Mada" and "People To See: Jagland, Terje, Thiel, Simon..." This places Jabor alongside Ehud Barak, Leon Black, Peter Thiel, and Nobel Committee Chairman Thorbjorn Jagland in Epstein's September 2014 social calendar

5. Steve Bannon -- Former White House Chief Strategist and Senior Counselor to President Trump (2017). Extensive Epstein correspondence:

7. "**Astrid**" -- No additional identifying documents found. Scandinavian or German first name.

8. "**Annas**" -- No additional identifying documents found. Could be a misspelling of "Anna" or "Annas" (a name of Middle Eastern origin).

9. "**3BIS**" -- Identified as a French company. Multiple documents

([EFTA02265056](#), [EFTA02285664](#), [EFTA02285670](#)) show:

- Principals: Nicolas Papamiltiades (partner), Fabrice Bourg, Francois Raulin, Jeremie Leclere
- They had "several meetings with Jeffrey" at his Paris apartment (22 Avenue Foch, Apt DD)
- July 2018: Met Epstein at his Paris apartment and at their offices
- November 2018: Planned to "meet on the Island site and move forward on the project" -- indicating 3BIS was working on a construction/development project on Epstein's island
- May 2019: Still conducting Zoom conference calls with Epstein
- The "3BIS want to go to island Feb. 2-5" email confirms they were the ones requesting the February 2019 island visit

Timeline Significance

The planned February 2-5, 2019 island trip was organized just **five months before Epstein's July 6, 2019 arrest** by the FBI-NYPD task force. The guest list -- combining a Dubai ports magnate, an Italian industrial aristocrat, a German venture capitalist, a Qatari associate, the former White House chief strategist, and a French construction firm — suggests this was either a business summit or a social gathering of Epstein's international network.

Epstein himself planned to be in **Paris January 22-31, 2019** before the island trip. His Paris apartment at 22 Avenue Foch was a known meeting location for his international contacts.

Document 3: [EFTA02664994](#) -- Auctionata/Paddles Investment (Dec 29, 2016)

Source: OCR Database

Significance: Shows ongoing business/investment relationship in 2016

Junkermann (sending from "Nicole Junkermann | Junkermanngroup" via BlackBerry) emails Epstein:

"Interesting situation around this company would you like to hear more or not interested?"

Epstein replies:

"always interested in anything you are"

Analysis: Auctionata was a Berlin-based online auction house that merged with Paddles (now Paddle8) in 2016. Both companies subsequently faced financial difficulties and fraud allegations. Auctionata filed for insolvency in February 2017 -- just two months after this email. Junkermann was pitching Epstein on investment opportunities in what turned out to be a failing company, suggesting she viewed him as a potential co-investor or deal partner.

[**Updated Feb 12, 2026**]: DS9 reveals Epstein was already investigating Auctionata in August 2014, over two years before Junkermann's pitch. [EFTA00994085](#): Eileen Alexanderson sent Epstein the Auctionata link in Aug 2014, asking about "artadia.org" and "the co that is supposedly the other bidder."

The phrase "always interested in anything you are" reveals Epstein's investment strategy -- following the deal flow of his network contacts rather than independent analysis.

Date: March 8, 2018 -- 16 months before Epstein's arrest

Significance: Shows relationship continued deep into the period when federal investigators were already building their case

From "Nicole Junkermann | Junkermanngroup":

"Can u speak?"

Sent from iPhone at 12:44 PM.

Analysis: This terse message suggests a relationship where Junkermann could contact Epstein casually and expect immediate availability. The metadata shows this was conversation-id 13243, indicating extensive prior correspondence in this email thread. By the time of this message, Julie K. Brown's Miami Herald investigation was in preparation (the series was published starting November 28, 2018), and the SDNY investigation was opened later that year.

PART II: MC2 MODEL MANAGEMENT -- THE MODEL RECRUITMENT PIPELINE

The MC2 Structure

MC2 Model & Talent LLC was a Miami-based modeling agency co-owned by Jean-Luc Brunel and financially backed by Jeffrey Epstein. Court documents and FBI investigation files reveal it functioned as a procurement pipeline for young women, many from Eastern Europe and South America.

Key Facts from FBI Files:

From **EFTA00010249** (Law360 Article, Apr 2019):

- MC2 Model & Talent LLC and Jean-Luc Brunel sued Epstein in January 2015
- They claimed "the notoriety and bad publicity stemming from sexual assault and prostitution charges against Epstein cost the agency business"
- Brunel has been "accused by at least one victim of supplying Epstein with underage girls"
- The lawsuit was dismissed because MC2/Brunel failed to properly serve Epstein at his primary residence on Little St. James island
- Represented by Joe Titone

From **EFTA00014526** (Bloomberg Investigation Summary):

"Epstein courted young women through the Miami modeling agency MC2, putting them up in an apartment he owned on 66th Street in Manhattan a former agency bookkeeper said in a 2010 deposition in a civil case. L Brands has employed models from MC2 over the years."

From **EFTA00019513** (FBI/NYPD Investigation, Dec 13, 2018):

An FBI Child Exploitation & Human Trafficking Task Force detective conducted a DAS (Database search) on **301 E. 66th Street** -- the apartment building where MC2 models were housed. An AUSA noted:

"could you please run database searches on 301 E. 66th Street? This is the address for a property that appears to be owned at least in part by Epstein, and where models for MC2 may have been provided housing."

This confirms the FBI was actively investigating the MC2-to-apartment pipeline in December 2018 -- one month before the planned island trip that included Junkermann.

[Added Feb 12, 2026 -- MC2 Financial Specifics from DS9]:

EFTA00105307 / EFTA00092643 (DS9): Co-conspirator payment timeline revealing specific wire amounts from Epstein to MC2: \$25,000 (Dec 4, 2013, TD Bank), \$29,440 (Dec 10, 2013, SunTrust Bank), \$25,000 (Jan 21, 2014, TD Bank). Footnote states: "Jeffrey Epstein has been accused of conspiring with the owner of MC2 Model Management, Jean Luc Brunel, to lure young European models to the United States for illicit purposes. Epstein and Brunel allegedly housed the models in apartments located at 301 East 66th Street."

The same exhibit details payments to "301/66 Owners Corp": \$182,219 (Apr 2014), \$50,000 (May 2014), \$24,367 for "Apt 2G" (Jun 2014), \$62,693 (Jan 2015), "Apt 10B and 11B renovations" (Jan 2015), \$189,304 (Mar 2015), \$59,883 for "Apt 7J" (Sep 2015), \$334,404 (Dec 2015). This establishes Epstein controlled multiple apartments (2G, 7J, 10B, 11B) in the building where MC2 models were housed.

EFTA00073492 (DS9): FBI FD-302 -- Brunel interviewed by telephone at MC2 Models, Miami, just

days after Epstein's July 2019 arrest. Manager Jeff Fuller accepted grand jury subpoena and "asked if this was about EPSTEIN."

EFTA00128765 (DS9): FBI 302 of Deutsche Bank employee Amanda Kirby -- "KIRBY did not recall who the entity MC2 MODEL MANAGEMENT was. KIRBY did not remember if seeing transactions to women, women overseas, and other entities raised a red flag."

From EFTA02278459 (Mar 4, 2019):

Epstein's property manager discusses cleaning apartments at 301 E. 66th Street, including "2G" which had "a guest arriving...on Friday" and "Ehud's apt" -- confirming Epstein controlled multiple units in the same building where MC2 models were housed, including one used by former Israeli PM Ehud Barak.

The Russian-Language Correspondence: "Lana"

EFTA02439395 (Jun 19, 2009) -- The MC2 Waiting Game

A young Russian-speaking woman writes to Epstein from her Yahoo email:

"no idea...before MC2 had told me 3 weeks, b its been more than a month already and no news.

do you miss me at least a bit?"

Epstein's only prior message was: "When???"

EFTA02439348 (Jun 23, 2009) -- Emotional Dependence

The same woman writes again (June 22), signing as "Lana":

"i'm in liguria now, visiting friends that i met 5 years ago...at least next time sea getting brown, you would like it

i really want to see you or at least talk to you for more than 15 seconds...you are one of the most important people in my life and there are so many things I'd like to share with you... or at least cook the potatoes or russian salad for you (now i'm gonna be better, the friends i'm visiting have their restaurant so i asked them to teach me to cook at least 1 dish but perfect!)

*no big news, hope to see you soon
love, Lana"*

Epstein had written: "so what are you going to do in the next month"

She responded with the MC2 complaint: "no idea...before MC2 had told me 3 weeks, b its been more than a month already and no news..."

Epstein then replied (June 23): "send me a number to call, ill call tomorrow"

EFTA02439413 (Jun 30, 2009) -- Milan, No Work, Going to Moscow

The same woman writes again:

"hi Jeffrey, how are you?

im going to moscow this week, cant take this heat without conditioner anymore!"

And from an earlier message in the chain (Jun 23):

"Hi Jeffrey, how are you

im back to milan, so hot here! no jobs and millions of models who dont even look like models"

Epstein asks: "what do you want to do.. stay there go to moscow? come to the states?"

He also provides a phone number: "it looks like 30-60 days out" and "39 389 099 1712" (a +39 Italian mobile number)

Analysis of the "Lana" Correspondence

The emails are written in a mix of English and Russian (Yahoo interface in Russian with Cyrillic text).

Key observations:

1. MC2 had promised her work within 3 weeks but over a month later she had no jobs. She was

stranded in Milan with no income.

2. **She describes Epstein as "one of the most important people in my life"** — language indicating significant emotional attachment to Epstein.
3. **She was in Liguria (Italian Riviera), then Milan, then planning to go to Moscow** -- the classic circuit of Eastern European models.
4. **She had no stable living situation** and no air conditioning in the Italian summer heat.
5. **Epstein offered to bring her "to the states"** -- suggesting he could facilitate her US entry.
6. **The "30-60 days out" message** suggests Epstein was planning something 1-2 months away.
7. **Her desire to cook for him** ("potatoes or russian salad") shows she viewed the relationship as personal/intimate.

The Lana Zakocela Connection (EFTA02439449)

On June 20, 2009 -- **one day after the first MC2 email** -- Daniel Siad emailed Epstein:

"Hello Again. Here are more pictures click the site

www.fashionhdtv.com

hello Jeff follow the link below

http://nevsmodels.co.uk/women/main/Lana%20Zakocela/"

Lana Zakocela is a Latvian model who was with Nevs Models UK. The timing (June 19-20, 2009) and the name "Lana" are striking. However, the MC2 correspondence is from a Russian-speaking woman (not Latvian), so these may be two different "Lanas" in Epstein's orbit simultaneously -- or the same person, as Latvians often speak Russian.

Daniel Siad: The Scout/Recruiter Network

Daniel Siad was identified in FBI files as a direct link between Jean-Luc Brunel and Epstein's procurement network:

EFTA00017956 (in FBI case files, originally from attorney Stan Pottinger, May 2016, forwarded Dec 2018):

"Yesterday I spoke of Daniel Siad, whom Jean Luc Brunel describes as a 'scout' or recruiter of girls and/or women for J Epstein. Attached to this incoming email from Brunel is the contact information he has for Siad."

Note: This characterization originates from Pottinger relaying Brunel's own description of Siad, not from an FBI assessment.

EFTA02432663 (Dec 24, 2009):

Siad writes to Epstein from Koh Samui, Thailand:

"Merry christmas Jeffrey. as I told you last times I am here in Koh Samui with Eva. please click the link let me know what you think she will be coming to the states I could place her with jean luc in Miami because she is already with next in NY"

He provides a link to a Slovak model on Premier Model Management's website.

EFTA02571027 (Jun 10, 2013):

Siad writes to Epstein: *"I am on my way to Thailand then Vietnam With Khaled Ben Nacer Al Masned. He is the brother Moza from Qatar, I have been assisting him lately. am happy to get out Paris the fashion industry there is sux. am looking to build up something here in Dubai."*

Analysis: Daniel Siad was a transnational model "scout" who:

- Was based between Paris, Dubai, and Southeast Asia (Thailand, Vietnam)
- Sent Epstein photos and portfolio links of specific young women
- Could "place" models with Jean-Luc Brunel's MC2 in Miami
- Was described by Brunel himself as a "scout or recruiter of girls and/or women for J Epstein"
- Had connections to Qatari royalty (Khaled Ben Nacer Al Masned, brother of Sheikha Mozah of Qatar)
- The FBI specifically investigated his contact information in December 2018

The MC2 Lawsuit (EFTA00010249)

MC2 and Brunel sued Epstein in January 2015, claiming his sexual abuse scandals cost their business. The lawsuit was dismissed on a technicality (improper service) in April 2019 -- just months before Epstein's arrest. The appeals court noted that Epstein's island was "accessible by boat, has a large dock and is easily located on any map. Nothing would have prevented a process server from tying up to the dock and asking for him."

The Victim Accounts and MC2 (EFTA00022133, EFTA00021553)

Court filings contain allegations about MC2's role in Epstein's network. Brunel died before trial (found hanged in Paris jail, February 2022); MC2 was never convicted:

Jane Doe #3 (Virginia Giuffre) testified (EFTA00021553):

"Brunel would bring young girls (some as young as twelve) to the United States for sexual purposes and farm them out to his friends, especially Epstein. Brunel would offer the girls 'modeling' jobs. Many of the girls came from poor countries or impoverished backgrounds, and he lured them in with a promise of making good money."

Victim compilation document (EFTA00022133) states:

"MC2 model agency cofounder Jean Luc Brunel" was among those Epstein and Maxwell told victims to have sex with, along with Prince Andrew, Bill Richardson, George Mitchell, Marvin Minsky, Alan Dershowitz, and Glen Dubin.

PART III: CROSS-REFERENCE ANALYSIS

A. Junkermann + Leon Black (Apollo Global Management)

Epstein brokered the Junkermann-Black introduction in October 2009 (EFTA02435071). Leon Black appears in **89+ documents** in the FBI files, making him one of the most frequently referenced figures. The September 2014 schedule (EFTA00362483) lists "Ehud, Leon" alongside "Jabor" -- the same people later invited to the 2019 island trip. This suggests a stable social circle maintained over at least five years.

Black acknowledged paying Epstein \$158 million and resigned as Apollo CEO in 2021.

B. Junkermann + Sultan Bin Sulayem (Dubai Ports World)

Both Junkermann and Sultan Bin Sulayem appear on the January 2019 island trip guest list. [Updated Feb 12, 2026]: DS9 reveals Sultan also visited the island in June 2016 (EFTA00324174: Groff asked "Did you want me to coordinate a trip to your island on June 9/10 with Sultan?"), attended Sultan's Maritime Hall of Fame ceremony at the Grand Hyatt in May 2012 (EFTA00307036), received a formal DP World invitation on corporate letterhead (EFTA00317396), and a \$6,200 Deutsche Bank wire from Epstein to Sultan is documented (EFTA00080250). Sultan's independent relationship with Epstein was extraordinarily deep:

- **Port of St. Croix deal (2014):** Sultan directed his DP World SVP Matthew Leech to work with Epstein's USVI attorney Erika Kellerhals regarding the Port of St. Croix -- suggesting Epstein may have been involved in facilitating DP World's access to US Virgin Islands port operations
- **DNA testing discussion (2017):** Epstein proposed sending a "23 and me kit" to "sheikh mo" (Sheikh Mohammed bin Rashid Al Maktoum, ruler of Dubai and Sultan's boss), asking Sultan: "did you find yours? are you part jewish?"
- **Island construction referral (2016):** Sultan referred Dubai-based architect Eduardo Robles (Creative Kingdom) to Epstein for building on his Virgin Islands properties

C. Junkermann + Steve Bannon

Both appear on the 2019 island trip guest list. Bannon's relationship with Epstein was actively maintained through 2018-2019:

- Epstein tipped Bannon about MBS visiting Washington (Feb 2018)
- Epstein attempted to broker a meeting between Bannon and Ehud Barak (Feb 2019)
- Epstein sent Bannon's son an Apple Watch gift (Jan 2019)
- FBI found "a number of text messages between Steve Bannon and Jeffrey Epstein" on Bannon's phone, though they were deemed not responsive to the warrant
- A photo of Trump with Ghislaine Maxwell was found on Bannon's phone

D. Junkermann + Ehud Barak (Israel Connection)

[CORRECTED Feb 12, 2026]: The original report stated "no direct Junkermann-Barak correspondence was found." DS9 now provides direct evidence of a documented business relationship:

1. **Direct conference call evidence:** [EFTA00356797](#) (December 17, 2014): A conference call with both Nicole Junkermann and Ehud Barak as participants, organized by Epstein's attorney Darren Indyke. Other participants included Galka/Amir (Barak's staff), Bella Klein, and Yoel. This transforms the previously circumstantial connection into a documented joint business activity.
2. **Shared Epstein network:** Both were part of Epstein's inner circle. Barak's name appears alongside Jabor and Leon in the September 2014 schedule -- the same names on the 2019 island trip list.
3. **Epstein controlled Barak's apartment:** [EFTA02278459](#) (March 2019) reveals Epstein's staff cleaning "Ehud's apt" at 301 E. 66th Street -- the **same building where MC2 models were housed**. An FBI investigation ([EFTA00019513](#)) specifically searched this address in connection with the MC2 model apartment.
4. **Epstein brokered Bannon-Barak meeting (Feb 2019):** The "JE/SB" email chain ([EFTA02633609](#)) shows Epstein inviting Barak to breakfast with Bannon -- just weeks after the planned island trip. This positions Epstein as a power broker connecting an Israeli former PM with a US political strategist.
5. **Carbyne investment chain now documented in FBI files:** DS9 contains 50 Carbyne and 324 Reporty documents including complete investment structures. [EFTA01030313](#): "Carbyne invested 1.5 m (1m you and 0.5m me), Ehud carry 1.5 m and my share 2m." Barak brokered Series B: "I propose we will discuss the issue together with JE" ([EFTA01013264](#)). See ISRAEL_DEEP_DIVE_V2.md Part VII for full detail.

E. Junkermann + Israel/Intelligence

No direct references to Mossad or Israeli intelligence in connection with Junkermann were found in the redaction/OCR databases. Four documents mention "Mossad" ([EFTA00016805](#), [EFTA00032804](#), [EFTA00037218](#), [EFTA00037239](#)) but none connect to Junkermann directly.

[Updated Feb 12, 2026]: The Carbyne/Reporty connection is no longer circumstantial based solely on public reporting. DS9 contains extensive documentation of Junkermann's co-investment in Carbyne alongside Epstein and Barak, including exact financial splits ([EFTA01030313](#): "\$1.5M invested (1M you and 0.5M me)"). The December 2014 conference call ([EFTA00356797](#)) places Junkermann and Barak in the same documented business discussion organized by Epstein's attorney. See ISRAEL_DEEP_DIVE_V2.md Part VII for the complete Carbyne investment chain.

The connections now include:

- Junkermann's documented co-investment in Carbyne with Barak and Epstein (DS9 email corpus)
- Direct conference call with Barak organized by Epstein's attorney (December 2014)
- Barak's apartment in Epstein's building
- The Epstein-Barak-Bannon triangle

---- 301 E. 66th Street Apartments (NYC housing for models)

building)

----- ALSO: Ehud Barak's apartment (same

----- ALSO: Apartment "2G" for guests

----- GHISLAINE MAXWELL (Recruiter/Handler)

----- "LANA" (Russian-speaking model, stranded in Milan, Jun 2009)

----- MC2 promised work in 3 weeks, none came after 1+ month

----- Called Epstein "one of the most important people in my life"

----- Offered to cook for him

----- Eventually planned to return to Moscow

----- Victoria's Secret / L Brands connection (Ed Razek)

PART VI: KEY FINDINGS AND SIGNIFICANCE

1. Junkermann Was Not a Casual Acquaintance

The evidence shows Nicole Junkermann was deeply embedded in Epstein's network:

- He served as her **strategic advisor** on personal legal matters
- He **brokered her introduction** to one of the most powerful men in private equity (Leon Black)
- She **pitched him investment deals** (Auctionata/Paddles)
- She could **contact him casually** expecting immediate response ("Can u speak?")
- She was invited to his **private island** alongside heads of state-affiliated figures
- The relationship **spanned at least 11 years** (from the 2008-2009 incarceration mailing list through 2019) and was active until weeks before his arrest
- She was on Epstein's **prison mailing list** (EFTA00306074) alongside Ghislaine Maxwell, Naomi Campbell, and Ed Razek, receiving his prison address and jacket number
- She participated in a **December 2014 conference call with Ehud Barak** organized by Epstein's attorney Darren Indyke (EFTA00356797)
- She attended a **December 2014 Valar Ventures meeting** at 9 East 71st Street (EFTA00357379) in the same week as a Bill Gates/Reid Hoffman/Leon Black gathering
- She appeared on a **master contact list** (EFTA00309068) alongside Brunel, Weinstein, Prince Andrew, Jes Staley, and Peter Mandelson

2. The January 2019 Island Trip Guest List Is Extraordinary

The planned Feb 2-5, 2019 gathering on Little St. James Island would have assembled:

- A **Dubai ports magnate** with access to global shipping infrastructure
- An **Italian industrial aristocrat** from the Fiat/Agnelli sphere
- A **German venture capitalist** who co-invested with Epstein and Barak in Israeli tech ventures
- A **Qatari associate** with ties to the region's power networks
- The **former White House Chief Strategist**
- A **French construction/development firm** (3BIS)

This was planned just **five months before Epstein's arrest** -- suggesting Epstein maintained his power-brokering activities until the very end.

3. MC2's Role as Described in Victim Testimony and Court Filings

The "Lana" correspondence provides a granular view of how MC2 operated:

- Young women were **promised work within specific timeframes** (3 weeks)
- Those promises were **not fulfilled**, leaving them stranded abroad
- They expressed **strong emotional attachment** to Epstein ("most important person in my life")
- Epstein maintained **personal contact** with the women MC2 was handling
- He offered to **bring them to the United States** -- the ultimate leverage
- Daniel Siad, described by Brunel (via attorney Pottinger) as a "**scout or recruiter of girls and/or women for J Epstein**," sent model photos from Thailand, Dubai, and Europe. [Updated Feb 12, 2026]: DS9 expands Siad's role beyond model scouting -- he also introduced Thai royalty (Mom Luang Rajadarasri Jayankura, Honorary Consul of Kosovo in Thailand) to Epstein (EFTA00404287), connected Epstein to three Hermes luxury brand executives (EFTA00400322), and provided contacts for women to Epstein's staff

4. The 301 E. 66th Street Nexus

The apartment building at 301 E. 66th Street in Manhattan served multiple functions simultaneously:

- **MC2 model housing** (confirmed by FBI investigation, EFTA00019513)
- **Ehud Barak's apartment** (confirmed by cleaning schedule, EFTA02278459)
- **Guest apartments** (2G had guests arriving)
- All controlled by Epstein's property management

The FBI's December 2018 DAS search of this address, generating "over 2000 records," indicates investigators recognized its significance.

5. Continued Activity Through the Investigation Period

Junkermann's March 2018 "Can u speak?" message came during the period when:

- The Miami Herald investigation was underway
 - The SDNY had opened its investigation (confirmed by the Dec 2018 FBI task force activity)
 - Epstein was simultaneously communicating with Steve Bannon about MBS and Jared Kushner
- The January 2019 island trip was planned while the FBI/NYPD Child Exploitation task force was actively investigating MC2's apartment and Epstein's phone records.

Pseudonym, Codename & Encrypted Communications Registry

*Correction (April 2026). The "MacGyver" codename was previously identified in this registry as **Benjamin Brafman** (HIGH CONFIDENCE). That identification was wrong. The correct identification is **Reid Weingarten** — established by (a) a direct correspondence chain involving survivor-attorney Stan Pottinger (EFTA00637474, EFTA02661816), (b) a Sep 5 2016 same-day Ruemmler→Epstein→Weingarten chain about journalist Jeffrey Toobin (EFTA02451579, EFTA00819238), and (c) a July 2018 Mayo Clinic spine-surgery timeline match (EFTA01004338). See the updated MacGyver entry in Part 1 and the resolved row in Part 8.*

Methodology

This registry was compiled via:

1. FTS5 full-text search of `full_text_corpus.db` (2.91M pages across 12 datasets + DS98/DS99)
2. Cross-reference with `persons_registry.json` (1,538 persons, 203 with aliases)
3. Cross-reference with `knowledge_graph.db` (524 entities)
4. Targeted pattern searches for: "also known as", "a/k/a", "codename", "alias", "pseudonym", "Mr.", "Mrs.", "Dr.", "The Invisible", "Master", "Maestro", "Uncle", "Bossman", etc.
5. Cross-reference with Edwin's **Jmail Project** contact mapping (200 top correspondents)
6. FBI device search warrant email target list (**EFTA00101065**, DS9)

Standard of evidence: Each identification below is rated:

- **CONFIRMED:** Identity established through multiple independent documents (email address, self-identification, third-party identification, or contextual proof)
- **PROBABLE:** Strong circumstantial evidence from corpus patterns, consistent with one candidate
- **UNCONFIRMED:** Codename documented but identity not established

Part 1: Codenames & Nicknames

"The Invisible Man" → Prince Andrew, Duke of York — CONFIRMED

Email aliases:

- `abx17@dial.pipex.com` (earlier account, Aug 2001)
- `aace@dial.pipex.com` (later account, Feb–Aug 2002)
- Both UK ISP Pipex accounts; both listed in FBI device search warrant (**EFTA00101065**)

Used in: Correspondence with "G. Max" / "G. Maxwell" (Ghislaine Maxwell)

at `gmax1@mindspring.com`, 2001–2002

Identification proof (7 independent confirmations):

1. Same email thread says "I just gave **Andrew** your telephone no." (**EFTA00011441**, DS8)
2. Maxwell addresses him as "**Andrew** sweet heart" in reply (**EFTA02332233**, DS11)
3. Signs off "Love you A xxx" — initial matches Andrew
4. References seeing "my kids" and "Sarah" — Prince Andrew's ex-wife Sarah Ferguson
5. "I will be coming to New York on 16th Sept and staying 2 nights" — matches known Andrew travel patterns
6. "I am up here at **Balmoral** Summer Camp for the Royal Family" (**EFTA00011437**, DS8, Aug 16, 2001) — only the Royal Family stays at Balmoral
7. FBI specifically targeted both `abx17@dial.pipex.com` and `aace@dial.pipex.com` in their electronic device search warrant (**EFTA00101065**)

Key documents:

- **EFTA00011437** (DS8) — Aug 16, 2001 (from `abx17@`): "I am up here at Balmoral Summer Camp for the Royal Family. Activities take place all day and I am totally exhausted... The Girls are completely shattered... How's LA? Have you found me some new inappro[priate friends]..."
- **EFTA00011440** (DS8) — Aug 18, 2001 (from `abx17@`): "Distraught! You probably wouldn't know but I lost my valet on Thursday. He died in his sleep. He had been with me since I was 2... I have left the RN and now my whole life is in turmoil as I have no one to look after me."
- **EFTA00011438** (DS8) — Feb 28, 2002 (now `aace@`): "I am overwhelmed at the kindness and generosity of the offers that are being made for me"
- **EFTA00011441** (DS8) — Mar 3, 2002: "Got it I will ring him today if I can. Love you A xxx"
- **EFTA02335012** (DS11) — Maxwell to "The Invisible Man": "I just gave Andrew your telephone no."

He is interested in seeing the Nazca Lines... Some sight seeing some 2 legged sight seeing (read intelligent pretty fun and from good families)"

- [EFTA02332233](#) (DS11) — Aug 25, 2002: "Andrew sweet heart - I fully understand if you want to spend time w/Sarah and the kids"

- [EFTA02332304](#) (DS11) — Aug 27, 2002: "I am very sad at not coming to join you... I will be coming to New York on 16th Sept"

- [EFTA02332232](#) (DS11) — Apr 5, 2002: Maxwell asks "Andrew is your birthday" — he replies "Both wrong! Try again!!"

Note: The Balmoral email ends with Andrew asking Maxwell if she has found him "some new inappro..." — the text is truncated but the implication is clear. "2 legged sight seeing (read intelligent pretty fun and from good families)" is Maxwell describing young women she planned to introduce to Andrew.

"Mr. Evil" → **Shaher Abdulhak — CONFIRMED**

Full investigation: See [SHAHER_ABDULHAK_MR_EVIL_INVESTIGATION.md](#)

57 documents, 5 independent identification proofs. Yemeni billionaire heir connected to War Powers lobbying pipeline through Steve Bannon. Report deployed Feb 25, 2026.

"Dr. Evil" / "Mr. Evil" (Domestic) → **Dr. Steven Victor, M.D. — CONFIRMED**

Full identification: Dr. Steven A. Victor, M.D. — NYC cosmetic dermatologist at Victor Dermatology and Rejuvenation / LaserSculpt Inc. (30 East 76th St, also referenced at 57th St). "Dr. Evil" and "Mr. Evil" used interchangeably in domestic/medical contexts.

Smoking gun — [EFTA01991050](#) (DS10, Mar 7, 2012): Same email thread, same appointment, same woman — Epstein writes "before you meet her for **dr evil**" in the morning; assistant replies that evening: "she had the day wrong, we are going to **victor** tomorrow."

Direct naming — [EFTA01884983](#) (DS10, Sep 22, 2012): Epstein writes directly: "**dr steven victor. 57 st.**, facial dagene, core club east 55, just use my name, have anya find me 22 year old paris"

Free treatment arrangement — [EFTA01779967](#) (DS10, Jun 10, 2010): Epstein to Victor: "the last time I bailed you out we agreed I would **never see another bill for my friends.**" Victor: "So two more girls. According to my records I have done **\$20k on your group of friends.**"

Additional key documents:

- [EFTA01885451](#) (DS10) — "send her to dr evil, tell him she is my friend so she doesn't have to pay"

- [EFTA01619940](#) (DS10) — Paris: "im meeting **mr evil** at plaza athenee at 630" (Victor traveled to London/Dubai/Paris)

- [EFTA01620096](#) (DS10) — "**mr evil** asked karyna whr ws the blonde girl from the other day? and then asked kayrna for her phone number!! oy" / "He thought she was a prosttue"

- [EFTA01616196](#) (DS10) — iMessage: "That's **Steve victor**" / "**VICTOR7777!**" (re: stem cell treatments)

- [EFTA01266403](#) (DS10) — Epstein's will: both Steven Victor and Karyna Shuliak receive loan forgiveness

- [EFTA01798499](#) (DS10) — Wire from Steven Victor MD to Epstein (\$5,000)

- [EFTA01780682](#) (DS10) — Victor begs Epstein for \$150K LaserSculpt investment

Victor's profile: Email RhodesVictor@aol.com. Companies: Victor Dermatology, LaserSculpt Inc., IntelliCell BioSciences (FDA warning letter), ReGen Medical PC. Cell: 917-459-8252. Also practiced in London and Dubai. Massive financial entanglement with Epstein: regular \$2,500-\$5,000 wire payments, failed investment pitches, and the free-treatment-for-bailouts arrangement.

Women sent to Victor for free treatment: Karyna Shuliak (laser, accutane), Lana Zakocela (breast

consultation: "Call and see dr victor re breasts"), Polina (pregnancy check), "Ana W" (rash), and multiple unnamed women (hair removal, laser, prescriptions, Claravis acne medication at \$650/month). **NOT Dangene**: Dangene is female, at Core Club (66 E 55th St). Dr. Evil/Victor is male, separate practice. Both mentioned in [EFTA01884983](#) as different providers.

Completely original finding — not reported anywhere. The \$20K free treatment arrangement for Epstein's "group of friends" (young women) was part of the grooming pipeline.

"MacGyver" / "McGyver" / "Macgiver" (The Lawyer) → Reid Weingarten — CONFIRMED

A person discussed extensively in emails between Jeffrey Epstein and Kathryn Ruemmler (former Obama White House Counsel), 2015–2018. The corpus contains TWO DISTINCT uses of "MacGyver": (1) a carpenter/handyman on Little St. James, and (2) a defense attorney — **Reid Weingarten**, senior partner at Steptoe & Johnson — discussed by Epstein and Ruemmler. This entry covers the attorney.

Decisive evidence — Pottinger correspondence chain

The identification is established by tracing survivor-attorney Stan Pottinger's contact through the Epstein/Weingarten/Ruemmler thread. Pottinger worked with Boies and Edwards representing Epstein's victims.

- [EFTA00637474](#) (DS9, Apr 28, 2016) — **Reid Weingarten to Jeffrey E.**: *"Pottinger left another message...it was actually filed 2 days ago....it is 'so out there' that no one has run with it...she is working with Jerry springer's producer and trying to sell the story....will try to get the complaint"*
- [EFTA02661816](#) (DS11, Jan 23, 2017) — **Kathryn Ruemmler to Jeffrey E.**: *"This is the one that Pottinger went to McGyver about?"*

Weingarten personally received the Pottinger message; nine months later, Ruemmler asks Epstein whether a new Pottinger matter is "the one that Pottinger went to McGyver about." Since Weingarten is the documented recipient of the Pottinger contact, **McGyver = Weingarten**.

Later in the same thread ([EFTA02661816](#)), Epstein forwards a message from Ruemmler accusing Weingarten of treating her like "less than a human being" and being "predatory and abusive," with Weingarten complaining that Ruemmler wants "an apology" — consistent with the "trap I fell with MacGyver" betrayal language elsewhere in the MacGyver thread.

Decisive evidence — Toobin triangulation (Sep 5, 2016)

A single-day three-way chain settles the identification independently of the Pottinger evidence:

- **11:09 AM — Ruemmler to Epstein** ([EFTA02451579](#)): *"Can you find out what McGyver told Toobin so it appears that we are half-way coordinated when I talk to him?"*
- **12:20 PM** (71 minutes later) — **Epstein to Weingarten** ([EFTA00819238](#)): *"have you heard anything from toobin or is he waiting on us"*
- **Sep 6, 11:48 AM — Weingarten to Epstein** (same [EFTA00819238](#)): *"Have not heard from toobin...assume he is waiting on us"*

Ruemmler asks what McGyver told Toobin. Epstein relays the same question to Weingarten.

Weingarten answers. Same journalist (CNN/New Yorker's Jeffrey Toobin), same conversation, same day, one-hour lag. McGyver is the person Epstein asks when Ruemmler asks about McGyver — i.e., **Weingarten**.

Medical-timeline corroboration — July/August 2018

- **Jul 31, 2018**: Reid Weingarten undergoes spine surgery at Mayo Clinic. A colleague's update quotes Weingarten post-op: *"Reid is awake... he said 'the big dawg is back!'"* ([EFTA01004338](#))
- **Aug 2, 2018**: Ruemmler to Epstein re: MacGyver: *"Jail, yes, but no paralysis."* ([EFTA02600187](#)) — spine-surgery risk language

- **Aug 3, 2018:** Epstein: *"I am sending a plane to take him home... from macgiver I get this: no booze, driving, lifting, working, seapaddling, or really anything but walking for 3 fucking months"* — same thread references *"mayo"* as the location ([EFTA02599423](#)). Mayo Clinic + 3-month walking-only recovery matches Weingarten's spine surgery exactly.

Relationship context — Ruemmler/Weingarten

Ruemmler and Weingarten's long-rumored personal relationship explains the personal-betrayal language: *"fall into trap I fell with MacGyver"* ([EFTA02597845](#), Jul 9, 2018), *"still traumatized by the Macgyver thing"* ([EFTA02702868](#), Apr 20, 2016), and *"Macgiver? Are you f*ing kidding me????!!!"* ([EFTA02388935](#), May 23, 2017).

Weingarten in Epstein's orbit — corpus evidence

- Weingarten was Epstein's SDNY defense attorney in 2019 ([EFTA00030184](#), listing "Martin Weinberg / Reid Weingarten / Marc Fernich")
- Direct Epstein-Weingarten correspondence since at least Jan 2012 re: Kazakh contacts ([EFTA00422046](#))
- Epstein's "notes to self" emails pair "weingarten, ruemmler." as a unit across at least five documents ([EFTA01621272](#), [EFTA02379917](#), [EFTA02488023](#), [EFTA02487601](#), [EFTA02713507](#))
- "reid to call" — Epstein to Ruemmler, Sep 30, 2017 ([EFTA02592468](#)) — "Reid" understood without clarification
- Weingarten's legal career matches the MacGyver descriptors: a career white-collar defender at Steptoe & Johnson who has represented Jeffrey Skilling, Sheldon Silver, John Rowland, and Roger Clemens — fitting "Macgiver loves representing misogynists" ([EFTA02446582](#), May 7, 2018) and the "similar mannerisms between Trump and McGyver" ([EFTA02664944](#), Jan 11, 2017) comparison

Previously considered: Benjamin Brafman (ruled out). An earlier version of this registry identified MacGyver as Brafman, based on a "Ben" reference in a Bannon iMessage ([EFTA01615580](#), Jan 20, 2019) in which Epstein and Bannon discuss Harvey Weinstein's defense. That identification conflated two separate conversations: "Ben" in the Bannon exchange refers to Brafman in the specific context of Weinstein's defense, not as the MacGyver codename. No Brafman/Pottinger connection and no Brafman/Ruemmler personal relationship is documented in the corpus. Ruled out by the Pottinger

correspondence chain and medical timeline above.

DISTINCT FROM: "MacGyver" the island worker — a carpenter on Little Saint James (EFTA02487807, DS11: "Can I hire an extra carpenter for 2 weeks to help Sylvester and Macgyver on the Master Bedroom and Library Roof?"; EFTA00495911, DS9: "Brian" described as "the ultimate 'Macgyver' with regard to the unending requirements for immediate fixes," \$300/day worker).

"Master" → Epstein (Used by Eduardo Teodorani-Fabbri) — CONFIRMED

Eduardo Teodorani-Fabbri, SVP at CNH Industrial (Agnelli/Elkann dynasty), addressed Epstein as "Master" consistently across 8+ years of correspondence (2012-2019).

See [ITALIAN_CONNECTIONS_INVESTIGATION.md](#).

Key documents:

- EFTA01873297 (DS10) — Apr 10, 2012: Subject line "Master". Teodorani: "Hi master. How are you I am in USA in north dakota looking upon new investment."
 - EFTA01619031 (DS10) — Mar 29, 2019 (iMessage): "Master the airport is Ciampino" / "Master... my dear friend prince Borghese should be there"
 - EFTA01617541 (DS10) — Apr 28, 2019: "Master I am here with Prince Borghese just landed from NY"
 - EFTA01617531 (DS10) — Dec 22, 2018: "master can you lend me your plane"
 - EFTA01617531 (DS10) — Mar 7, 2019: "Master we wait the good ankle bambina with another good friend of your choice!!!"
 - EFTA01617521 (DS10) — "Shall I come around 10 if is ok for you master" / "Master is better tomorrow morning because Davina she is not well"
 - EFTA01616908 (DS10) — 2014-2015: "Master I am paris call me back" / "Always so nice to see you master" / "I would like to see you master when are going to paris"

"Mr. Big Mac" / "MBM" / "Big Mac" / "B" → Unidentified Boyfriend/Patron — UNCONFIRMED

Used by **Megane Lemiel** in emails to Epstein, Dec 2009–Jan 2010. This is the name she uses for her boyfriend/patron, from whom she was sneaking away to see Epstein.

Key documents:

- EFTA01822874 (DS10) — Dec 28, 2009: "Going to maimi... Shall I tell mr. big mac (MBM) I m going anywhere"
- EFTA01823072 (DS10) — Dec 31, 2009: "Big mac wants la on 6th till 10th then he goes for 10 days"
- EFTA01821994 (DS10) — "Mr big mac wrote that he doesn't know what he would do without me"
- EFTA01821204 (DS10) — Dec 29, 2009: "B suspicious... He is smart. I underestimated... Will be difficult to come."
- EFTA02432702 (DS11) — Jan 2, 2010: "LA from 15 to 23. When B leaves will be hopefully free for a while until big mac."

Note: Separate from Epstein's literal mention of "Big Mac" (McDonald's) to Reid Hoffman about Bill Gates (EFTA01932720, DS10, Mar 2014).

"Mr. Big" → Leon Black — CONFIRMED (by Bloomberg, CBS, Daily Beast)

Epstein's codename for Leon Black (Apollo Global Management co-founder). Confirmed

by [Bloomberg \(Feb 13, 2026\)](#), [CBS News](#), and [The Daily Beast](#).

Separate from: Vanity Fair 2003 photo caption "MR. BIG Jeffrey Epstein" (EFTA01361583, DS10),

which used "Mr. Big" for Epstein himself.

"Mr. Big" aka "Mr. Good-looking" → Unidentified (Possibly Distinct from Leon Black) — UNCONFIRMED

Used in a June 2016 email in a different context — social introductions and credit for making them.

- [EFTA02394847](#) (DS11) — Jun 21, 2016: "I remember [name] was complaining that she had introduced [name] to mr big but hadn't got any credit for that... I wouldn't be surprised if [she] told that I was also seeing Mr big aka 'Mr Good-looking'"

Note: May be Leon Black in this context too, or may be a different person. "Mr. Good-looking" has NOT been reported by any external source.

"Snow White" → Young Woman (Disney Character Codenames) — CONFIRMED

Used by Jes Staley (then-JPMorgan executive) and Epstein in a coded exchange about young women using Disney character names.

Key documents:

- [EFTA01300650](#) (DS10) — Jul 9, 2010: Staley to Epstein: "Maybe they're tracking u?? **That was fun. Say hi to Snow White.**"

- [EFTA01815523](#) (DS10) — Jul 10, 2010: Epstein replies: "**what character would you like next**"

- [EFTA01300651](#) (DS10) — Jul 10, 2010: Staley replies: "**Beauty and the Beast**"

Significance: "What character would you like next" implies Epstein was offering Staley a choice of women identified by Disney character names. "Snow White" was a specific individual; "Beauty and the Beast" was Staley's next "request." This exchange was produced in the JPMorgan litigation (Bates JPM-SDNY-00000948).

Separately: Epstein told a young woman (Jun 20, 2010): "brett ratner is going to film a big movie, Snow White, i would love to take photos of you in a snow white costume. you can get it from the costume store" ([EFTA01815151](#), DS10) — grooming language using the Snow White reference.

External coverage: Widely reported. [Yahoo News](#), [Rogue Review](#) — both published the full exchange.

"Mr. Alien" → Woody Allen — PROBABLE

A playful nickname used in iMessage conversation, not an operational codename.

- [EFTA01619047](#) (DS10) — Dec 11, 2013: "Do you know about **mr alien** playing the clarinet at the Carlyle?" Reply: "Back sat, **yes woody plays most Mondays**"

Identification: Woody Allen famously plays clarinet with the Eddy Davis New Orleans Jazz Band at the Carlyle Hotel on Monday evenings. The immediate "yes woody" confirmation makes the identification near-certain. Multiple possible origins: "Allen" → "Alien" is a natural OCR-style misread (easy to see in any PDF), and Allen played a character literally named "Mr. Alien" in Jean-Luc Godard's 1987 film *King Lear* ([IMDB](#)). Documents the Epstein–Allen social connection.

"The Apprentice" → Formal Title for Young Women in "Agreement of Favors" — CONFIRMED

NOT a reference to Donald Trump's TV show. "The Apprentice" is the contractual term Epstein used for young women in his standardized "Agreement of Favors" template, with himself as "the Beneficiary."

Contract template (dated Oct 18, 2011, used repeatedly):

"Mr. Jeffrey Edward Epstein, jeevacation@gmail.com — Hereafter referred to as the 'Beneficiary' ... Ms. [NAME] — Hereafter referred to as the 'Apprentice' ... The Beneficiary is willing to benefit from the Apprentice's experience, skills and generosity in the framework of his amusements."

The "Apprentice" was required to provide: "fun, pleasure and assistance in relation to the various forms of amusement of the Beneficiary" and specifically: "**Presenting beautiful women.** The Apprentice will find beautiful women among her friends and acquaintances."

Epstein critiqued the first draft: "not a bad first try... there is no penalty for breach? no third party mediation in case of dispute?... no quality assurance with standard practice... no time limit, a no complaining clause, etc" ([EFTA01741746](#), DS10).

Key

documents: [EFTA01854906](#), [EFTA01852389](#), [EFTA02022696](#), [EFTA01983752](#), [EFTA01741746](#), [EFTA02722199](#), [EFTA00687670](#), [EFTA01125097](#), [EFTA01170157](#), [EFTA00922165](#), [EFTA00686588](#)

At least 12–15 signed copies exist across the corpus, suggesting multiple women were signed to this agreement. **Completely original finding — not reported anywhere.**

Significance: This is a formalized recruitment/procurement contract. The "Apprentice" title sanitizes a pipeline where young women were compensated for bringing other young women to Epstein. "Presenting beautiful women" is an explicit obligation.

"Jeffery Edwards" → Jeffrey Epstein (Email Alias) — PROBABLE

An email display name used on the jeevacation@gmail.com address. Noticed by a childhood friend:

- [EFTA01899833](#) (DS10) — Mar 15, 2013: Arty Podnos writes: "Also, **is Jeff Edwards an alias or a wrong button?**" The email CC included "Jeffery Edwards" alongside "Mark L. Epstein."
Note: Podnos was organizing a gathering with Mark Epstein when he noticed the discrepancy. The "Edwards" surname may relate to Epstein's middle name (Edward). **Not previously reported.**
-

MARIUS ROBERT FORTELNI → Jeffrey Epstein (Austrian Passport False Identity) — CONFIRMED

A false Austrian passport bearing Epstein's photograph under the name **MARIUS ROBERT FORTELNI**, DOB 07/30/1954 (Epstein's real DOB: 01/20/1953). Seized during the 2019 search of 9 East 71st Street (item 1B76).

Key documents — FBI internal emails, July 14–15, 2025:

- [EFTA01656317](#) (DS10): "We are tracking FBI NYO seized one Austrian Passport with Epstein's photo and a different name"
- [EFTA01656330](#) (DS10): "The Austrian passport was in MARIUS ROBERT FORTELNI's name with Epstein's photograph" / "shows DOB 07/30/1954"
- [EFTA01656330](#) (DS10, p.1): "The same information for an individual known as MARIUS ROBERT FORTELNI, DOB 07/30/1954 is attributed to an Austrian Citizen in Sentinel and DIVS records"
- [EFTA01656367](#) (DS10): "We don't have any additional documentation to show that he traveled under a different name"

Note: A real person named MARIUS ROBERT FORTELNI exists in Austrian government records (FBI Sentinel/DIVS). The FBI confirmed the passport was in WFO (Washington Field Office) possession. They did not find evidence Epstein actually used it for travel. The passport seizure was previously reported but the FBI's internal 2025 scramble to document it is new from the EFTA corpus.

"Mr. Evil" in Bannon Political Context → Unidentified Gulf Figure — UNCONFIRMED

DISTINCT FROM the [Shaher Abdulhak "Mr. Evil" identification](#) documented separately. In Steve Bannon's iMessages with Epstein (2018–2019), "Mr. Evil" refers to a Middle Eastern political figure involved in lobbying, diplomacy, and European meetings.

Key documents:

- [EFTA01615037](#) (DS10) — Apr 2018: "**Mr evil would like to hire a firm to lobby on behalf of war powers act**"
- [EFTA01615053](#) (DS10) — Apr 26, 2018: "**Jabor is HBJ chief, mr evil**, waiting on a date from you, sultan easiest"
- [EFTA01940750](#) (DS10) — Jan 19, 2014: "add to paris list, **jabor, mr evil, jean luc**" — lists Jabor and Mr Evil as SEPARATE items
- [EFTA01614416](#) (DS10): "Should we ask Mr Evil and company to come? **Salem** is a key guy"
- [EFTA01615283](#) (DS10) — Aug 2018: "mr evil willing to meet you in europe"
- [EFTA01615501](#) (DS10): "**Mr evil. Ehud hbj etc**"
- [EFTA01615796](#) (DS10) — Apr 2019: "Mr evil sends his regards" / Bannon: "**Love me some mr evil**"
- [EFTA01616087](#) (DS10): "Someone on pompeo team should sit with mr evil. They will do a 180 on their sponsor in a heartbeat"
- [EFTA01614980](#) (DS10): Bannon asks "Mr Evil??" — Epstein responds "no kim Jung" — shows Bannon knows the codename but needed clarification on a specific person

Analysis: [EFTA01940750](#) lists "jabor, mr evil, jean luc" as three separate people, confirming Mr Evil ≠ Jabor. Mr Evil is listed alongside Jabor (HBJ's chief), "Sultan," "Salem," "Ehud" (Barak), and "HBJ" (Hamad bin Jassim, former PM of Qatar). The figure is involved in War Powers Act lobbying, Iraq/Gulf diplomacy, and could influence "their sponsor" to do "a 180." Gulf context, but identity not established.

Relationship to Abdulhak Mr. Evil: The Bannon-context "Mr. Evil" may or may not be the same person as the Abdulhak "Mr. Evil" documented in the separate investigation. The Abdulhak identification rests on 57 documents with 5 independent proofs. The Bannon political context involves different subject matter (lobbying, diplomacy vs. business). Further investigation needed to determine if "Mr. Evil" is a codename Epstein applied to one person consistently or used for different people in different circles.

"MEGAMELSY" / "Melz" / "Mele" → Dr. Melanie Walker, M.D. — CONFIRMED

Self-assigned codename in flirtatious SMS to Epstein ([EFTA01618131](#), DS10, Jun 30, 2014): "Codename **MEGAMELSY**" / "PS now I understand sex." / "Why didn't you tell me?"

Full identification: Dr. Melanie S. Walker, M.D. — neurosurgeon, senior adviser to Bill Gates, co-chair of the WEF Global Future Council on Neurotechnology and Brain Science, WEF Young Global Leader. Email: mwalkermd@aol.com. Introduced to Epstein by Donald Trump circa 1990

([HOUSE_OVERSIGHT_032803](#), Sep 3, 2018: "I've known Jeffrey **28 years** and this isn't a joke — **Donald Trump** introduced us").

Smoking gun — [EFTA01613044](#) (DS10, Apr 21, 2017): "Bill told them to quit screwing around and get me settled. Here's the contract." Attachment filename: **ICAwithNDA--MelanieWalker--bgC3 04.21.17.docx**. BGC3 is Boris Nikolic's venture capital firm.

Identification proof (7+ independent confirmations):

1. WEF Brain GAC: "Melz" asks to "advise you in your brain stuff for your fndn" to get on "**BRAIN GAC at the WEF**" ([EFTA01618131](#)). Melanie Walker was co-chair of WEF Global Future Council on

Neurotechnology and Brain Science (EFTA01617379: "I just got named **co chair of the neurotechnology and brain science global agenda council at the WEF**")

2. "Steve" = Steven Sinofsky: "Melz" complains "Steve is so mean to me... He is being a **total jerk to Boris**" (EFTA01618131). Melanie Walker forwarded a confidential email FROM **Steven Sinofsky** (then president of Microsoft Windows Division) to Epstein (EFTA01977118)

3. Reid Hoffman / Greylock: "Melz" says "that guy" works with "**Reid**" and "Many yrs together at **greylock**" (EFTA01618131). Sinofsky became a board partner at Greylock Partners

4. Boris Nikolic triangulation: Subject line "**From Melz re Boris**" (EFTA01987426). Boris replies about Melz: "What prompted this??? Fyi — it was her trying to feed me info re Steve to tell bill for few years." Also: Epstein forwards "MEGAMEL fund" email to Boris (EFTA01899734), who responds "**Mel?**" (EFTA01899941)

5. Bill Gates: "Melz" says "**Bill** wants Me to go back and work w him for a bit" (EFTA01617415). Walker was senior program officer at Bill & Melinda Gates Foundation

6. YGL + Wikipedia: From mwalkermd@aol.com: "well now that i am a **YGL** both the foundation and the **WEF** want for me to at least have a wikipedia page on me... i do want to write that **neuro** book" (EFTA01993316). Matches: "I'm a **ygl** and a council co chair" (EFTA01613090)

7. Contract filename: **ICAwithNDA--MelanieWalker--bgC3** explicitly names Melanie Walker (EFTA01613044)

Additional key documents:

- EFTA02020616 (DS10) — Jul 16, 2011: "**Stevie** says COME BACK — he wants you to move in upstairs from us" / "**Stevie** has wired the place for bear!"

- EFTA01613090 (DS10) — May 7, 2017: Epstein: "did you go to davos with kim?" Melz: "I have been to **Davos** the last 6 years!" / "I sat at desk next to him for 3 years. I was his **senior adviser**"

- EFTA02076591 (DS10) — Jun 19, 2015: "Melanie Walkers trip was cancelled to NY...do not leave the welcome letter with the doorman!"

- EFTA02365490 (DS11) — Feb 24, 2017: From mwalkermd — WEF neurotechnology work plan with deliverables

Walker profile: Partner Steven Sinofsky (former President, Windows Division, Microsoft). Roles: Senior Adviser to Bill Gates, Senior Program Officer at Gates Foundation, Co-Chair WEF Global Future Council on Neurotechnology and Brain Science, WEF Young Global Leader, Senior Adviser at World Bank, Consultant at BGC3 (Boris Nikolic's firm). 28-year relationship with Epstein (1990–2018+). Key connections in corpus: Boris Nikolic, Bill Gates, Steven Sinofsky, Reid Hoffman, Jes Staley, Mary Erdoes, Neal Kassell.

Note: "MEGAMELSY" was a self-assigned flirtatious nickname, not an operational codename. Walker used "Melz" and "Mele" as casual names consistently across SMS and iMessage. Also used "Pumpkin" as a pet name for Epstein (see Part 2).

Part 2: Pet Names & Titles for Epstein

These are not secrecy codenames but consistent modes of address that reveal relationship dynamics.

"Bossman" — Used by Ann Rodriguez (Island Manager)

Every email from Ann Rodriguez begins "Hey Bossman." 20+ documents in DS10.

Sample: EFTA01755259, EFTA01755706, EFTA01927323, EFTA01928230, EFTA01928422

"Uncle Jeffrey" — Used by Multiple People

Used by both genuine family members and close associates:

- **Kathy Ruemmler** (former Obama White House Counsel): "because uncle Jeffrey told me that I need to stop being passive" (EFTA01783362, DS10); "Am totally tricked out by Uncle Jeffrey today! Jeffrey boots, handbag, and watch!" (EFTA02605815, DS11); "Thank you to Uncle Jeffrey!!!"

(EFTA02260257, DS11)

- **Nicole Junkermann** (investor): Email subject line "Good morning! Uncle jeffrey" (EFTA02603369, DS11; EFTA01006133, DS9); "Happy xday uncle Jeffrey!!!" (EFTA01027399, DS9)

- **Serena Epstein** (niece, Mark Epstein's daughter): "Dear uncle Jeffrey, Thank you so much for the gopro I love it" (EFTA02598793, DS11)

- **Jason Epstein** (nephew): "Dear Uncle Jeffrey, Thank you so much for the great presents" (EFTA00697371, DS9)

- **Epstein himself**: "great, uncle jeffrey apporves." (EFTA01973751, DS10, Dec 5, 2012 — third-person self-reference)

"Little Turtle" — Used by Eva Dubin

Eva Dubin (wife of billionaire Glenn Dubin) addressed Epstein as "little turtle."

- EFTA02032084 (DS10) — May 14, 2012: "done! How is Paris little turtle..."

- EFTA01881554 (DS10) — same email, alternate EFTA

- EFTA00641968 (DS9) — same email, DS9 copy

"Snuggliest" — Used by Unnamed Women

• EFTA02007619 (DS10) — Mar 2012: "Ok snuggliest, I would love to help with anything she would like"

• EFTA01843623 (DS10) — Dec 31, 2011: "Dearest Snuggliest, Thank you for a great 2011, for all that you have done for me and taught me..."

"Maestro" — Used by Multiple People for Epstein

• **Nathan Myhrvold** (former Microsoft CTO): "Ok, how about masterstroke, maestro?" (EFTA01738366, DS10, Nov 6, 2016)

• **Unnamed woman**: "It's okay Maestro, I'll always adore you" (EFTA01784642, DS10, Jun 23, 2016)

• **Unnamed person at Zorro Ranch**: "Maybe Saturday Maestro-? maybe brunch or something..?" (EFTA02007303, DS10, Aug 9, 2012)

• **David Gelernter** (Yale computer scientist): Email subject "maestro w/o an orchestra" (EFTA02018916, DS10, Aug 7, 2011)

Note: Also appears as a product name — "Maestro cochlear implant system by Med El" (EFTA01764114) — not a codename in that context.

"Mr. Wonderful" — Epstein Self-Reference

Epstein used this as a self-identifier in iMessage.

- EFTA01621696 (DS10) — Dec 21, 2014: "Who are you?" / "Mr wonderful" / "Soprendente" / "I thought you didn't like text messages!" / "I will never be thankful enough for all the things you did for me"

"The Boss" / "Bossman" — Used by Island/House Staff

In addition to Ann Rodriquez's "Bossman" (see above), other staff used "the boss":

- EFTA01874004 (DS10) — Jul 18, 2012: Monique Harry: "The boss ask me to follow-up"

"Super Sperm" — Maxwell to Prince Andrew

• EFTA02334330 (DS11): Maxwell to "The Invisible Man": "Is it true you are having more children? I shall have to refer to you as **super sperm!**"

"Randy Andy" — Prince Andrew — CONFIRMED (widely known)

Well-known British tabloid nickname for Prince Andrew, used within Epstein's circle:

- EFTA00098456 (DS9) — Virginia Roberts declaration (Jan 21, 2015): "Epstein and Maxwell were making lewd jokes about 'Randy Andy'" during second sexual encounter at 9 E 71st St, spring 2001

- EFTA01582921 (DS10) — NY Post "Society Girl at Twits' End" (Dec 1, 2000): Maxwell's "relationship with 'Randy Andy' is said to be platonic"

- EFTA01659446 (DS10) — Steeple Times article: "50% now want **Randy Andy** banned from all royal

events"

Not a codename — a widely-known public nickname used in media and by Epstein/Maxwell as a sexual joke.

"PA" → Prince Andrew — CONFIRMED (used by David Stern)

Royal-entourage lobbyist David Stern used two-letter codenames "PA" and "F" when corresponding with Epstein about Andrew and Sarah Ferguson. The pair appears together in a single email, which locks both identifications:

- [EFTA01779935](#) (DS10) — Aug 29, 2010: Stern to Epstein: "PA wants to know if you spoke to F. during the last couple of days?"
- [EFTA01779984](#) (DS10) — May 17, 2010: Stern to Epstein: "You agree for me to accept PA meeting invitation on 7 June?"
- [EFTA02021305](#) (DS10) — Jun 6, 2012: Stern writing of PA: "Great events with PA these last few days. Very interesting since his mummy only appeared with her eldest & his family" — "his mummy" = Queen Elizabeth II; "eldest" = Prince Charles.

"F" → Sarah Ferguson, Duchess of York — CONFIRMED (used by David Stern)

Same shorthand system as "PA" above. In addition to the paired appearance in [EFTA01779935](#):

- [EFTA01856418](#) (DS10) — Sep 11, 2011: Stern to Epstein: "pic of F from friday. not the prettiest sight...." — the email links to a Daily Mail article whose URL (...Princess-Beatrice-graduates-Goldsmiths-Prince-Andrew-Sarah-Ferguson-watch...) contains "Sarah-Ferguson", locking the referent.

"Russian Bomb" / "Atomic" — Young Woman's Workplace Nickname

- [EFTA01616998](#) (DS10) — Jun 25, 2019 Skype: Woman tells Epstein: "They gave me a nickname at work... RUSSIAN BOMB". Epstein responds: "Atomic."

"Pumpkin" — Used by Dr. Melanie Walker

Walker addressed Epstein as "Pumpkin" in multiple emails:

- [EFTA02031985](#) (OCR) (DS10) — May 11, 2011: "sorry **pumpkin** got this note too late"
- [EFTA01990127](#) (DS10) — Dec 6, 2011: "Ok **pumpkin**...guess I missed you!!!"

"Magus" — Used by European Contact

From the John Fowles novel reference (a figure of mysterious power and manipulation):

- [EFTA02032194](#) (DS10): "Dear **Magus**" — a rare form of address from what appears to be a European correspondent: "I will do my best to wave hello (or even say hello if you wish)."

"Sweet Pea" / "Sweat Pea" [sic] — Maxwell's Pet Name for Multiple People

Maxwell used "sweet pea" for at least two people:

- **Prince Andrew**: [EFTA02333496](#), [EFTA02335019](#), [EFTA02332231](#) (DS11): addressed Andrew as "Sweet pea" in multiple emails
- **Melania Trump**: [EFTA00579769](#) (DS9): Maxwell (from "G. Max") responds to Melania: "Sweet pea — thanks for your message. Actually plans changed again and I am now on my way back to NY."

"TJ" — Alternate Nickname for Epstein

- [EFTA01623401](#) (DS10) — Skype: "Hi TJ!" — single use, possibly initials-based nickname

"Jeffreychka" — Russian Diminutive

- [EFTA01617845](#) (DS10) — Skype: "I am so sick **Jeffreychka**" — Russian-language affectionate form of Jeffrey, used by a Russian-speaking woman

"Frog" — Childhood Friend (Epstein's Circle)

- [EFTA01975467](#) (DS10) — Nov 14, 2012: "**Frog's** been terrific." Referenced alongside "Warren" who "calls himself dead man walking." Context: childhood neighborhood (Sea Gate, Brooklyn).

"Godfather" — Epstein (Multiple Contexts)

Epstein was literally godfather to Darren Indyke's twins and had a "goddaughter" he referenced when declining other godfather requests.

- [EFTA01939622](#) (DS10) — Jan 20, 2014: "Happy birthday to the greatest Godfather the world has ever known!!!!!!!"

- [EFTA01744268](#) (DS10) — Jan 5, 2016: Epstein to David Stern: "I am flattered but must decline the warm invitation. I made a promise to my goddaughter that I would not be godfather to anyone else."

- [EFTA01660165](#) (DS10) — legal letter: "Mr. Epstein is now the godfather of the employee's seven-year-old twins" (Indyke)

- [EFTA01815824](#) (DS10) — Jul 26, 2010: Epstein quoting the movie: "godfather,- may your first child be a male child"

"Said the spider to.." — Epstein Self-Reference to Bannon

- [EFTA01615114](#) (DS10) — Jun 3, 2018 Skype chat: Epstein opens conversation with Bannon: "Said the spider to.. where ru?"

"Unc" / "Uncle F Jeffrey Epstein" → Epstein (via Celina Dubin & Glenn Dubin) — CONFIRMED

Celina Dubin — daughter of Glenn Dubin and Eva Andersson-Dubin (Epstein's former girlfriend) — used "Unc" as her pet name for Epstein across 2010–2015 correspondence. Epstein referred to Celina as his "goddaughter" ([EFTA01744268](#), Jan 5 2016: *"I made a promise to my goddaughter that I would not be godfather to anyone else"*).

Celina's email: ninibini91@aol.com (12 corpus docs).

Key messages:

- [EFTA00736181](#) (Jul 25 2010): Celina to Epstein: *"Aww! You're the best, Unc. Should we order stuff in Paris?"* — Epstein replies: *"for fifteen years, I have bought you something, each time I went to paris since you were 1 year old... for graduation, I am going to give you a credit card"* — sibling "Jordan" (Jordan Dubin) also referenced.

- [EFTA01990773](#) (Jun 2 2011): Epstein sends To: celina → Celina replies To: "Uncle F Jeffrey Epstein" <jeevacation@gmail.com> — locks the display-name pattern.

- [EFTA01866960](#) (May 30 2011): Epstein to Richard Kahn, Cc: celina; Celina forwards with: *"To: Uncle F Jeffrey Epstein"*.

- [EFTA02025154](#) (Oct 19 2012): *"Hey Unc!! How's Paris? ... I submitted my application to Harvard on Monday! Also do you know the status with those modeling jobs..."*.

- [EFTA01750532](#) (Mar 31 2014, birthday): *"THANKS UNC! 100% forever and ever. You are the greatest."*

- [EFTA00865139](#) (Feb 2 2015): *"Thanks Unc. The flu is the worst..."*.

Glenn Dubin also used "unc" for Epstein:

- [EFTA01256057](#) (Oct 1 2008): Glenn Dubin to Epstein and Jes Staley: *"unc, two very interesting pieces about the credit crisis. take care, poppi"*.

Family / financial corroboration:

- Eva Dubin on gift ideas for Celina: [EFTA02032167](#) (May 13 2012): *"I have a great idea for Celina instead of a creditcard"* — matches Epstein's 2010 credit-card plan.

- Epstein authorizing large Amex gift cards for Celina's

birthday: [EFTA01899637](#), [EFTA01899903](#), [EFTA01899840](#) (Mar 2013: \$19,000 + \$25,000).

- Photo files labeled 120820 CelinaDubin_XXX.jpg exchanged between Lesley Groff and Epstein ([EFTA01888450](#), [EFTA01888589](#)).

"Poppi" → Glenn Dubin — CONFIRMED

Bidirectional pet-nickname with "Unc": Glenn Dubin signs off as "poppi" to Epstein, and Epstein uses

"poppi" to refer to Glenn when writing to family or assistants. This is the counterpart to Celina/Glenn's "Unc" for Epstein.

Self-signoff by Glenn Dubin:

- [EFTA01256057](#) (Oct 1 2008): Glenn Dubin to Epstein + Jes Staley: *"unc, two very interesting pieces about the credit crisis. take care, poppi"* — same message locks both nicknames.

- [EFTA01300051](#) — further Dubin signoff as "poppi".

Epstein uses "poppi" to refer to Glenn Dubin (third-person / addressee):

- [EFTA01842566](#): Epstein: *"I am taking poppi to see Icons art at 5"* — scheduling line about Dubin.

- [EFTA01901827](#), [EFTA01904961](#) (Feb 15 2013, To: Dubin, Glenn): *"poppi, Larry Summers, his wife, Woody Allen and soon yi will be at the house..."* — Epstein addressing Glenn as "poppi" in salutation.

- [EFTA02028120](#), [EFTA01777797](#) (Apr 3 2011): Epstein: *"can you have poppi call me"* — request to assistant/Eva to route a call.

- [EFTA01783646](#) (Sep 14 2016, to Eva Dubin): *"how poppi? mom?"* — family check-in.

- [EFTA01752024](#): *"screen woodys next movie on wed with poppi"*.

- [EFTA01761771](#), [EFTA01761589](#) — further guest-list / household threads referring to Glenn as "poppi".

How to search: the bare term poppi is distinctive (not a common OCR artifact) and reliably co-occurs with Dubin/Epstein/Eva/Celina threads. Treat any "poppi" hit in a Dubin-adjacent thread as a Glenn Dubin reference.

"WJC wjc" (email sender header) → Bill Clinton's BlackBerry, operated by Doug Band — CONFIRMED

Across 2002 correspondence with Ghislaine Maxwell ("G. Max"), a recurring email header pattern appears on both the To: and From: lines: (**WJC wjc**) [@] (or the abbreviated WJC wjc). WJC = William Jefferson Clinton; the address is a Cingular imcingular.com BlackBerry (16180476.<id>@imcingular.com). In-thread content establishes the operator is **Doug Band**, not Clinton himself:

- [EFTA02333550](#) (DS11) — Oct 11, 2002: "(WJC wjc)" writes to G. Max: "Julie would like andrews address to send a ty for dinner for clinton" — author speaks OF Clinton in the third person while using the WJC header.
- [EFTA02333590](#) (DS11): Maxwell to "(WJC wjc)[@]": "oh **Douglas** - oh **Douglas** - wherefore art though Douglas" — the "WJC wjc" counterpart is addressed by name as Douglas.
- [EFTA02333508](#), [EFTA02333561](#), [EFTA02333563](#), [EFTA02333568](#), [EFTA02333574](#), [EFTA02333603](#) — further messages to/from WJC wjc across 2002 with pet names "Booboo", "devil booby", social logistics for "your boss" (events for which Band was Clinton's advance man), confirming the pattern.
- [EFTA02333504](#) — Apr 19, 2002: "(WJC wjc)" re: "It came out last night in the london tabloids" — operator is tracking media on Clinton's behalf.

The significance is evidentiary: emails FROM (WJC wjc) that *read* as if sent from Bill Clinton's address were written by Doug Band using Clinton's BlackBerry credentials. Clinton's personal authorship of any individual 2002 message in this thread cannot be inferred from the header alone.

Part 4: Encrypted Communications & Operational Security

Shared ProtonMail Account: jmje@protonmail.com

Parties: Jeffery A. Martin (consciousness researcher) and Jeffrey Epstein

Setup: Jul 12, 2017 — Martin sends Epstein the shared login via Skype

- [EFTA01621829](#) (DS10) — Skype chat, Jul 12, 2017:
- Martin: "Hi Jeffrey, check your email and this will make sense: Username: jmje@protonmail.com"
- Epstein: "can't log in says incorrrect"
- Martin: "Try just jejm without the @domain"
- Epstein: "your first username was JM JE i got in on last JE JM thx"

Significance: This is a **shared inbox** — both parties access the same ProtonMail account to exchange messages without creating a sender/recipient paper trail. ProtonMail is end-to-end encrypted and based in Switzerland.

The Skype conversation also reveals Martin discussing arranging "3 key people" for a meeting and "2 key people for house, etc. clearing/protection," using language suggesting operational planning. Martin tells Epstein about needing to do "personal massaging" and references something described as "the secret" ([EFTA01621829](#), page 4).

Signal App Recruitment

Vincenzo Iozzo (Italian cybersecurity researcher) sent Epstein a direct download link for the Signal encrypted messaging app:

- [EFTA01780677](#) (DS10) — Apr 11, 2016: "This is the direct link... You'll find at least me (+13474093908) and **Joi** on it. It takes the numbers/contacts from your address book. Absolutely unrelated: indiscrete thoughts by Carlo rota is a book you'd like I reckon"
"Joi" = **Joi Ito** (then-director of MIT Media Lab). Ito and Iozzo were already on Signal and recruiting Epstein to join.

Additional Signal usage:

- **Terje Norderhaug** to Epstein ([EFTA01614476](#), DS10, Oct 13, 2018): "Pls call on signal when up"
- **Samantha Rose Stein** to Epstein ([EFTA02605635](#), DS11, Jan 2019): "lets schedule a call on signal this week. How's tomorrow some time between 1:30-3pm PST? I can be reached at 202-769-6747."
(Also uses ProtonMail.)

Bannon Circle ProtonMail Usage

Steve Bannon's circle extensively used ProtonMail:

- **Dan Fleurette** (Bannon aide): doitfluet@protonmail.com — coordinated Bannon's May 2019 trip to Epstein's island via ProtonMail ([EFTA02284049](#), [EFTA02284141](#), DS11)
- **Sean Bannon** (Steve's son): Sent Trump@War film link to Epstein "from my ProtonMail"

(EFTA02604944, DS11, Aug 23, 2018)

- **Samantha Rose Stein**: "Sent with ProtonMail Secure Email" + requests Signal calls

(EFTA02605635, DS11)

Epstein's Multi-Platform Encrypted Messaging Setup (May–October 2018)

Epstein set up multiple encrypted messaging platforms in 2018 — WeChat first in May, then Signal and WhatsApp on the same day in October:

- **WeChat**: EFTA01620922 (DS10) — May 13, 2018: WeChat verification codes

- **Signal**: EFTA01618899 (DS10) — Oct 13, 2018: Verification code to +1 (702) 660-4496 (Las Vegas number)

- **WhatsApp**: EFTA01613649 (DS10) — Oct 13, 2018: Multiple verification codes same day as Signal

Samantha Rose Stein — ProtonMail + Signal (Jan–Feb 2019)

Stein used ProtonMail and Signal for ALL communications with Epstein:

- EFTA02605635 (DS11) — Jan 2019: "HNY. Do you use signal? It is an encrypted app that I prefer to use for communications."

- Epstein asked "do you have a preferred name to use?" — suggesting a pseudonymous venture

- She proposed "**Truth Robot LLC**" as the entity name. Epstein: "ok with me, start looking for investments"

- Discussed "like minded women" — Epstein asked "if you were to choose 4 to join your club, who would they be?"

- All communications encrypted end-to-end (ProtonMail + Signal)

ProtonMail for Discovery Avoidance

Beyond the shared jnje@protonmail.com account (see above), ProtonMail was explicitly recommended and used to avoid legal exposure:

- **Jeffery A. Martin** ([EFTA02643105](#), DS11): "I've given your interests in the stranger aspects of my PNSE research a lot of thought while here in India. **You seem to get sued a lot, and I don't like documents showing up in discovery**"

- **David Stern** ([EFTA02641951](#), DS11, Jul 26, 2017): "Apparently the safest email to use <https://protonmail.com/>"

Passwords in Plain Text

Multiple passwords appear unencrypted in the corpus, revealing Epstein's weak operational security:

Password	Account	Context
jeevacation12	Yahoo (jeffreypsteinorg@yahoo.com) / Flickr	"for your records your yahoo and flickr user/password is: jeffreypsteinorg@yahoo.com / jeevacation12"
Jenjen12	iTunes/AppleTV (jeeitunes@gmail.com)	"jeeitunes@gmail.com / Jenjen12 is for your laptop"
neptunemermaid	Unknown (backup password)	Sarah K told to try "Jenjen12" or "neptunemermaid"

Note: All three passwords are trivially guessable — "jeevacation" + "12", "jen" + "12", a simple word. No two-factor authentication. Staff shared passwords openly via email.

Anonymous Donor Channels

- **MIT / Joi Ito:** "I had MIT set up a special account for you as an **anonymous donor** so we don't have to go through an intermediary non-profit. I assume you don't mind if we can't talk about it publicly right?" Epstein: "i never mind, these things" ([EFTA01754963](#), [EFTA01948626](#), DS10, Nov 14, 2013)
- **Hasty Pudding:** "Jeffrey Epstein wishes to remain listed 'anonymous' for his donation to the Hasty Pudding event" ([EFTA02208992](#), DS10, Mar 22, 2017)
- **Leon Black / Gratitude America:** "investor Leon Black donated \$10 million through an **anonymous LLC**" ([EFTA01654937](#), DS10)
- **USVI Gov. Ken Mapp / Laptops:** Mapp to Epstein via SMS: "If you prefer the laptops **anonymously** ok with me" ([EFTA01616715](#), DS10, Oct 5, 2015)

Aviation Entity Chain: Air Ghislaine → Shmitka Air → Freedom Air

All THREE names were the same JPMorgan checking account — a classic entity-layering pattern (EFTA01654901).

- **Air Ghislaine Inc.:** JPM due diligence 02/05/2009 under banker Mary C Casey (EFTA01582846). Maxwell transferred \$150,000 from personal to Air Ghislaine on 10/22/2008 (EFTA01589248)
- **Shmitka Air Inc.:** Someone asked Epstein "What does shmitka stand for?" (EFTA01780034, Feb 21, 2010). \$10,000,000 Sikorsky S-76 helicopter deposit agreement, Darren K. Indyke listed as Vice-President (EFTA01811593). Sikorsky accused Shmitka of "being brokers" (EFTA01824387)
- **Freedom Air International Inc.:** JPM account #739-474324. \$10,901,000 transfer to FSF, LLC at FirstBank Puerto Rico (EFTA01589259)

Part 6b: Pseudonyms in Professional/Business Contexts

FT Style Writer Under Fake Name

A person in Epstein's circle writing for the Financial Times under a pseudonym:

- [EFTA01817570](#) (DS10): "I've been writing for the **FT style section (under a fake name)** and friendly with some of the fancy designer types." Same person: "I manage several different portfolios of Special Projects whose grants/commitments total about \$315M."

Jennifer "French" (Mother's Maiden Name)

- [EFTA01847527](#) (DS10) — Dec 6, 2011: "**Jennifer goes by last name French** (mom's maiden)." Person in Epstein's circle operating under a different surname.

Jeremy Rubin / Deploy Capital — "Just Jeff" Pseudonym Proposal

Rubin (MIT grad, Bitcoin developer) proposed Epstein participate in crypto investment calls under a partial pseudonym:

- [EFTA02601272](#) (DS11, Jul 16–17, 2018): Rubin: "I'll just schedule a time for them to talk to my 'due diligence advisor/team'. You can phone in and ask whatever you like, under a pseudonym (even just first name, not last name). You can open with something like, 'Hi this is **Jeff**, I'm helping Jeremy check out what you're planning to do with Layer One and make sure it's going to be a good investment for **Deploy Capital**.' I think that should be fine, and is not inaccurate, just imprecise."
- Epstein: "investments are people focused. and neither you nor vincenzo yet have the experience" ([EFTA02602102](#))
- Concern was explicit: "potential investments googling your name might get spooked (especially given SF politics)"

Financial structure: Rubin was paid \$25,000/quarter (\$100K/year) by Gratitude America Ltd via Deutsche Bank ([EFTA01348717](#), [EFTA01348712](#)). Deploy Capital was the fund Rubin ran with Epstein's backing. Vincenzo Iozzo (Italian cybersecurity researcher) co-managed investments.

Did Epstein participate under pseudonym? LIKELY YES but not confirmed.

The [EFTA02601272](#) email is a proposal, not a confirmed action. However Iozzo was actively sourcing deals (Layer1, Bitmain pre-IPO \$1M allocation) and seeking Epstein's input.

Disturbing exchange — [EFTA01743596](#) (DS10, Sep 8, 2016): Rubin asked Epstein about tax-free settlement transfers: "I want x-fer money from Bob to Alice. Bob starts a company, then hires Alice. Bob touches Alice inappropriately or something. Bob settles to Alice. Can Alice/Bob not pay taxes on that?" Epstein: "if the reason EVENT is due to physical damage. no tax. emotional damage. tax." Rubin: "So... the trick is to cause phys damage without being a criminal thing."

Epstein's SEO/PR Anonymity

Epstein explicitly refused to have his name used in a PR/search-engine optimization campaign:

- [EFTA02033106](#) (DS10) — Dec 26, 2010: Scott Denett: "the concept of using your name was to control the PR google search results to push away article we don't like." Epstein: "**there is no reason to use my name or initials. thanks.**"

Unresolved Leads

"Mr. Evil" (Bannon Political Context) Identity

- Gulf/Middle Eastern figure, separate from Jabor and from Abdulhak

- Involved in War Powers Act lobbying, Iraq/Gulf diplomacy
- Could influence "their sponsor" to do "a 180 on their sponsor in a heartbeat"
- Listed alongside Jabor, HBJ, Sultan, Salem, Ehud Barak
- Follow-up: Cross-reference with Abdulhak investigation; determine if same person

"Mr. Big Mac" Identity

- Megane Lemiel's boyfriend/patron, travels LA-NY
- Follow-up: Search Lemiel's other emails for real name references

"Mr. Big" / "Mr. Good-looking" Identity

- Met at Epstein's house, wealthy, attractive
- Follow-up: Cross-reference Jun 2016 emails for party/dinner attendance lists

"Secret Top Dog" at TimesUp

- [EFTA01620989](#) (DS10) — Mar 26, 2018: Joi Ito: "I talked to the **secret top dog** on the phone already" (re: TimesUp organization)

Jeffery A. Martin / jmje@protonmail.com

- What was communicated via the shared ProtonMail that couldn't go through normal email?
- What are "the secret" and the "clearing/protection" people Martin references?
- Martin explicitly chose ProtonMail to avoid legal discovery
- Follow-up: Full Martin correspondence review

"Shmitka" Etymology

- [EFTA01780034](#) (DS10) — Someone asked Epstein: "What does shmitka stand for?" — no answer recorded
- Aviation shell entity (Shmitka Air Inc.), \$10M Sikorsky deposit, Darren Indyke as VP
- Possibly Yiddish-derived? Unclear

"ehbarak" + Havelock \$250M Routing (Skype Financial Lead)

- [EFTA01622400](#) (DS10) — Nov 2016 Skype: Epstein to "ehbarak": "havelock, she is outsourcing, first geneva, by 7/16 lux by 7/17, and monaco by 7/18. saving of 250 million"
- "Havelock" likely = Havelock International (fund administration). Geneva → Luxembourg → Monaco routing with \$250M
- "ehbarak" Skype handle unresolved — could be transliteration of Arabic name
- Follow-up: Cross-reference with financial entity records; identify "ehbarak" contact

"Christian" (Germany) — Assistant Recruiter

- [EFTA01622255](#) (DS10) — Dec 2016 Skype: "**Christian** will deliver you assistants in NY first week of January. We are in Germany with him now celebrating Christmas — Birthday & selecting assistants for you from his NY network"
- Full identity not established; active recruiter of "assistants" for Epstein from German network

Samantha Rose Stein / "Truth Robot LLC"

- Used ProtonMail + Signal exclusively with Epstein (Jan-Feb 2019)
- Epstein asked "do you have a preferred name to use?" — possible pseudonymous venture
- Proposed "Truth Robot LLC" entity
- Discussed "like minded women" — Epstein asked who would join "your club"
- Follow-up: Was the entity actually formed? What investments were made?

Part 8: Debunked, Literal, and Conspiracy Claims

This section documents claims that were investigated and found to be literal references, misattributions, or conspiracy fabrications. Included to prevent re-investigation of resolved questions.

Debunked Food Codenames (Conspiracy Theory)

Social media and some outlets claimed various food terms in the Epstein files were trafficking codes. **All debunked by fact-checkers.** The food references are ordinary meal planning for a large household.

Claimed "Code"	Appearances	Actual Context	Debunked By
"Pizza"	~859	Actual food orders	Snopes
"Cheese" / "cream cheese"	~1,138	Actual food	Snopes, MediaBiasFactCheck
"Pasta"	~414	Meal planning	Snopes
"Ice cream" / "Oreo ice cream"	~591	Epstein's preference (served to Ariane de Rothschild)	Snopes
"Hot dog"	~96	Actual food	Snopes
"Jerky"	Multiple	Chef Francis Derby confirmed: beef jerky from dry-aged NY strip steak Ordered from Scalinatella restaurant: "Chicken Parm from Scalinetella will be ordered" / "just a chicken parm for Jes.. JE will not eat" / "Chicken Parm? Hamburger?" as lunch option for Ehud Barak	Snopes, MBFC
"Chicken parm"	Multiple	Harry Fisch/Epstein running food joke: "What time do you want to get pizza and grape soda tomorrow?" / "This is better than a Chinese cookie!"	EFTA01975392, EFTA02154805, EFTA02204999
"Grape soda"	Multiple	Fortune cookie reference in Fisch banter: "Not made with truffles"	EFTA01616214, EFTA02647479, EFTA00841659
"Chinese cookie"	Multiple		EFTA01616214, EFTA00841659

Claimed "Code"	Appearances	Actual Context	Debunked By
"White tuna"	Multiple	Epstein's preferred sushi: "Salmon, yellowtail, tuna, white tuna — 10pieces white tuna if JE eating" / "did you want me to pick some white Tuna sushi?"	EFTA02079599, EFTA01885924, EFTA01966157
"Bobby"	Multiple	Real named persons: Bobby Kotick (Activision CEO), Bobby Slayton (comedian)	EFTA01780270, EFTA02098640
"Candy"	Multiple	Actual candy: "I found a new candy that I like. Liquorice" / "Bring candy to suck on" (study advice)	EFTA02006522, EFTA01753069
"Amore"	Multiple	Italian word / Beverly Hills estate: "Palazzo di Amore" / Faith Kates signing "amore"	EFTA02646093, EFTA02596950

Debunked/Literal Codename Claims

Claim	Actual Finding	EFTA Evidence
"Princess Mom" = codename	LITERAL. Mom Luang Rajadarasri Jayankura, a Thai royal figure. "Hello Jeffrey I am here with Princess Mom Luang"	EFTA02018268
"White Wine" = codename for Staley	LITERAL. Jes Staley drank white wine. 15+ scheduling emails: "Please make sure we have Jes staleys white wine on hand"	EFTA02075848, EFTA02098601, EFTA02160000
Disney system = extensive codename network	LIMITED. Single exchange between Staley and Epstein (Jul 9-10, 2010). No other Disney characters found in the 2.91M-page corpus	EFTA01300650, EFTA01815523
Boris Nikolic "sleeping beauty" = codename	LITERAL. Wake-up joke ("sleeping beauty are you awake?")	EFTA01970902, EFTA01993170

Claim	Actual Finding	EFTA Evidence
"MEGAMELSY" = unidentified codename	RESOLVED. Self-assigned by Dr. Melanie Walker in flirtatious SMS. Now CONFIRMED = Walker (see Part 1)	EFTA01618131
"Pot and Kettle" = operational codename	SHELL ENTITY. Maxwell JPMorgan Chase business checking account entity (#0033839248)	EFTA01517578
"C8" prefix on Skype contacts	FORENSIC ARTIFACT. Cellebrite extraction tool marker, not a codename	All Skype extractions
"Nipple, Schoolgirl, Servitude" = Epstein's codes	FBI SEARCH TERMS. These are investigation keywords from FBI search warrants, not codenames used by Epstein's network	Sunday Guardian Live misattribution
"Students," "Trainees" = trafficking code	DEBUNKED. All corpus results show legitimate educational contexts: college students, exchange students, PhD students. Zero evidence of euphemistic usage	Sekolapedia — no citations provided
"The Assets" = victims	DEBUNKED. All "the assets" references = financial: trust assets, portfolio assets, investment assets	Sekolapedia — no citations provided
"Administrative Matters" = hush money	DEBUNKED. 0 corpus results in Epstein email context	Sekolapedia — no citations provided
"Project Management" = cash movement	DEBUNKED. All references = actual construction projects: "project management for mansion-renovation"	EFTA01818259; Sekolapedia — no citations
"Sessions" = trafficking activity	DEBUNKED. = massage/training sessions, Jeff Sessions (AG), normal scheduling: "Urban Detox sessions"	EFTA02352931, EFTA02055568
"Coven" = female recruiter network	DEBUNKED. One hit = truncated "cover": "we can also coven- chocolate cream pie." Other = person's name ("Dick Coven")	EFTA00556856, EFTA00460276
"The Office" = codename for 9 E 71st	CASUAL USAGE, not a codename. Staff called 71st St	EFTA02189106, EFTA02103092

Claim	Actual Finding	EFTA Evidence
"The Farm" = Zorro Ranch	<p>"the office": "I'm at 71st and just noticed the phone ringing on the 3rd line which I think is the 'office' line" / "I am at the office today...i don't think it is necessary for me to be over at 71st"</p> <p>0 CORPUS RESULTS. No evidence of this term being used for Zorro Ranch or any Epstein property</p> <p>CASUAL USAGE, not a codename. Epstein and staff routinely say "the island" or "my island": "Im on the island most of may" / "come visit on the island"</p>	Sekolapedia — no citations provided
"The Island" = LSJ codename	<p>VERBAL TIC. Epstein used "whoops" across ~529 pages. Used for everything from typos to deaths: replied "whoops" to Eva Dubin's news that "Mary Kennedy found dead in her backyard" but also "I called her MIL .. whoops"</p>	EFTA01927953, EFTA01928388
"whoops" = death code	<p>DISPUTED. Corpus shows "George C" in Epstein emails refers to George Church (Harvard geneticist, gc@hms.harvard.edu) , NOT George Clooney. Ellie Leonard's Substack linked to Clooney's Wikipedia page but the corpus context points to Church</p>	EFTA01884457, EFTA01870869, EFTA01619
"George C." / "Mr. C" = George Clooney	<p>DISPUTED. In context, "Ben" is a real person Mandelson is trying to invite to dinner, NOT a label for Mandelson himself: "Ben's in NY next week. Invite him to the dinner?"</p>	EFTA01787678, EFTA02612489
"BEN" = Peter Mandelson	<p>PARTIALLY CONFIRMED. Term appears in corpus primarily as Robert Maxwell's yacht name and in news articles about him.</p>	Yacht confirmed; email signature claim unveri

Claim	Actual Finding	EFTA Evidence
	Bloomberg's claim that Ghislaine used it as an email signature is NOT corroborated by corpus email headers	

The Trump Codename Question — ANALYZED

~7,889 documents in the corpus mention "Donald Trump" or "Trump" by name. This volume of by-name references is strong evidence that Trump did **not** require a codename within Epstein's inner circle — he was discussed openly.

Internet-claimed Trump codenames, corpus-checked:

Claimed Codename	Corpus Finding	Status
"MacGyver"	Ruemmler COMPARED Trump to MacGyver ("similar mannerisms") — implies they are different people. Corpus evidence identifies MacGyver as Reid Weingarten (see Part 1), corroborated by the Pottinger correspondence chain and July 2018 Mayo spine-surgery timeline	RESOLVED — MacGyver = Weingarten, not Trump
"The Donald"	Used openly by Epstein, Bannon, Mandelson, Ruemmler, Soon-Yi Previn, Landon Thomas Jr.	Public nickname, NOT a codename
"Boy Donald"	Mark Epstein to Jeffrey: "what is your boy Donald up to now?"	Casual nickname from brother, NOT a codename
"Bubba"	Mark Epstein email; Mark later denied it referred to Clinton	Disputed, NOT confirmed as Trump
"The Apprentice"	Epstein's term for young women in "Agreement of Favors" contracts	NOT about Trump's TV show
"The big guy"	CONFIRMED in corpus: Weingarten to Epstein re: "hard facts that are very difficult for the big guy to explain" (HOUSE_OVERSIGHT_032821); Landon Thomas: "Maybe even the big guy gives it a read... from the failing NYT" (EFTA02367893). BUT ALSO: Fiszal to Kahn: "Does the big guy have any friends?" = Epstein in financial context (EFTA01031195)	NOT a codename — context-dependent phrase (= Trump in political contexts, = Epstein in financial contexts)
"That dog that hasn't barked"	Epstein to Maxwell, Apr 2, 2011	Sherlock Holmes literary reference, NOT a codename

Conclusion: The corpus does not support the existence of a secret Trump codename. Trump was discussed by name thousands of times. The "MacGyver" identification (Defector) rests on one email that actually COMPARES Trump to MacGyver; the corpus evidence identifies MacGyver as Epstein's defense attorney **Reid Weingarten** (see the MacGyver entry in Part 1 for the Pottinger correspondence chain and Mayo spine-surgery timeline). Per our POTUS protocol: all evidence presented for each interpretation; no conclusion drawn where ambiguous.

Registry compiled and updated Feb 26, 2026. Systematic deep-dive: 6 query groups across 2.91M pages, 23 external sources scraped, 85+ internet claims catalogued and verified against corpus. Batch 2: Dr. Evil = Dr. Steven Victor (CONFIRMED), MEGAMELSY = Dr. Melanie Walker (CONFIRMED), MacGyver = Reid Weingarten (CONFIRMED — corrected April 2026 from earlier Brafman identification; see correction note at top), 5 ProtonMail addresses inventoried, Shmitka Air/Freedom Air entity chain mapped, 21-account JPMorgan cluster documented, Rubin "Just Jeff" pseudonym proposal documented. Batch 3: Full Skype audit (620 pages), novelty verification (7/10 findings original), internet claims cross-reference (31 CONFIRMED, 22 DEBUNKED, 2 DISPUTED, 3 UNCONFIRMED). Added: "The Duke" display name, 9-entry abbreviation table, Adriana Mucinska alias, littlestjeff Yahoo AMT data, 3 plain-text passwords, 7 food codes debunked with EFTAs, 8 Sekolapedia codes debunked, George C. = George Church correction.

All identifications are based solely on documents in the public EFTA corpus unless otherwise noted. External sources are cited with URLs for independent verification. CONFIRMED identifications have multiple independent documentary proofs. PROBABLE identifications have strong but circumstantial evidence. UNCONFIRMED entries document the codename's existence without claiming to know who is behind it. Where external consensus and corpus analysis diverge, both interpretations are presented.

ROTHSCHILD-EPSTEIN COMPREHENSIVE INVESTIGATION

Classification: Investigative Analysis of DOJ Epstein Files

Date Compiled: February 7, 2026

Databases Searched: primary document text database, Dataset 10 document text database, OCR text extraction database, image catalog database

EXECUTIVE SUMMARY

The DOJ Epstein files reveal a deep, multi-year, multi-dimensional relationship between Jeffrey Epstein and the Edmond de Rothschild banking dynasty -- particularly Ariane de Rothschild (Baroness, CEO of Edmond de Rothschild Group) and her late husband Benjamin Edmond de Rothschild (died January 15, 2021, age 57, heart attack).

Key findings from the databases:

1. **Ariane de Rothschild used a personal email channel** (aderfam.ch domain) to communicate with Epstein from at least **June 2013** through December 2018 -- with three distinct prefixes (ader@, perso@, and adr@). The April 2015 email (**EFTA02502971**) announced a new address within the domain, not the creation of the channel itself. The earliest known aderfam.ch email is **EFTA00657588** (DS9, June 19, 2013).
2. **\$24,999,980 flowed from Rothschild entities to Epstein's Southern Trust Company** in December 2015 -- split across two wires (\$10M from Edmond de Rothschild (Suisse) SA Geneva on 12/17/2015, and \$14,999,980 from Benjamin Edmond de Rothschild personally on 12/21/2015).
3. **The wire coincided exactly** with the DOJ Swiss Bank Program settlement on December 18, 2015, where Edmond de Rothschild (Suisse) paid \$45M in penalties for helping US clients hide undeclared assets.
4. **Epstein introduced Kathy Ruemmler** (former Obama White House Counsel) to the Rothschilds, and she helped negotiate the DOJ non-prosecution agreement while simultaneously maintaining close personal ties to Epstein.
5. **Epstein served as intermediary** between Ariane de Rothschild and Ehud Barak (former Israeli PM), channeling investments into Israeli cyberweapons/surveillance startups (Carbyne/Reporty). DS9 now

contains the complete Reporty Homeland Security corporate articles (EFTA00583654), Series A term sheets (EFTA00585234), and bridge financing agreements (EFTA00583689), confirming Barak's entity invested \$1.5M for 25%+ ownership.

6. **Deutsche Bank processed all wire transfers** and maintained an extensive internal email thread titled "Rothschild [C]" and "Rothschild - Being shown an offer!" tracking the account activity.
7. **Olivier Colom**, an Edmond de Rothschild executive, was in close personal contact with Epstein and served as a network conduit to European political figures including Bruno Le Maire and Nicolas Sarkozy.

Documented Email Exchanges Between Ariane de Rothschild and Jeffrey Epstein

Date	EFTA Number	Direction	Summary
March 2-4, 2014	EFTA02395020	Bidirectional	Extended crisis exchange about Benjamin de Rothschild's behavior. Ariane: "CAN't Call as B si majorly f***ed up at the House. The girls are afraid, Mimi in a total rage against Him." Epstein: "it makes me so sad and cry and tremendous Anguish as I CAN't find a viable solution. He is in a deeply sliding curve and nothing seems to stop him." Ariane: "Yes I will discuss it with the doctor this morning."
March 2, 2014	EFTA02395020	Epstein to Ariane	"Im aware that not rocking the boat is the strategy for today. the plan would be to have things ready to go. IF and only IF the likelihood of success was great. the chances that it turns bad, cannot be ruled out. so slow and private."
July 27, 2014	EFTA02518347	Epstein to Olivier Colom	"how are you? feeling any better?" -- Colom responds in deep distress: "I am in a very strange state: depressed, hopeful, humiliated but determined to keep my wife." Email bears Edmond de Rothschild (France) legal disclaimer.
November 7, 2014	EFTA02362043	Bidirectional	Discussion of tax avoidance strategies. Ariane planning visit to Epstein's NY house ("I booked at the Mark"). Discussion of PWC Luxembourg leak of 28,000 documents on fiscal rulings. Ariane: "More political than legal as fiscal rulings are legal, accepted procedures. Quite a paradox when Portugal offers 10 years free of any taxation if you become a resident."
January 12, 2015	EFTA02513986	Ruemmler to Epstein	Kathy Ruemmler writes: "had assumed you were exaggerating a bit about Benjamin. Wrong assumption." Epstein responds: "simon; I have no first hand knowledge I've never met, his father 30 years ago knew a problem was in the future."
April 19, 2015	EFTA02502971	Ariane to Epstein	THE KEY EMAIL: "Jeff I'm back. B[enjamin] is sailing in Brittany and won't be back b4 the end of next week when Noemie comes to visit. It seems he

Undated (forwarded)	EFTA01802148	To Ariane	Email forwarded to "A. de Rothschild adr@aderfam.ch" with subject "TR: TR: Update" -- confirming the aderfam.ch domain as the new "untraceable" channel.
January 11, 2017	EFTA02664889	Epstein to Ariane	Epstein sends Ariane a Huffington Post article about statins linked to nightmares -- suggesting ongoing personal/health advisory role.
March 8, 2016	EFTA02406440	Unknown sender to Epstein	"[A person] sent a photo to Noemie to make her envious!" -- reference to Noemie de Rothschild (Benjamin and Ariane's daughter), indicating gift-giving relationship.
Undated	EFTA02075023	Calendar entry	"Appt w/Kathy & Ariane" -- confirming joint meeting between Epstein, Kathy Ruemmler, and Ariane de Rothschild.

Olivier Colom (Edmond de Rothschild Executive) Communications

Date	EFTA Number	Summary
July 27, 2014	EFTA02518347	Colom confides in Epstein about marital crisis. Email carries Edmond de Rothschild (France) legal boilerplate.
August 24, 2014	EFTA02589075	Epstein to Colom: "friends stay, politics, biz change"
July 10, 2017	EFTA02644303	Epstein to Colom: "free?" -- maintaining contact years later

Significance Analysis

1. **Deliberate OPSEC:** The CEO of a major Swiss bank explicitly told a convicted sex offender that she had created an email address "that nobody can access." The domain confirmed elsewhere is **aderfam.ch** -- a personal/family domain, not an Edmond de Rothschild corporate address. DS9 reveals the **aderfam.ch** channel was operational from **at least June 2013** ([EFTA00657588](#), a bounce-back email containing Epstein's letter: "shared with me 30 years ago has acted as a compass for my business life") -- nearly two years earlier than the April 2015 email that announced a new address within the domain. Three distinct prefixes were used: **ader@aderfam.ch**, **perso@aderfam.ch** (from at least January 2018), and **adr@aderfam.ch**. The full corpus contains **176+ aderfam.ch emails** spanning June 2013 through December 2018 ([EFTA02311949](#)).
2. **Timing:** April 2015 -- approximately 5 months before the signing of the \$25M consulting agreement (dated September 2015 per [EFTA00310331](#)), and 8 months before the December 2015 wire transfers of \$25M from Rothschild entities to Epstein's Southern Trust.
3. **"Ade Rothschild-2":** The sender name indicates this was her SECOND email account set up specifically for Epstein correspondence -- further confirming compartmentalization of the communication channel. The earlier **ader@aderfam.ch** account was the primary address used from 2013 onward.
4. **Content Reveals Intimate Relationship:** Ariane discusses:
 - Her husband Benjamin's erratic behavior ("keep his attitude. Unsustainable")
 - Potential divorce from Benjamin
 - Real estate interests (Michael Douglas property)
 - Daughter Noemie's visit scheduleThese personal disclosures to Epstein — who had been convicted in 2008 — indicate a relationship extending well beyond professional consulting.
5. **Evasion of Corporate Oversight:** Using **aderfam.ch** rather than **edmond-de-rothschild.com** ensured that:
 - Edmond de Rothschild compliance departments could not monitor communications
 - Swiss financial regulators could not access the exchanges
 - DOJ investigators would have difficulty discovering the channel through standard subpoena routes

3. THE \$25 MILLION WIRE TRACE

Source Document: [EFTA00027019](#) -- "EXHIBIT A: LEON BLACK / ROTHSCHILD GROUP TRANSACTIONS"

This DOJ prosecution exhibit documents all wire transfers through Epstein's Deutsche Bank accounts. The Rothschild transactions appear in the final section:

December 2015 Wire Transfers

Date	Payer	Recipient	Amount	Bates #
12/17/2015	Edmond de Rothschild (Suisse) SA Geneva, Switzerland	Southern Trust Company, Inc.	\$10,000,000	DB-SDNY- 0005122
12/18/2015	Black Family Partners, LP	Southern Trust Company, Inc.	\$10,000,000	DB-SDNY- 0005122
12/21/2015	Benjamin Edmond de Rothschild	[Southern Tru]st Company, Inc.	\$14,999,980	DB-SDNY- 0005122
12/30/2015	Leon and Debra Black c/o Apollo Management	[Southern Tru]st Company, Inc.	\$10,000,000	DB-SDNY- 0005123

Total Rothschild Inflow: \$24,999,980

- \$10,000,000 from the institutional bank (Edmond de Rothschild Suisse SA)
- \$14,999,980 from Benjamin de Rothschild personally
- Combined: \$24,999,980 (~\$25M as specified in the consulting agreement)

The Consulting Agreement (September 2015)

The complete 6-page "Letter of Agreement" is now available at [EFTA00310331](#) (DS9):

- **Parties:** Southern Trust Company, Inc. (Epstein, President) and Edmond de Rothschild Holding S.A. (Ariane de Rothschild, representative). Ariane signed both personally AND as representative of EdR Holding SA.
- **Scope:** "Risk analysis and estate planning matters" plus "algorithms" -- collectively "Specified Matters"
- **Tiered Fee Structure (Section 2(b)):**
 - \$10,000,000 if DOJ penalty was between \$75M and \$150M
 - \$25,000,000 if DOJ penalty was \$75M or less
- **Payment trigger:** Within 30 days of final DOJ settlement
- **Additional terms:** Reimbursement of all travel and out-of-pocket expenses; full indemnification of Epstein/STC; explicit disclaimer that the agreement did NOT constitute investment advice; USVI governing law, USVI courts
- **Outcome:** The actual DOJ penalty was \$45M -- well under the \$75M threshold -- triggering the maximum \$25M fee. This tiered structure incentivized Epstein to minimize the DOJ penalty, aligning his financial interests with the Rothschild bank's. Given that Ruemmler — who was introduced to the Rothschilds by Epstein — was simultaneously the DOJ-facing negotiator, this arrangement raises conflict-of-interest questions.

The DOJ Settlement Connection (December 18, 2015)

Critical timing sequence:

1. **December 17, 2015:** Edmond de Rothschild (Suisse) SA wires \$10M to Southern Trust
 2. **December 18, 2015:** Edmond de Rothschild (Suisse) SA enters **non-prosecution agreement** with DOJ under the Swiss Bank Program, paying **\$45 million penalty** for helping US clients hide billions in undeclared assets
 3. **December 21, 2015:** Benjamin Edmond de Rothschild personally wires \$14,999,980 to Southern Trust
- The payment trigger in the consulting agreement explicitly stated:** payment within three days after the Rothschild Group completed its payment to US authorities. The December 17 wire preceded the December 18 DOJ settlement by one day, and the December 21 personal wire followed it by three days -- exactly matching the contractual payment trigger.

Downstream Disposition of Rothschild Funds

After receiving the ~\$25M, Epstein's Southern Trust Company distributed funds to:

Investment/Hedge Funds (from Exhibit B):

Date	From	To	Amount
3/1/2016	Southern Financial LLC	Boothbay Absolute Strategies Fund LP	\$10,000,000
3/31/2016	Southern Financial LLC	Boothbay Absolute Strategies Fund LLP	\$5,000,000
5/31/2016	Southern Trust Company	Honeycomb Partners LP	\$20,000,000

Via The Haze Trust / Plan D, LLC (from Exhibit D):

Date	From	To	Amount
1/8/2016	The Haze Trust (DB Brokerage)	[Transfer]	\$20,000,000
3/27/2017	The Haze Trust DBAGNY Plan D, LLC	Checking	\$15,000,000
3/31/2017	BV70 LLC Plan D, LLC		\$22,500,000

Other Notable Outflows from Epstein's SuperNow Accounts (Exhibit C):

Date	To	Amount
11/13/2015	Kellerhals Ferguson Kroblin PLLC	\$23,000,000
1/8/2016	The Haze Trust (DB Brokerage)	\$20,000,000

The Rothschild funds were comingled with Leon Black's payments and distributed through Epstein's complex web of entities.

4. RUEMMLER "EXAGGERATING ABOUT BENJAMIN" -- FULL CONTEXT

Source Document: **EFTA02513986**

Date: Monday, January 12, 2015, 9:17 AM

From: jeffrey E. (jeevacation@gmail.com)

To: Kathy Ruemmler

Full Reconstructed Text:

Kathy Ruemmler wrote first:

"had assumed you were exaggerating a bit about Benjamin. Wrong assumption."

Epstein responded:

"simon; I have no first hand knowledge I've never met, his father 30 years ago knew a problem was in the future"

Analysis

- Ruemmler had personal knowledge of Benjamin de Rothschild:** The phrase "Wrong assumption" indicates she had recently met or observed Benjamin and discovered that Epstein's warnings about his behavior were accurate -- likely after a dinner or meeting arranged by Epstein.
- "His father 30 years ago knew a problem was in the future":** Epstein references Edmond Adolphe de Rothschild (1926-1997), Benjamin's father, who founded the bank. This indicates Epstein's relationship with the Rothschild family dated back to approximately 1985 -- to the generation before Ariane and Benjamin.
- The "simon" reference** is cryptic -- possibly a code name or an intermediary who also had concerns about Benjamin.
- Context from EFTA02395020 (March 2014):** In emails one year earlier, Ariane told Epstein: "CAN't Call as B[enjamin] majorly f***ed up at the House. The girls are afraid, Mimi in a total rage against Him...and I'm about to give up on it all as my brain is about to explode with anguish." Epstein responded: "He is in a deeply sliding curve and nothing seems to stop him. I'm also afraid for our Security as he doesn't know what he is doing."

5. **Joint Calendar Entry (EFTA02075023):** "Appt w/Kathy & Ariane" confirms Ruemmler and Ariane de Rothschild met jointly with Epstein -- likely the meeting where Ruemmler observed Benjamin's behavior firsthand.

Ruemmler's Dual Role

Kathy Ruemmler occupied an extraordinary position in this network:

- **Former Obama White House Counsel** (2011-2014)
- **Latham & Watkins Partner** representing Edmond de Rothschild in the DOJ Swiss Bank Program investigation -- introduced to the client by Epstein
- **Close personal associate of Epstein** (dozens of meetings 2014-2019)
- **Named as backup executor** in Epstein's January 2019 will
- **Goldman Sachs General Counsel** (current position)

She simultaneously:

1. Represented the Rothschild bank in DOJ negotiations
2. Maintained an intimate advisory relationship with Epstein
3. Had direct personal knowledge of Benjamin de Rothschild's erratic behavior
4. Met jointly with Ariane de Rothschild and Epstein

5. DEUTSCHE BANK INTERNAL HANDLING

The "Rothschild [C]" Email Thread

Deutsche Bank maintained an extensive internal email chain with the subject line "Rothschild [C]" (where [C] likely denotes "Confidential" or "Compliance"). The thread involved the following bank personnel:

Key Deutsche Bank Staff on the Thread:

- **Richard Kahn** -- Senior relationship manager
- **Stewart Oldfield** -- Compliance/operations
- **Vahe Stepanian** -- Compliance
- **Delores Rubin** -- Operations
- **Matt Glassman** -- Unknown role
- **Davide-A Sferrazza** -- Operations
- **Tazia Smith** -- Unknown role
- **Ariane Dwyer** -- (Note: Different from Ariane de Rothschild; this is a DB employee)

Documents in the "Rothschild [C]" Thread

The following EFTA documents are part of this internal chain (all from approximately May 2017):

EFTA01380670	"Rothschild - Being shown an offer"
EFTA01380671	"Rothschild - Being shown an offer!"

Significance: This subject line indicates Deutsche Bank staff were internally discussing a financial arrangement involving Rothschild entities and Epstein's accounts. Whether this refers specifically to the \$25M consulting agreement or another matter is not established from the subject lines alone. The "[C]" designation indicates confidential classification.

6. BENJAMIN DE ROTHSCHILD'S DEATH AND TIMING

The Death

Benjamin Edmond Maurice de Rothschild died on January 15, 2021, at his home in Pregny-Chambesey, Switzerland. Cause of death: heart attack. Age: 57.

Key Timeline

Date	Event
~1985	Epstein's relationship with Rothschild family begins (per his reference to Benjamin's father knowing "a problem was in the future" 30 years ago)
1997	Benjamin inherits Edmond de Rothschild Group after father Edmond Adolphe de Rothschild's death
March 2014	Ariane describes Benjamin's violent episodes to Epstein ("majorly f***ed up at the House. The girls are afraid")
January 2015	Ruemmler confirms Benjamin's behavior to Epstein ("Wrong assumption")
April 2015	Ariane creates untraceable email to Epstein; discusses divorcing Benjamin
September 2015	\$25M consulting agreement signed between Southern Trust and EdR Holding SA (EFTA00310331 ; exact day left blank in signature block)
December 17, 2015	\$10M wire from EdR (Suisse) SA to Southern Trust
December 18, 2015	DOJ non-prosecution agreement with EdR (Suisse) -- \$45M penalty
December 21, 2015	\$14,999,980 wire from Benjamin personally to Southern Trust
July 6, 2019	Epstein arrested in New York
August 10, 2019	Epstein found dead in Metropolitan Correctional Center
January 15, 2021	Benjamin de Rothschild dies of heart attack, age 57
2021	Ariane de Rothschild becomes Chairman of Edmond de Rothschild Group
March 2023	Ariane becomes CEO, first non-Rothschild by blood to lead a Rothschild institution
January 2026	DOJ Epstein Files released, revealing the full scope of the relationship

Investigative Significance of Benjamin's Death

1. **Benjamin died 17 months after Epstein** -- he can never be deposed or questioned about the \$14,999,980 personal wire to Southern Trust.
2. **Both principals to the \$25M transaction are dead** -- Epstein (August 2019) and Benjamin (January 2021).

3. **Only Ariane de Rothschild remains** as a living signatory to the consulting agreement and a witness to the full scope of the relationship.
 4. **Benjamin's erratic behavior** documented in the emails ("majorly f***ed up," "deeply sliding curve," "doesn't know what he is doing") raises questions about his capacity to authorize the \$14.9M personal wire and whether Ariane was the actual decision-maker.
-

7. ARIANE DE ROTHSCHILD'S ROLE IN THE RELATIONSHIP

Current Position

- **Chairwoman and CEO**, Edmond de Rothschild Group (since 2023)
- First person without Rothschild lineage to run a Rothschild-branded financial institution
- Oversees approximately \$175 billion in assets under management

Her Role as Documented in the Files

1. Primary Point of Contact (Not Benjamin):

All personal email exchanges in the databases are between Epstein and Ariane, not Benjamin. She was the one who:

- Created the untraceable email channel ([EFTA02502971](#))
- Discussed tax avoidance strategies ([EFTA02362043](#))
- Shared intimate family details with Epstein
- Signed the \$25M consulting agreement as representative of EdR Holding SA

2. Discussed Divorcing Benjamin with Epstein:

"At the going rate, We should seriously consider separating/divorcing -- would make my life much happier" (April 2015). This reveals Epstein as trusted personal adviser to Ariane, not merely a financial consultant.

3. Tax Strategy Discussions:

In the November 2014 exchange ([EFTA02362043](#)), Ariane and Epstein discussed:

- PWC Luxembourg leak of 28,000 documents on fiscal rulings
- Portugal's 10-year tax-free residency program
- The UBS case ending in acquittal ("a good balance")
- Ariane was traveling to meet Epstein at his NY house, staying at The Mark hotel

4. Medical/Health Advisory Role:

- In March 2014, Ariane said she would "discuss it with the doctor this morning" after Epstein's guidance
- In January 2017, Epstein sent her an article about statins causing nightmares -- suggesting he monitored her (or Benjamin's) health

5. Coordinated with Ruemmler:

The joint calendar entry "Appt w/Kathy & Ariane" ([EFTA02075023](#)) confirms all three met together. The subject of the meeting is not specified in the calendar entry.

6. Edmond de Rothschild Corporate Email:

The [EFTA02518347](#) email between Epstein and Olivier Colom bears the full Edmond de Rothschild (France) legal boilerplate, demonstrating that communications flowed through official bank channels as well as personal ones.

The aderfam.ch Domain

The "new email address that nobody can access" used the domain **aderfam.ch**:

- "adr" = Ariane de Rothschild
- "fam" = family

- ".ch" = Switzerland

- Confirmed in [EFTA01802148](#): email forwarded to "A. de Rothschild adr@aderfam.ch"

This was a personal Swiss-registered domain outside all corporate oversight, regulatory monitoring, and standard legal discovery pathways.

8. THE EHUD BARAK / ISRAELI CYBERWEAPONS DIMENSION

Per public reporting (DropSite News, November 2025), the \$25M paid to Epstein's Southern Trust was connected to a broader scheme:

1. Epstein acted as intermediary between Ariane de Rothschild and former Israeli PM Ehud Barak
2. In January 2014, Epstein arranged a dinner in Paris with Ariane, Barak, and Nicolas Sarkozy
3. Epstein advised Barak on managing the Rothschild relationship: provide "time, attention, stable, recurring, predictable" engagement
4. The Southern Trust entity that received the \$25M was the same entity used to fund Barak's security startup **Reporty Homeland Security** (later renamed **Carbyne**)
5. Barak's ventures explored offensive hacking tools and surveillance systems targeting cell phones, routers, and the Tor network

9. OLIVIER COLOM -- THE ROTHSCHILD INSIDER

Profile

- Former French diplomat, part of Nicolas Sarkozy's circle
- Moved to Edmond de Rothschild private bank
- In close personal contact with Epstein from at least 2013
- DS9/DS11 expanded the Colom documentation from 3 documents to **329 unique documents** (173 in DS9, 156 in DS11), revealing Colom as a deeply embedded member of Epstein's network

Key Communications

EFTA02518347 (July 27, 2014):

Colom to Epstein, during personal crisis:

"Thanks. I am in a very strange state: depressed, hopeful, humiliated but determined to keep my wife. All that at various levels depending time, circumstances etc. Worst time in my life so far."

Epstein responded:

"understood. you might want to take an afternoon in the countryside at a minimum to get some distance. I find it really helps"

Per public reporting:

- In 2013, Epstein emailed Colom: "On my island in the Caribbean, with an aquarium full of girls"
- Colom offered to introduce Epstein to ambassadors, European Parliament members, "a rising star of Indian politics," and "the Russian Deputy Minister of Economy"
- In September 2013, Colom brought French politician **Bruno Le Maire** (later Finance Minister) to Epstein's New York home
- Colom told Epstein "I want to make a lot of money" before one of Epstein's Paris trips
- Colom offered to provide Epstein "a good French butler"

Significance

Colom served as Epstein's conduit into the heart of the Edmond de Rothschild banking operation and European political networks. His correspondence with Epstein used official EdR (France) email with full legal disclaimers, indicating the bank was aware (or should have been aware) of the relationship.

10. PROSECUTORIAL SIGNIFICANCE

Potential Legal Questions

Note: No criminal charges have been filed against any Rothschild entity or individual in connection with the matters described below. The following identifies statutes that investigators or prosecutors might examine based on the documented facts.

1. Wire Fraud / Bank Fraud (18 U.S.C. sections 1343, 1344):

The \$25M consulting agreement for "risk analysis" and "algorithms" raises questions about the nature of the services provided: no evidence in the databases of any deliverable "risk analysis" or "algorithm" work product has been identified. The fee was contractually triggered by the DOJ settlement outcome, and Epstein had introduced Ruemmler — who negotiated that settlement — to the Rothschild bank. Whether this arrangement constitutes legitimate consulting or something else would be a question for investigators.

2. Conspiracy to Obstruct Justice (18 U.S.C. section 1512):

Creating an email channel described as one "that nobody can access" while a \$25M payment and DOJ settlement were being negotiated raises questions about whether there was an intent to avoid oversight. No obstruction charges have been filed.

3. Financial Layering (18 U.S.C. section 1956):

The \$25M flowed from Rothschild entities through Southern Trust into multiple hedge funds, trusts, and shell entities. This multi-step distribution is consistent with patterns that regulators examine for potential layering, though no money laundering charges have been filed in connection with these transactions.

4. Tax Planning Questions:

The November 2014 email exchange (**EFTA02362043**) discussed Portugal residency programs and the PWC Luxembourg leak. Ariane characterized fiscal rulings as "legal, accepted procedures." The exchange shows awareness of cross-border tax planning, though the specific strategies discussed

(Portugal residency) are legal in themselves.

5. FARA Questions (22 U.S.C. section 611):

Epstein acted as intermediary between Rothschild banking interests and Israeli defense/intelligence ventures (Carbyne/Reporty via Barak). Whether this activity would require FARA registration has not been formally examined.

Key Questions for Further Investigation

1. **What did Rummier know and when?** She was simultaneously Epstein's close personal associate, the Rothschild bank's lawyer, and an officer of the court. Did she disclose Epstein's criminal history to the DOJ when negotiating the non-prosecution agreement?
2. **What services did Epstein actually provide for \$25M?** No evidence in the databases of any deliverable "risk analysis" or "algorithm" work product.
3. **Was the \$25M payment actually a fee for Epstein's introduction of Rummier?** The payment was contractually triggered by the DOJ settlement -- the very settlement Rummier negotiated.
4. **What communications exist on the aderfam.ch domain?** Swiss-hosted email outside the reach of standard US subpoenas.
5. **What was discussed at the "Appt w/Kathy & Ariane" meeting?** All three principals in the \$25M/DOJ settlement in one room.
6. **Why did Benjamin de Rothschild wire \$14,999,980 personally?** This was not from the bank -- it was personal funds, suggesting the relationship went beyond institutional consulting.
7. **What role did Deutsche Bank play in facilitating the relationship?** The extensive "Rothschild [C]" and "Being shown an offer!" email threads indicate the bank was aware of and actively managing the Rothschild-Epstein financial relationship.

11. DS9/DS11 EXPANDED FINDINGS (Full-Text Corpus Revisit)

11.1 Epstein as De Facto Chief Strategist

DS9 and DS11 reveal Epstein functioning as de facto chief strategist for the Edmond de Rothschild Group, far beyond the "risk analysis and algorithms" framing of the consulting agreement:

- **CEO Hiring (EFTA02341138, April 2017):** Epstein emailed Ariane a detailed corporate strategy memo advising on bringing in "boris plus 2 or 3" and targeting "jan 1" as a start date. "Boris" = Boris Collardi, former CEO of Julius Baer, who joined EdR in late 2017. DS9 confirms extensive direct Epstein-Collardi communication (EFTA00450404, EFTA00636001). Collardi became CEO of EdR Group in 2019.
- **Compliance Restructuring (EFTA02337209, April 2016):** Ariane described a compliance crisis at EdR Luxembourg. Epstein advised: "the structure having compliance report to the ceo is one of the major issues. since he was dirty, core problem." He instructed Ariane to go "SLOW< all decision should be run by kathy" -- indicating Ruemmler was being consulted on bank governance decisions.
- **Merger Strategy (EFTA02341138, April 2017):** Epstein advised against a near-term merger ("I cant get a current merger to work") and instead proposed a "2020 transaction" timeline.
- **Family Estate Planning (EFTA02341138):** Epstein instructed: "re-do family documents... wills, trusts."
- **Internal Politics (EFTA02341138):** In a numbered strategic plan, Epstein wrote "castrate nadine" — crude language referring to marginalizing Nadine de Rothschild's (Benjamin's mother, Baroness) influence within the family governance structure. Ariane responded: "Could we please avoid these emails as all my assistants read them?"

11.2 Rothschild Family Financial Records in Epstein's Possession

- **EFTA00593274 (DS9):** Edmond de Rothschild (Suisse) SA Consolidated Cash Flow Statement at June 30, 2014 — the bank's internal consolidated financial statements (both consolidated and unconsolidated versions) were in Epstein's files. The consulting agreement covered "risk analysis," which could explain access to financial statements, though internal mid-year bank financials are not typically shared with external consultants.
- **EFTA00611779 (DS9):** A detailed Rothschild family personal cash flow spreadsheet covering 2015, with columns for homes (Pregny, Bretagne, Paris, Mozambique, Cameroon), foundations (agriculture, wine, vineyards, Lafite), investments, and an aviation budget totaling \$4M (Gulfstream, Airbus, BBJ, helicopter). The granularity of this document — down to animal expenses, groceries, and helicopter hours — suggests a level of financial involvement beyond arms-length consulting.
- **EFTA00310337 (DS9):** Furniture invoice billed to "Baronne Benjamin de Rothschild c/o Marie Therese de Brignac, Chateau de Pregny" -- EUR 155,332.80 for Paola Lenti furniture, referencing "Mr. Epstein Jeff," confirming Epstein procured furnishings on the Rothschilds' behalf.
- **EFTA00595998 (DS9):** 40+ pages of auction invoices to "Baron/Baronne Benjamin de Rothschild" from Sotheby's, Christie's, Phillips, Piasa, Artcurial, Pierre Berge, and Tajan for Nov-Dec 2014 Paris

auctions.

11.3 DNA Kits to Chateau de Pregny

EFTA00447582 (DS9, March 17, 2017): Epstein staff email: "we should have received 4 DNA Kits yesterday from Amazon (23 and Me kits) Jeffrey wants them Fed Ex'd to [redacted recipient] in Geneva... Chateau de Pregny: is the home address." The recipient name is redacted in the document; the Chateau de Pregny address is the Rothschild family residence. The purpose of the DNA kits is not stated in the document.

11.4 Noemie de Rothschild Direct Contact

EFTA00707542 (DS9, May 5, 2015): Noemie de Rothschild emailed Epstein directly: "Thought you would like it :) Noemie" -- the first document showing a Rothschild daughter communicating directly with Epstein. The original report mentioned Noemie only as discussed by Ariane.

11.5 July 2015 Multi-Day Meeting Schedule

Calendar entries **EFTA00304497 / EFTA00345338 (DS9)** show Epstein's schedule for July 19-21, 2015, including: "Kathy Rummmler & Ariane de Rothschild along w/Setvine? Hamad? Cynthia? Henri? Summers? Shabaz?" The question marks after each name indicate a tentative guest list, not a confirmed roster. Other entries on the same schedule include meetings with Leon Black, Woody Allen, Brad Karp, and others. Possible identifications include Cynthia Tobiano (EdR executive) and Henri Ader (Ariane's lawyer), though these are inferences from first names only. This schedule was approximately 2 months before the consulting agreement was signed and 5 months before the DOJ settlement and \$25M wire.

Robert Trivers: The Funded Evolutionist

Executive Summary

Robert Trivers — one of the most influential evolutionary biologists since Darwin, developer of reciprocal altruism theory, Crafoord Prize laureate — maintained a deep financial and intellectual dependency on Jeffrey Epstein from at least 2009 through March 2019, four months before Epstein's arrest. The relationship went far beyond typical philanthropy: Epstein was Trivers' self-described "major funder," actively directed which research topics Trivers could pursue, offered six-figure donations to universities as job placement leverage, and processed payments through a chain of shell entities (C.O.U.Q. Foundation → Enhanced Education Foundation → HBRK Associates). The corpus contains 943+ documents spanning a decade of correspondence that reveals a brilliant but financially desperate scientist increasingly dependent on a convicted sex offender's patronage.

In 2023 — four years after Epstein's death — the FBI FinCEN Liaison Officer sent an "URGENT - Deconfliction request" naming Trivers alongside Nautilus Inc and Sotheby's, indicating that Suspicious Activity Reports had been filed in connection with Epstein-related financial flows. This is unreported by any media outlet.

Key unreported findings:

- FBI FinCEN deconfliction naming Trivers (2023)
- Chapman University expelled Trivers for drunkenly exposing himself to a staff member; he blamed the firing on Chapman discovering Epstein's identity
- Funding pipeline: Enhanced Education Foundation → HBRK Associates (Richard Kahn) → Trivers

- Epstein actively controlled Trivers' research direction, blocking honor killings research and steering him toward transgender biology
- Trivers confessed suicidal/homicidal ideation to Epstein, who responded by offering to fly him to Palm Beach

- Trivers introduced Norman Finkelstein to Epstein, noting both had "experience with lock-up"

Previously reported (Feb 2026): The "bevy of beauties" lunch email, the transgender research steering, and approximate funding levels were covered by Yahoo News, Nature, and the Chronicle of Higher Education following the EFTA release. Trivers' defense of Epstein and offensive comments about victims were reported by Reuters in 2015. The full scope of the financial pipeline, the Chapman incident, the FinCEN investigation, and the depth of intellectual dependency documented below have not been reported.

Robert Trivers: Background

Robert Ludlow Trivers (born February 19, 1943, Washington, D.C.) is an American evolutionary biologist whose five landmark papers in the 1970s reshaped the field: reciprocal altruism (1971), parental investment and sexual selection (1972), facultative sex ratio determination (1973), parent-offspring conflict (1974), and the evolution of self-deception. Cited in Time magazine's [special issue on the 100 greatest thinkers and scientists of the 20th century](#) and called "the preeminent living evolutionist of our times" by the [Los Angeles Review of Books](#), Trivers won the [Crafoord Prize in Biosciences](#) in 2007 — biology's equivalent of the Nobel — worth \$500,000.

Trivers' biography is itself extraordinary. The son of a U.S. State Department diplomat involved in post-war German denazification, he studied history at Harvard before switching to biology, earning his PhD in 1972 under the influence of Ernst Mayr and William Drury (formally advised by Ernest Williams). He was a member of the [Black Panther Party](#) and drove a getaway car for Huey Newton. Diagnosed with bipolar disorder, he was hospitalized multiple times. He spent years living in Jamaica, where he was known as the "Lizard Man," married twice to Jamaican women, was stabbed through the hand with an ice pick, stabbed a burglar in the neck in self-defense, and joined the Homosexual Defense League to protect gay men from mob violence. He accumulated [multiple arrests](#) and survived robberies at knife, machete, and gunpoint.

His academic career was equally turbulent. After faculty positions at Harvard (1973-1978) and UC Santa Cruz (1978-1994), he joined Rutgers in 1994. In 2012, the [Chronicle of Higher Education reported](#) he was banned from campus for five months after a drunken confrontation with a colleague over a disputed Nature paper. In 2014, he was [suspended](#) for refusing to teach a class he said was outside his expertise. By 2015, he departed under a buyout requiring a nondisclosure agreement. It was during this period of institutional exile — brilliant but unemployable, broke, bipolar, and aging — that Epstein's financial support became not just welcome but existential. In a 2010 funding proposal, Trivers revealed the depth of his desperation: he had been "ineligible for whatever reasons to receive federal support of any sort and have been for over 30 years" ([EFTA00761771](#)). His Biosocial Research Foundation, set up in 1992, had been funded mainly by [Gordon Getty](#), and the \$500K Crafoord Prize money had run out.

The Financial Pipeline

Year-by-Year Funding

Trivers himself itemized the financial relationship in a remarkable email to Epstein on March 14, 2019 — four months before Epstein's arrest:

"i have recently revised the facts: 2011 25 grand COUG / 2013-2017 between 20 and 30 grand a year ELF / with the exception of 2016 when it was 40,000 because you slapped a 10,000 'late fee' on yourself for forgetting to send 30 grand, as promised early in January"
— [EFTA01030350](#)

Year	Amount	Entity	Source
2010	\$25,000	C.O.U.Q. Foundation	BuzzFeed News (2019) , IRS 990 filing
2011	\$25,000	C.O.U.Q. Foundation	EFTA01030350 (Trivers' own accounting)
2013	~\$20-30,000	Enhanced Education ("ELF")	EFTA01030350
2014	~\$20-30,000	Enhanced Education ("ELF")	EFTA01030350
2015	\$30,000	Enhanced Education ("ELF")	EFTA02502553 , EFTA00860559
2016	\$40,000	Enhanced Education ("ELF")	EFTA01030350 (includes \$10K "late fee")
2017	~\$20-30,000	Enhanced Education ("ELF")	EFTA01030350
Total	~\$175,000-\$225,000		

The Entities

C.O.U.Q. Foundation — Epstein's philanthropic vehicle (EIN 13-3996471), with Epstein as president. Made [\\$46 million in transfers to Les Wexner's YLK Charitable Trust](#) in 2008, plus donations to Harvard, Stanford, Ohio State, and the Ramaz School. [IRS 990 filings available on Scribd](#). The foundation shut down circa 2012.

In January 2012, Trivers emailed Epstein asking for the foundation's address: "can you give me an address with zip for your Foundation that kindly gave me \$25,000 in 2010? i only have it listed as COUG Foundation in NYC. the IRS on my 990 PF is asking for the exact address." ([EFTA02548850](#))

Enhanced Education Foundation ("ELF") — The successor vehicle after C.O.U.Q. shut down. Linked to the [J. Epstein VI Foundation](#), which also funded Lawrence Krauss's Origins Project at ASU (\$250,000, 2010-2017) and George Church's work at Harvard. Made the now-broken \$30 million pledge to Harvard's Program for Evolutionary Dynamics (only \$6.5M delivered).

The HBRK Pipeline

The funding didn't flow directly from Epstein to Trivers. In May 2015, Trivers asked Epstein for the promised \$20,000 for a sprinting research project in Jamaica. Epstein replied "yes of course" — and cc'd **Richard Kahn at HBRK Associates** to process the payment:

"i wonder if i can ask your Enhanced Education Foundation to send along the promised 20...i am eager to 'buy' a set of data...reaction times, speed to 20m, and brute strength."
— [EFTA02502553](#)

Kahn followed up multiple times asking for wire details ([EFTA02718307](#), [EFTA00635824](#)). This confirms the funding conduit: **Epstein → Enhanced Education Foundation → HBRK Associates → Trivers' Biosocial Research Foundation**. HBRK Associates was the operational hub managing Epstein's finances — see our [HBRK/Emad Hanna investigation](#) documenting how HBRK managed \$84.5M across 39+ entities.

"I Am His Major Funder"

Epstein was explicit about the relationship's nature. In an email exchange with Noam Chomsky on October 20, 2015:

Chomsky: "Hah. One for Bob Trivers."

Epstein: "i am his major funder [OCR: 'binder']. he got thrown out of rutgers for good this

time."

Chomsky: "Good choice. He's a great scientist and fine guy. Thrown out of Rutgers? I didn't hear anything about that. Was just down there for talks."

— [EFTA00714274](#)

The exchange arose from a joke about reciprocal altruism — Epstein helping with Chomsky's wife's medical care.

The \$100,000 University Donation Offer

Beyond direct payments, Epstein offered Trivers a standing \$100,000 donation to any university that would hire him — with \$80,000 earmarked for a research fund under Trivers' control:

"you called me once when i was waiting outside a CUNY building waiting for an interview for a possible job—when you heard that, you said, if it comes up and would be useful tell them you have a friend who will donate 100 grand to them, 80 to be put in a research fund under my control"

— [EFTA01030350](#)

This offer was deployed as leverage at CUNY, Oklahoma State, and Chapman University before the Chapman "debacle" retired it.

The Brockman Intermediary

The initial connection ran through John Brockman's Edge Foundation. In November 2009, Brockman wrote Epstein a confidential note about Trivers:

"He needs some support for research, i.e. a budget to hire people to help with his book, etc. but he's embarrassed to ask you. I told him to write up a proposal and send it to you which he'll do or not do."

— [EFTA00768588](#)

Within months, Epstein committed the initial \$25,000: "i am starting you off with 25k" ([EFTA00747390](#)). That money funded research that went into Trivers' 2011 book *The Folly of Fools: The Logic of Deceit and Self-Deception in Human Life*. Before publication, Trivers wrote to ask "the name of your foundation, or how you wish to be referred to, for the acknowledgements of my self-deception book—i thank several foundations and would like to thank yours" ([EFTA00677165](#)). The C.O.U.Q. Foundation was duly acknowledged. His 2015 memoir *Wild Life* went further — Trivers "thanked your Foundation but also you" personally ([EFTA02475456](#)).

The Bank Records

The financial trail is documented not just in emails but in actual banking records. A J.P. Morgan bank statement for The COUQ Foundation Inc. from April 2010 shows a \$50,000 deposit from Enhanced Education, followed by a \$25,000 debit to Bay Federal Credit Union, Scotts Valley, CA — the account for Trivers' Biosocial Research Foundation ([EFTA01500963](#)).

The 2013 funding chain is documented step by step: Trivers requests \$20,000, specifying "NO make it out to my own Foundation, as before: Biosocial Research Foundation" and explaining Rutgers "takes 5% off the top." Epstein forwards to Richard Kahn at HBRK. Kahn asks "please advise on amount you would like to send from enhanced." Epstein replies: "20k."

([EFTA00968905](#), [EFTA00969082](#), [EFTA00969084](#))

By 2017, the process was routine. Kahn confirmed: "25k from enhanced as we have done in the past. I will have Darren draft agreement. Ok for check to go out today before agreement returned." Epstein: "Yes." ([EFTA01037144](#)) — Darren Indyke drafted the grant agreements, and checks went out before paperwork was returned.

Research Direction: Epstein as Patron-Controller

Epstein did not merely fund Trivers' existing work — he actively directed which research topics he

would support. The clearest evidence comes from a March 2019 exchange, when Trivers asked why funding had stopped:

Trivers: "after 7 years of continuous support, you seemed to flip, no support at all for past two years nor response to requests"

Epstein: "I thought that you might want to focus on transgender biology. people would be interested and i would fund. I am a true believer in your talents. my understanding and of course it could be incorrect was that honor killing work was detrimental for you... giving you money for subjects that would be in my strong view detrimental to your future creates a problem."

— [EFTA01035762](#)

Trivers largely agreed: "i certainly agree on the interest side—and therefore the commercial side—far better LGBTQ than Honour killing—the latter i will complete in my spare time on behalf of the victims" ([EFTA02637714](#)). He accepted the funding pivot but insisted he'd continue the honor killings work unpaid. This was five months before Epstein's arrest.

The pattern was consistent. In August 2017, Trivers reported solving "the problem of honour killings in both Islamic and Hindu settings." Epstein engaged substantively, replying with his own theory: "if you kill your daughter you dont have to pay a dowry to another family, reducing the tribes wealth" ([EFTA02638980](#)). But by 2019, Epstein had decided this line of research was commercially unviable and cut off funding until Trivers agreed to pivot.

Epstein also deployed Trivers' theories as intellectual currency. To Martin Nowak in 2009: "many of the codes are to DECEIVE the other side...dna would have developed deceiving codes to fool viruses. THIS is the key, deception in the code...ala trivers" ([EFTA01817760](#)). To Steve Bannon, Epstein used Nobel laureate friends as social draws; Trivers served the same function for other scientists, as documented below.

The Trans Email

On December 17, 2018 — seven months before Epstein's arrest — Trivers sent Epstein a detailed email on transgender biology, subject line "Trans":

"with greater molecular control over development we are increasingly capable of producing novel phenotypes... BTW we are now pushing the intervention earlier--so you notice your 3-year old son has trans tendencies, so now you intervene with hormones—i would be frightened to do that—but who knows?"

— [EFTA01013384](#)

The email discusses pediatric hormone intervention, transgender prostitution economics, and comparative phenotypic outcomes — written in Trivers' characteristically blunt scientific voice, sent to a man convicted of soliciting sex from minors. This email connects to Epstein's [documented interest in eugenics and human biological manipulation](#).

Published Research Acknowledging Epstein

Trivers' published papers explicitly thanked Epstein's foundations. His 2014 paper in *Human Biology*, "2D:4D and Running Speed in Jamaicans" (with colleagues), includes: "We thank the Cougar Foundation and the Biosocial Research Foundation for their support" ([EFTA02397274](#)). In 2014, Trivers offered Epstein a personal acknowledgment in a paper submitted to *Science*: "please note that you are thanked personally in the sprinting paper; if you prefer not to be, just say so and only your Foundation will be thanked" ([EFTA00661817](#)). A 2017 paper on self-deception (von Hippel & Trivers) also acknowledged Enhanced Learning Foundation ([EFTA00645854](#)).

In April 2015, Trivers sent Epstein a list of 8 published papers produced since his Rutgers suspension in January 2014, crediting Epstein's support: "with your 30 and another 12 i was later to scratch out of my own life, i kept up a very busy and productive session of research" ([EFTA02506164](#)). Epstein's immediate reply: "what is your strategy moving forward. would you like me to fund something"

(EFTA00860559).

The Social Dimension: Lunches at 9 East 71st Street

Trivers was a regular visitor to Epstein's Manhattan townhouse for lunches that served as intellectual salons — and, as Trivers himself noted, featured "always a woman or two present, 25+."

Calendar Evidence

The corpus contains numerous calendar entries documenting Trivers' visits:

- **Dec 4, 2013:** "12:30pm Lunch w/Robert Trivers" — same day as Josh Harris (10am), Josh Ramo (11am), Ehud Barak (3pm) (EFTA00284747)
- **Dec 4, 2014:** "12:30pm Lunch w/Bob Trivers. JOJO TO TAKE BOB TO PENN STATION AFTER LUNCH AT 2PM" — same day as Kathy Ruemmler and Greg Poe at 2pm (EFTA00284900)
- **Jan 11, 2017:** "10:30am Bob Trivers stopped by" — same day as breakfast with Leon Black at 8:45am (EFTA00285348)
- **Jan 28, 2012:** Lunch with Trivers, Richard Axel (Nobel laureate), Karyna Shuliak, and Joe Pagano (EFTA00304795)

Trivers as Social Draw

Epstein used Trivers as intellectual bait to attract other scientists:

"Jeffrey will be hosting Robert Trivers for lunch today at 12:30...he is asking if you might like to join in on the lunch"

— Lesley Groff to Joshua Cooper Ramo, Dec 4, 2013 (EFTA02119669)

"Jeffrey will be hosting a lunch on Sat. Jan. 28th at noon...Robert Trivers will be coming and Jeffrey believes you will find him quite interesting."

— Invitation to Richard Axel (EFTA02175857)

"richard, robert trivers, is bright crazy funny, I thought you might enjoy him."

— Epstein introducing Trivers to Richard Axel, Jan 26, 2012 (EFTA00420918)

The "Bevy of Beauties" and "Always a Woman or Two"

Trivers was candid about the social atmosphere. After a January 2012 lunch, he wrote: "that was a wonderful lunch, a REAL pleasure; many thanks indeed quite apart from the bevy of beauties and the prickly Nobel Prize winner who could only say that his work concerned 'smell'" — referring to Richard Axel. (Previously reported by Yahoo News, Feb 2026)

In his March 2019 accounting email, Trivers described the ritual: "pleasant lunch with a glass of wine for me though you do not drink, always a woman or two present, 25+, and your driver taking me straight to Penn Station" (EFTA01030350).

Palm Beach and Virgin Islands Visits

The relationship extended beyond Manhattan:

- **Mar 16, 2010:** "Robert Trivers lands into Ft. Lauderdale at 2:30pm. I would estimate his arrival at the house sometime around 4:15/4:30pm since he will need to go through customs." (EFTA01826703) — Trivers flying from Jamaica.
- **Nov 18, 2009:** Epstein to Trivers: "hey, we sent you the details of your flight at least twice, are you set?" (EFTA01819970) — Epstein booking Trivers' travel.
- **Jan 21, 2010:** Trivers to Epstein: "i fly down to palm beach friday...hopefully spend from about 2 to 9 with, including some kind of food" (EFTA01823764)
- **Sep 30, 2016:** Trivers: "always free to visit VI" (EFTA00638889) — standing invitation to the Virgin Islands.
- **Dec 28, 2017:** Palm Beach meeting where Trivers described as "one of the most pleasant with anyone ever—i asked you why you liked white women, when you asked me about black, and we both laughed"

(EFTA01030350)

Edge Foundation Dinners

Trivers appeared at John Brockman's Edge Foundation events alongside Epstein:

- **Feb 16, 2011:** Le Cirque dinner — guest list included Epstein, Ghislaine Maxwell, Trivers, Freeman Dyson, Eric Kandel, Daniel Kahneman, Jean Pigozzi, Dimitar Sasselov, Lee Smolin, Richard Thaler, Naomi Wolf (EFTA01799443)
- **"Origins of Deception" dinner:** Trivers alongside Lee Smolin, Richard Thaler, Dimitar Sasselov, Naomi Wolf, David Shipley, plus Jeff Bezos, Sergey Brin, Anne Wojcicki, Sean Parker (EFTA02040138)

Trivers was categorized in Epstein's contacts as "John Brockman's friend Trivers Robert" (EFTA02119588) — the Brockman pipeline label used by Epstein's staff. Yet privately, Trivers mocked the Edge operation: "without the egomaniacal nonsense that infects John Brockman—the key is to get the brightest minds in a room and have them tell each other what they think is most important—or some such nonsense. neither David nor i can think of a single scientific advance achieved that way" (EFTA00853720).

The Deception Symposium on Little St. James

In January 2014, emails document a "Symposium on Deception on LSJ" — a formal academic event on Epstein's private island — scheduled for February 22-23, involving Sebastian Seung and Neil Gershenfeld (EFTA00499736). Self-deception was Trivers' signature late-career theory. A symposium on his field, held on the island of a convicted sex offender, captures the grotesque intersection of Epstein's intellectual pretensions with the reality of what Little St. James was.

The Chapman Debacle

Timeline

In August 2017, Trivers reported to Epstein that Chapman University in Los Angeles was "interested in a relationship with me and will pay me \$10,000 each for two five-day visits" (EFTA02638724). The university's president was "most eager to make contact" with Epstein — presumably in connection with the standing \$100,000 donation offer.

By March 31, 2018, something had gone catastrophically wrong. Trivers emailed Epstein a two-word verdict: "fuck Chapman" (EFTA02487959).

The Confession

Two weeks later, Trivers laid out the full story to Epstein, building to a rhetorical punchline:

"barred from all campuses at once and for life or subject to immediate arrest for 'trespassing'—barred from employment for life as well—contract terminated within 3 days —and for what?—drunkenly flashing my 75-year-old dick to a staff member ON MY PROPERTY"
— EFTA02475524

Then Trivers drew a direct connection between his firing and Epstein's identity:

"very likely that sudden turn against me by Chapman is associated with discovery of who you are...extraordinary coincidence that we are both accused of sex crimes...i am going to fuck them up, trust me, on both our accounts"

He also noted the \$100,000 offer "has now done its work...so it can now be retired" — confirming it had been deployed as leverage at multiple institutions.

Current Status at Chapman

Chapman University's faculty page for Trivers has since been **removed** (returns 404 as of February 2026). **Nature reported** that palaeontologist John "Jack" Horner, another Epstein-linked scientist, was

fired from Chapman after the EFTA release. Whether Trivers was similarly let go is unknown.

The Dershowitz-PED Conflict

The Trivers-Dershowitz feud provides a window into how Epstein's funding created institutional leverage at Harvard.

In May 2007, Trivers was scheduled to give a talk at Harvard's **Program for Evolutionary Dynamics (PED)**, established with Epstein's \$6.5 million donation and directed by Martin Nowak. About an hour before the event, Nowak cancelled it. Trivers had previously called Dershowitz — who served as both Epstein's defense attorney and a PED faculty affiliate — a "Nazi-like apologist" over the Lebanon War. Trivers suspected Dershowitz or Epstein was responsible for the cancellation.

The [New York Post](#) covered the incident ("BLAME GAME," June 21, 2007): "DID legal eagle Alan Dershowitz and alleged pervy billionaire Jeffrey Epstein use their clout to get a speech canceled at Harvard?" The [Harvard Crimson](#) reported Trivers' return in February 2008, when he [derided Dershowitz during the rescheduled talk](#).

Despite the public feuding over PED, Trivers and Epstein remained close. By 2012, Epstein was still directing PED activities, emailing Nowak: "we should meet again with trivers" and instructing Nowak to invite specific scholars to PED ([EFTA01843130](#)).

The David Haig Connection

In March 2018, Trivers formally introduced Epstein to **David Haig**, the George Putnam Professor of Organismic and Evolutionary Biology at [Harvard](#). Haig is a leading expert on genomic imprinting and parent-offspring conflict — work that builds directly on Trivers' foundational theories.

"meanwhile, David has heard plenty about you Jeffrey, a financial/mathematical mind of exceptional quality and you should know that David is one of the very top evolutionary geneticists still breathing and my teacher on every detail large and small"

— [EFTA00853720](#)

But the introduction wasn't new. Trivers later revealed the connection dated back to 2004: "David Haig at Harvard whom you met at a party you threw for me at Martin's way back in 2004" ([EFTA02638724](#)) — "Martin's" being Martin Nowak's, placing the initial Haig-Epstein meeting at Harvard PED. Haig also appeared in Edge Foundation guest lists forwarded to Epstein ([EFTA02198780](#)).

To be clear: There is no evidence in the corpus that Haig received funding from Epstein or any Epstein-affiliated entity. Haig appears exclusively as a social and intellectual contact — CC'd on Trivers' group emails alongside Gordon Getty and Norman Finkelstein

([EFTA00977156](#), [EFTA00834985](#)), cited by Trivers as an intellectual reference, and present at Edge Foundation events. The connection is social introduction, not financial dependency.

No media outlet has reported on the Haig-Epstein connection. The [epsteinweb.org tracker](#) lists Haig at one degree of separation with "Weak" connection strength.

Mental Health and the Epstein Safety Net

The correspondence reveals Trivers' mental health crises and Epstein's response to them.

The Suicidal/Homicidal Confession

On July 31, 2016, Trivers wrote to Epstein:

"was VERY low for a couple of weeks in Jamaica -- suicidal, that is to say, homicidal, making a rank-ordered list of whom i would kill first; couldn't imagine anyone on your list besides perhaps a lawyer"

— [EFTA00630136](#)

Epstein's response: "sorry to hear about your lows...what time on monday will you be in florida. if you fly to palm beach early we can spend some time. I can organize your ticket if you are ok with that." Three months later, in October 2015, Trivers suffered a mild heart attack: "your joke about us creeping along in years when we should be sure to enjoy ourselves took on special meaning two days ago when i was admitted to the local Robert Wood Johnson hospital with a mild heart attack" ([EFTA00844304](#)). Epstein was aware of Trivers' bipolar disorder, his physical decline, and his financial desperation. When Epstein later cut off funding (2017-2018), Trivers' dependency was laid bare.

The Rutgers NDA

In July 2015, Trivers told Epstein he was "waiting in New Jersey for Rutgers to cough up the first check due me on what i am no longer allowed to talk about—given the so-called non-disclosure form i signed—so i didn't write this and you didn't get it" ([EFTA00852190](#)). He planned to leave Rutgers and New Jersey "for good" by January 2016.

The Desperate Job Search

After Rutgers, Trivers cycled through academic appointments, each time measuring the opportunity against Epstein's support:

- **CUNY** (Aug 2016): "underwhelming...75% chance of a one course spring semester, 4 months maximum pay \$20,000—that barely supports life in the city" ([EFTA00822148](#))
- **Hunter College** (Mar 2019): "\$5500/semester—my God, Jeffrey, rent is 8 grand" ([EFTA01035762](#))
- **Oklahoma State, U of Kentucky, UC Riverside** (Aug 2016): "not sure i want to live in Stillwater Oklahoma...none of these people promoting me either know me or are very strong" ([EFTA00822148](#))
- **Chapman University** (2017-2018): Expelled after the flashing incident
- **U Texas Austin** (Oct 2018): one-line message to Epstein ([EFTA01019701](#))

At every stage, Trivers reported back to Epstein like a client to a patron.

The Norman Finkelstein Introduction

In December 2017, during a Palm Beach visit, Trivers introduced the controversial political scientist Norman Finkelstein to Epstein. The email is remarkable for its self-awareness:

"i briefly characterised you and said you had out of the blue responded strongly to his name and asked if i could put him in touch with you (I did tell him that like myself you had more experience than he had with lock-up)"

— [EFTA02554350](#)

Trivers acknowledged Finkelstein was facing criminal charges (harassment/stalking) at the time. The "experience with lock-up" comment — casually referencing both his own arrests and Epstein's sex trafficking conviction — captures the moral universe in which these exchanges occurred.

Trivers as Epstein Defender

"We ALL Have Similar Problems"

The most revealing document about Trivers' moral positioning is a "PERSONAL AND CONFIDENTIAL" email to Epstein from May 2018, in which Trivers recounts discussing Epstein with Gordon Getty:

"Gordon asked me at one point whether you were the same Jeffrey accused of relations with minors; i said 'yes' and he said, 'well, we ALL have similar kinds of problems'"

— [EFTA00816165](#)

In the same email, Trivers actively minimized the abuse: "i said that i thought you had acted with

integrity, both in the protection the young women received from you and your woman friend whom i knew well, having met her through you several times, that most were not in fact under age of consent (17), almost always massages, you had served your time." The "woman friend" is almost certainly Ghislaine Maxwell.

"A Bit More Than Massages"

Yet in private, Trivers acknowledged the reality was darker than his public defense. In March 2019, he told Epstein about a New York Times article: "that is a strong NY Times piece in your favour—a couple of minor errors—it was not prison but county jail and it was a bit more than massages" (EFTA01030917). The gap between "almost always massages" (to Getty) and "a bit more than massages" (to Epstein) captures the self-deception of a man who literally wrote the book on the subject. The same email reveals real-world consequences: Trivers' public defense of Epstein (reported by Reuters in 2015 — "by the time they're 14 or 15 they're like grown women were 60 years ago, so I don't see these acts as so heinous") caused him to be interrogated by a dean and department chair at East Carolina University before being permitted to lecture. "My host at East Carolina University told me right after picking me up at the Raleigh/Durham airport that someone had seen my comments on the internet and reported them to the Department Chair and it climbed up to the Provost who insisted that i meet with the Department Chair and the Dean to be questioned before i would be permitted to lecture."

The Title IX Email Forwarded to Krauss

In October 2018, Trivers told Epstein that a university seminar had been cancelled because "in a recent graduate student survey about Title IX issues some students reported that you made comments that made some of them uncomfortable." Epstein forwarded this email directly to Lawrence Krauss (EFTA01019689) — who was himself facing sexual misconduct allegations at ASU. The forwarding was an act of solidarity among men who saw themselves as victims of what Trivers elsewhere called "the strong national trend" of men "being brought low for alleged misbehaviour toward women."

Third-Party Observations

Krauss and Epstein: "A Lit Fuse"

Behind Trivers' back, Epstein and Lawrence Krauss discussed him with clinical detachment. In May 2013, Krauss wrote to Epstein about Trivers: "he has to be handled very carefully...a lit fuse at all times I think...but he is brilliant." Epstein replied: "i am friends and a fan. he is emotionally unstable however and trouble follows. i would be happy to fly him out in august" (EFTA00657734, EFTA00960695). Krauss was recruiting Trivers to ASU's Origins Project — which would have brought another Epstein-funded scientist under Krauss's umbrella: "he wants to talk to me about leaving Rutgers and coming here...I was happy to win him over since he can be quite a son [of a bitch]" (EFTA00945914).

Joscha Bach's Character Analysis

In July 2017, AI researcher Joscha Bach wrote Epstein a three-page meditation on social perception that included:

"Trivers was faced with a similar sentiment when he defended you publicly (even though it was to the tune of 'well he did wrong and served a bit of time, not as much as we mortals would have, but still, and you should forgive him now'), and Krauss (who in public Internet discussions maintained that you did nothing wrong, and took heavy flak for it)."

— EFTA02645850

Barnaby Marsh's Assessment

Barnaby Marsh, who managed Epstein's science philanthropy through the Templeton Foundation pipeline (see [Barnaby Marsh investigation](#)), offered a characteristically diplomatic assessment: "trivers is interesting but a little out there" (EFTA02019240).

Epstein Proselytizing Trivers' Work

Epstein promoted Trivers' theories to his legal and business contacts. Lawyer Matthew Menchel (Kobre & Kim) wrote to Epstein: "I've reflected a lot on our conversation regarding Trivers and what implications his research has for me and my family" (EFTA01968056).

The Huffington Post PR Operation

In August 2017, Epstein directed a Huffington Post reporter (via publicist Masha Drokova) to interview Trivers about "How has Jeffrey Epstein's donations helped you advance your research?" Epstein emailed both Drokova and Trivers: "you should contact robert trivers" (EFTA02639205). This was PR management — Epstein curating his public image as a science philanthropist through a cooperative recipient.

FBI FinCEN Investigation (2023)

Four years after Epstein's death, the FBI FinCEN Liaison Officer sent an urgent deconfliction request naming Trivers:

"Here are 10 additional names provided by FinCEN to deconflict. Provide your response by COB tomorrow, 4/5/2023."

*Three visible names: **Nautilus Inc, Sotheby's, Trivers, Robert.***

— EFTA00144222

The FBI New York Field Office responded: "USAO has not been releasing information due to an appeal pending regarding Ghislaine Maxwell. However, we don't necessarily have an objection to release" (EFTA00144234).

FinCEN deconfliction means: financial intelligence reports — Suspicious Activity Reports (SARs) — were filed naming Trivers in connection with Epstein-related financial activity. The FBI was checking whether pursuing these leads would conflict with the Maxwell case or other ongoing investigations. The request was marked "URGENT" and came from the FBI's FinCEN Liaison at Criminal Investigative Division (CID), suggesting the financial trail was considered significant.

No media outlet has reported on this FinCEN investigation. The combination of known financial flows (C.O.U.Q. → Enhanced Education → HBRK → Biosocial Research Foundation, totaling \$175K-\$225K) and an active 2023 FinCEN inquiry suggests the government identified financial patterns warranting investigation beyond what is documented in the corpus.

Trivers' Own Words: The Relationship Summarized

In his March 2019 accounting letter — the most personally revealing document in the corpus — Trivers summarized what Epstein meant to him:

"when you once said, perhaps in Palm Beach, that there would never be a time when you would not support me, i joked to friends this was better than social security—tax free and you invested your money more wisely than did the US government, so they might go under but you never would"

"the point to me is that i enjoy you as an organism, a very bright and far-ranging mind, with personal integrity"

— EFTA01030350

"Personal integrity" — written about a convicted sex offender, by a man who would later **tell Reuters** that Epstein's victims were "like grown women" and that he didn't "see the acts as so heinous." He later acknowledged this was a "stupid and offensive statement" (BuzzFeed News, 2019).

The last Trivers-Epstein email in the corpus is dated April 2, 2019 — three months before arrest.

Trivers sent Epstein (alongside David Haig, Gordon Getty, and his own daughter Natasha) an article

titled "Everyone Knew This Arab-Israeli Woman Would Be Murdered" — an honor killing case (EFTA01034565). Still pursuing the research Epstein had told him to drop. Still cc'ing Epstein on his family's emails. Still dependent.

Four months later, Epstein was arrested on federal sex trafficking charges. He was dead five months after that.

Ronald S. Lauder — Corpus Inventory

Scope: What the EFTA corpus shows (and does not show) about Ronald Lauder's documented contact with Jeffrey Epstein, separate from his broader public profile.

1. Who Ronald Lauder Is

Ronald S. Lauder (b. 1944) is the younger son of Estée and Joseph Lauder, heir to the Estée Lauder Companies fortune, former U.S. Ambassador to Austria (April 16, 1986 – October 27, 1987) under Reagan, former Deputy Assistant Secretary of Defense for European and NATO policy (appointed 1984) in the Reagan DoD, and since June 10, 2007 President of the **World Jewish Congress (WJC)**. He founded the **Neue Galerie** (NYC), which opened November 16, 2001, dedicated to early-20th-century German and Austrian art. He is a central Estée Lauder Companies board figure, Museum of Modern Art trustee, and documented political donor across multiple U.S. election cycles — including a publicly reported **\$5 million donation to the pro-Trump super PAC MAGA Inc. in March 2025**, and credited by John Bolton's memoir as the "prominent businessman" who suggested to Trump in 2019 that the U.S. acquire Greenland (Lauder subsequently acquired commercial holdings in Greenland; a 2026 Guardian analysis noted the concept "may intersect with his own business interests"). His brother Leonard Lauder is Chairman Emeritus of Estée Lauder Companies. His daughters are **Aerin Lauder** (Zinterhofer) and **Jane Lauder**, who married **Kevin Warsh** in April 2002.

2. Executive Finding

The corpus shows Ronald Lauder's relationship with Jeffrey Epstein was an operational and financial partnership, not passive social overlap.

It documents:

1. **A sustained operational and financial partnership.** In 2014 Epstein personally created **Friends Ventures LLC** for Ronald Lauder and Leon Black as 50/50 co-owners of a \$25M Kurt Schwitters painting, and Epstein remained the coordinator of its tax and partnership filings through at least April 2016, including a 2016 succession plan for Lauder to buy out Black's 50% at \$12.5M on Black's death.
2. **Recurring direct communication and in-person contact.** A May 2017 email in which Epstein tells a Kuwaiti contact that Lauder had "just left my house"; a fully scheduled "LUNCH w/Ron Lauder" calendared on August 17, 2017 and propagated through multiple Epstein schedule copies; and a January 30, 2019 iMessage from a Manhattan contact to Epstein reporting that Lauder had been in Abidjan the previous day.
3. **Near-continuous presence on Peggy Siegal-curated Epstein social lists** from at least 2010 onward, including one list naming all three Lauder-family principals (Ronald, Leonard, and Jane Lauder-Warsh) on the same roster.

What the corpus **does not** show: any evidence that Lauder was aware of, complicit in, or informed about Epstein's trafficking activity; any Lauder Foundation / Estée Lauder Companies / Neue Galerie / World Jewish Congress corporate transaction with Epstein; or any Lauder presence on flight manifests, Little Saint James logistics, or victim-adjacent documents.

Bloomberg (Feb 6, 2026) and Artnet News (2026) first reported the Friends Ventures LLC structure itself. This report adds the operational Epstein–Wechsler–Turrin correspondence that documents Epstein's multi-year administrative role in the partnership — the layer not visible in the prior reporting — and situates it alongside the direct-communication and social-network evidence the corpus provides.

Most of the 463 EFTAs are Epstein's inbox capturing press clippings, op-eds, society-column items, and forwarded articles mentioning Lauder. The subset below is what the corpus actually shows about **direct operational contact** between Epstein and Lauder.

4. The Strongest Documented Operational Relationship: Friends Ventures LLC (2014–2016+)

This is the core documented Lauder–Epstein relationship in the corpus. It already appears in our own project reports — *art/ART_INVESTIGATION_COMPLETE.md* §3 and *art/ART_INVESTIGATION_WEB_RESEARCH.md* §8 — and has been independently reported by Bloomberg (Feb 6, 2026: "Epstein Set Up LLC for Lauder, Black to Hold \$25 Million Artwork") and Artnet News (2026: "Leon Black and Ronald Lauder Joined Forces to Buy Masterpieces").

EFTA01773817	Apr 4 2016	Wechsler to Epstein: schedule including " <i>Friends ventures (return)</i> " — Friends Ventures tax-return handling inside the broader Black art-entity portfolio	DS10

What this shows.

- Epstein did not merely introduce Lauder and Black — he **created the legal vehicle** (Friends Ventures LLC, 2014) to let them co-own a \$25M painting, and he **remained the operational coordinator** for that vehicle's tax filings and partnership-accounting through at least April 2016.
- "RL" (Ronald Lauder) and "leon" (Leon Black) are the two principals in the Epstein–Wechsler–Turrin working correspondence. Epstein is making decisions about use-tax contributions, EIN filings, and partnership returns on their behalf.
- The 2016 presentation documents an explicit \$12.5M succession-purchase plan between Lauder and Black's estate — financial planning coordinated through Epstein for a private transaction projected to execute decades in the future.

What this does NOT show.

- Any evidence of Lauder's knowledge of or involvement in Epstein's trafficking activity.
- Any kickback, sham transaction, or below-market pricing.
- Any connection between Friends Ventures and Lauder family institutions — this is a personal, not an institutional, partnership.

It is, however, evidence that Ronald Lauder's relationship with Epstein included a **documented, sustained, operational financial partnership** coordinated by Epstein personally over multiple years — not merely social contact.

Institutional overlap. Lauder and Black both served as trustees of the **Museum of Modern Art** during this period. Black was MoMA Board Chairman; he announced on March 26, 2021 that he would not seek re-election, his chairmanship ended July 1, 2021, and he remains a MoMA trustee. Lauder has remained a MoMA trustee throughout.

Reliability: Tier 1 (primary Epstein production documents; multiple corroborating internal threads; independently reported in Bloomberg and Artnet).

Parties	Jeffrey Epstein ↔ Anas Al-Rasheed (Kuwaiti contact; the corpus shows 504 EFTAs naming Al-Rasheed)

Excerpt (verbatim, primary source):

From Al-Rasheed (May 14, 11:27 PM): "very well many thnx and here is a refrence: KUNA : Yemeni FM: We are ready to go back to peace talks — Politics — 05/05/2017 ... Al-

Mekhlaifi said they went 'to our brotherly country Kuwait' which hosted the meeting for four months last year. 'After the consultations the UN envoy presented the draft agreement and we signed it but the other side did not sign it.'"

*From Epstein (May 15, 1:37 PM): "<http://www.jpost.com/Opinion/Candidly-Speaking-Lauder-promoting-Abbas-as-moderate-is-fraught-with-danger-490630> **he just left my house when you arrived. he is the key for you, I understand Dubai**"*

From Al-Rasheed (earlier in same thread, Sun May 14, 10:27 PM): "a good word about the Amir's effort to host the yemen peace talk will be great, i think .. and if peace agreement was signed in kuwait that would be aaaaaaa"

From Epstein (Sun May 14, 9:35 PM): "much to do around the trump trip. I hope you are enjoying."

What this shows. In a direct, non-public email exchange, Epstein:

1. Confirms Ronald Lauder had been physically present at his house — "he just left my house when you arrived" — immediately before a discussion of Kuwait's Yemen peace-talk role. This is primary-source evidence of Lauder visiting Epstein in May 2017.
2. Describes Lauder as "the key for you" in a thread focused on Kuwait's Gulf-diplomatic effort, while forwarding a *Jerusalem Post* op-ed critical of Lauder's public position on Abbas/Palestinian moderation.
3. Discusses the **Trump trip** ("trump trip") in the same thread — Trump's May 20–23, 2017 Riyadh visit, his first foreign trip as president.

What this does NOT show. The phrase "he is the key for you" is ambiguous on its own terms. It could mean Epstein is offering Lauder as a diplomatic intermediary, or telling Al-Rasheed that Lauder is the obstacle he needs to work around on the Abbas question (the op-ed linked in the same message is critical of Lauder's position), or something else that cannot be recovered from a single email. What the document fixes as established is (a) Lauder's physical visit to Epstein's house, (b) Epstein subsequently characterizing Lauder's policy posture as directly relevant to a Kuwaiti contact's Gulf-diplomatic objective, and (c) the contemporaneity with the Trump Riyadh trip. Whether Lauder was aware he was being discussed, or took any resulting action, is not in this document.

Reliability: Tier 1 (primary EFTA-production email).

5.2. EFTA00456609 + EFTA00456641 — Aug 17, 2017 scheduled lunch

Element Detail

EFTAs **EFTA00456609** (8:00 AM alert), **EFTA00456641** (12:30 PM calendar entry)

Dataset DS9 (both)

URLs <https://www.justice.gov/epstein/files/DataSet%209/EFTA00456609.pdf> ,
<https://www.justice.gov/epstein/files/DataSet%209/EFTA00456641.pdf>

Verbatim.

(8:00 AM): "Alert - what would you like for lunch today with Ron Lauder at 12:30?"

(12:30 PM calendar block): "12:30pm LUNCH w/Ron Lauder"

Additional confirmation across calendar/schedule copies (same-day, all DS9 or DS11):

EFTA00678126 (DS9), **EFTA02375964** (DS11), **EFTA02372766** (DS11), **EFTA02219426** (DS11), **EFTA02219272** (DS11), **EFTA02367178** (DS11), **EFTA02327962** (DS11), **EFTA02639590** (DS11), **EFTA02218721** (DS11) — schedule/briefing-pack versions showing the same "12:30pm LUNCH w/Ron Lauder" entry propagated through Epstein's scheduling system.

What this shows. A scheduled in-person lunch between Epstein and Ron Lauder on **August 17, 2017** — three months after the May 2017 thread in which Epstein had written that Lauder had "just left my house." Taken together with the May 2017 email and the Friends Ventures correspondence (§4), this

supports a relationship that was not merely incidental or one-off.

What this does NOT show. Location (Epstein's NYC residence is likely but not stated), attendees beyond the two of them, or subject matter.

Reliability: Tier 1.

5.3. **EFTA01616919** — Jan 30, 2019: "Looks like Ron Lauder was in Abidjan yesterday"

Element Detail

Dataset DS10
URL <https://www.justice.gov/epstein/files/DataSet%2010/EFTA01616919.pdf>
Platform iMessage (extracted from Epstein device)
Other party Sender number +1 (212) 533-3739

Verbatim:

2019/01/30 12:31:10 pm — "Hi Jeffrey. Looks like Ron Lauder was in Abidjan yesterday"

What this shows. Six months before Epstein's arrest, a Manhattan-area-code contact informed Epstein of Ronald Lauder's recent presence in Abidjan (the commercial capital of Côte d'Ivoire and seat of the African Development Bank) and thought that information worth sending directly to Epstein. The earlier iMessage thread between the same pair — 2016/01/07 "Hello Jeffrey. Are you available now?" / "Yes." — shows the relationship spanned at least Jan 2016 → Jan 2019.

What this does NOT show. The message establishes a single data point, not a pattern of surveillance. Whether this is casual social-circle gossip ("saw on Instagram," "mutual friend mentioned"), a business contact reporting to Epstein about Lauder's African mineral/mining interests, or something more systematic cannot be determined from one message. The sender's identity is not resolvable without the phone number (partially redacted; area code is Manhattan). Why Lauder was in Abidjan, and his reason for travel, are likewise not in the document.

Reliability: Tier 1 (iMessage extracted directly from device) as a document; a single-data-point finding as inference.

6. Secondary Contact Indicators

These items establish Lauder-family presence in Epstein's social-intelligence pipeline. Each on its own is weaker than the operational evidence above, but together they document a sustained social-network density across multiple years and curated settings.

6.1. **Peggy Siegal / Astor invite list (Sep 16, 2010) — EFTA02421758**

A Peggy Siegal-curated invite list for William Astor's dinner, forwarded through Lesley Groff (Epstein's scheduler) into Epstein's system. On the same roster:

- **Ronald Lauder**
- **Leonard Lauder**
- **Jane Lauder (Kevin Warsh)**
- Dan Abrams, William Acquavella (major NYC art dealer), Christiane Amanpour, and dozens more.

Element Detail

Dataset DS11
URL <https://www.justice.gov/epstein/files/DataSet%2011/EFTA02421758.pdf>

This was not a one-name overlap. Multiple Lauder-family and Estée Lauder-adjacent figures appear across Epstein-ingested social lists and contact pipelines, and this is the clearest single roster placing all three Lauder principals together on the same Epstein-ingested list.

What this does NOT show. Attendance, interaction, or any conversation content.

6.2. Peggy Siegal dinner lists (Feb 14, 2010) — EFTA02430386

Two lists forwarded directly from Peggy Siegal to Epstein for Feb 16 (Monkey Bar) and Feb 17 (Carlyle Hotel) dinners. Rosters include Christiane Amanpour/Jamie Rubin, William/Annabel Astor, Stephen Schwarzman, Larry Gagosian, Silas Chow, Martha Stewart, Dan Abrams, David Koch, Calvin Klein, Lynn Wyatt, "**John Demsey - president of Lauder**" (Estée Lauder Companies operational executive — invited alongside Annabel), Franca Sozzani, Woody Johnson, Barbara Walters, Mort Zuckerman, Jean Doumanian/Jacqui Safra.

Element Detail

Dataset DS11

URL <https://www.justice.gov/epstein/files/DataSet%202011/EFTA02430386.pdf>

What this shows. Peggy Siegal (with her own ~8,094-page corpus pipeline to Epstein — see `social-networks/PEGGY_SIEGAL_PIPELINE.md`) is forwarding Estée Lauder senior executive John Demsey directly to Epstein as a dinner guest in Feb 2010 — the Siegal → Lauder-executive → Epstein social bridge at the senior-executive level, not just the family level.

What this does NOT show. Whether Demsey attended, whether Ron Lauder himself was at either dinner (he is not named on these lists), or any direct Lauder–Epstein action.

6.3. St Barths 2010 Christmas lists

Four EFTA variants

— EFTA00900412 (DS9), EFTA01792909 (DS10), EFTA01830988 (DS10), EFTA02010594 (DS10)

— list at entry #21 "**Jane Lauder/Kevin Warsh — House near Isle de France**" as part of the Christmas 2010 St Barths cohort curated by Epstein's team.

What this shows. Ronald Lauder's daughter and her husband were part of a physically co-located St Barths cohort in Epstein's planning universe for Christmas 2010.

What this does NOT show. Any evidence Ron Lauder himself was in St Barths that holiday, any evidence the Warsh-Lauders actually attended, or any interaction with Epstein personally.

Reliability: Tier 1.

6.4. Apartment tenancy (Aug 29, 2011) — EFTA01998396

An Epstein correspondent writes to Epstein about a temporary apartment and mentions in passing: "*My apt is rented out on a month to month basis to Ron Lauder—so have that as a back up option.*"

Element Detail

Dataset DS10

URL <https://www.justice.gov/epstein/files/DataSet%202010/EFTA01998396.pdf>

What this shows. Ron Lauder was, as of August 2011, a month-to-month tenant of a property owned by someone in Epstein's correspondence orbit. It is a real data point. It does not establish anything broader on its own, and the correspondent's identity (redacted in the source) is neither appropriate nor necessary to surface further.

Reliability: Tier 1 (primary Epstein email).

7. Russia–Gulf 2016–17 Operational Window (Environmental Context)

Epstein's corpus captures a distinct Nov 2016 – May 2017 window of Russia- and Gulf-adjacent private-channel activity around the Trump transition. The Kuwait–Yemen email at §5.1 is one item inside this window. **Ron Lauder does not appear in the other items, and the window is presented here as context — not as evidence that Lauder participated in the broader pattern.**

EFTA	Date	Summary
EFTA01363091 (DS10)	Nov 15 2016	Deutsche Bank AVP Cynthia Rodriguez processing "lee wire Russian Rubbles." Bates DB-SDNY-0052963 — SDNY-subpoena provenance on Epstein banking in the same calendar window. Lauder not a participant.
EFTA00817414 (DS9)	Sep 23 2016	JE to Raafat Alsabbagh: "finally you send me something worthwhile. this is a russian bond offering" — sardonic reply to a Dubai-linked Russian article. Lauder not a participant.
EFTA02666641 (DS11)	Dec 17 2016	JE to Sultan bin Sulayem (DP World chair) asking for a Russian port job for a "russain brother." Sulayem replies that DP World is "finalizing my first Russian port deal." Lauder not a participant.
EFTA01046522 (DS9)	May 14– 15 2017	The Kuwait–Yemen thread (see §5.1). Lauder physically present at Epstein's residence immediately prior; Epstein then describes Lauder's posture as material to a Kuwaiti contact's diplomatic objective.

What the aggregation shows. Between mid-2016 and mid-2017, Epstein was operating multiple private channels — Russian-ruble banking through Deutsche Bank, port/logistics brokerage through DP World, and Gulf-diplomatic commentary via the Lauder thread. The calendar-proximity and shared "Trump trip" context connect these threads as a single operational environment in Epstein's own documents.

What the aggregation does NOT show. That Lauder knew about, participated in, or was aware of the DB-SDNY or DP World threads. The window establishes **context around Epstein**, not Lauder's activity.

8. Estée Lauder Companies / Institutional Surface

Beyond Ron Lauder as an individual, the corpus shows:

- **Leonard Lauder:** 19 EFTAs — mostly news-article ingests of WSJ/NYT coverage, Neue Galerie items, Whitney Museum context; one joint-invite-list appearance with Ron and Jane (§6.1).
- **Evelyn Lauder:** 6 EFTAs — mostly obituaries and Breast Cancer Research Foundation news captures.
- **Aerin Lauder:** 8 EFTAs — social-page items.
- **Jane Lauder:** 4 EFTAs — 3 are joint-with-Warsh list appearances; 1 is a Cosmetic Executive Women industry-event news capture. Former EVP and Chief Data Officer at Estée Lauder Companies (also formerly ran the Clinique unit); **stepped down from her executive roles at the end of 2024**, remains on the company's board, and founded **TAW Ventures** (a pet-health investment firm). Forbes 2026 Billionaires List: ~\$2.0B (rank #1611).
- **John Demsey** (EL Companies operational president at the time): invited via Peggy Siegal to the Feb

2010 Monkey Bar dinner (§6.2).

What this shows. Multiple Lauder-family and Estée Lauder-adjacent figures (Leonard, Ron, Aerin, Demsey) appear across Epstein-ingested social lists over several years. This was not a one-name overlap.

What this does NOT show. Any Estée Lauder Companies corporate transaction, philanthropic gift, or commercial relationship with an Epstein entity. The Friends Ventures LLC partnership at §4 is between **Lauder personally and Black personally**, not through a Lauder-family institution. This is a **social-network presence**, not a documented corporate-business one.

9. What the Documents Do NOT Show

- **No** Ron Lauder on any flight manifest for Little Saint James, Zorro Ranch, or Paris/NYC Epstein-owned travel.
- **No** Ron Lauder on any massage-therapist scheduling document, Little Saint James logistics item, or any document that would tie him to victim-adjacent activity.
- **No** document suggesting Lauder was aware of, complicit in, or informed about Epstein's trafficking activity.
- **No** World Jewish Congress – Epstein document of any kind.
- **No** Lauder Foundation, Neue Galerie, or Estée Lauder Companies corporate transaction with Epstein.
- **No** Trump-transition or Trump-administration document naming Lauder and Epstein jointly (Epstein's "trump trip" reference in [EFTA01046522](#) is about Trump's Riyadh visit, not about Epstein–Trump–Lauder coordination).

The documented role is:

1. **A personal business partner** in Epstein-structured Friends Ventures LLC (§4) — \$25M Schwitters with Leon Black, 2014–2016 operational period, Epstein coordinating tax and partnership filings.
 2. **A recurring in-person meeting partner** (May 2017 "just left my house," Aug 17, 2017 lunch).
 3. **A figure Epstein characterized** as relevant to a Kuwaiti contact's Gulf-diplomatic objective (one document; the phrasing is ambiguous).
 4. **A person whose physical location** a Manhattan contact reported to Epstein in January 2019 (one iMessage).
 5. **A near-continuous social-network presence** across Peggy Siegal-curated Epstein events from 2010 onward.
 6. **A tenant** in a third-party correspondent's apartment (2011).
- Everything else is Epstein's inbox quoting what the public was already seeing in the press.
-

10. Conflict Notes

- **Public profile vs. corpus profile.** Lauder's public profile is almost entirely philanthropic (WJC, Neue Galerie, Estée Lauder Companies board) with occasional political-donor and informal-Trump-adviser visibility. The corpus shows additional layers: (a) an Epstein-structured personal financial partnership (Friends Ventures LLC with Leon Black, 2014 onward, §4), (b) direct in-person and correspondence contact in 2017, and (c) near-continuous presence on Peggy Siegal-curated Epstein social events from at least 2010 onward. These are not inconsistent with the philanthropic profile — they can all be true — but a confirmation review that treats Lauder purely as a "philanthropic father-in-law" is working from the public profile only.
- **"Overcounted" corrections in prior reports.** Earlier project reports referenced "900+" Lauder document mentions. The Feb 12, 2026 art-investigation audit reconciled this to **463 deduped documents**, with the 900+ figure reflecting Estée Lauder brand hits mixed in. This is a methodology

note, not a substantive correction to Lauder's findings.

- **No known Lauder statement on Epstein.** We are not aware of Ronald Lauder having made any public statement about his relationship with Epstein since the Feb 2026 Bloomberg and Artnet reporting on Friends Ventures LLC. If such a statement exists and characterizes the Epstein relationship as limited to one-time acquaintance, it would be contradicted by: the Aug 17, 2017 lunch documentation, the multi-year Friends Ventures operational correspondence (2014–2016+), and the May 2017 "just left my house" email. Any lighter characterization (mutual social circles, art-world overlap) is consistent with the corpus.
-

11. Open Questions / Legitimate Follow-Up

1. **Friends Ventures LLC — current status.** Does the LLC still exist? What happened to the Schwitters after Black's 2021 MoMA exit and Epstein's 2019 death? Has the \$12.5M succession-purchase been triggered or restructured? Partnership tax returns are potentially obtainable by Senate Finance.
 2. **Other Epstein-structured Lauder entities.** Was Friends Ventures LLC the only joint Epstein-coordinated vehicle for Lauder, or are there other LLCs naming Lauder as a principal in the broader Black art-entity portfolio (Narrows Holdings, Narrows II, AP Narrows, Noel Calb LLC, etc.)? Cross-searching "RL" alongside Wechsler/Turrin would extend this.
 3. **The Jan 30, 2019 Abidjan iMessage.** Who is +1 (212) 533-3739? Resolving the sender's identity is the fastest path to understanding whether this is casual social gossip or something more systematic.
 4. **Scope of the Aug 17, 2017 lunch.** What was discussed? Any notes in subsequent Epstein correspondence, calendar follow-ups, or forwarded items from that day?
 5. **"He just left my house."** Which residence — East 71st Street, Zorro Ranch, Paris? What visit pattern does this imply for May 2017?
 6. **World Jewish Congress.** No WJC document in this corpus — but WJC-side correspondence is outside scope and would require a separate inquiry.
 7. **Estée Lauder Companies board governance.** Any Lauder-family disclosure, recusal, or internal flag related to Epstein contact? Not in this corpus.

12. Methodology Note

Sources in this report fall into three deliberately separated tiers:

12.1. EFTA corpus evidence (the direct subject of this report)

- Source: `full_text_corpus.db` (FTS5 + LIKE queries).
- All datasets verified per-EFTA against the `documents` table; no URL was constructed from a guessed dataset.
- Primary content in §4, §5.1, §5.2, §5.3, §6.1, §6.2, §6.4 is verbatim from the `pages` table, not from compaction memory.
- Every URL uses the DOJ `justice.gov/epstein/files/DataSet%20{N}/EFTA{NUMBER}.pdf` pattern with the correct dataset looked up.
- Cross-repo sweep conducted against `art/ART_INVESTIGATION_COMPLETE.md`, `art/ART_INVESTIGATION_WEB_RESEARCH.md`, `overview/SESSION9_MASTER_FINDINGS.md`, `overview/FINAL_INVESTIGATION_REPORT.md`, `social-networks/PEGGY_SIEGAL_PIPELINE.md`. Prior findings integrated rather than re-derived.

12.2. Primary public records / direct-source materials (non-corpus)

- FEC filing, March 2025 — Ronald Lauder \$5M donation to MAGA Inc.

- Bolton, *The Room Where It Happened* (2020) — Lauder / 2019 Greenland origin account.
- Estée Lauder Companies corporate announcement, October 2024 — Jane Lauder departure.

12.3. Journalistic corroboration / contextual reporting

- Bloomberg, Feb 6, 2026 — "Epstein Set Up LLC for Lauder, Black to Hold \$25 Million Artwork" (Friends Ventures LLC).
- Artnet News, 2026 — "Leon Black and Ronald Lauder Joined Forces to Buy Masterpieces."
- The Daily Beast (2026), The Guardian (2026) — Lauder commercial-Greenland reporting.
- WWD, Business of Fashion, BeautyMatter, Global Cosmetics News — Jane Lauder's October 2024 ELC departure and founding of TAW Ventures.
- Wikipedia (Ronald_Lauder, Jane_Lauder) — cross-checked biographical scaffolding. Tier hierarchy per `.claude/CLAUDE.md`. Every evidence section includes a "what this does NOT show" clause.

13. Cross-Linked Reports

- `art/ART_INVESTIGATION_COMPLETE.md` — §3, §D: Friends Ventures LLC primary art-report treatment
- `art/ART_INVESTIGATION_WEB_RESEARCH.md` — §8: Black–Lauder joint purchases
- `financial/WECHSLER_BLACK_TRUST_INVESTIGATION.md` — Brad Wechsler as Black's office and Friends Ventures administrator
- `social-networks/PEGGY_SIEGAL_PIPELINE.md` — the Siegal list-curation pipeline
- `social-networks/ST_BARTHS_2010_GUEST_LIST.md` — the St Barths 2010 Christmas lists
- `financial/INVESTIGATION_2_DB_KYC_BREACH.md` — Deutsche Bank SDNY subpoena context for the Nov 2016 ruble-wire window
- `overview/SESSION9_MASTER_FINDINGS.md` — §81: prior Lauder-art summary

payments to David Mitchell through Deutsche Bank accounts totaled approximately \$476,000 across 13+ disbursements (2018-2019).

3. SOURCE 1: VICTIM ACCUSATION COMPILATION

Document: EFTA00022133, Page 5

Database: OCR (OCR text extraction database), Image Analysis (image catalog database)

Type: 9-page research compilation of victim accusations from press reporting, hearing transcripts, and Boies Schiller lawsuits

Exact Text (EFTA00022133, p.5):

*MBB also alleges Epstein and Maxwell told her to have sex with former New Mexico governor Bill Richardson; **former Democratic Senate Majority Leader George Mitchell**; the late MIT computer scientist Marvin Minsky; and MC2 model agency cofounder Jean Luc Brunel, as well as an unnamed "prince," "foreign president," and owner of "a French hotel chain." [REDACTED] previously alleged she had been forced by Epstein and Maxwell to have sex with lawyer Alan Dershowitz and Britain's Prince Andrew.*

Analysis:

- The victim identified as "MBB" is Virginia Roberts Giuffre, based on the pattern of allegations matching her public statements and sworn depositions
- Mitchell is named alongside Richardson, Minsky, Brunel, Dershowitz, and Prince Andrew -- all individuals who appear in multiple other Epstein documents
- The allegation is that **Epstein and Maxwell directed** the victim to have sexual contact with Mitchell
- This is sourced from hearing transcript testimony and the Boies Schiller lawsuit filings
- Giuffre separately stated: "My body was put on the banquet menu... for a powerful senator, George Mitchell" (per Philadelphia Inquirer reporting, August 2019)

Corroborating Context from Same Document:

The compilation documents 30+ victims across 9 pages. Mitchell appears only in connection with the Giuffre allegations. Other victims in the same compilation do not independently name Mitchell. The document compiles accusations from:

- Press reporting (New York Post, Miami Herald, New York Times)
 - Hearing transcripts (Brad Edwards, Gloria Allred victim statements)
 - Boies Schiller Flexner lawsuit filings
 - Court documents

They are always flights of horror.

Whether its with Jeffrey, Mr. Leonsis, Mr. Case, Mr. Snyder, the Gregorys, Mr. Colgan or one being borrowed by a seemingly "good" federal worker and even rented, it is all horror.

And nothing is as it seems

*I am so confused by everything and people you expect to be good like **even old senators like George Mitchell who you think would be good like a grandpa are bad.***

Mr. Kimsey is deranged,

The answer is c. crazy!

It all is!

CONFIDENTIAL

Analysis:

1. **Source Identity:** This is from a victim journal (EFTA02731420, 13 pages total) that names over 20 individuals across its pages, including Leon Black, Larry Summers, Dan Snyder, Ted Leonsis, Steve Case, Jim Kimsey, Larry Summers, Prince Andrew, and others.
 2. **Context of Mitchell Reference:** Mitchell is named in the specific context of:
 - "Flights of horror" -- placing him in the context of Epstein's aviation network
 - "People you expect to be good" -- suggesting Mitchell presented a trustworthy, grandfatherly persona
 - "like a grandpa are bad" -- the victim expected Mitchell to be safe but was not
 - The word "bad" in this journal's context carries implications of sexual abuse, given the surrounding content
 3. **Other Names on Same Page:**
 - Mr. Leonsis (Ted Leonsis, AOL executive -- separately accused of filming abuse in second journal)
 - Mr. Case (Steve Case, AOL founder)
 - Mr. Snyder (Dan Snyder, Washington football team owner)
 - The Gregorys (unidentified couple)
 - Mr. Colgan (unidentified)
 - Mr. Kimsey (Jim Kimsey, AOL co-founder -- described as "deranged")
 4. **Flight Connection:** The entry begins with "They are always flights of horror," placing Mitchell within the framework of Epstein's air travel network. The victim describes horror on flights "with Jeffrey" and others, suggesting Mitchell was encountered during air travel or at destinations reached by air.
 5. **Independence from Giuffre:** This journal appears to be from a **different victim** than Virginia Giuffre, based on the writing style, references to individuals (Leonsis, Case, Kimsey), and the nature of the entries. This means Mitchell was named by **at least two independent victims**.

Critical Findings:

- Groff Called the US State Department:** Epstein's personal assistant, who was later identified as a co-conspirator in the NPA and invoked her Fifth Amendment privilege during the SDNY investigation, **called the United States State Department** looking for Senator Mitchell. This demonstrates:
 - A level of access and familiarity where calling government agencies on Epstein's behalf was routine
 - The relationship was significant enough to warrant tracking Mitchell across institutions
- Timeline Match:** Mitchell resigned as Special Envoy to the Middle East in May 2011. This July 2012 email shows Groff was unaware Mitchell had already left the State Department over a year earlier, suggesting intermittent but persistent contact.
- Ann Ungar Identified:** Mitchell's assistant at DLA Piper is named as Ann Ungar. Groff had her number and instructed others to "please make note" -- indicating ongoing contact management.
- "Tea or get together":** The invitation suggests a personal social relationship, not a formal political or business meeting.
- Post-Conviction Contact:** This email is from July 2012 -- **four years after Epstein's 2008 Florida conviction** for solicitation of prostitution involving a minor. Mitchell's willingness to maintain social contact post-conviction is significant.
- DS9 Dual Production:** This email also appears in DS9 as [EFTA00408507](#), confirming it was produced twice across datasets.
- Mitchell Proactively Called (DS9 -- NEW):** The next day, July 25, 2012, [EFTA00408367](#) records: "Senator Mitchell called to let you know he is spending the summer in Maine. He is chairing a conference today and tomorrow but says if you would like to catch up to give him a call this Friday or Saturday on his cell." Mitchell proactively called Groff (not merely returning a call), offered his personal cell for weekend contact, and explicitly invited Epstein to "catch up." This directly contradicts his spokesperson's claim that he "declined or deflected invitations."
- Same Day Activity:** This email was sent the same day as [EFTA01766832](#) (a Joe Pagano call list at 5:28 PM). Groff was managing multiple high-priority contacts for Epstein simultaneously, suggesting Mitchell was part of regular contact rotation.

6. SOURCE 4: MAGAZINE PROFILE

Document: [EFTA00013640](#)

Database: OCR (OCR text extraction database), Image Analysis (image catalog database)

Type: Magazine feature article (appears to be Vanity Fair or similar publication, circa early 2000s)

Relevant Passage:

Epstein brings a trophy-hunter's zeal to his collection of scientists and politicians. But the

*real charge for him is in seeing these guys work it. Like former Democratic Senate leader **George Mitchell**, for example. In Epstein's mind, Mitchell is the world's greatest negotiator, based on his work in Ireland and the Middle East. **So he wrote the senator a bunch of checks. Says Mitchell: "He has supported some philanthropic projects of mine and organized a fund-raiser for me once. I would certainly call him a friend and a supporter."***

Analysis:

1. **Financial Relationship Confirmed:** Epstein "wrote the senator a bunch of checks." This establishes a direct financial connection -- Epstein donated to Mitchell's philanthropic projects and organized a fundraiser.
 2. **Mitchell's Own Words:** Mitchell himself acknowledged the relationship: "I would certainly call him a friend and a supporter." This is a direct, on-the-record admission of friendship, not merely a passing acquaintance.
 3. **Epstein's Admiration:** Epstein viewed Mitchell as "the world's greatest negotiator" based on his Ireland and Middle East work. This places Mitchell within Epstein's pattern of collecting political and intellectual elite.
 4. **Trophy Hunting Pattern:** The article explicitly describes Epstein's approach as bringing "a trophy-hunter's zeal to his collection of scientists and politicians." Mitchell is presented as a prime example of this pattern.
 5. **Context:** In the same article, Epstein's relationship with Bill Clinton is described in detail, including the Africa trip on the Boeing 727. Mitchell is presented alongside Clinton as part of Epstein's political network.

7. SOURCE 5: FBI DOCUMENT -- MULTI-DAY TRIP ALLEGATION

Source: Reporting by Bangor Daily News (February 2, 2026) citing newly released FBI documents from the DOJ file release of 3+ million pages.

Key Allegation:

An FBI document describes a woman alleging that Epstein sent her for "**multiday trips**" with Mitchell in **California and Washington, D.C.**, between **2003-2004**.

Significance:

1. **Specific Locations:** California and Washington, D.C. -- not Epstein's typical New York/Palm Beach/USVI locations. This suggests Mitchell-specific travel arrangements.
2. **Multi-Day Duration:** "Multiday trips" implies extended stays, not brief encounters.
3. **2003-2004 Timeframe:** This predates Epstein's 2005 Palm Beach investigation and 2008 plea deal. Mitchell would have been approximately 70-71 years old.
4. **FBI Documentation:** This allegation was documented in FBI investigative files. Note that the FBI records all allegations received during an investigation; inclusion in the files does not itself indicate a credibility assessment.

Note: This specific FBI document was not directly identified in the four databases searched. It may be in documents that were not OCR-processed or in redacted portions that were not recovered. The allegation is documented through press reporting of the DOJ file release.

FBI Photo Identification Procedure (DS9 -- NEW)

EFTA00162974 (DS9): NBC producer Sarah Fitzpatrick's urgent request to FBI (September 19, 2019) references a victim interview in which: "She says that as part of the interview she told the FBI the names of the men she was directed to have sex with, and was given photos of prominent men in

Epstein's orbit to help her identify." The victim identified Mitchell through this **photo identification procedure**, not merely verbal description. The same document contains the claim that FBI Agent Jason Richards told the victim in 2014 that "his head had been cut off above him" and that he was "instructed to stop investigating the Epstein case."

NTOC Flight Record Tip (DS9 -- NEW)

EFTA00277082 (DS9): A tip states: "Allegedly Maine US Senator George Mitchell is, and he was, according to published flight records, on Epstein's plane." This does not prove the claim, but it documents that the allegation was circulating with a claimed evidentiary basis. The original report's finding that Mitchell does not appear in digitized flight logs remains accurate.

8. SOURCE 6: POST-CONVICTION CONTACT (2010-2018)

UPDATE (DS9 Revisit): The original report relied primarily on press reporting for most post-conviction contact evidence. DS9 contains the actual source emails -- at least 20 distinct email documents spanning September 2011 through September 2015, demonstrating sustained, active, reciprocal contact between Mitchell and Epstein's office.

September 2011: Confirmed Meeting + Jes Staley Introduction Attempt

EFTA00428638 (Sept 10, 2011): Groff to "Julia, Janice and Maher": "Jeffrey Epstein is in New York this weekend and was wondering if senator Mitchell might be as well. Jeffrey would love to see him tomorrow, Sunday sept 11th."

EFTA00428166 (Sept 12, 2011): "Senator Mitchell will come more about 4:15...he says he must leave at 10 or 5 minutes to 5:00" -- **confirmed meeting at Epstein's residence.**

EFTA00427635 (Sept 20, 2011): "Senator Mitchell is in London now and not coming back to NY until Saturday. He says he would like to meet Jes at another time...Senator Mitchell sends his best." Epstein was attempting to introduce Mitchell to Barclays CEO Jes Staley. Staley was later listed alongside Glenn Dubin in an internal prosecution planning document (**EFTA00098755**) under "Individuals Who Have Engaged in Massages with Epstein Girls."

~2010: Yom Kippur Break-Fast Dinner

EFTA00298379-EFTA00298383: Complete guest list for Epstein's Yom Kippur break-fast dinner at 9 East 71st Street. Confirmed attendees included Eva & Glenn Dubin, Alan Dershowitz, Leon Black, Jes & Debra Staley, Marvin & Gloria Minsky, Jean Luc Brunel, and others. Mitchell was listed as **declined.**

The planning notes reveal Mitchell's strategic value to Epstein: "Je said if senator Mitchell confirms, then invite Larry Summers and Ehud Barak and tell them both that senator Mitchell will be coming." Mitchell was being used as a **social draw** -- Epstein planned to leverage a Mitchell confirmation to attract Summers and Barak.

July 2012: Mitchell Proactively Calls + State Department Email

EFTA00408507 (Jul 24, 2012): The State Department email (also in DS11 as **EFTA02522767**).

EFTA00408367 (Jul 25, 2012): "Senator Mitchell called to let you know he is spending the summer in Maine. He is chairing a conference today and tomorrow but says if you would like to catch up to give him a call this Friday or Saturday on his cell." Mitchell proactively called Groff, offered his personal cell for weekend contact, and explicitly invited Epstein to "catch up."

February-March 2013: Bill Gates Lunch Attempts

EFTA00395729 (Feb 13, 2013): "Senator Mitchell appreciates your kind invitation to possibly have lunch with you and [redacted] on March 1, but he has a once a year meeting in Ft. Myers, FL for the Board of Directors for the Red Sox."

EFTA00953696 (Feb 13, 2013): **Unredacted version** confirms the lunch was with "you and **Bill Gates.**"

EFTA00395024 (Feb 23, 2013): Second attempt: "LM for Senator Mitchell asking if he might be available to meet with you and Bill Gate late Wed. Feb. 27th evening."

EFTA00395031 (Feb 23, 2013): Mitchell declines second attempt: "Senator Mitchell has a busy week of traveling... He hopes you are doing well."

EFTA00395264: Calendar entry: "TBD Possible Lunch w/Bill Gates (maybe Senator Mitchell?)" -- March 1, 2013.

November 2013: Scheduled Appointment in New York

EFTA00284786: Calendar confirms appointment with Mitchell at 10:30 AM, November 6, 2013 in New York.

September 2015: Direct Email Reply (NEW -- Extends Timeline by 2 Years)

EFTA00339490 (Sept 22, 2015): Epstein directs Groff: "as senator mitchell if he would like to have a coffee with terje and ehud this week. or chomsky onver the weekend."

EFTA00339499 (Sept 22, 2015): Groff to Mitchell: "Jeffrey is asking if you would like to have coffee with Terje Rod Larsen and Ehud Barak next week... or with Noam Chomsky Sat. Oct 3 or 4... Might you be in NY coming up and available?"

EFTA00339592 (Sept 23, 2015): **Mitchell's direct reply** (From: "Mitchell, George"): "Thanks but I'm traveling for most of the next couple of weeks, in Houston tonight then Aspen for 4 days, then Maine and DC parts of next week. I think I will see Ehud Barak at a conference in Aspen and in NY where I'll be for a 1 day conference where we're both speaking. **Best regards to Jeffrey and to you.**"

EFTA00339594 (Sept 23, 2015): Groff to Mitchell: "Wow! What a schedule! Thank you for letting me know and I will pass along to Jeffrey. Hopefully next time we can put something together."

This is September 2015 -- seven years post-conviction. Mitchell replies directly to Epstein's office, shares his travel schedule, sends "Best regards to Jeffrey," and notes he will independently see Barak. This extends the documented relationship **two years beyond** the original report's latest confirmed contact (Nov 2013).

December 2018: iMessage from Epstein

EFTA00508979, page 9 (Dec 20, 2018): iMessage chain during government shutdown: Epstein writes "Sen George Mitchell a very close friend when senate majority leader. Said a budget deal is never done earlier than 11 55 pm on the eve of a shutdown." This is the actual source document (device extraction) for the iMessage previously cited through press reporting.

Mitchell's Response to Post-Conviction Contact:

Mitchell's spokesperson stated: "Senator Mitchell declined or deflected invitations from Epstein that came afterward."

Assessment: The documentary evidence comprehensively contradicts this claim. DS9 documents show Mitchell proactively called Groff (July 2012), confirmed in-person meetings (September 2011), sent direct email replies with personal travel schedules (September 2015), expressed interest in meeting Epstein's associates (Staley introduction), and sent "Best regards to Jeffrey" seven years after conviction. Mitchell may have declined some specific invitations (Yom Kippur dinner, Gates lunches) but maintained warm, reciprocal contact throughout.

9. DISTINGUISHING GEORGE MITCHELL FROM DAVID MITCHELL

This investigation identified **two entirely separate individuals named Mitchell** in the Epstein files:

Senator George Mitchell

- Former Senate Majority Leader
- Connection: political/social/philanthropic/alleged sexual

- Documents: [EFTA00022133](#), [EFTA02731420](#), [EFTA02522767](#), [EFTA00013640](#), plus 20+ DS9 emails ([EFTA00339490-EFTA00428663](#))
- No email address in files; contact through assistants: Ann Ungar (DLA Piper), Julia Reed, Janice, Neal, and Maher Bitar ([EFTA00309068](#))
- Mitchell's personal cell number in Epstein's master PEOPLE LIST (first name on the list)
- No Deutsche Bank payment records

David J. Mitchell (Mitchell Holdings LLC)

- Financial/business associate
- Email: djm@mitchellholdings.com
- Addresses: 745 Fifth Avenue; 801 Madison Avenue, New York NY 10065
- Connection: property management, restaurant funding, "cascade" payments
- 20+ email documents in OCR text records
- Deutsche Bank payments: ~\$476K across 13+ disbursements (Oct 2018 - Apr 2019)
- Individual payments ranged from \$2,200 to \$125,000
- Connected to Peter Mandelson through email chains
- No sexual allegations

Other Mitchells in Files (Not George)

- **Karen S. Mitchell** ([EFTA00027122](#)) -- Court clerk, Northern District of Texas
- **Heather Mitchell** -- Appears in flight log knowledge graph (auto-created)
- **Andrew Mitchell** -- Appears in flight log knowledge graph (auto-created)
- **Mitchell, E.** ([EFTA00018300](#)) -- Academic researcher (Goodman lab), child abuse disclosure studies
- **David Mitchell** ([EFTA00147306](#)) -- Drug pricing testimony witness (unrelated)

10. FLIGHT LOGS AND TRAVEL EVIDENCE

Direct Flight Log Evidence:

Senator George Mitchell does NOT appear by name in the digitized flight log databases. The knowledge graph contains entries for "Heather Mitchell" and "Andrew Mitchell" from flight logs, but no "George Mitchell."

Indirect Travel Evidence:

1. **Victim Journal** ([EFTA02731420](#)): The page naming Mitchell begins with "They are always flights of horror," placing him in the context of Epstein's aviation network.
2. **FBI Document (per press reporting)**: Alleges "multiday trips" to California and Washington, D.C. -- suggesting ground travel or commercial flights arranged by Epstein, not necessarily Epstein's private aircraft.
3. **Groff Email** ([EFTA02522767](#)): Shows Epstein's office actively tracking Mitchell's location (New York vs. State Department) for potential meetups.
4. **Magazine Profile** ([EFTA00013640](#)): Mitchell acknowledges Epstein "organized a fund-raiser for me once," implying in-person events.
5. **"People to See" Lists (DS9 -- NEW)**: [EFTA00314269-EFTA00314271](#) (September 2011): Master weekly list includes "George Mitchell, Barnaby Marsh, Ehud Barak, Tom Pritzker, Sultan, President of Ivory Coast Ouattara, Boris Nikolic, Bill Richardson, Terje Roed Larsen, Abdullah, Hamad, Woody Allen, Brock Pierce, Jes Staley, Kissinger, Marvin [Minsky], Dr. Axel." Mitchell and Richardson -- the two named Democratic senators from the victim accusation compilation -- appear on the same week's schedule.
6. **Calendar Co-Occurrence (DS9 -- NEW)**: Multiple DS9 calendar documents show Mitchell on the

same weekly schedules as other named individuals: Richardson and Staley in September 2011 (EFTA00428025); Barak/Chomsky in September 2015 (EFTA00339490).

Assessment:

The absence of Mitchell from digitized flight logs does not negate the allegations. Epstein operated multiple aircraft (Boeing 727, Gulfstream, Cessna 421, helicopter) and not all passengers were logged on all flights. Additionally, Mitchell may have been transported to Epstein via commercial means rather than private aircraft. An NTOC tip (EFTA00277082) claims Mitchell was "on Epstein's plane" based on "published flight records," though this remains unverified.

11. FINANCIAL CONNECTIONS

Direct Financial Flow: Epstein to Mitchell

1. **Philanthropic Donations:** Epstein "wrote the senator a bunch of checks" for Mitchell's philanthropic projects (EFTA00013640).
2. **Fundraiser:** Epstein "organized a fund-raiser for me once" per Mitchell's own statement (EFTA00013640).
3. **Quantum:** The amounts are not specified in the available documents. No Deutsche Bank wire records to Senator George Mitchell were identified. The "bunch of checks" may have been personal checks from Epstein or written through non-Deutsche Bank accounts.

No Deutsche Bank Records for George Mitchell:

The Deutsche Bank transaction exhibits (EFTA00027019) contain extensive records for **David J Mitchell** (\$476K+) but **no records for George Mitchell or any entity associated with Senator Mitchell**. This could mean:

- Payments predated the Deutsche Bank account period
 - Payments went through other banking channels
 - Payments were in the form of personal checks or cash
 - Payments were made through intermediary entities
-

12. MITCHELL'S PUBLIC DENIALS

August 9, 2019 -- Initial Denial:

Following the unsealing of Giuffre court documents:

"The allegation contained in the released documents is false. I have never met, spoken with or had any contact with Ms. Giuffre. In my contacts with Mr. Epstein, I never observed or suspected any inappropriate conduct with underage girls. I only learned of his actions when they were reported in the media related to his prosecution in Florida. We have had no further contact."

Key Claims and Documentary Contradictions:

Mitchell Claim	Documentary Evidence
"We have had no further contact" [after Florida prosecution]	Sept 2011: confirmed 4:15 meeting at Epstein's (EFTA00428166); Jul 2012: Mitchell proactively called (EFTA00408367); Feb 2013: two Gates lunch invitations; Nov 2013: scheduled appointment; Sept 2015: Mitchell's direct email reply with "Best regards to Jeffrey" (EFTA00339592)
"Declined or deflected invitations"	Mitchell proactively called Groff (Jul 2012), confirmed meeting (Sept 2011), asked to meet Jes Staley "at another time" (Sept 2011), replied directly with travel schedule (Sept 2015). While some specific invitations were declined (Yom Kippur, Gates lunches), the characterization of passive deflection is

Mitchell Claim Documentary Evidence

contradicted by active reciprocation.

"I never observed or suspected any inappropriate conduct"

Ongoing social contact through at least Sept 2015 provides opportunity for observation

"I only learned of his actions when they were reported in the media"

Plausible but not verifiable

"I have never met, spoken with or had any contact with Ms. Giuffre"

Cannot be independently verified from available documents; Giuffre's sworn testimony states otherwise; FBI used photo identification procedure with a victim who named Mitchell

February 2026 -- Updated Denial:

Mitchell's spokesperson stated: "Senator Mitchell reiterates unequivocally that he never met, spoke with, or had any contact... with any underage women." He "profoundly regrets ever having known Jeffrey Epstein."

Mitchell's spokesperson also stated he "declined or deflected invitations from Epstein that came afterward" -- contradicted by the confirmed September 2011 meeting, the proactive July 2012 call, and the direct September 2015 email reply with "Best regards to Jeffrey," all documented in DS9 source emails.

13. PROMINENT NAMES LIST AND NTOC TIPS

FBI Prominent Names Briefing (EFTA01660622):

Senator George Mitchell **does NOT appear** on the FBI Prominent Names page (EFTA01660622, page 17) that lists Trump, Weinstein, Prince Andrew, Staley, Black, Dubin, Wexner, Dershowitz, Clinton, Lutnick, and Barr.

NTOC Tips (EFTA01660651, EFTA01660679):

Mitchell does not appear in the main NTOC tips compilations. However, DS9 contains a separate NTOC tip (EFTA00277082) claiming Mitchell was "on Epstein's plane" based on "published flight records" (see Source 5 above).

Assessment:

Mitchell's absence from the Prominent Names list and NTOC tips may indicate:

- The FBI considered the allegations less substantiated than those against individuals on the list
- Mitchell's alleged conduct did not generate independent third-party tips
- The allegations came primarily through Giuffre's testimony and the separate victim journal, rather than NTOC reporting channels

14. PHILADELPHIA ARCHDIOCESE IRONY

Document Reference: Philadelphia Inquirer reporting, August 2019

In November 2018, George Mitchell was appointed as chairman of the oversight committee for the **Archdiocese of Philadelphia's Independent Reconciliation and Reparations Program (IRRP)** -- a compensation fund for clergy sexual abuse victims.

- Under his oversight, the fund distributed more than **\$19.6 million to over 79 abuse victims**
- He served from November 2018 through May 2019

- He stepped down citing "new work commitments at his law firm, DLA Piper"
- In August 2019, Giuffre's allegations against Mitchell were unsealed
The juxtaposition: The person selected to oversee the Catholic Church's major reparations effort for sexual abuse victims was himself accused of sexual abuse by at least two individuals in the Epstein case. His role required evaluating the credibility and suffering of abuse victims while he was, according to those accusers, himself an abuser. Mitchell has denied all such allegations.

15. 2026 CONSEQUENCES

Following the DOJ release of 3+ million pages of Epstein investigation files containing **300+ references to Mitchell**, the consequences have been substantial:

Institutional Severing:

Date	Action
Feb 1, 2026	US-Ireland Alliance removed Mitchell's name from the George J. Mitchell Scholarship
Feb 5, 2026	Mitchell resigned as honorary chair of the Mitchell Institute (Maine education charity)
Feb 2026	Queen's University Belfast removed Mitchell's bust from campus
Feb 2026	Queen's University Belfast removed Mitchell's name from its Institute for Global Peace, Security and Justice
Feb 2026	Mitchell Institute considering a potential name change

Significance:

Mitchell's reputation as architect of the Good Friday Agreement -- one of the most significant diplomatic achievements of the late 20th century -- is being systematically dismantled. Institutions that once honored his peace work are severing ties based on the Epstein allegations.

17. PROSECUTORIAL ASSESSMENT

Evidence Summary:

For prosecution:

1. Two independent victim statements naming Mitchell:

- Virginia Giuffre (EFTA00022133): sworn testimony that Epstein and Maxwell "told her to have sex with" Mitchell
- Unnamed victim journal (EFTA02731420): "even old senators like George Mitchell who you think would be good like a grandpa are bad"

2. FBI investigative document: Alleges "multiday trips" in California and Washington, D.C. (2003-2004)

3. **Confirmed ongoing relationship:** At least 20 DS9 source emails document sustained contact from September 2011 through September 2015, including confirmed meetings, proactive calls from Mitchell, and direct email replies. Epstein claimed "very close friend" as late as December 2018.

4. **Financial connection:** Epstein paid for Mitchell's philanthropic projects and organized fundraisers

5. **Operational infrastructure:** Groff (NPA co-conspirator) managed Mitchell contact through State Department channels and through 4 separate assistants (Julia Reed, Janice, Neal, Maher Bitar)

6. **Mitchell's denial contradicted by documents:** Claimed "no further contact" and "declined or deflected invitations," contradicted by confirmed September 2011 meeting, proactive July 2012 call, and direct September 2015 email reply with "Best regards to Jeffrey"

7. **Jes Staley introduction:** Mitchell expressed interest in meeting Jes Staley through Epstein (Sept 2011); Staley was later classified as having engaged in sexual conduct with Epstein's victims

8. **FBI photo identification:** Victim identified Mitchell through a photo identification procedure during FBI interview (EFTA00162974)

9. **Social draw strategy:** Epstein planned to use Mitchell's attendance to attract Summers and Barak to events

Against prosecution:

1. **No flight log evidence:** Mitchell not found in digitized flight logs

2. **No financial records:** No Deutsche Bank wire transfers to Mitchell

3. **Denial under potential oath:** Mitchell categorically denies all allegations

4. **Statute of limitations:** Alleged conduct from 2003-2004 would face significant SOL challenges

5. **Giuffre credibility challenges:** Defense attorneys have challenged aspects of Giuffre's testimony

6. **Absence from Prominent Names list and NTOC tips:** FBI may not have prioritized Mitchell

Pattern Analysis:

Mitchell fits the documented pattern of Epstein's "lending out" of victims to powerful men:

- Like Bill Richardson, Mitchell was a senior Democratic politician
- Like Richardson, the allegation involves Maxwell directing the victim
- Like Richardson, Mitchell has categorically denied the allegations
- Like Richardson, the denial is partially contradicted by documentary evidence of ongoing contact

- Like Richardson, Mitchell was never subpoenaed, never required to testify under oath, and never charged

Why Mitchell Was Never Charged:

1. **Statute of limitations and evidentiary challenges:** The 2003-2004 timeframe of the alleged conduct would have presented significant legal obstacles by the time SDNY could have acted
2. **Institutional factors:** Mitchell's status as a former Senate Majority Leader and peace negotiator may have been a factor, though no documentary evidence of reluctance based on his stature was found in the files
3. **SDNY prioritization:** SDNY focused on Epstein and Maxwell, not named associates
4. **Victim credibility challenges:** Giuffre's allegations against multiple individuals created potential defense arguments
5. **Age:** Mitchell is now 92 years old; prosecution prospects diminished further with time

Comparison to Richardson:

The Mitchell case is structurally similar to the Richardson case (documented in RICHARDSON_SDNY_COVERUP.md):

- Both named by Giuffre in sworn testimony
- Both maintained post-conviction contact with Epstein
- Both issued categorical denials
- Both had denials partially contradicted by documentary evidence
- Neither was ever required to testify under oath about specific allegations
- Neither was ever charged

However, the Richardson case generated **more internal SDNY documentation** ([EFTA00024683](#) videoconference, [EFTA00014372](#) prosecutor frustration, [EFTA00014374](#) counsel call memo), while the Mitchell case has **fewer SDNY-specific records** in the databases searched.

CONCLUSION

Senator George Mitchell's entanglement with Jeffrey Epstein is documented across five distinct evidentiary categories in the DOJ files:

1. **Two independent victim statements** naming him as an abuser (EFTA00022133, EFTA02731420), with FBI photo identification procedure corroborating the identification (EFTA00162974)
2. **20+ DS9 source emails** documenting sustained, reciprocal post-conviction contact from September 2011 through September 2015, including confirmed meetings, proactive calls from Mitchell, and direct email replies with "Best regards to Jeffrey"
3. **Operational infrastructure** connecting Epstein's office to Mitchell through 5 contacts (Ann Ungar, Julia Reed, Janice, Neal, Maher Bitar), the US State Department, and Mitchell's personal cell number on Epstein's master contact list
4. **Mitchell's own admission** of friendship and financial support (EFTA00013640)
5. **FBI investigative documentation** of multiday trips with a victim (per press reporting of DOJ release) Mitchell's 2019 denial that there was "no further contact" after Epstein's Florida prosecution is comprehensively contradicted by DS9 source documents: a confirmed September 2011 meeting at Epstein's residence, a proactive July 2012 call from Mitchell offering weekend contact, two Gates lunch invitations (February 2013), a scheduled November 2013 appointment, and a direct September 2015 email reply sharing his travel schedule and sending "Best regards to Jeffrey." The spokesperson claim that Mitchell "declined or deflected invitations" is partially accurate (he declined the Yom Kippur

dinner and Gates lunches) but fundamentally misleading -- the documentary record shows warm, reciprocal engagement, not passive deflection.

DS9 also reveals that Epstein used Mitchell as a social draw to attract other targets (planning to leverage a Mitchell confirmation to invite Summers and Barak), attempted to introduce Mitchell to Jes Staley (later named in prosecution classifications), and maintained Mitchell as the first name on his master contact list alongside 50+ other high-value associates.

The evidence, while not reaching the level of the Leon Black case (4+ victims, \$118M+ financial flows, FBI 302s), is comparable in structure to the Bill Richardson case -- two-victim sworn testimony, sustained post-conviction contact, categorical denial contradicted by documents, and ultimately no prosecution.

As of February 2026, the institutional consequences have been severe: Mitchell has resigned from his namesake organizations, and international institutions have severed ties. He has never been required to testify under oath about the specific allegations, and at 92 years old, prosecution is effectively impossible.

Report generated from comprehensive search of 4 databases (primary document text database, Dataset 10 document text database, OCR text extraction database, image catalog database) plus knowledge graph; updated with DS9/DS11 full-text corpus revisit (25+ new EFTA citations identified). THE SIX REDACTED CO-CONSPIRATORS: INVESTIGATION OF NAMES READ BY REP. RO KHANNA ON THE HOUSE FLOOR

Classification: Investigative Analysis of DOJ Epstein Files
Date: February 10, 2026

Context: On February 10, 2026, Rep. Ro Khanna (D-CA) read onto the House floor the names of six men identified as potential co-conspirators in the Jeffrey Epstein case, which had been redacted by the FBI in publicly released documents. Rep. Thomas Massie (R-KY) joined in the disclosure. The names were read under the Speech and Debate Clause of the U.S. Constitution.

EXECUTIVE SUMMARY

Six names were disclosed:

#	Name	Known Identity	Evidence in EFTA Files	Co-Conspirator Basis
1	Salvatore Nuara	NYPD detective; disciplined for escort service connection	0 hits across 1.42M documents (full corpus); confirmed on EFTA00077895 list (#3)	NYPD complaint source, 2010
2	Zurab	Georgian	0 hits across 1.42M documents (full	NYPD complaint source,

#	Name	Known Identity	Evidence in EFTA Files	Co-Conspirator Basis
	Mikeladze	oil/business figure	corpus); confirmed on EFTA00077895 list (#10)	2021
3	Leonic Leonov	Little publicly known	0 hits across 1.42M documents (full corpus); confirmed on EFTA00077895 list (#14)	NYPD complaint source, 2021
4	Nicola Caputo	Former EU Parliament member (Italy)	0 hits for "Nicola Caputo" across 1.42M documents; confirmed on EFTA00077895 list (#17)	NYPD complaint source, 2009
5	Sultan Ahmed bin Sulayem	Chairman/CEO of DP World (Dubai)	5,026 documents across full corpus (updated Feb 12, 2026; 2,292 in DS9), 10-year relationship (2009-2019), victim testimony, port infrastructure access, seized CD evidence	Extensive — see DUBAI_SULAYEM_IN_VESTIGATION.md
6	Leslie Wexner	Billionaire founder of L Brands/Victoria's Secret	1,497 documents across full corpus (updated Feb 12, 2026; 675 in DS9), FBI FD-302 victim statement of direct abuse, FBI "secondary co-conspirator" designation, 2007 Cordero v. VS/Wexner civil suit	Extensive — FBI witness statement, \$100M+ misappropriation, Victoria's Secret pipeline

Key finding: Four of the six names (Nuara, Mikeladze, Leonov, Caputo) produce **zero results across the full 1,380,937-document corpus** (2,731,796 pages -- confirmed Feb 12, 2026 against expanded corpus nearly 3x the original). These names exist **ONLY** on the [EFTA00077895](#) co-conspirator list — they are genuinely absent from every other released document. By contrast, Wexner appears in **1,497 documents** and Sulayem in **5,026 documents**. The four lesser-known names' designation as "potential co-conspirators" traces to NYPD complaint filings spanning 2009-2021.

Critical new context from web research (Feb 10, 2026):

- These six names come from a **20-person co-conspirator list** in the Epstein files. Initially only Epstein and Maxwell were visible; 16 additional names have now been unredacted. **Two names remain redacted.**

- The FBI designated Wexner as a **"SECONDARY CO-CONSPIRATOR"** in a document dated August 15, 2019 ([EFTA00175080](#) — Dataset 9, now downloaded and verified)

- The DOJ released **4,800 messages** between Sultan bin Sulayem and Epstein

- **Wexner is scheduled for deposition before the House Oversight Committee on February 16, 2026**

- Deputy AG Todd Blanche acknowledged the redactions were an error and ordered them unredacted. **The full 20-person list** has been verified from the source document [EFTA00077895](#) — see §7 for the complete table with all names, sources, and dates. Two entries (#5 and #13) remain redacted.

NOTE: Rep. Khanna stated the DOJ "blanket-redacted anyone who was a female." The list contains 12 female names — these may be victims who filed NYPD complaints, witnesses, or facilitators.

SECTION 1: THE NON-PROSECUTION AGREEMENT CO-CONSPIRATOR CLAUSE

1.1 The Legal Framework

The 2008 Non-Prosecution Agreement (NPA) between AUSA Alexander Acosta and Epstein's legal team contained a clause documented in [EFTA00027666](#) (the CVRA judicial opinion):

The government agreed "not [to] institute any criminal charges against any potential co-conspirators of Epstein, including but not limited to [REDACTED]"

This clause protected not just Epstein but **all named co-conspirators** from federal prosecution. The names following "including but not limited to" were redacted in the public release. These are likely the names Khanna read on the House floor.

1.2 The FBI's July 2019 Co-Conspirator Outreach

[EFTA00037366](#) — dated July 7, 2019 (5 days after Epstein's arrest) — documents FBI agents making contact with co-conspirators:

"We made contact with [REDACTED] last night in NY. Contact was made with [REDACTED]. Attempts were made to [REDACTED] and Brunel. [REDACTED] is confirmed to live in NY but was away for the holiday weekend."

This suggests that when Epstein was arrested, the FBI immediately began contacting the individuals named in the NPA. Jean Luc Brunel is the only unredacted name.

1.3 The 86-Page Prosecution Memo

[EFTA02731082](#) — titled "Investigation into Potential Co-Conspirators of Jeffrey Epstein" — is an 86-page memorandum from AUSAs to U.S. Attorney Geoffrey Berman dated December 19, 2019. This is the definitive document on the co-conspirator investigation. It contains 45 references to Wexner, 1 reference to "a sultan in Dubai," and **zero** references to Nuara, Mikeladze, Leonov, or Caputo.

This means: The four lesser-known names were likely in the original 2008 NPA co-conspirator list but were NOT subjects of the 2019 SDNY investigation. Wexner and Sultan bin Sulayem were investigated in 2019 but not charged.

SECTION 2: INDIVIDUAL PROFILES

2.1 SALVATORE NUARA

Public Identity

- **Occupation:** NYPD detective
- **Notable:** Disciplined by the NYPD in connection with an escort service; his name appeared in Jeffrey Epstein's "black book" of contacts

Evidence in EFTA Files

0 results across full 1,380,937-document corpus (2,731,796 pages -- updated Feb 12, 2026):

- "Nuara": 0 results (one false positive from garbled OCR in [EFTA01273824](#) — a financial statement, not a name match)
- "Salvatore Nuara": 0 exact matches
- Image analysis database (21,859 images): 0 results
- **CONFIRMED** on [EFTA00077895](#) co-conspirator list as #3, source: NYPD 2010

Broader Search

- "Salvatore" returns 3 hits, all for "Salvatore Moore" (Deutsche Bank employee) — no connection to Nuara
- NYPD references appear in 20+ documents ([EFTA00015037](#), [EFTA00019022](#), [EFTA00028415](#), etc.) but none mention Nuara by name
- [EFTA00029444](#) contains an NYPD email "PICARELLO, JOSEPH" — a different NYPD officer involved in Epstein sex offender monitoring

Assessment

Nuara was likely named in Epstein's black book (the physical contact book seized in 2005, not the same as the publicly leaked "Little Black Book"). His NYPD connection and escort service discipline may have placed him in the co-conspirator orbit during the original 2006-2008 Palm Beach investigation. The fact that he does not appear in the 2019 SDNY prosecution memo suggests he was not a focus of the later investigation.

2.2 ZURAB MIKELADZE

Public Identity

- **Nationality:** Georgian
- **Industry:** Oil/energy sector
- **Limited public profile;** LinkedIn presence suggests oil industry connections in Georgia/CIS region

Evidence in EFTA Files

0 results across full 1,380,937-document corpus (2,731,796 pages -- updated Feb 12, 2026):

- "Mikeladze": 0 results
- "Zurab": 0 results
- "Georgia" + "oil": 0 relevant results
- "Tbilisi": 0 results
- **CONFIRMED** on [EFTA00077895](#) co-conspirator list as **#10**, source: NYPD 2021

Assessment

Mikeladze's presence on a co-conspirator list derived from NYPD complaints does not, by itself, establish the nature of his connection to Epstein. The NYPD 2021 source date is notably late — this may represent a complaint filed after the 2019 arrest/death, possibly by a victim who came forward during the SDNY investigation. His complete absence from the full 1.42M-document corpus means he exists only on the [EFTA00077895](#) co-conspirator list, and no details about the NYPD complaint that generated this entry are available in the released files.

2.3 LEONIC LEONOV

Public Identity

- **Extremely limited publicly available information**
- Name is consistent with Russian/Eastern European origin
- No confirmed biographical details from public reporting

Evidence in EFTA Files

0 results across full 1,380,937-document corpus (2,731,796 pages -- updated Feb 12, 2026):

- "Leonov": 0 results
- "Leonic": 0 results
- **CONFIRMED** on [EFTA00077895](#) co-conspirator list as **#14**, source: NYPD 2021

Assessment

This is the most opaque of the six names. No public biographical information has been identified. Like Mikeladze, the NYPD 2021 source date suggests a post-arrest complaint. His complete absence from the full 1.42M-document corpus means he exists only on the [EFTA00077895](#) co-conspirator list, and no details about the underlying NYPD complaint are available.

2.4 NICOLA CAPUTO

Public Identity

- **Former member of the European Parliament** representing Italy
- Political career in Italian and European politics

Evidence in EFTA Files

0 results for "Nicola Caputo" across full 1,380,937-document corpus (2,731,796 pages -- updated Feb 12, 2026):

- "Caputo" returns 18+ hits — all for **Kate Caputo** (Leon Black's assistant, toured Google with Epstein on March 21, 2013 — see [EFTA02143198](#)), **Christina Caputo** (PR associate — [EFTA01989928](#)), or **Michael A. Caputo** ([EFTA00017751](#) — government attorney, not related)
- **CONFIRMED** on [EFTA00077895](#) co-conspirator list as **#17**, source: NYPD 2009 (now downloaded from Dataset 9)

Key Context

[EFTA00077895](#) has been downloaded and verified — it is a 21-page UNCLASSIFIED//FOUO document containing the complete 20-person co-conspirator list. Caputo appears as #17 with an NYPD 2009 complaint source. The NYPD 2009 date predates Epstein's 2019 SDNY arrest, placing it during or shortly after the original Florida case.

Assessment

Like the other lesser-known names, no details about the underlying NYPD complaint are available, and no EFTA documents beyond the co-conspirator list reference Caputo.

2.5 SULTAN AHMED BIN SULAYEM

Public Identity

- **Chairman and Group CEO of DP World** — the world's largest port operator, headquartered in Dubai
- Previously chairman of Dubai Customs and CEO of Nakheel (Dubai's megaproject developer including Palm Jumeirah)
- Access to Sheikh Mohammed bin Rashid Al Maktoum, ruler of Dubai

Evidence in EFTA Files — EXTENSIVE (40+ Documents)

A full investigation has been completed: [DUBAI_SULAYEM_INVESTIGATION.md](#)

Key Evidence Summary:

Direct Communications (12+ email documents):

- [EFTA02439371](#) / [EFTA02439389](#): First emails June 30, 2009 — "Hello my friend" (POST-CONVICTION contact)
- [EFTA02395027](#): Aug 29, 2014 — Sultan's travel itinerary shared with Epstein
- [EFTA02406453](#): Nov 2011 — Full Dubai-Paris-Beirut flight details sent to Epstein
- [EFTA02644753](#): July 15, 2017 — Epstein asks Sultan: "did you find yours? are you part jewish?" followed by discussion of sending Sheikh Mohammed a 23andMe kit

Port Infrastructure Connection (Key Evidence):

- [EFTA02517291](#): Sept 30, 2014 — Sultan directs **Matthew Leech**, DP World Americas SVP, to

contact **Erika Kellerhals** (Epstein's USVI attorney/trustee) regarding the **Port of St. Croix**. Epstein forwards to Kellerhals: "See you Tomorrow at 10."

- This documents a commercial port discussion between DP World and Epstein's USVI attorney. No evidence in the released documents connects this port inquiry to any illegal activity

- **Kellerhals received \$23 million from Epstein (EFTA00027019)** — she was not just a local attorney but a major financial recipient

Financial Connection:

- **EFTA00027019**: July 18, 2017 — \$6,200 payment from Epstein's Deutsche Bank account to Sultan (DB-SDNY-0006349)

Physical Evidence:

- **EFTA00005091**: Seized CD-R labeled "**LSJ XMAS / Sultan**" — photographs from Little St. James Christmas celebration

Victim Testimony:

- **EFTA00021076**: Witness identifies "**a guy from Dubai — Sultan**" in interview notes

Jan 2019 Island Meeting:

- **EFTA02273951**: Epstein instructs staff to invite Sultan, Nicole Junkermann, Steve Bannon, Eduardo Teodorani, and Jabor Yousuf to his island for Feb 2-5, 2019 — **5 months before arrest**

Prosecution Memo Reference:

- **EFTA02731082**, page 66: Wexner's attorneys told prosecutors that Epstein introduced Wexner to "prominent people who knew Epstein, such as Prince Andrew, professors at Harvard, and **a sultan in Dubai**"

Tom Barrack Connection:

- **EFTA02418502**: Oct 2010 — Barrack (later indicted on charges of acting as an unregistered foreign agent for the UAE but acquitted on all counts in November 2022) writes to Epstein from Dubai: "will you see sultan?" — then adds: "U and I need to talk about Nicole!!!!" Barrack also describes Sultan as "in exile — quite sad!!!" (referencing the Dubai World financial crisis that had stripped Sultan of some roles)

Additional Evidence from Full-Corpus Search and Public Reporting:

- **EFTA01615069: Bannon-Epstein texts (May 2018)** — Epstein tells Bannon about "Sulayem plans" being "compartmentalized." Bannon responds about meeting Sultan: "**I love it -- can I get a couple of the really pretty girls that they shoot afterwards???**" Also references Rothschilds, Gary Gensler, and meetings in Paris.
- **EFTA01853867: "Girls" cancelled by Djibouti president (Sept 2011)** — Epstein to Sulayem: "our djibouti friend was a lot of fun, he canceled the girls he had coming, im not sure why?"
- **EFTA01866719**: Sulayem to Epstein (May 2011): "**Do you have the e mail for the Australian girl**"
- **EFTA01964576: Prince Andrew at DP World port opening** — Sulayem tells Epstein about "the presence of sheikh Mohammed and possibly the queen and Cameron." Epstein offers: "invite prince andrew.. i will organize if you want." Sulayem: "Prince Andrew told he will attend."
- **EFTA02033000: \$125M bridge loan request** — Sulayem sought US\$125 million from Epstein
- **EFTA00666117**: Sulayem-Epstein casual email (June 2016) — "I am coming with my girlfriend, my cook"
- **GPS tracking sneakers for children (2011)**: Sulayem emailed Epstein about sneakers with GPS for monitoring children ("Gps GTX Smart Shoe"). Epstein responded: "thanks, great idea, i really like your friend."
- **Sexual discussions**: Sulayem described receiving massages in Japan and referenced women from Ukraine and Moldova. Sent Epstein links to websites facilitating transactional sexual arrangements.
- **Carbyne investment**: Both invested in Israeli cybersecurity firm Carbyne; discussed applications for "Dubai 911" and port security

- **Israel-UAE diplomacy:** Epstein acted as informal bridge between Israel and UAE through Sulayem before the Abraham Accords

5,026 documents reference Sulayem across the full 1.42M-document corpus (updated Feb 12, 2026; expanded from 1,379 in original report; 2,292 in DS9). **4,800 messages** between Sultan bin Sulayem and Epstein have been released by the DOJ.

[Added Feb 12, 2026 -- New DS9 Sulayem Findings]:

- [EFTA00317396](#): Official DP World letterhead invitation from Group CEO Mohammed Sharaf to Epstein for the Maritime Hall of Fame Awards honoring Sulayem (May 9, 2012) -- demonstrates corporate-level awareness of the relationship

- [EFTA00324174](#): Sultan island trip coordination for June 9-10, 2016 -- a previously unknown island visit predating the planned Feb 2019 trip

- [EFTA00307036](#): Epstein's schedule showing Sulayem Hall of Fame event followed immediately by Woody Allen dinner

- [EFTA00080250](#): \$6,200 Deutsche Bank wire from Epstein to Sultan (July 18, 2017)

Assessment

Sultan bin Sulayem is the most extensively documented of the six names in the EFTA files. The documents show a decade-long relationship (2009-2019) involving direct communications, at least one documented visit to Epstein's island, financial transactions, victim testimony naming "a guy from Dubai — Sultan," a commercial port inquiry in the USVI, and connections to high-level Gulf officials. Sultan has not been charged with any crime in connection with the Epstein case. Rep. Massie identified him as the one "pretty high up in foreign government."

2.6 LESLIE WEXNER

Public Identity

- **Billionaire founder of L Brands** (parent of Victoria's Secret, Bath & Body Works)
- **Net worth:** ~\$5 billion
- Based in Columbus, Ohio (New Albany compound)
- **FBI "Prominent Names" briefing:** Listed with notation that Epstein "earned his money from Wexner"
- Known as Epstein's primary financial benefactor and the source of his wealth

Evidence in EFTA Files — EXTENSIVE (1,497 documents across full corpus -- updated Feb 12, 2026; 675 in DS9)

[Added Feb 12, 2026 -- New DS9 Wexner Findings]:

- [EFTA00730295](#): **Cordero v. Epstein/Victoria's Secret/Wexner** -- a 2007 civil action (SUPREME COURT OF THE STATE OF NEW YORK, Index No. 113903/07) in which a victim sued Wexner personally AND "VICTORIA'S SECRET STORES BRAND MANAGEMENT, INC." as defendants. Case was settled (stipulation of discontinuance). This predates the 2008 NPA.

- [EFTA00143419](#): Maxwell proffer -- cooperating witness stated: "Maxwell said that the 'modeling book' was used to recruit models for Victoria Secret which was one of the businesses of Les Wexner, another person close to Epstein."

- [EFTA00146704](#): Victim letter describing the trafficking pipeline: "She was told that she would get a modelling contract through Karen Models, owned and run by Jean Luc Brunel and financed by Epstein, to work as a model for Les Wexner's Victoria's Secret."

- **EFTA00078311**: Civil complaint (filed 11/12/19) -- victim trafficked at age 16, describing "only one entrance with a guard house to Wexner's estate" in Ohio

A. The Prosecution Memo (EFTA02731082)

The 86-page "Investigation into Potential Co-Conspirators" memo contains 45 references to Wexner. Key revelations from the Wexner section (pages 65-67):

The Attorney Proffer (July 25, 2019):

"Wexner is the billionaire founder and CEO of L Brands (formerly Limited Brands) corporation, which controls Victoria's Secret, among other retail brands."

The Theft:

"Epstein stole or otherwise misappropriated several hundred million dollars from Wexner. That misconduct, together with fees that Epstein paid himself for his services to Wexner, appears to account for virtually all of Epstein's wealth."

The Property Fraud:

"Epstein also sold himself a private plane that previously belonged to Wexner at a deeply discounted price."

"Epstein frequently bought property on behalf of the Wexners and then sold it to himself for a fraction of the cost."

This includes the **9 East 71st Street townhouse** — Epstein's infamous Manhattan mansion — which was originally Wexner's property. Wexner's family "moved out of it in 1995" and Epstein occupied it thereafter.

The Coverup:

"Epstein told Wexner that he was having legal problems involving an overly aggressive police chief and some sort of massage. Epstein said he was being blackmailed and it could get messy, so it would be best for Wexner's wife to take over the family finances."

The Settlement:

"The Wexners did not want to bring unnecessary public attention to the issue, so they withdrew the power of attorney, and hired counsel to negotiate a private settlement with Epstein. As a result of those negotiations, Epstein agreed to return \$100 million to the Wexners, which he did in January of 2008."

The Denial:

"Wexner's attorneys indicated that Wexner had no knowledge of any inappropriate or unlawful activity with young women by Epstein."

"Wexner knows nothing about the [REDACTED] claim from [REDACTED]"

The Victoria's Secret Holding Out:

"At some point, Wexner heard a rumor that Epstein might be holding himself out as connected to Victoria's Secret, but when Wexner asked Epstein about it, Epstein denied doing so."

This denial is directly contradicted by victim testimony, including:

- **EFTA02491935**: Victim testified "becoming a mistress was the only job proposition" after being lured with Victoria's Secret modeling promises

- **EFTA01728258**: MC2 website advertised recruitment of girls "Age: Between 13 and 20 years old"

- Multiple victim statements describe being recruited with promises of Victoria's Secret modeling careers

B. FBI "Prominent Names" Briefing (EFTA01660622)

Page 17 of the FBI's master briefing document lists Wexner under "PROMINENT NAMES" with the entry:

"[Epstein] earned his money from Wexner."

The same page lists Wexner alongside Trump, Weinstein, Prince Andrew, Staley, Black, Dubin, Dershowitz, and Clinton — the FBI's compilation of named individuals with substantiated or alleged

connections to Epstein's abuse.

C. The Wexner Investigation File (EFTA00025533)

A standalone document captioned:

"CONFIDENTIAL — Case Caption/Matter Description: Wexner: Epstein investigation — Russell cleared to participate"

This confirms a dedicated investigation into the Wexner-Epstein relationship existed within the DOJ.

D. FBI Photo Request (EFTA00037790)

FBI requested photographs of: "Ghislaine Maxwell, Juan Alessi, [REDACTED], Leslie Wexner, JE (Ohio)"

The specific request for a photo of Wexner with Epstein in Ohio indicates the investigation extended to their Ohio relationship and the New Albany compound.

E. Physical Evidence (EFTA00007654)

Seized fax cover sheet: "For: Mr. Wexner / From: Mr. Epstein" — physical documentation of the direct business relationship.

F. Financial Forensics

From EFTA00027019 and related financial exhibits:

- Epstein's wealth originated almost entirely from Wexner, per the prosecution memo
- The prosecution memo states that Epstein's theft "appears to account for virtually all of Epstein's wealth" — meaning Wexner was the original source of funds that Epstein later deployed across his financial network. Whether Wexner had any knowledge of how those funds were ultimately used is disputed (his attorneys denied all knowledge)
- The \$100M returned in Jan 2008 was a fraction of what was misappropriated, per Wexner's attorneys

G. The \$46M Charitable Donation (EFTA00026723)

News article in SDNY files:

"Jeffrey Epstein used \$46 million charitable donation to keep alive his ties with billionaire Les Wexner"

Even after the 2007 split, Epstein maintained a financial connection to Wexner through a \$46M donation to the Wexners' nonprofit. The nature and purpose of this donation have not been publicly explained.

H. The Victoria's Secret Pipeline

The prosecution memo confirms Epstein "had no formal role in L Brands or Victoria's Secret" but victim testimony establishes that Victoria's Secret was used as a recruitment tool:

- Victims were promised modeling careers
- MC2 Model Management (run by Jean Luc Brunel, protected under the NPA) operated as a feeder agency
- The Victoria's Secret brand served as bait for young women entering Epstein's orbit

I. The Victim Journal Reference (EFTA02731465)

A victim's handwritten journal includes the passage (reconstructed from the FBI briefing's Prominent Names page):

"[Epstein] earned his money from Wexner"

This victim knowledge of Epstein's financial source suggests Epstein spoke openly about Wexner to victims.

J. FBI "Secondary Co-Conspirator" Designation (EFTA00175080) — NOW DOWNLOADED AND VERIFIED

This 3-page email chain from FBI Squad C-20 (Crimes Against Children/Human Trafficking, FBI New York), dated August 15-16, 2019 (the day after Epstein's death), contains the complete co-conspirator briefing. Subject line: "RE: Epstein co-conspirators --- UNCLASSIFIED". Attachment:

"baseball_cards.docx" (co-conspirator profiles).

The document lists co-conspirators in two tiers:

Primary co-conspirators (names partially redacted but identifiable from context):

- Person in NYC with Miami/NC homes — personal assistant, "arranged massage appointments," "took photos of partially nude girls, some stored in binders," "instructed [redacted] to remove evidence from Epstein's residence"
- Person in Florida — cooperating, provided proffer on co-conspirators including "Marcincova and Maxwell"
- Person in Connecticut — personal assistant, "in charge of making phone calls to set up massage appointments," "had a reverse proffer in SDNY"
- **Ghislaine Maxwell** — "currently living in Boston MA," "subpoena has been served," "reverse proffer date is set for September"

Secondary co-conspirators:

- **Jean Luc Brunel** — "Owner of MC2 model agency," subpoena served, "limited evidence"
- Person in London since ~2011 — "not a US citizen; FBI drafted an FDR requesting assistance from Legat London"
- **Leslie Wexner** — "Resides in Ohio. SDNY is currently in contact with his attorneys and a subpoena has been served. There is limited evidence regarding his involvement."

K. FBI FD-302 Victim Statement on Wexner (EFTA01688359, page 13) — FULL-CORPUS FIND

An FBI FD-302 (sworn witness interview), case 31E-MM-108062, dated 03/17/2011. A victim told the FBI:

- She "**provided an erotic massage to LESLIE WEXNER in New York, New York**"
- "EPSTEIN and WEXNER were close friends and had regular contact"
- She "**described WEXNER as a creep**"
- "An unknown individual sent EPSTEIN three 12-year-old girls from France as a birthday gift"
- The girls "seemed to have been prepped for what they were doing with EPSTEIN"
- "EPSTEIN bragged that he had just purchased a girl from her mother. The girl was Czechoslovakian or Yugoslavian"

If this victim's account is accurate, it contradicts Wexner's attorneys' proffer that he "had no knowledge of any inappropriate or unlawful activity." Wexner has not been charged, and the victim's allegation has not been adjudicated.

L. Victim Complaint: 1996 Report Naming Wexner (EFTA01649922) — FULL-CORPUS FIND

A victim emailed the FBI's EpsteinVictimList mailbox on September 28, 2019: "**I am the Epstein/Maxwell/Wexner victim that reported EVERYTHING in 1996.**" She continued: "I have been ignored since my second interview in 2006. I need therapy to deal with what the FBI has done to me, as much as I do for what Epstein did."

This is a victim who reported in **1996** — 12 years before the 2008 plea deal — and specifically named Wexner alongside Epstein and Maxwell.

M. Dershowitz Affidavit: Victoria's Secret Lingerie Abuse (EFTA01681842) — FULL-CORPUS FIND

Alan Dershowitz's sworn affidavit alleges victim's lawyers brought claims that "Mr. Wexner had engaged in sexual contact with her when she was a minor on numerous occasions, including on Epstein's island, his ranch in New Mexico, his house in Palm Beach, and his home in New York" and that "**Mr. Wexner had made [her] dress up in baby doll lingerie of the type made by Victoria's Secret.**" Wexner's attorney John Zieger "confirmed that [lawyers] had a meeting to resolve a situation involving Mr. Wexner."

N. Giuffre Deposition on Wexner (EFTA01657683, page 26) — FULL-CORPUS FIND

Virginia Giuffre, under oath, was asked if Wexner "would have relevant information about Jeffrey's taking advantage of underage girls." She responded: "**I think he has relevant information, but I**

don't think he'll tell you the truth."

O. Financial Trust Income Collapse (EFTA01682059) — FULL-CORPUS FIND

Financial Trust Company fee income: \$66 million (2006) → \$4 million (2007, the year Wexner severed ties) → \$100,000 (2008). This strongly suggests Wexner was essentially Epstein's only significant client — a 94% revenue drop coinciding with Wexner's departure is difficult to explain otherwise.

P. Congressional Subpoena (January-February 2026)

- **January 8, 2026:** House Oversight Committee voted to subpoena Wexner
- **February 16, 2026:** Wexner scheduled for deposition before the House Oversight Committee
- Subpoenas also issued for Darren Indyke and Richard Kahn (Epstein estate executors)
- Wexner's legal representative stated he will "cooperate fully with any governmental inquiry"
- Rep. Nancy Mace publicly questioned: "If Les Wexner is listed by the DOJ/FBI as a co-conspirator, why isn't he in jail?"

Assessment

Leslie Wexner occupies a unique position among the six names: he is the documented source of Epstein's wealth and the person most extensively referenced in the prosecution files. The SDNY obtained an attorney proffer from Wexner's counsel on July 25, 2019 — just weeks after Epstein's arrest. The evidence trail includes:

- An FBI FD-302 in which a victim states she "provided an erotic massage to LESLIE WEXNER" (§K)
- A victim who reported Wexner by name in **1996** (§L)
- A sworn affidavit describing Victoria's Secret lingerie used in alleged abuse (§M)
- Victim testimony describing Victoria's Secret as a recruitment tool (§D, §E)
- FBI designation as "secondary co-conspirator" with "limited evidence regarding his involvement" (§J)
- Financial Trust income data strongly suggesting Wexner was Epstein's only significant client (§O)
- A dedicated "Wexner: Epstein investigation" file (§G)
- Victim testimony from Giuffre: "I don't think he'll tell you the truth" (§N)

Wexner was never charged. The prosecution memo's assessment that Wexner "had no knowledge of any inappropriate or unlawful activity" comes from his own attorneys' representation. Multiple victim statements allege direct sexual misconduct by Wexner — allegations he has denied. The FBI's own co-conspirator briefing noted "limited evidence regarding his involvement." Wexner is scheduled to testify before the House Oversight Committee on February 16, 2026.

SECTION 3: WHY THESE SIX NAMES WERE REDACTED

3.1 The 2008 NPA Protection

The Non-Prosecution Agreement (EFTA00027666) explicitly states:

"not institute any criminal charges against any potential co-conspirators of Epstein, including but not limited to [NAMES]"

Epstein's defense attorney Jack Lefkowitz then demanded (EFTA00027666 page 10):

"Neither federal agents nor anyone from your Office should contact the identified individuals to inform them of the resolution of the case"

This created a regime where: (1) the co-conspirators were protected from prosecution, (2) the victims were not informed, and (3) even the existence of the NPA was concealed.

3.2 The Ongoing Redaction

When these documents were released publicly, the FBI redacted the co-conspirator names. Rep. Khanna and Rep. Massie, having access to unredacted versions in the congressional reading room, chose to read them onto the House floor using their constitutional privilege.

3.3 The Pattern of Non-Prosecution

Of the six names:

- **Wexner**: Attorney proffer obtained, never charged
- **Sultan bin Sulayem**: 40+ documents, victim testimony, port access — never charged
- **Nuara, Mikeladze, Leonov, Caputo**: Not even investigated in the 2019 SDNY case (zero mentions in the 86-page prosecution memo)

This pattern is consistent with the broader prosecution failure documented across the Epstein case: the NPA protected co-conspirators, the SDNY investigation focused on the inner circle (Groff, Brunel, Maxwell) and the 2019 charges, and the lesser-known co-conspirators were never pursued.

SECTION 4: DATABASE SEARCH

METHODOLOGY

4.1 Databases Searched

Database	Records	Coverage
Full-text corpus (full_text_corpus.db)	1,380,937 documents / 2,731,796 pages (updated Feb 12, 2026)	All datasets 1-12 (COMPLETE)
Primary document text collection (redaction_analysis_v2)	1.8M records	Datasets 1-12 (excluding 9)
Dataset 10 document text collection	532MB	Dataset 10 specific
Image analysis	21,859 images	Photos/screenshots from evidence

4.2 Direct PDF Searches

In addition to database searches, the 86-page prosecution memo ([EFTA02731082](#)) was searched page-by-page using PyMuPDF text extraction. Results:

- Nuara: 0 hits
- Mikeladze: 0 hits
- Leonov: 0 hits
- Caputo: 0 hits
- Sultan: 1 hit ("a sultan in Dubai" on page 66)
- Wexner: 45 hits across pages 65-68
- "co-conspirator": 1 hit (the title)

4.3 Full-Corpus Extraction (COMPLETED)

On February 10, 2026, all 519,548 PDFs across Datasets 1-12 were extracted via PyMuPDF, producing 993,406 pages of searchable text. **Updated February 12, 2026**: The corpus expanded to **1,380,937 documents / 2,731,796 pages** (2.65x larger), with DS9 now containing 531,284 documents (up from 109 local PDFs).

Results for the six names across the full corpus (updated Feb 12, 2026):

Name	Documents (Feb 10)	Documents (Feb 12)	Change
Salvatore Nuara	0	0	Confirmed
Zurab Mikeladze	0	0	Confirmed
Leonic Leonov	0	0	Confirmed
Nicola Caputo (exact match)	0	0	Confirmed
Sultan / Sulayem	1,379	5,026	+3,647 (2,292 in DS9)
Wexner	644	1,497	+853 (675 in DS9)

4.4 Remaining Limitations

- **[Updated Feb 12, 2026]:** Dataset 9 is now fully extracted in the corpus: **531,284 documents** (up from 109 local PDFs at the time of the original report). The full DS9 range ([EFTA00039025-EFTA01262781](#)) is now searchable via `full_text_corpus.db`. Readers can access the full DS9 collection at the [DOJ Epstein Library](#).
- Many PDFs are scanned images where PyMuPDF extracts garbled or no text ([EFTA00077895](#) page 1 table is readable only visually, not via text extraction)
- The 2008 NPA co-conspirator list itself is sealed and not in the public release

d. Counsel for Leslie Wexner

On July 25, 2019, counsel for Wexner provided us with an attorney proffer. Wexner is the billionaire founder and CEO of L Brands (formerly Limited Brands) corporation, which controls Victoria's Secret, among other retail brands. It has been publicly reported that Wexner and Epstein had a close relationship and that Epstein managed Wexner's finances from the 1990s through the 2000s.

During our meeting, Wexner's attorneys indicated that Wexner had no knowledge of any inappropriate or unlawful activity with young women by Epstein. The attorneys emphasized Wexner's relationship with Epstein was more professional than social. The attorneys also explained that over his years handling Wexner's finances, Epstein stole or otherwise misappropriated several hundred million dollars from Wexner. That misconduct, together with fees that Epstein paid himself for his services to Wexner, appears to account for virtually all of Epstein's wealth.

Wexner first met Epstein in the 1980s through a mutual friend who recommended Epstein as a financial adviser. [...]

[The townhouse at 9 E 71st St] belonged to Wexner, but the Wexners had moved out of it in 1995.

Epstein also sold himself a private plane that previously belonged to Wexner at a deeply discounted price.

In the 1990s, Epstein told Wexner that he had other clients and that Wexner did not need to pay Epstein because Epstein was having fun and they would settle up later. Epstein introduced Wexner to a number of other people as his clients, and Wexner interacted with other prominent people who knew Epstein, such as Prince Andrew, professors at Harvard, and a sultan in Dubai. Epstein had no formal role in L Brands or Victoria's Secret. At some point, Wexner heard a rumor that Epstein might be holding himself out as connected to Victoria's Secret, but when Wexner asked Epstein about it, Epstein denied doing so. Epstein handled Wexner's personal business affairs until 2007, when Wexner learned that Epstein had stolen or otherwise misappropriated several hundred million dollars from Wexner. Around that time, Epstein told Wexner that he was having legal problems involving an overly aggressive police chief and some sort of massage. Epstein said he was being blackmailed and it could get messy, so it would be best for Wexner's wife to take over the family finances. In response, Wexner's wife looked into the state of their finances and discovered that Epstein had misappropriated a significant amount of the family's funds. For example, Epstein frequently bought property on behalf of the Wexners and then sold it to himself for a fraction of the cost.

The Wexners then decided to cut off Epstein. When confronted, Epstein tried to convince Wexner's wife that she did not understand the financials and insisted that he had the Wexners' best interests at heart. The Wexners did not want to bring unnecessary public attention to the issue, so they withdrew the power of attorney, and hired counsel to negotiate a private settlement with Epstein. As a result of those negotiations, Epstein agreed to return \$100 million to the Wexners, which he did in January of 2008. At that point, Wexner severed all ties with Epstein, and he has not seen or spoken to Epstein

since.

Wexner knows nothing about the [REDACTED] claim from [REDACTED] and explained that at the time, Epstein owned a property adjacent to the Wexners about a half mile away from the Wexners's property. The Wexners's security team is not aware of any inappropriate incident taking place on the Wexners's property, and the Wexners first heard about [REDACTED] allegations from public reporting this year.

SECTION 7: THE 20-PERSON CO-CONSPIRATOR LIST

Source: **EFTA00077895** — NOW DOWNLOADED AND VERIFIED

This is a 21-page UNCLASSIFIED//FOUO document from Dataset 9. Page 1 contains a table listing 20 individuals with columns: No., Name, DOB (redacted), Source, and "P" (likely "Prosecutable" or "Presented to Grand Jury"). Pages 2-21 appear to be individual profile pages (scanned images, heavily redacted — only classification markings extractable via OCR).

#	Name	Source	Year	Khanna Named?
1	Rimma Sheshelouskaya	NYPD	1999	
2	Megan Warren	NYPD	2019	
3	Salvatore Nuara	NYPD	2010	YES
4	Anastassiy Rzhetskaya	NYPD	2010	
5	[STILL REDACTED]	[redacted]	[redacted]	
6	Anna Mette	NYPD	2020	
7	Jeffrey Epstein	PB (Palm Beach)	2006	
8	Ria Hicky	NYPD	1998	
9	Joanne Rivera	NYPD	2017	
10	Zurab Mikeladze	NYPD	2021	YES
11	Charlotte Weber	NYPD	2017	
12	Miryan Castiel	NYPD	2016	<i>see Lyle Castiel note below</i>
13	[STILL REDACTED]	[redacted]	[redacted]	
14	Leonic Leonov	NYPD	2021	YES
15	Nosul Kateryna	NYPD	2018	
16	Ghislaine Maxwell	US PP	2003	
17	Nicola Caputo	NYPD	2009	YES
18	Maria Villarini	NYPD	2021	
19	Alexa Manzella	NYPD	2018	
20	Laura Greco	NYPD	2001	

Key observations:

1. **Source column:** Nearly all entries cite NYPD complaints (dates ranging 1998-2021). Epstein himself

is sourced to "PB" (Palm Beach, 2006). Maxwell is sourced to "US PP" (US Probation/Prosecution, 2003).

2. **Two names remain redacted:** #5 and #13. DOBs, sources, and even the "P" column are blacked out for these entries. The reason for continued redaction is unknown — possibilities include that these individuals are minors, cooperating witnesses, persons with ongoing legal proceedings, or that the redaction was maintained for other reasons.
3. **Wexner and Sultan bin Sulayem are NOT on this list.** They appear in other documents (prosecution memo, FBI "secondary co-conspirator" designation). The Khanna 6 came from **multiple source documents**, not just [EFTA00077895](#).
4. **Rep. Khanna stated the DOJ "blanket-redacted anyone who was a female."** The presence of 10 female names (Sheshelouskaya, Warren, Rzhnevskaya, Mette, Hicky, Rivera, Weber, Castiel, Kateryna, Manzella, Villarini, Greco) is consistent with this — these may be victims who filed NYPD complaints, witnesses, or facilitators like Sarah Kellen and Nadia Marcinkova.
5. **Post-2019 dates** (Mikeladze 2021, Leonov 2021, Villarini 2021, Mette 2020, Warren 2019): These NYPD complaints were filed AFTER Epstein's arrest and death, suggesting new witnesses came forward during the SDNY investigation and its aftermath.
6. **Pre-2008 dates** (Hicky 1998, Sheshelouskaya 1999, Greco 2001, Maxwell 2003, Epstein 2006): These trace to the original Palm Beach/NYPD investigations that preceded the 2008 NPA.

Previously known NPA co-conspirators (from 2007-2008 legal proceedings):

- Sarah Kellen
- Lesley Groff
- Adriana Ross (Adriana Mucinska)
- Nadia Marcinkova (now Nadia Marcinko)

NOTE: None of these four previously known co-conspirators appear on the [EFTA00077895](#) list, suggesting this list represents a DIFFERENT set of individuals — possibly the names that follow "including but not limited to" in the NPA clause, or a separate FBI compilation of persons of interest from NYPD complaint filings.

Lyle Castiel -- Maxwell's UBS Financial Advisor (NEW CROSS-REFERENCE, Feb 12, 2026)

[EFTA01274941](#) (DS10, page 192): UBS account statement for Ghislaine Maxwell listing her financial advisor as "SCOTT STACKMAN/LYLE CASTIEL" (phone 212.871.7000), with an account value of \$1,545,229.89. **Miryan Castiel** appears as #12 on the [EFTA00077895](#) co-conspirator list (NYPD 2016). The shared "Castiel" surname raises a potential familial connection between the co-conspirator list entry and Maxwell's financial infrastructure. This remains speculative but warrants further investigation.

The Most Critical Witness: The Emmy Tayler Investigation

Summary

Note: The surname appears as both "Tayler" and "Taylor" in DOJ records. This report uses "Tayler" except in direct quotations, which preserve the original spelling.

Documents buried across the DOJ's 2.91-million-page EFTA production reveal that:

1. SDNY prosecutors considered **Emmy Tayler** — Ghislaine Maxwell's former personal assistant — "potentially the most critical person in the case," the only non-victim witness to sexual abuse
2. The FBI internally characterized her as a "**witness/co-conspirator**" who "**potentially participated in the sexual abuse of minor victims**" — a far stronger characterization than the AUSA's "witness" framing
3. The interview **actually happened** in October 2020 — contradicting contemporaneous media reports that Tayler had "fled" the UK to avoid prosecutors
4. The resulting **29-page FD-302** is in the corpus. It describes the interviewee as both a witness to and a victim of sexual abuse by Epstein and Maxwell — conducted over three days in London
5. **Sarah Kellen was being considered for criminal charges** — the only co-conspirator besides Maxwell — and the FBI expected the case to "**go to grand jury within a few weeks**"
6. A **separate witness interview near Stockholm, Sweden** took place in January 2020, unreported in any public source
7. The DOJ's **Office of International Affairs (OIA)** approved the London trip — standard protocol, but it means the interview required multi-agency sign-off
8. Five weeks before the interview, **Maxwell contacted the witness from jail** through a third party. We found no published reporting that assembled these facts from the public record, and several of the connecting documents have since been removed from justice.gov.

What Is Already Public

Emmy Tayler's name is not unknown. She appears **135-190 times in Epstein's flight logs**, is listed in his black book, and was identified during the Maxwell trial through testimony from Johanna Sjoberg (who said Tayler recruited her) and from "Jane" (who described Tayler participating in group sexual

encounters). After Maxwell's arrest in July 2020, [multiple outlets reported](#) that Tayler had "fled" the UK. She later [sued Julie K. Brown and HarperCollins](#) for defamation over *Perversion of Justice*; [HarperCollins apologized](#) and the case was settled. [The Steeple Times](#) covered the apology and correction.

Her name surfaces in [true crime profiles](#) and [Epstein's black book](#). The most detailed recent piece is Ellie Leonard's February 2026 Substack, "[No One Is Talking to Emmy Tayler](#)," which covers the flight logs, Sjoberg testimony, the "fled" narrative, and her current work as a voice actor in London.

What no one has reported — despite all this coverage — is what prosecutors actually thought of her, what the FBI called her, or that a 29-page interview exists in the public files.

The Documents

Document 1: "Potentially the Most Critical Person in the Case"

[EFTA00106062](#) (DS9, 5 pages) — [justice.gov](#) | [OCR text](#)

On March 5, 2020, an AUSA identified as "Alex" emailed Edward Tyrrell and others at SDNY requesting travel approval for a London interview. The email is extraordinary for its candor about the prosecution's strategy:

*"Following a process of more than six months of attempting to be in contact with a key witness located in the United Kingdom, including more than two months of intensive discussion and negotiation with the witness's UK-based counsel, just yesterday her counsel advised us that the witness, **Emmy Taylor**, is willing to meet us in London on March 19."*

The email then explains why Tayler mattered so much:

*"Other than the sole statutory victim, Taylor is potentially the **most critical person in the case** — she is the former assistant to Ghislaine Maxwell, our current top target subject, and when she left that job she was replaced by **Sarah Kellen, who is the only other individual we currently are considering charging.**"*

*"The main victim also recalls that **Taylor was present during instances of sexual abuse, which could make Taylor the only witness to that conduct other than the victim, potentially including instances when Maxwell was present.**"*

"Taylor worked for Maxwell for years during the key period we are hoping to charge."

The prosecutors acknowledged the difficulty of the ask — international travel for two people during the early days of COVID — but argued:

*"We wouldn't be doing our jobs if we didn't make the request — this is a crucial witness whom we've been trying to get to talk with us for many months, and it could be extraordinarily valuable to speak to her before making a **final charging decision, which we hope to do by the end of the month.**"*

On March 11, 2020, someone replied: "This is definitely off." COVID killed the trip.

This email chain also reveals a **complete travel history** for the Epstein investigation (case number 2018R01618):

Request / Approval Date	Destination	Purpose
March 14, 2019	West Palm Beach / Fort Lauderdale	Meetings and interviews
April 3, 2019	West Palm Beach	Meetings and interviews
May 24, 2019	West Palm Beach	Victim interviews
June 12, 2019	Los Angeles	Victim interview
October 22, 2019	West Palm Beach	Interview (Nov 4)

Request / Approval Date	Destination	Purpose
November 5, 2019	Los Angeles	Interview (Nov 14)
December 11, 2019	Los Angeles	Interview(s) (Dec 16-17)
January 21, 2020	Near Stockholm, Sweden	Interview (Feb 5)
March 5, 2020	London, UK	Emmy Tayler interview — canceled (COVID)

The Stockholm trip has not been reported in any public source. Travel was approved January 21; the 302 records the interview date as February 5, 2020. The identity of the Swedish witness is unknown.

Document 2: FBI Travel Request — "Witness/Co-Conspirator"

EFTA00037438 (DS8, 2 pages) — [justice.gov](https://www.justice.gov) | [OCR text](#)

On March 5, 2020, the same day as the AUSA's email, an FBI agent on the Child Exploitation Human Trafficking Task Force (NYPD/FBI) sent a parallel travel request up the FBI chain. The language is far more direct than the prosecutors':

*"The purpose of this trip is for the **interview/proffer of a witness/co-conspirator of Jeffrey Epstein's.**"*

*"This person was **witness to and potentially participated in the sexual abuse of minor victims** by Jeffrey Epstein and his co-conspirators."*

*"This interview could prove to be vital to the **indictment of another co-conspirator of Jeffrey Epstein which is expected to go to grand jury within a few weeks.**"*

The FBI supervisor's response is also notable: **"Send off of this to me on red side since I don't want to risk putting too much info on green."** In FBI parlance, "red side" refers to a more secure channel than the standard unclassified system ("green side"). The supervisor wanted details about interviewees and potential targets kept off standard FBI email.

This is the only document in the corpus that characterizes Tayler as a potential co-conspirator rather than simply a witness. The AUSA email (**EFTA00106062**) from the same day calls her a "key witness." The FBI's characterization — someone who "potentially participated in the sexual abuse of minor victims" — is significantly stronger than anything the prosecutors put in writing.

Document 3: FBI Authorization — "Readily and Voluntarily Agreed"

EFTA00161728 (DS9, 2 pages) — [removed from justice.gov](#) | [OCR text](#)

On October 5, 2020, an FBI IOD (International Operations Division) email chain requested and received Assistant Director authority for the London trip. The memo states:

*"During the course of the investigation, a witness, **EMMY TAYLER**, date of birth [redacted], who resides in London and is a UK citizen, has been identified to have information into the crimes committed by EPSTEIN and MAXWELL."*

*"TAYLER is represented by counsel, **JILL GREENFIELD**, and has **readily and voluntarily agreed to speak with the FBI.**"*

The travel party: an FBI Special Agent and **Detective Paul Byrne**, NYPD.

The memo also notes: "LEGAT has concurred with the request" (LEGAT = Legal Attaché, the FBI's representative at the US Embassy in London) and "Upon AD authority granted the U.S. embassy will request a **quarantine waiver** for the travelers."

Jill Greenfield is a partner at Fieldfisher LLP in London. She is **publicly known** as the attorney representing UK **victims** of Jeffrey Epstein in civil claims through the Victims Compensation Fund. The fact that she also represented Tayler in the FBI interview is consistent with the 302's content, which describes the interviewee as a victim of abuse.

Document 4: The DOJ Travel Package — "Does OIA Concur?"

EFTA00091812 (DS9, 12 pages) — [removed from justice.gov](#) | [OCR text](#)

This is the complete DOJ foreign travel authorization package for the London trip. It contains:
The OIA email (p. 2, EFTA00091814): On September 30, 2020, AUSA Alison (SDNY) emailed the U.S. Department of Justice Attaché in London:

"As you know, [redacted] and I are hoping to travel to London in October to interview a witness in connection with the Jeffrey Epstein investigation. We are still finalizing dates, but would expect it to be in London for up to a week for multiple meetings with the witness. Does OIA concur?"

The DOJ Attaché in London replied the same day: **"OIA approves."**

OIA is the Office of International Affairs, the DOJ division that handles international legal assistance, mutual legal assistance treaties (MLATs), and coordination for overseas operations by U.S. prosecutors. OIA concurrence is standard protocol for DOJ foreign travel — but the email thread on EFTA00106062 page 1 (March 10, 2020) confirms this was a known required step: "And then can start the OIA and EOUSA processes."

The Audrey Strauss memo (p. 4, EFTA00091816): Acting U.S. Attorney Audrey Strauss signed the formal travel request to EOUSA on October 2, 2020. Key language:

"In connection with the investigation of criminal conduct undertaken by Jeffrey Epstein and certain of his associates, we are investigating whether certain individuals undertook actions within the United States that involved the transportation of minors for the purpose of engaging in illicit sexual activity."

"The witness we intend to interview is a citizen and resident of the United Kingdom, but would be a potentially valuable witness in our investigation. Specifically, the witness is a former employee an[d] associate of a target of the investigation, and may be able to significantly corroborate victim testimony as well as provide additional relevant information."

"The witness does not wish to be interviewed by video, given the sensitivity of the subject matter, and has told the investigative team that she will only meet for an interview if the prosecutors travel to the United Kingdom to meet with her in person."

The travel questionnaire (p. 8, EFTA00091820): Lists the travel party — two AUSAs, an FBI Special Agent, and an NYPD Detective. The case is identified as "In re Jeffrey Epstein." The sensitivity assessment: "Investigation is ongoing and very sensitive."

The witness identification (p. 9, EFTA00091821): The witness is listed as "Jane Doe, citizen of the United Kingdom." Question 36 explicitly names the target: "A subject of the investigation is Ghislaine Maxwell, who is a citizen of the United States, the United Kingdom, and France."

The flight itinerary (p. 0, EFTA00091812): JFK → London Heathrow, October 12 (overnight arrival Oct 13). Return October 17. American Airlines 6927 (operated by British Airways), Delta 2 return. Coach class, \$404.

The interview happened.

The 302: A 29-Page Interview Over Three Days

EFTA01248577 (DS9, 29 pages) — [justice.gov](https://www.justice.gov) | [OCR text](#)

The interview produced a 29-page FD-302, entered into the record on February 24, 2021, case number 50D-NY-3027571. It was conducted "in person... over the course of 3 days spanning from 10/14/2020." The 302 does not name the interviewee — the name is redacted throughout. We attributed it to Tayler by tracing **Serial 3501.210** in the prosecution disclosure index (EFTA00095751, p. 40). That serial is linked to Jill Greenfield, who is publicly identified as Tayler's attorney in the FBI interview (EFTA00161728). The serial contains:

Sub-Serial	Date	Description
3501.210.001	2011.04.11	Email from [redacted] and Jill Greenfield, Mark Manley
3501.210.002	2011.04.12	Email from Jeffrey Epstein to M
3501.210.003	2011.04.28	Email from [redacted]
3501.210.004	2011.04.29	Email from Greene, AE
3501.210.005	2017.02.23	Declaration of [redacted]
3501.210.006	2020.10.06	Notes from call with Jill Greenfield regarding [redacted]
3501.210.007	2020.10.14	Interview 302
3501.210.008	2020.10.14	Interview handwritten notes
3501.210.009	—	Statement regarding unsealed deposition

The October 6 call notes ([EFTA01248576](#)) are the pre-interview proffer from Greenfield to the AUSA, previewing what the witness would cover: meeting Maxwell in September 1997, assaults in both the UK and US, grooming behavior, travel on Epstein's plane, and offers of property.

What the 302 Reveals

The prosecutors called Tayler a "witness." The FBI called her a "witness/co-conspirator." Public reporting has largely framed her as a willing participant — the [Daily Beast](#) described her as "creepily gushing" about Epstein in a 2019 interview, and Maxwell trial testimony from Sjoberg and "Jane" described recruitment and participation in group encounters. The 302 adds a dimension that none of that coverage captured: the interviewee describes herself as a victim. These accounts are not necessarily contradictory — a person can be coerced into an abusive orbit and still be present during or drawn into others' abuse — but the 302 supplies the missing context of victimization and pressure that the public record has lacked.

The document describes the interviewee meeting Maxwell in September 1997, being introduced to Epstein shortly after, and then being subjected to escalating sexual abuse. Key passages:

On grooming and coercion: The interviewee describes being told by Maxwell to pose for photographs on an island. When she resisted: "MAXWELL was quite flippant saying something like, 'Oh, no one's going to see your face; you'll blend into the rocks.'" She "could not say no; she was on an island with no where to go."

On the relationship with Maxwell: After reporting an assault by Epstein to Maxwell, the interviewee "feels dumb as though she 'made a mountain out of a mole hill'. MAXWELL made it feel as though it wasn't a big deal. She made [her] feel like a fool, like she shouldn't have said anything and like it's not important."

On the scope of abuse: The attorney left the room for the most sensitive portion of the interview. The interviewee described Epstein "would pleasure himself and make her do things to him" and "taught [her] how to pleasure him." She "never said no because she did not know how to say no; what EPSTEIN said went."

On Maxwell's direct involvement: There were "approximately three times where other people were in the room when sexual incidents occurred." Maxwell was present during at least two incidents.

On processing: The interviewee "described EPSTEIN as this 'incredibly powerful man' and she was working for 'an incredibly powerful woman'... remembered running out of the room... went home and cried all night."

On Maxwell contacting her from jail: According to the interviewee's account in the 302, five weeks before the interview, "MAXWELL indirectly contacted [her] through a mutually known individual. MAXWELL had passed along a message that she (MAXWELL) had some of [her] grandmother's belongings." The interviewee "found it creepy that MAXWELL was trying to reach out because it felt

like she was watching [her] while she herself was in jail." She "felt this was a scare tactic by MAXWELL." This is the interviewee's characterization; the 302 does not include independent corroboration of the contact.

Final assessment: "This interview is the first time [she] has talked in detail about her sexual encounters with EPSTEIN." The interview concluded on October 16, 2020 — the third day.

Related serial-group material: Serial 3501.210.001 ([EFTA01248571](#)) is an April 2011 email to Epstein and Maxwell with an encrypted attachment titled "A Life Destroyed.docx." The sender is redacted and the attachment's contents are not in the files. This document is grouped under the same serial as the 302, but serial groupings reflect prosecutorial organization — not necessarily a single person's documents. The connection to the interviewee is not established.

"She Fled" — The Media Got It Wrong

In August 2020, multiple outlets reported that Emmy Tayler had "fled" the United Kingdom after Maxwell's arrest:

- **Daily Mail:** "Ghislaine Maxwell's British ex-PA Emmy Tayler, 45, 'has left UK' in wake of former boss's US arrest"
- **Film Daily:** "Why has Ghislaine Maxwell's former PA fled from London?"
- **PopCulture:** "Ghislaine Maxwell's Alleged Assistant 'Flees' United Kingdom After Allegations Surface Following Arrest"

The documents tell a different story. The March 2020 email shows prosecutors had been negotiating with Tayler's UK counsel for **six months** before the "fled" reports — since roughly September 2019. By March 2020, she had agreed to meet. By October 2020, the FBI memo states she "has readily and voluntarily agreed to speak with the FBI" and was represented by London solicitor Jill Greenfield. Media reports in August 2020 claimed she had left the UK, but she was back in London by October, sitting down with federal prosecutors and FBI agents for three days of interviews.

More recently, [Ellie Leonard](#) published the most detailed public profile of Tayler to date (Feb 2026), noting that "no one is talking to Emmy Tayler." Leonard's reporting on the flight logs, Sjoberg testimony, and Tayler's current life is thorough — but the EFTA documents show that investigators did talk to her. SDNY spent over a year pursuing her, called her the most important non-victim witness, and sent a team of four to London to debrief her for three days. That interview, and the 29-page 302 it produced, was not available to Leonard or any other journalist working from public sources alone.

The Bigger Picture: An Investigation That Shrank

Maxwell was convicted in December 2021 and sentenced to 20 years. She is currently in FCI Tallahassee. That case is done. But the documents in this investigation reveal that SDNY was building something much larger — and then it narrowed to just Maxwell.

Kellen: Charges Considered, Never Filed

In March 2020, prosecutors wrote that Sarah Kellen "is the only other individual we currently are considering charging." The FBI's parallel request said the interview "could prove to be vital to the indictment of another co-conspirator of Jeffrey Epstein which is expected to go to grand jury within a few weeks." Kellen replaced Tayler as Maxwell's assistant and has been **extensively documented** as a key recruiter and scheduler.

Kellen was never charged. She received immunity in the 2008 Acosta plea deal and was not indicted in the SDNY case. The March 2020 email confirms prosecutors were still actively considering charges as late as 2020. Something changed between March 2020 and the Maxwell indictment in July 2020. The most obvious candidate is the sequence itself: COVID canceled the London trip on March 11, meaning

prosecutors lost access to the witness they had called "the most critical person in the case" before making a final charging decision. That may not be the only reason — there could have been legal, evidentiary, or strategic considerations not documented in the files — but the timeline is notable: the trip was killed, and the charging scope narrowed to Maxwell alone four months later.

The Swedish Witness

In early 2020, prosecutors and agents traveled to Stockholm, Sweden. Travel was approved for late January, and the interview took place on February 5, 2020. The Stockholm 302 exists in the corpus ([EFTA00089603](#), 6 pages) — conducted at the Swedish Police Authority headquarters. A second copy appears at [EFTA00091910](#) (identical length, date, and location; attributed as a duplicate based on those matching characteristics). The identity of the Swedish witness has not been publicly reported and the interviewee's name is redacted. The Stockholm 302 is not missing from the production — it is publicly available — but it has received no public scrutiny. NPR's Stephen Fowler has [separately identified](#) dozens of 302 pages that *are* missing from the EFTA release; the Stockholm interview is a different problem: present in the files, but unreported.

"Certain of His Associates" — Plural

The Maxwell indictment in July 2020 named only Maxwell. No other associates were charged. But the Audrey Strauss memo ([EFTA00091816](#)) — signed the same month Tayler was finally interviewed — refers to investigating "criminal conduct undertaken by Jeffrey Epstein and **certain of his associates**" and "whether **certain individuals** undertook actions within the United States." The investigation was case 2018R01618, *United States v. Epstein* — not *United States v. Maxwell*. Maxwell was the "current top target subject," but the scope was wider. The files do not explain why the investigation narrowed from "certain individuals" to one.

Document Removal

Several key documents in this investigation have been removed from justice.gov. The 302 itself ([EFTA01248577](#)) and the FBI travel request ([EFTA00037438](#)) remain live.

EFTA	Status	Content
EFTA00037438	Live	FBI "witness/co-conspirator" travel request

EFTA01248576	Live	Pre-interview call notes with Jill Greenfield
EFTA01248577	Live	29-page FD-302, interview over 3 days
EFTA00186431	Removed	NES LLC credit card records (Tayler, Kellen, others)
EFTA00068582	Removed	Maxwell trial testimony mentioning Tayler
EFTA00792756	Removed	Maxwell trial witness list (Tayler's London counsel)

The removed documents show the standard fingerprint: `Last-Modified: Tue, 02 Sep 2025, Content-Length: 20`. The cause of these specific removals is unknown — routine legal challenges, privacy requests, or clerical processing could produce the same result, and the pattern is consistent with removals across the broader EFTA production. All documents are preserved in our OCR corpus at [epstein-data.com](#).

1. Jim Atkins — Complete Corpus Profile

"Jim Atkins" appears in exactly **four documents** across the entire 2.91-million-page EFTA corpus. No other mentions exist. The name yields zero hits in any financial records, flight logs, contact lists, address books, or correspondence outside the documents described below.

1.1 FBI Interview #2 — **EFTA02858481** (DS12, 10 pages)

[EFTA02858481](#) | Serial 252, sub-serial 3501.045-003 | Interview date: August 7, 2019

The FD-302 records the second interview with the PROTECT SOURCE victim (Jane Doe 4). The Atkins-relevant content, quoted from the FBI document:

*"A man named **JIM ATKINS** (phonetic), a friend/associate of EPSTEIN (background of relationship unknown) participated with EPSTEIN in blackmailing [victim's] mother. ATKINS also sexually assaulted [victim] on more than one occasion."*

Physical description: white male, gray hair, "big ears," hairy body. Possibly in his 50s in the early 1980s. Lived in Ohio. "Somehow associated with an Ohio university (unidentified); he may have been the Dean, or the 'money guy' at the school."

External identification: A [1986 newspaper article](#) in *The Island Packet* (Hilton Head Island, SC; February 5, 1986, page 6; byline Nancy Rutter) identifies **Jimmy L. Atkins of Ohio** as the owner of the real estate company where the victim's mother worked, and as the person who filed criminal charges against her. The article reports that the SC Real Estate Commission found a shortage in the

firm's escrow account — consistent with the FBI 302's description of Atkins helping the mother "fix her real estate books." The corporate entity was **Fort Mitchell Co.**, based in Fort Mitchell, Kentucky (directly across the Ohio River from Cincinnati).

Florida corporate filings confirm Atkins as President and Director of two for-profit educational institutions in Cincinnati:

- **Betz College Inc.** — 7th & Vine Streets, Cincinnati, OH; **established November 30, 1977**; involuntarily dissolved December 16, 1981
- **Betz Business School Inc.** — 630 Vine Street, Suite 202, Cincinnati, OH 45202; **established June 17, 1977**; involuntarily dissolved December 16, 1981
- Both entities listed registered agent Joan Bush at 106 South Himes, Tampa, FL
This matches the FBI 302 description of someone "associated with an Ohio university... may have been the Dean, or the 'money guy' at the school" — Atkins was not a dean at a traditional university but the **president of a for-profit college** in Cincinnati.

Previous identification (corrected): An earlier version of this report identified the subject as James "Jim" Wade Atkins (1947-2022) of Bluffton, SC, based on obituary matching. That identification was incorrect. While James Wade Atkins shared the Hilton Head area residence and an Ohio connection (he attended Ohio State on the G.I. Bill), he was a Weyerhaeuser Paper Company salesman — not an education administrator, real estate company owner, or person connected to the victim's mother's criminal case. The newspaper article's explicit identification of "Jimmy L. Atkins of Ohio" as the company owner, combined with the Betz College corporate records, supersedes the obituary match.

- Owned or rented a residence on [redacted] Island (consistent with Hilton Head / Sea Islands, SC)
- Described as a "rich prick [who would] throw his weight around and talk about money"
- Developed a romantic relationship with the victim's mother; dated approximately one year
- The victim met Atkins "not long after Epstein began sexually assaulting her, when she was approximately 14 or 15 years old"

The blackmail mechanism (page 3):

"ATKINS and his accountant (Black male named 'Cecil' Last Name Unknown) assisted [victim's] mother in 'fixing' her real estate books so that she could embezzle funds and pay EPSTEIN. At some point, ATKINS and [victim's] mother had a falling out, and ATKINS, EPSTEIN and possibly CECIL turned [victim's] mother in to the Real Estate Commission by providing her accurate real estate book/records."

The mother was subsequently convicted of embezzlement and sent to federal prison.

1.2 FBI Interview #3 — EFTA02858491 (DS12, 4 pages)

EFTA02858491 | Serial 264, sub-serial 3501.045-005 | Interview date: August 20, 2019

The third interview provides additional detail:

- Mother served approximately two years in **federal prison in Columbia, South Carolina** around the time the victim was 17 or 18
- Sentence was "related to an embezzlement conviction connected to being blackmailed by JEFFREY EPSTEIN and JIM ATKINS over explicit photographs"
- The victim called Atkins at the university where he worked to ask for help. Atkins responded: **"I don't give a shit if you end up in the gutter. Don't ever contact me again. Your mother knows what will happen."**
- Threatening phone calls continued for decades across multiple states, including calls to the victim's mother at an assisted living facility
- 4-5 vehicular incidents where the victim was nearly run off the road, including on Interstate 5 near Oregon and in Washington State
- The victim stated: "Throughout my life his (Epstein's) people have found me... have kept tabs on me"

1.3 Survivor Journal — EFTA02731420, page 6 (DS12, 13 pages)

EFTA02731420 | Marked "CONFIDENTIAL FOR ATTORNEY'S EYES ONLY / DO NOT COPY"

Page 6 of this handwritten journal (Bates stamp EFTA02731426) contains a list of names:

"Mr. Mody. Mr. Robert. Mr. Sant. Mr. Ludwig. Mr. Cecchi. Mr. Mora. Mr. Goodlatte. Mr.

Atkins are not who they say! Run run run!"

This is a **different** survivor journal than the 32-page document at EFTA02731361. The same journal also names Leon Black (pages 7-8), Dan Snyder (page 4), Joe Gibbs (page 4), Larry Summers (page 5), George Mitchell (page 11), Ted Leonsis (page 11), Steve Case (page 11), Jim Kimsey (page 11), and Prince Andrew (page 5), among others. See [Section 5](#) for full analysis.

Note: The Ohio Node series cites this reference as "EFTA02731370." That Bates number actually corresponds to page 9 of EFTA02731361 (the other journal), which contains a trafficking clipping about Lake Placid — not the "Mr. Atkins" text. The correct citation is EFTA02731426 (page 6 of document EFTA02731420). See [Corrections](#).

1.4 Deutsche Bank Authorization Form — EFTA01366046 (DS10, 1 page)

EFTA01366046 | DB-SDNY-0057548 / SDNY_GM_00203732

This document requires careful treatment. See [Section 2](#).

2. The Deutsche Bank Document — An OCR Caution

The Ohio Node series **identifies a Deutsche Bank authorization form** as listing Epstein as account holder with "an Atkins in beneficiary context."

EFTA01366046 is a genuine Deutsche Bank Private Wealth Management "Authorization for Asset Movement" form. The verified fields:

- **Account holder:** Jeffrey E. Epstein
- **Wire amount:** \$100,000.00
- **Wire destination:** Citibank
- **Signed by:** Darren Indyke
- **Date:** October 23, 2015

However, the OCR-extracted text renders the form field "Recipient's Mailing Address" as "Recipient's Mailing Atkins." This is a consistent OCR artifact — the same misread appears on a second identical-format Deutsche Bank form at EFTA01359377, which is a \$29,000 wire to Cecile R. de Jongh at First Bank, Puerto Rico, also signed by Indyke. Both forms use the same standardized Deutsche Bank Alex. Brown template, and both produce the same OCR garble on the pre-printed "Mailing Address" field.

The word "Atkins" does not appear as a beneficiary, payee, or person on either form. It is a pre-printed form field label that the OCR engine consistently misreads.

This does **not** undermine the broader Ohio Node thesis — Jim Atkins is documented in two FBI FD-302 interviews and one survivor journal as a real person connected to Epstein. But the specific claim of a Deutsche Bank document "naming an Atkins in beneficiary context" appears to originate from an OCR misread rather than an actual financial connection. **Readers should examine the original PDF directly** to confirm whether the printed text reads "Address" or "Atkins."

3. Maxwell's Weyerhaeuser Bond — Verified and Expanded

The identification of Weyerhaeuser bonds in Maxwell's JPMorgan portfolio — **first reported in the Ohio Node series** — is **fully confirmed**. The documentary trail is more extensive than previously reported.

3.1 The Bond

- **Issuer:** Weyerhaeuser Company
- **Coupon:** 7 3/8% (7.375%)
- **Maturity:** October 1, 2019
- **CUSIP:** 962166-BV-5
- **Credit rating:** BBB / BAA1 (investment grade)
- **Face value:** \$10,000

3.2 Complete Monthly Price Trajectory

The Ohio Node series cites seven quarterly statements. The corpus contains the bond on **every monthly statement** from acquisition through sale — approximately 23 consecutive appearances:

Month	EFTA	Price (% par)	Market Value	Unrealized G/L
Jul 2011 (purchase)	01522571	115.097	\$11,509.70	—
Aug 2011	01522597	113.34	\$11,333.50	(\$176.20)
Sep 2011	01522615	110.44	\$11,044.00	(\$465.70)
Oct 2011	01522635	110.37	\$11,037.30	(\$472.40)
Nov 2011	01522657	109.52	\$10,951.70	(\$558.00)
Dec 2011	01522680	112.67	\$11,268.70	(\$243.00)

Dec 2012	01522986	123.80	\$12,379.60	\$869.90
Jan 2013	01523012	122.80	\$12,279.80	\$770.10
Feb 2013	01523041	123.23	\$12,322.60	\$812.90
Mar 2013	01523069	122.77	\$12,277.10	\$767.40
Apr 2013	01523095	127.04	\$12,704.40	\$1,194.70
Jun 2013	01523151	118.27	\$11,827.10	\$317.40
Jul 2013 (SOLD)	01523186	117.296	\$11,729.60	\$219.90 (realized)

Sale details (from EFTA01523186):

- Trade date: July 8, 2013
- Settlement date: July 11, 2013
- Sale price: 117.296 (% of par)
- Proceeds: \$11,729.60
- Tax cost basis: \$11,509.70
- **Realized gain: \$219.90 (long-term)**
- Broker: Morgan Stanley & Co. LLC

Note: The Ohio Node series reports the sale price as "\$108.52 per share" and the result as "a loss of \$657.70." The JPMorgan statement at EFTA01523186 records the sale at 117.296 with a realized gain of \$219.90. See [Corrections](#).

3.3 Portfolio Context — Weyerhaeuser Was the Anchor

The account is titled "GHISLAINE MAXWELL-HY ACCT." — a dedicated high-yield bond portfolio. This is analytically significant: Weyerhaeuser (BBB/BAA1) was the **only investment-grade bond** in a portfolio otherwise composed of junk-rated securities.

Complete portfolio at peak (~25-30 positions, ~\$250,000-\$300,000 face value):

Security	Coupon	Maturity	Rating
Weyerhaeuser Co	7 3/8%	Oct 2019	BBB/BAA1
United Rentals North Am	9 1/4%	Dec 2019	B/B3
Pioneer Natural Resource	7 1/2%	Jan 2020	BBB/BAA
Newfield Exploration	6 7/8%	Feb 2020	NR/BA2
Lear Corp	8 1/8%	Mar 2020	BB/BA2
DISH DBS Corp	7 7/8%	Sep 2019	BB-/BA2
Limited Brands Inc	8 1/2%	Jun 2019	BB+/BA1
MGM Resorts Intl	9%	Mar 2020	B/BA2
HCA Inc	8 1/2%	Apr 2019	BB/BA3
Forest Oil Corp	7 1/4%	Jun 2019	B/B1
Steel Dynamics	7.625%	Mar 2020	BB+/BA2
CONSOL Energy	8 1/4%	Apr 2020	BB/B1
Starz LLC	5%	Sep 2019	NR/BA2
Arch Coal	7 1/4%	Oct 2020	—
US Steel Corp	7 3/8%	Apr 2020	—
BE Aerospace	8 7/8%	Oct 2020	—
Frontier Communications	8 1/8%	Oct 2018	—
Intl Lease Finance Corp	8 1/4%	Dec 2020	—
Service Corp Intl	7%	Jun 2017	—

And approximately 10-12 additional positions rotating through the portfolio

Limited Brands (Wexner's company, later renamed L Brands and now Bath & Body Works) is notable as another Wexner-connected position in the same portfolio.

3.4 The Liquidation and Exit Timeline

The entire high-yield portfolio was liquidated on **July 8, 2013** — not just Weyerhaeuser. All positions were sold on the same day. The portfolio wind-down preceded the formal exit decision by five months:

Date	Event	Source
Jul 2011	JPMorgan flags Maxwell as "high risk" internally	EFTA01582816
Jul 8, 2013	Entire HY portfolio liquidated (all positions sold)	EFTA01523186
Aug 2013	JPMorgan closes Epstein's accounts	Public record
Dec 6, 2013	Risk Review Committee formally decides to exit Maxwell	EFTA01582816
Jun 8, 2014	Maxwell's last accounts closed	EFTA01582816

The JPMorgan exit document ([EFTA01582816](#)) contains a critical provenance chain:

*"Maxwell was referred by Jeffrey Epstein, a former client of the Private Bank and advisor to Leslie Wexner, also a longstanding client. **Jes Staley got the original referral from Jeff Epstein, and he referred Ghislaine Maxwell on to our team.**"*

Maxwell was approved as a client on April 11, 2005 ([EFTA01582862](#)) — **before her background check was even complete**: "Security Services is still performing the client background check." JPMorgan later **settled for \$290 million** with Epstein victims (June 2023).

3.5 United Rentals — Confirmed in Portfolio

The Ohio Node series notes Maxwell also held United Rentals bonds. Confirmed: United Rentals North America 9.25% Dec 15, 2019 (CUSIP 911365-AU-8), \$15,000 face value, held throughout the same July 2011 – July 2013 period. United Rentals was founded by Bradley Jacobs; the name "Bradley Jacobs" does not appear anywhere in the EFTA corpus. The United Rentals position appears only in Maxwell's portfolio, not in any other Epstein-network account.

4. The Columbus Network — Documentary Evidence

The **Ohio Node series** identifies several figures with Columbus, Ohio connections in operational roles. The EFTA corpus provides substantial documentary support for some and none for others.

4.1 The New Albany Company LLC — Epstein and Wexner

The corporate filing is confirmed at [EFTA00233059](#), page 116 (Bates [EFTA00233175](#)):

Field	Value
Business Name	THE NEW ALBANY COMPANY LLC
Address	5906 E Dublin Granville Rd, New Albany, OH 43054
Filing Date	September 21, 1998
Status	ACTIVE (as of April 2007)
Type	FOREIGN LIMITED LIABILITY CO

Authorized Representative JEFFREY EPSTEIN

Authorized Representative LESLIE H. WEXNER

Epstein's own website draft ([EFTA00589409](#), page 2) describes the venture: "In 1990, Epstein and Leslie Wexner, his longtime client, collaborated on a major real estate development, called The New Albany Company. Based in Columbus, Ohio, this suburban real estate development is regarded as one of the finest in the area."

A 2005 fax from The New Albany Company to Epstein ([EFTA01304561](#)) shows "NACO Capital" starting at \$75,000,000 and "Georgetown Capital" at \$10,000,000, with performance fee calculations — confirming active financial management.

4.2 The "Gang Stuff" Letter — [EFTA01110729](#)

The Ohio Node series references the unsent letter. The full text is at [EFTA01110729](#) (DS9). Key excerpts from Epstein to Wexner:

"I am truly sorry to hear that you have been the target of an extortion attempt by the same girl that has tried to extort Ehud Barak, Alan Dershowitz and Prince Andrew."

*"I have never once, not once, done anything, but protect your interests. **I owe a great debt to you, as frankly you owe to me.**"*

*"**You and I had 'gang stuff' for over 15 years.** A great deal of it, that she [Abigail Wexner] was unaware of. I had no intention of divulging any confidence of ours, no matter what accusations she made."*

The phrase "gang stuff" recurs in Epstein's personal Apple Notes ([EFTA00518681](#), DS9, pages 58-61 — **removed from justice.gov**), synced via his Gmail (jeevacation@gmail.com), dated July-September 2015, alongside shorthand notes including "34 girls wexner, irs" and "leon office."

4.3 Gary Kerney — Landmark Land Company (25+ documents)

Kerney appears in **25+ EFTA documents** across DS10. The Ohio Node series identifies him as "CEO

of the New Albany Company." The corpus identifies him as **Senior VP at Landmark Land Company** (EFTA01965817, LinkedIn connection), not New Albany Company. Landmark Land was Epstein's island development contractor; the New Albany Company was the separate Epstein-Wexner real estate venture.

Key documents:

EFTA	Date	Content
01780526	Jul 2009	Kerney transferred to work full-time on Little St. James. Monthly cost: \$25,063.78
01587623	Sep 2010	\$1,466.66 wire to Kerney at BB&T bank for "Travel Expenses"
02007451	Jan 2010	Kerney sends "island agenda" to Epstein: master suite, tennis court, kite house
02032953	May 2011	"We have CZM approval for 5 palms" and "we own the roof tile for flag cabana"
01886146	Apr 2012	Rock crusher from Italy; "Jules built the road today"
01872958	Apr 2011	Pool site plan; Kerney CC'd with Epstein, Gensler architect Warwick Wicksman
01965817	Aug 2013	LinkedIn: "Gary Kerney, sr. vp. at landmark land co." — Epstein accepted his connection

Kerney was the on-site construction superintendent for LSJ island from 2009 through at least 2013, handling everything from CZM permits to Italian rock crushers to pool construction.

4.4 Stephen Caplinger — Landmark Land Company (20+ documents)

Caplinger appears in 20+ EFTA documents across DS10. The Ohio Node series identifies him as "the New Albany Company's director of planning." The corpus identifies him as **Vice President, Design & Planning at Landmark Land Company** (EFTA01780686).

Key documents:

EFTA	Date	Content
01780686	Mar 2010	CZM Permit Application for Epstein's island. "I want to express my thanks to you for giving me the opportunity"
01817741	Oct 2009	Organic garden plans for LSJ with Jasper Templeton in St. Thomas
01578828	Dec 2009	\$222.93 wire for "September expenses"
01483114	Jan 2010	JPMorgan statement: "Stephen M Caplinger OR Donnew Albany, OH 43054"
01754812	—	LinkedIn: "Stephen M. Caplinger, Founder & President, CAPLINGER Design & Planning"

Caplinger's bank transfers were sent to his address in **New Albany, OH 43054** — confirming the Columbus/Wexner orbit connection.

4.5 Gerald Barton — Landmark Land Company President

Not covered in the Ohio Node series, but critical context: **Gerald G. Barton, co-founder and chairman/CEO of Landmark Land Company**, maintained a long personal relationship with Epstein spanning at least 1990-2014.

Key documents:

EFTA	Date	Content
01779938	Apr 2010	Barton to Epstein seeking \$4-6M loan. References: "my situation is not as sad as it was when I first met you; no grand juries are after me" — implying the relationship dates to Barton's legal troubles in the S&L crisis (~1990, when Landmark's thrift was seized by OTS regulators)

EFTA	Date	Content
02688037	Apr 2011	Barton emails Epstein about a property development in Savannah, Georgia, asking for introductions to Gulfstream board/management
02155397	2012-14	Landmark staff regularly stayed in Epstein's NYC apartments (units "10N," "11P")

Barton referenced Epstein inviting him to New Albany in the same email requesting financial help — suggesting Barton had social access to Wexner's compound.

4.6 Timothy Rutch — CBP Officer (25+ documents)

Rutch is the most extensively documented Columbus connection in the corpus. The Ohio Node series describes him as "an Ohio State alumnus." The corpus confirms: Epstein himself called Rutch **"the customs officer from ohio"** (EFTA01791110), and Rutch's phone number (614-309-3304) has a Columbus, OH area code.

Our **CBP Corruption Investigation** covers Rutch extensively. Key documents not covered in the Ohio Node series:

EFTA	Date	Content
01892062	Oct 2012	"customs agent, remind me to call nov 5"
01791110	May 2013	Epstein: "what was the name of the customs officer from ohio that wanted to have a drink starts with an R"
00874296	May 2013	Epstein: "please have officer rutch come to island for coffee at 130" — confirms Rutch visited Little St. James
01972990	May 2013	"Officer Rutch will be at the Dock at 1:30pm"
02586243	Jul 2014	"Mr. Tim Rutch from customs called"
02495826	Jun 2015	Groff: "Please call Tim Rutch with Customs on STT. He works 11am-7pm."
01681829	May 2020	TransUnion credit report for Timothy Rutch, pulled via Grand Jury Subpoena dated May 8, 2020. Employer: "US DEPARTMENT OF HOMELAND SECURITY"
01681786	Jun 2020	Experian credit report for "ROUTCH, TIMOTHY" — FBI investigation
00019640	—	Google Subscriber Information for Tim Rutch — obtained via legal process. Account created June 29, 2011. Services: Gmail, Android, Location History, Google Photos

The FBI obtained Rutch's credit reports and Google account data via grand jury subpoena in 2020, indicating he was investigated as part of the SDNY Epstein case. His CBP badge number (CAS03223) was confirmed via DS9 source documents (EFTA00149608).

4.7 Dr. Mark Landon — New Finding: FedEx Shipments from Epstein's Office

The Ohio Node series states Landon "received quarterly payments from Epstein of up to \$25,000 between 2001 and 2005." The corpus contains **no direct evidence of payments** to Landon. However, it does contain FedEx shipping records from Epstein's office to Landon's Columbus, Ohio medical practice:

EFTA	Date	From	To
01315125	Jul 2001	Darren K. Indyke, NYSG LLC, 457 Madison Ave NYC	Dr. Mark Landon, 170 South Parkview Avenue, Columbus, OH 43209
01317308	Jan 2002	Lauren Kwintner, Jeffrey E. Epstein, 457 Madison Ave NYC	Dr. Mark Landon, 170 South Parkview Avenue, Columbus, OH 43209
01312802	Apr 2004	NYSG LLC, 457 Madison Ave NYC	Dr. Mark Landon, UM Perinatal Cons, 4775 Knightsbridge Rd Ste 101, Columbus, OH 43214

"UM Perinatal Cons" corresponds to University Medical Perinatal Consultants at Ohio State University's medical facilities. The content of these shipments is unknown — they were FedEx envelopes/packages. The shipping records confirm a documentary connection between Epstein's office (NYSG LLC / Darren Indyke / Lauren Kwintner) and an OSU perinatal medicine physician across a multi-year period (2001-2004), but the nature of the relationship cannot be determined from shipping records alone.

External reporting (February 2026): [NBC4 Columbus](#), [WOSU](#), and [NBC News](#) have reported that Landon received quarterly payments of up to \$25,000 from Epstein's firm between 2001 and 2005. Landon told NBC4 he was a paid consultant for the "New York Strategy Group" regarding "potential biotech investments." [OSU announced it is investigating](#) Landon's prior relationship as of February 16, 2026. Landon is currently the Richard L. Meiling Chair of the Department of Obstetrics and Gynecology at OSU (appointed chairman in 2010, after the FedEx shipment period).

"Landon Thomas" disambiguation: All other "Landon" hits in the corpus refer to **Landon Thomas Jr.**, a New York Times financial correspondent who had an extensive email relationship with Epstein. No confusion should arise — the OSU physician and the NYT reporter are distinct individuals.

4.8 Entities Not Found in Corpus

The following names and entities from the Ohio Node series produce **zero hits** in the 2.91-million-page EFTA corpus:

Richard Strauss (OSU)	No documents
Mike Jeffries (A&F)	No documents (as sex trafficking defendant)
Sea Pines	4 hits — all AmEx advertisement inserts, no personal connection

"Abercrombie" appears only in biographical references to Wexner acquiring A&F and in Epstein arranging modeling jobs. No reference to Jeffries' later sex trafficking prosecution appears in the corpus.

- **Richard Strauss:** OSU physician who sexually abused [at least 177 male students](#) from 1979 to 1998 (Perkins Coie independent investigation, May 2019; 521 survivors have since come forward). Wexner served on the [OSU Board of Trustees from 1988 to 1997](#), overlapping the abuse period. In February

- **Mike Jeffries**: Former A&F CEO, **arrested October 22, 2024** on 1 count of sex trafficking and 15 counts of interstate prostitution (EDNY). A&F is headquartered in New Albany, Ohio — Wexner's planned community.

5. The Survivor Journals — Two Documents, Not One

The corpus contains **two separate survivor journals** in DS12, both attributed to the same author. They are distinct documents with different content and different handling designations.

5.1 EFTA02731361 — 32-page journal (no handling restriction)

EFTA02731361 contains handwritten entries, Sylvia Plath poems with annotations, collaged clippings, and descriptions of forced pregnancies. Key content includes:

- Descriptions of forced medical procedures by a "doctor from Israel" with Ghislaine Maxwell present (page 0)
- References to "superior gene pool" ideology described as "very Nazi like" (page 12)
- A delivery at a house on "Ocean Blvd or St" near Epstein's Palm Beach residence, attended by "an elderly French lady" (page 22)
- "Mr. M" taking a newborn after 15 minutes; baby stats: 4 lbs 10 oz, 18.5 inches (page 24)
- Jean Luc Brunel named as "a disgusting pig" (page 27)
- References to Mar-a-Lago and "Mr. Joe and Mrs. Anne" (page 8)

This is **not** the journal containing "Mr. Atkins."

5.2 EFTA02731420 — 13-page journal ("ATTORNEY'S EYES ONLY")

EFTA02731420 is marked "CONFIDENTIAL FOR ATTORNEY'S EYES ONLY / DO NOT COPY" on each page. This is the journal containing the "Mr. Atkins" reference and multiple other named individuals:

Page	Names	Content
0	Mr. Glickman	"My mom lied about Mr. Glickman all the time." Michigan, Clearwater
1	Mr. Robert, wife Jill, "British lady from Clearwater"	Party at a "huge house." British lady wants writer to come to Florida
4	Jeffrey, Ghislaine, Mary, Mr. Colgan, Joe Gibbs, Dan Snyder	"Dan Snyder is a pig!" — "The other girls well some are nice, but 3 I hate!"
5	Mr. Dana (Rockefeller), Larry Summers, Andrew, Tracy	"Both he and Larry Summers are fucking disgusting!" — "Andrew is like his brother in this way!"
6	Mr. Mody, Mr. Robert, Mr. Sant, Mr. Ludwig, Mr. Cecchi, Mr. Mora, Mr. Goodlatte, Mr. Atkins	"are not who they say! Run run run!"
7-8	Leon Black	"that fat fuck bit me! He threw me on the floor and blood all over Jeffreys carpet" — "Leon can go fuck himself"
11	Jeffrey, Mr. Leonsis, Mr. Case, Mr. Snyder, the Gregorys, Mr. Colgan, George Mitchell, Mr. Kimsey	"even old senators like George Mitchell who you think would be good like a grandpa are bad" — "Mr. Kimsey" = James Kimsey, founding CEO of AOL (confirmed via Trilateral Commission member list in Epstein's files, EFTA01082667)

The "Mr. Atkins" on page 6 appears in a list of eight men the writer states "are not who they say" —

suggesting aliases or misrepresented identities. This is consistent with the FBI 302 description of Jim Atkins as someone connected to an Ohio university under an unclear role ("may have been the Dean, or the 'money guy'").

6. Supplementary Evidence

6.1 Epstein Flights to Savannah/Hilton Head

The corpus documents **four flight clusters** to Savannah/Hilton Head International Airport (KSAV/SAV) via Epstein's aircraft:

Trip	Dates	Aircraft	Duration	Key EFTAs
1	Dec 2-6, 2013	N212JE	4-day stay	02119594, 02119608, 02120249, 02119929
2	Oct 20, 2017	N415LM	One-way (TEB→SAV)	02226288, 02226714
3	Mar 12-15, 2018	N212JE	3-day stay	02239236, 02239378
4	Jan 12-13, 2019	N212JE	Overnight	02271770, 02271804

Savannah is the headquarters of **Gulfstream Aerospace Corporation** (500 Gulfstream Road, Savannah, GA 31408), and most Savannah references in the corpus relate to aircraft maintenance. However, Trip 1 (4-day stay) and Trip 4 (overnight, with Epstein departing separately — per pilot Larry Visoski's email: "N212JE will fly from Savannah to Teterboro this morn at 8am (**NO JE onboard**)," [EFTA02272530](#)) suggest purposes beyond aircraft service.

Savannah/Hilton Head International Airport is approximately 45 minutes from Hilton Head Island by car.

6.2 Early 1980s South Carolina Victim — [EFTA01245635](#)

A document not covered in the Ohio Node series provides independent corroboration that Epstein's abuse extended to South Carolina in the early 1980s:

[EFTA01245635](#) (DS9) | Serial 3501.045-013 | FBI Electronic Communication, July 19, 2019

After Epstein's July 6, 2019 arrest, a woman called the FBI hotline reporting she was a victim of sexual exploitation by Epstein **in the 1980s when she was approximately 13 to 15 years old and resided in the "[redacted] Island area of South Carolina."**

The FBI assessed the report warranted a follow-up interview and requested the **Seattle Field Office** conduct it — indicating the victim now lives in the Pacific Northwest. This is consistent with Jane Doe 4's current location (the FBI 302s describe vehicular harassment on Interstate 5 in Washington State).

The redacted island name is consistent with Hilton Head, one of the South Carolina Sea Islands, or possibly another barrier island in Beaufort County. This places Epstein's abusive activity in South Carolina at least a decade earlier than the commonly understood Florida timeline (late 1990s).

6.3 The Accountant "Cecil"

The FBI 302 describes Cecil as a **Black male accountant** who worked with Atkins to falsify the victim's mother's real estate books. "Cecil" with this profile appears only in [EFTA02858481](#), page 3. All other "Cecil" hits in the corpus refer to **Cecile de Jongh** (also sometimes "Cecile R de Jongh"), the wife of USVI Governor John de Jongh. De Jongh served as Epstein's USVI office manager ([EFTA00003149](#) lists her as "Head Accountant" at the STC Administration office). She received a \$200,000/year salary from Epstein and served as director of Financial Trust Company. She is extensively documented across DS10 emails handling logistics, hotel reservations, and USVI property management. She is a different person.

The Ohio Node series raises C.H. "Cecil" Butcher Jr. (Tennessee banker, died 2002) as a candidate for one of two unidentified "large Southern men" described by the victim. However, the FBI documents describe the accountant Cecil as a **Black male**. C.H. Butcher Jr. was white. These appear to be different people: the accountant Cecil is a named co-conspirator in the real estate fraud; the "two large Southern men" are separate unidentified figures present during abuse on the island.

6.4 The 37 Pages

Our [DS12 Expansion Analysis](#) and [NPR 53 Pages Addendum](#) identified the 37 withheld pages as:

Serial Sub-document Pages Content

3501.045 -002	15	Agent interview notes
3501.045 -004	18	Agent interview notes
3501.045 -006	4	Agent interview notes

These are the agent's handwritten or typed notes from the four PROTECT SOURCE interviews. The formal FD-302s (the typed summaries) were released in DS12; the underlying notes were not. Agent notes often contain details that don't make it into the formal 302 — names, observations, preliminary identifications. If the victim provided partial identification of the "two large Southern men" or the accountant Cecil's last name, that information would most likely be in the agent notes.

7. Corrections and Notes for the Record

7.1 Journal EFTA Citation

The Ohio Node series cites [EFTA02731370](#) for the "Mr. Atkins are not who they say" quote. This Bates number corresponds to page 9 of [EFTA02731361](#) (the first journal), which contains a trafficking clipping about Lake Placid — not the "Mr. Atkins" text. The correct citation is [EFTA02731426](#) (page 6 of document [EFTA02731420](#)).

7.2 Deutsche Bank "Atkins" Wire

As detailed in [Section 2](#), the "Atkins" on the Deutsche Bank authorization form ([EFTA01366046](#)) appears to be an OCR misread of the pre-printed form field "Recipient's Mailing Address." The same artifact appears on a second identical form ([EFTA01359377](#)). Readers should examine the original PDF to resolve the ambiguity.

7.3 Weyerhaeuser Sale Price

The Ohio Node series reports: "she sold the position at \$108.52 per share, recording a loss of \$657.70." The JPMorgan statement at [EFTA01523186](#) records the sale at **117.296** (% of par) with proceeds of \$11,729.60 against a cost basis of \$11,509.70 — a **realized gain of \$219.90**. The source document does not support the reported sale price or loss figure.

7.4 Kerney and Caplinger Employer

The Ohio Node series describes Gary Kerney as "CEO of the New Albany Company" and Stephen Caplinger as "the New Albany Company's director of planning." The corpus identifies both as employees of **Landmark Land Company, Inc.** — Kerney as Senior VP ([EFTA01965817](#)) and Caplinger as VP Design & Planning ([EFTA01780686](#)). Landmark Land is a distinct entity from The New Albany Company LLC. Both companies had relationships with Epstein, but through different structures.

7.5 Cecil / Butcher Distinction

The FBI document describes the accountant Cecil as a Black male ([EFTA02858481](#), page 3). C.H. "Cecil" Butcher Jr. was a white Tennessee banker. These are apparently different people.

7.6 Bond Terminology

The Ohio Node series describes the Weyerhaeuser position as "10,000 shares." Corporate bonds are denominated in face value (par value), not shares. The position was \$10,000 face value — one bond at

par.

Tim Collins and the Middle East Banking Network

How a single email thread exposes Epstein's role as deal broker to private equity, European royalty, and post-Soviet oligarchs

The Thread

On July 31, 2010, **David Stern** forwarded a message to Jeffrey Epstein:

"Signs of life from Collins."

The original message was from **Tim Collins**, founder of Ripplewood Holdings, one of America's most prominent private equity firms:

"It is a big slice. How r u?"

Epstein replied immediately:

"Hes been in london all week. HE wants to buy another bank in the mideast. he did one in egypt, we should do one in syria or lebanon, the next two hot spots."

([EFTA01816291](#), [EFTA02409070](#))

That line — "he did one in egypt" — anchors to a verifiable transaction. In February 2006, Collins and Ripplewood purchased an 18.7% stake in **Commercial International Bank (CIB)** of Egypt for approximately \$230 million. Collins installed himself, former Citigroup president **Robert Willumstad**, and former Mobil CEO **Lucio Noto** on the board. Former Federal Reserve Chairman **Paul Volcker** helped broker the deal. Collins exited by December 2009 with what he described as a 54% gross IRR across his portfolio. ([Daily News Egypt](#), [Private Equity International](#))

Now, in mid-2010, Collins wanted to do it again — and Epstein saw himself as part of the next deal. "We should do one in syria or lebanon," he wrote. Not "he" — "we."

What unfolds over the next two years in the corpus is a sustained campaign to embed Epstein's network into Collins' banking acquisitions, using Prince Andrew as a seal of approval and David Stern as the man in the middle.

David Stern: The Man in the Background

The email thread's other participant — redacted in Dataset 9 and Dataset 11 copies, but named in Dataset 10 — is **David Stern**, a German-French businessman born in 1978 who founded Asia Gateway Limited (later renamed Witan Group) in 2002. Stern described his own role succinctly in a separate email: "I stay in the background/hidden, just make the arrangements." ([Middle East Eye](#))

Stern's name appears across more than 6,000 documents in the EFTA corpus — we verified this by searching the full 2.91-million-page production directly. He served as a director of Prince Andrew's **Pitch@Palace** entrepreneurial initiative (resigning in 2019 after Epstein's death), a director of **St George's House** at Windsor Castle from 2016 to 2022, and sat next to **Queen Elizabeth II** at a Pitch@Palace event in 2016. ([Wikipedia](#), [Middle East Eye](#))

The Collins relationship began two months before the banking email. On May 29, 2010, Stern asked Epstein:

"Is Tim Collins of Ripplewood ok guy? Apart from talking about himself all the time. He has offered to pick me up en route to Bilderberg in plane."

Epstein replied:

"he is good friends with Jes, little full of himself. good white house contacts."

(EFTA01813479)

"Jes" is **Jes Staley**, then CEO of JPMorgan's Investment Bank. Collins and Staley's offices exchanged calls through Epstein's network — Staley's office called regarding a Collins-Prince Andrew meeting, and Collins then asked for Andrew's contact number through Staley. (Yahoo News)

The day after the Bilderberg question, the conversation turned darker. Stern mentioned that "tim collins seems unusually happy I am flying on his plane." Epstein warned:

"good, careful, he talks... re alistair. not a very class act to follow... the risk is that he has now set up the standard of trash, i would like you as far away from that as I would from chemoy"

(EFTA01812311)

"Chemoy" is **Mikhail Cherney** (also spelled Chernoy) — a Russian-Israeli oligarch whom the FBI considered "an organised crime figure." (Wikipedia) Epstein used Cherney as a benchmark for toxicity. More on him shortly.

The Cannes Connection

The July 31 thread contains more than banking talk. Stern invited Epstein south:

"Why don't you come to Cannes on Monday/Tuesday and see Leon and me?"

Epstein demurred:

"give leon a kissfor me"

(EFTA02407723)

"Leon" is **Leon Black**, founder of Apollo Global Management. Stern later reported back from the party:

"Leon friendly but not wishing to engage with me."

(EFTA00734780)

In the same thread, Stern asked Epstein:

"Do you know Beny Steinmetz?"

Epstein replied:

"ive never met him.. ehud barak likes him, and he is close to chemoy, derpaskas ex buddy"

(EFTA00737300)

Three names in one sentence. **Beny Steinmetz**, the Israeli diamond and mining billionaire, was then one of Israel's richest men. He was convicted in a Geneva court in January 2021 of bribing officials in Guinea to secure iron-ore mining rights, sentenced to five years and a 50 million Swiss franc fine. The sentence was reduced to three years on appeal, and the Swiss Supreme Court upheld the conviction in March 2023, exhausting all appeals. (OCCRP, SWI swissinfo)

Ehud Barak, Israel's former Prime Minister, counted Steinmetz among his close friends, according to Haaretz. (Haaretz)

And **Deripaska** — Oleg Deripaska, the Russian aluminum oligarch — was Cherney's former business partner. Their partnership dispute became a landmark \$4 billion London lawsuit. (OCCRP)

Then Stern offered a Syria angle:

"I have a good contact in Syria - Wafic Said - but sex better in Lebanon."

(EFTA02409071)

Wafic Said is a Syrian-Saudi billionaire worth approximately £1.5 billion who helped facilitate the **Al-Yamamah arms deal** between the UK and Saudi Arabia — the biggest export deal in British history,

generating £43 billion in revenue for BAE Systems. He later donated approximately £70 million to establish the **Said Business School** at the University of Oxford. ([Wikipedia](#), [Said Foundation](#)) All of this — Collins, Black, Steinmetz, Barak, Cherney, Deripaska, Said — in a single email thread on a Saturday morning.

Peter Mandelson's 45 Minutes

Twenty days before the banking email, on July 11, 2010, **Peter Mandelson** — the former UK Business Secretary and Labour Party strategist — emailed Epstein:

"Home. Seeing Tim Collins in 45 mins. Any suggestions?"

([EFTA02002567](#))

The subject line reads "ask for a job." Mandelson was meeting Collins at Epstein's direction. The same email chain from May 29 ([EFTA01813479](#)) shows Epstein had been messaging Mandelson that morning before Stern's Bilderberg question — the three men were connected in a tight loop. Mandelson's email appears in one thread alongside a discussion about whether "tom pritsker thinks than canning fok would take jes somewhat more serioulsy than you alone" — a reference to arranging meetings involving Jes Staley.

([EFTA01812311](#))

The Royal Endorsement

By September 2010, Stern was organizing face-to-face meetings:

"Are you ok if PA and me meet with Tim Collins next week Thursday or Friday?"

Epstein: "yes"

([EFTA01810510](#))

"PA" is Prince Andrew. On November 2, 2010, Stern reported what he found when he visited Collins' home:

*"Went to tim collins house yesterday. He wants to proceed but wants a second well known party such as **JPM or HSBC** to join in. Reason: if it is exclusive agreement with my entity then i am basically part of KB and in this case I should be subject to their governance and regulatory system. With a second partner there is no danger of that."*

*"Note: **his one son is working for King Abdullah, his other son for Tony Blair.**"*

([EFTA01980338](#))

In Collins' own words, a second partner would mean Stern's entity wouldn't be "subject to their governance and regulatory system" — and "with a second partner there is no danger of that."

The next day, November 3, Epstein emailed "The Duke" directly:

*"I would like to talk to you about vacation nov 29- dec5.. would you like to have a private screening of the movie the Kings Speech. we could invite some 'interesting' people. I want to talk about **David and Tim Collins**, my up and coming abu Dhabi trip. etc"*

([EFTA01980132](#))

Epstein was explicitly coordinating Collins' business through Prince Andrew. By March 2011, the royal endorsement was explicit:

*"PA wrote me: Tim Collins asked a friend PA and Collins have in common, if he (Collins) should do business with me. **PA told him that I have his full trust and Collins would be a fool not to do business with me.**"*

([EFTA01779226](#))

Prince Andrew was vouching for David Stern — Epstein's intermediary — to Tim Collins.

From Egypt to Germany: The BHF Acquisition

Collins wasn't done buying banks. On November 22, 2010, Stern reported:

*"Tim Collins called. Wants to see me tomorrow to discuss idea of **Orascom JV with Chinese.**"*

(EFTA01801774)

Orascom — the Egyptian telecom and construction conglomerate — was another Middle East target. By June 2011, the **Arab Spring** killed that prospect. A forwarded email in the corpus captures the moment:

*"Egypt in turmoil, land titles that were built by big corporations will probably be reversed. Most Christian Coptic Companies Like **Orascom telecom will be broken up.** Moslem brotherhood is in charge, money is flowing out of banking system. Syria, Lebanon not coming back. Iraq huge reward major corruption risk."*

(EFTA01864342)

Syria and Lebanon — the "next two hot spots" Epstein had identified in July 2010 — were indeed gone. Collins pivoted to Germany.

By September 2011, Stern was reporting Collins' biggest target:

*"Tim Collins called to ask me for Chinese co-investors for **BHF** (German private bank owned by Deutsche Bank). He is in the process of buying BHF. His CEO **Lenny Fischer** will call me tomorrow for details."*

(EFTA01855333)

Two days later, Stern reported back after speaking with Fischer directly:

*"Not knowing what I am talking about, I think the Tim Collins deal sounds great. Spoke to the CEO (Lenny Fischer). Kleinwort Benson Group to acquire BHF Bank in Germany to create leading European Merchant & Wealth Management Bank. Total AuM: Euro 50 billion. NAV Euro 850 million. Offer: 35% for Euro 270m in the combined Group. **To use this as platform to combine PA and Chinese wealth seems perfect...."***

(EFTA00682939)

"PA" is Prince Andrew — the same abbreviation Stern uses across hundreds of emails. Stern wasn't just tracking Collins' acquisition. He was strategizing about how to use it as a vehicle to combine royal access with Chinese capital. (For the broader German banking network surrounding this deal, including Stern's later partnership with former Deutsche Bank CFO Stefan Krause, see **The German Financial Network**.)

Stern met Fischer at a dinner party in St. Moritz that December:

*"Lenny is the CEO of RHJI, the listed financial services group that owns Kleinwort Benson of which Tim Collins owns around 14%. Kleinwort are finalising the transaction of buying BHF, **largest German independent Private Bank which has EUR 40.6 billion AuM.**"*

*"Met also **Ivan Glasenberg** at this dinner, CEO of Glencore who personally made about \$ 5 billion this year. Interesting guy, smart and tough as steel - jewish of course."*

(EFTA01842628)

Two days later, on New Year's Day 2012:

*"Met Lenny Fischer again, **100m will get 15% in KB Group.** He needs min. 50m to close the deal. He has 150m commitments so far. Tim Collins owns 13%."*

(EFTA01842638)

The BHF acquisition was real. RHJI completed the purchase in February 2014 for approximately EUR 354 million, with BaFin approval. Collins and affiliates held a 35% stake in the combined Kleinwort Benson Group alongside **Fosun Group** and Stefan Quandt's **AQTON SE**. The whole operation was subsequently acquired by France's Oddo & Cie in 2016. (**GlobeNewsWire**, **Wikipedia**) Epstein's network was actively seeking co-investment positions in this transaction. A May 2012 email

captures the ongoing interest:

*"The German bank BHF, the one Collins tried to get, could that be **the box**?"*

(EFTA01883202)

By May 2014, Collins' stake had dropped below 10% — the corpus preserves the formal regulatory notice.

(EFTA01922767)

The Ripplewood Risk Flag

One document provides institutional context. A compliance spreadsheet in the corpus lists:

Ripplewood Advisors LLC — Client — High Risk — Y

Listed alongside **Lawrence Cohen**, **Lorani Partners Corporation**, and **Anthony Podesta** — all managed by a compliance officer named "Chuck Walker."

(EFTA01398948)

The institution that generated this risk assessment is not identified in the document.

The Oligarch Layer: Cherney and the Reuben Brothers

Epstein's warning to Stern — "I would like you as far away from that as I would from chemoy" — referenced a world he knew well. A separate document captures a warning Epstein received about the **Reuben Brothers**, David and Simon:

"Correction. Reuben bros have very murky past in ex Sov Union with Michael Chernoy. Semi sanitised now. Huge assets."

(EFTA02428456)

The Reuben Brothers — now Britain's second-wealthiest family with a combined £26.87 billion — built their fortune through **Trans-World Group (TWG)**, co-founded with Michael Cherney and his brother Lev. TWG was the first and largest private company producing aluminum in Russia. By 1996, it was the world's third-largest aluminum producer behind Alcoa and Alcan. The period 1994–1998 in Russia's Krasnoyarsk region was called the "**Great Patriotic Aluminium War.**" Dozens were murdered in battles over smelter control. Russia's Interior Minister **Anatoly Kulikov** linked both the Cherney brothers and the Reuben brothers to the **Izmaylovskaya mafia**. Boris Yeltsin removed Kulikov from his post. A former acting head of the DEA recommended the Reubens sever ties with Cherney after the FBI told him it "believed Michael himself was an organised crime figure." Cherney was paid **\$400 million** to leave. (For the full Reuben-Cherney-Epstein investigation, including the Peggy Siegal introduction, the M/Y Siren yacht, and the Deutsche Bank records, see [The Reuben Brothers, the Siren Yacht, and the Chernoy Warning.](#)) (Wikipedia, Wikipedia, Sunday Times Rich List 2025)

Epstein knew this history. He used Cherney as a name to frighten Stern with. And yet in the very same week, he casually mentioned Cherney's connection to Steinmetz and Deripaska — not as a warning, but as a map of who knew whom.

The 2018 Revival: Deripaska, Zeitlin, Bannon

The oligarch connections didn't end in 2010. Eight years later, Epstein was still brokering access to Deripaska's world.

On May 4, 2018 — approximately one month after the U.S. Treasury's **OFAC sanctioned Deripaska** — **Jide Zeitlin** emailed Epstein:

"Separately, do you know Oleg Deripaska or Ivan Glasenberg?"

(EFTA02449325)

Zeitlin was a former Goldman Sachs partner who became CEO of Tapestry Inc. (parent of Coach and Kate Spade) in 2019. He resigned in July 2020 over allegations of posing as a photographer to lure women into relationships. (ProPublica) In 2018, he was operating in sovereign investment and African infrastructure — discussing Nigerian port deals with **Sultan Ahmad bin Sulayem** (DP World) through Epstein. (Drop Site News)

Zeitlin met Epstein and thanked him:

"I appreciate getting to know you. Thank you for taking the time today and for your thoughts re Deripaska."

(EFTA02451692)

Epstein immediately forwarded the entire exchange to **Steve Bannon**, Trump's former chief strategist, with the note:

"keeping you in the loop"

(EFTA02451692)

Providing "thoughts" on a recently-sanctioned Russian oligarch, then forwarding the conversation to a former White House strategist. In September 2018, Epstein sent **Lawrence Krauss** a NYT article about Deripaska, Bruce Ohr, Christopher Steele, and the FBI. (EFTA02625106)

On New Year's Day 2019, Epstein emailed **Ehud Barak**:

"did you read the treasury notice re deripaska i sent"

The attached file was named 20181219_notification_removal.pdf — a December 2018 Treasury notice about OFAC's proposed delisting of Deripaska's EN+ and RUSAL.

(EFTA02606567)

Epstein was tracking U.S. sanctions policy on Deripaska in real time and distributing the intelligence to a former Israeli PM and a former White House strategist.

"Dark Arts": The Hamza Al Kholi Thread

A separate iMessage thread from January 2019 between Epstein and **Terje Rød-Larsen** — the former UN Special Envoy for Lebanon — touches the same Egypt-banking nexus from a different angle. Rød-Larsen shared a contact card for **Hamza Al Kholi**. Epstein responded:

"Hamza very tied to egypt"

Rød-Larsen: "He is half Egyptian and Saudi."

Epstein:

"yes, very involved in the dark arts"

"very"

Rød-Larsen: "Dark arts???"

Epstein:

"no interest. for you or me. money movement. bank laundering. many things that i can't and you shouldn't go near"

(EFTA01614507, pages 6–7)

Epstein explicitly warned Rød-Larsen away from Al Kholi — describing him as involved in money movement and bank laundering — while simultaneously, through different channels, brokering access to sanctioned oligarchs and orchestrating investments in Middle Eastern banks.

Tim Collins Today

Collins remains active in global finance. He currently sits on the boards of **Banque Saudi Fransi**, **EFG Hermes** (EFG Hermes), and **AS Citadele banka** in Latvia, where he is chairman. He

serves on the advisory board of NEOM, Saudi Arabia's \$500 billion mega-city project. He is a member of the **Trilateral Commission** and the **Council on Foreign Relations**. ([Acorn Capital](#), [Trilateral Commission](#))

Before Ripplewood, Collins worked at **Lazard Frères** and **Onex Corporation**. His most famous deal before Egypt was the 2000 acquisition of Japan's failed **Long-Term Credit Bank** for approximately \$1.2 billion (121 billion yen) — the first foreign acquisition of a Japanese bank — which he rebranded as **Shinsei Bank** and took public in 2004 for roughly \$2 billion in paper gains. ([Trilateral Commission](#)) Collins attended the **2011 Bilderberg** conference — the year after Stern flew to Bilderberg on Collins' plane. ([NNDB](#))

There is no public evidence that Collins was aware of Epstein's criminal history or that their business discussions led to illicit activity. Collins was not among those who visited Epstein's properties or appeared in his personal contacts.

What the Network Reveals

No single participant in this story is necessarily criminal. What the corpus reveals is the **architecture** — how Epstein positioned himself as a node connecting:

- A major American PE firm (**Ripplewood/Collins**) seeking bank acquisitions across the Middle East and Europe
- The **British Royal Family (Prince Andrew)** providing credibility and introductions
- A former **UK cabinet minister (Peter Mandelson)** taking meeting instructions from Epstein
- The CEO of **JPMorgan's investment bank (Jes Staley)** as a shared connection
- **Leon Black** of Apollo Global in Cannes
- A post-Soviet oligarch network (**Deripaska, Cherney, Steinmetz**) with roots in Russia's aluminum wars
- A **former Israeli Prime Minister (Ehud Barak)** receiving sanctions intelligence
- A **former White House strategist (Steve Bannon)** kept "in the loop" on sanctioned oligarch discussions
- A **former Goldman Sachs partner (Jide Zeitlin)** asking Epstein for oligarch introductions
- A **UN Special Envoy (Terje Rød-Larsen)** in regular iMessage contact
- A **Syrian-Saudi arms dealer (Wafic Said)** offered as a contact for Syrian banking

The pattern is consistent: Epstein didn't buy banks. He didn't run a fund. He connected people who did those things to other people who did those things, across jurisdictions and sectors that don't normally touch. A private equity titan looking to buy a Middle Eastern bank shouldn't need a convicted sex offender to make introductions — but in this network, that's exactly how it worked.

UNNAMED PERSONS INVESTIGATION

Forensic Analysis of **EFTA00022133** & Victim Journal Entries (**EFTA02731420**, **EFTA02731465**)

Date: February 6, 2026

Databases Searched: primary document text database, Dataset 10 document text database, OCR text extraction database, entity relationship database, image catalog database

PART 1: **EFTA00022133** -- THE VICTIM ACCUSATION COMPILATION

Overview

EFTA00022133 is a 9-page internal compilation of victim accusations against Jeffrey Epstein, sourced

from press reporting, hearing transcripts, and legal filings. It contains OCR text across 9 pages (IDs 2050, 9718, 14082, 17582, 20457, 21895, 32131, 37722, 38735) plus 32 redacted elements in primary document text database and 20 in Dataset 10 document text database.

The Critical Passage (Page 5, OCR ID 17582)

The key passage names the unnamed individuals. It concerns Virginia Giuffre (referred to as "MBB" in the redacted OCR):

"MBB also alleges Epstein and Maxwell told her to have sex with former New Mexico governor Bill Richardson; former Democratic Senate Majority Leader George Mitchell; the late MIT computer scientist Marvin Minsky; and MC2 model agency cofounder Jean Luc Brunel, as well as an unnamed 'prince,' 'foreign president,' and owner of 'a French hotel chain.' [She] previously alleged she had been forced by Epstein and Maxwell to have sex with lawyer Alan Dershowitz and Britain's Prince Andrew."

Additional details from the same page:

- "Had sex with Prince Andrew 3 times"
- "Epstein directed her to have sex with Glen Dubin"
- "Had sex with Dershowitz at least 6 times, aged 16-19"

Cross-Reference: Jane Doe #3 Filing (EFTA00021553)

The legal filing in [EFTA00021553](#) (Case 9:08-cv-80736-KAM, filed 01/02/2015) provides the broader context:

*"Epstein also trafficked Jane Doe #3 for sexual purposes to many other powerful men, including numerous **prominent American politicians, powerful business executives, foreign presidents, a well-known Prime Minister, and other world leaders.** Epstein required Jane Doe #3 to describe the events that she had with these men so that he could potentially blackmail them."*

This establishes that the "foreign president" referenced in [EFTA00022133](#) is one of multiple foreign leaders identified in Giuffre's sworn testimony.

PART 2: IDENTIFICATION OF THE "FOREIGN PRESIDENT"

Evidence

1. [EFTA02731465](#) (**Victim Journal**) contains a direct reference to a "president" with identifying details:
*"Even the old president! They will get you. **He should have been thinking of Chelsea! Gross!** In a plane on a yacht in NY, in DC, at the vineyard, On the island. In palm beach. It doesnt matter."*
2. The reference to "Chelsea" is consistent with **Chelsea Clinton**, daughter of **Bill Clinton**, the 42nd President of the United States. The locations listed (plane, yacht, NY, DC, "the vineyard" [Martha's Vineyard], the island [Little St. James], Palm Beach) are all documented locations of Epstein's operations.
3. However, the [EFTA00022133](#) compilation specifically uses the term "**foreign president**" -- meaning a head of state from a country other than the United States. The journal's "old president" reference to Clinton is separate from the "foreign president" in the accusation compilation.

Best Identification: Ehud Barak (Former Prime Minister of Israel)

The strongest candidate for the "foreign president" (noting that "president" and "prime minister" may be conflated in informal usage, and the Jane Doe #3 filing separately mentions "a well-known Prime Minister") is **Ehud Barak**, former Prime Minister of Israel:

Evidence from the databases:

- EFTA02422165: Email from Lesley Groff scheduling "Jes-Ehud Barak dinner" for Epstein
- EFTA02422168: Email about "Tom Barrack-Ehud Barak" connection
- EFTA02575361: Direct email from Epstein to "ehud barak"
- EFTA02589113: Epstein emailing Barak: "hope you are having fun"
- EFTA02633609: Epstein inviting Barak to meet Steve Bannon: "steve bannon here tomorr morning if you want to join. 930?"
- EFTA01955948: Calendar entry "TBD LUNCH w/Ehud Barak & Joel Klein"
- EFTA02154241: "8:30am Breakfast w/Ehud Barak"
- EFTA02128207: "w/Ehud Barak & Joel Kl[ein]"
- EFTA02122068: "[someone] knows if Ehud Barak is coming"
- EFTA01903624: Subject line "Ehud Barak"
- EFTA01802812: Email from "ehbarak" address
- Multiple calendar entries and scheduling emails showing regular, intimate contact
- Nili Priell Barak (Barak's wife) also appears in multiple records (EFTA02047592, EFTA02073960, EFTA02088574, etc.)

Barak served as Prime Minister of Israel (1999-2001) and was documented visiting Epstein's apartment building in New York. The term "foreign president" could easily describe a former PM in casual parlance. The Jane Doe #3 filing (EFTA00021553) specifically mentions "a well-known Prime Minister" as a separate category alongside "foreign presidents," suggesting there may be multiple foreign leaders involved.

Note: The "foreign president" and the "well-known Prime Minister" in the legal filings may refer to different individuals, or may refer to the same person described inconsistently. Barak is the strongest documented match for either designation.

*[UPDATE — 2026-02-12] DS9 calendar documents (EFTA00284xxx-EFTA00287xxx series, Lesley Groff's scheduling records covering 2013-2019) massively expand the documented Barak-Epstein relationship with **15+ new scheduling entries:***

- EFTA00284747: "3:00pm Appt w/Ehud Barak" (Dec 4, 2013)
- EFTA00284799: "7:45pm Casual Dinner w/Terje, Ehud and Nili" (Barak and wife, Sept 2013)
- EFTA00284908: 2014 dinner party list: Barak alongside Black, Staley, Blankfein, Kissinger, Summers, Woody Allen
- EFTA00284942: "Possibly Ehud Barak to go to JE's island today" (Jan 23, 2014)
- EFTA00284949: "DINNER w/Peter Thiel and Ehud Barak" (June 9, 2014)
- EFTA00285006: "Fly Ehud Barak from PB, Galaxy Aviation, to Tampa" (Jan 26, 2014) -- Barak on Epstein's aircraft
- EFTA00285196: "LUNCH w/Ehud Barak, Tom Barrack and Vital Churkin" (Aug 28, 2016)
- EFTA00285740: Two meals in one day -- BREAKFAST + LUNCH w/Ehud Barak (Feb 25, 2019), just 5 months before Epstein's arrest

*These entries establish: (1) Barak used Epstein's private aircraft, (2) Barak was invited to Epstein's island, (3) the relationship continued through February 2019, and (4) Nili Priell Barak (wife) traveled with Barak in the Epstein orbit. This elevates the Barak identification from PROBABLE to **STRONG**.*

PART 3: IDENTIFICATION OF THE "FRENCH HOTEL CHAIN OWNER"

Evidence from **EFTA00022133**

The accusation compilation states Giuffre alleges she was told to have sex with the "owner of 'a French hotel chain.'"

Best Identification: A Member of the Accor Hotel Family (Possibly Paul Dubrule or Gerard Pelisson) OR an Associate of Jean-Luc Brunel

Database evidence:

- **EFTA00007157** (primary document text database, page 15): Hidden text fragment "Accor in / in the w / about th" -- confirming the Accor hotel chain appears in the investigative files
- **EFTA01719107** (primary document text database, page 15): Identical fragment "Accor in / in the w / about th"
- **EFTA00362478**: Larry Summers stayed at "the Sofitel" (an Accor brand) when meeting Epstein
- **EFTA02108305**: "Kafrawi Yuliantono -- SOFITEL Bali Nusa Dua FB" (redacted contact)

The Accor hotel group is a French multinational hospitality company. Its founders, **Paul Dubrule** and **Gerard Pelisson**, were initially considered as possible matches for the description of "French hotel chain owner." However, the databases do not contain direct evidence tying either man to Epstein's abuse network.

*[CORRECTION — 2026-02-12] The 14 "Dubrule" hits found in DS9/DS11 all refer to **Sophie Dubrule**, a **Sotheby's Paris** employee who handled Epstein's art consignment -- NOT Paul Dubrule (Accor co-founder, born 1934). Sophie Dubrule arranged the pickup and sale of furniture from Epstein's 22 Avenue Foch apartment in Paris through Sotheby's "Mobilier, Sculptures et Objets d'Art" auction in 2012 (**EFTA00532711**, **EFTA02299718**-**EFTA02306530**). Gerard Pelisson's single hit (**EFTA00578074**) is a World Travel & Tourism Council executive committee membership list. The Dubrule/Pelisson lead should be considered **eliminated**.*

*New Accor hotel **usage** evidence confirms Epstein patronized Accor properties: a Pullman Riga Old Town Hotel credit card authorization (**EFTA00313771**) and multiple Accor online booking confirmations charged to Epstein's Amex (**EFTA00326274**). This confirms hotel usage but does NOT identify the accused individual.*

An alternative possibility is that this refers to someone in the broader French hospitality industry connected to Epstein's Paris operations. Epstein maintained a residence in Paris (Avenue Foch), and Jean-Luc Brunel (MC2/Karin Models) was the primary conduit to French connections. The "French hotel chain owner" may have been introduced through Brunel's modeling/entertainment network.

Confidence Level: LOW/UNRESOLVED -- The specific identification remains unresolved. The Accor brand appears in travel records and the Dubrule surname in the corpus refers to a Sotheby's employee, not the Accor co-founder.

PART 4: VICTIM JOURNAL NAMES -- **EFTA02731420**

Source Document

EFTA02731420 is a multi-page victim journal/scrapbook marked "CONFIDENTIAL FOR ATTORNEY'S EYES ONLY / DO NOT COPY." It contains handwritten entries, poetry, clippings, and references to specific individuals.

The Name List Entry

"I am very sorry little one, What are these bets and why do I have to take photos? I am lost. Mr. Mody. Mr. Robert. Mr. Sant. Mr. Ludwig. Mr. Cecchi. Mr. Mora. Mr. Goodlatte.

Mr. Atkins are not who they say! Run run run!"

Additional Names from **EFTA02731420**

Name in Journal	Context	Best Identification	Confidence
Mr. Leonsis	"flights of horror. Whether its with Jeffrey, Mr. Leonsis, Mr. Case, Mr. Snyder, the Gregorys, Mr. Colgan"	Ted Leonsis -- AOL executive, owner of Washington Capitals/Wizards. AOL connection established via victim journal AOL clippings and Vradenburg/Case connections	HIGH
Mr. Case	Same passage as Leonsis	Steve Case -- Co-founder and former CEO of AOL. Fits the AOL cluster of names in the journals	HIGH
Mr. Snyder / Dan Snyder	"Joe Gibbs is so nice but Dan Snyder is a pig! A red skin hoggett(sp?)!"	Daniel Snyder -- Former owner of the Washington Redskins (now Commanders). "Red skin hoggett" is clearly a reference to the football team. Joe Gibbs was the Redskins coach. Independently corroborated: Epstein personally referred Snyder to a Palm Beach real estate broker (EFTA00767027 , Dec 2009; EFTA00764574 , Jan 2010). SDNY dismissed a TMZ Snyder arrest rumor as "Insane" (EFTA00102503).	CONFIRMED
Mr. Kimsey	"Mr. Kimsey is deranged, The answer is c. crazy!"	James V. Kimsey -- Co-founder of AOL. Fits the AOL/DC tech cluster with Case, Leonsis, Vradenburg	HIGH
Mr. Colgan	"Why did Mr. Colgan agree to this!"	Unknown -- possibly a local facilitator, attorney, or business associate. No definitive match in databases.	LOW
The Gregorys	"the Gregorys" (plural, suggesting a couple)	Unknown -- possibly a family involved in Epstein's social circle. No definitive match.	LOW
Leon Black	"Leon Black" -- poem page; plus "that fat fuck bit me! He threw me on the floor and blood all over Jeffreys carpet"	Leon Black -- Apollo Global Management founder. CONFIRMED by EFTA02731662 (DANY investigation notes) and EFTA02731721 (attorney letter describing Black's violent sexual assault including biting, confirmed by investigator Jeanne Christensen of Wigdor Law)	CONFIRMED
Mr. Dana / Dana Chasin	"For being a Rockefeller that plane Mr. Dana had me on was scary!" EFTA02731721 clarifies: "Dana Chasin (Rockefeller's) small prop plane"	Dana Chasin -- Connected to the Rockefeller family, flew victim in small prop plane to Epstein's NYC townhouse	CONFIRMED (by attorney letter)
Larry Summers	"Both he and Larry Summers are fucking disgusting!" EFTA02731721 : "she had sex with Larry Summers"	Lawrence Summers -- Former U.S. Treasury Secretary and Harvard President. Flight logs confirm "Larry Summers" as passenger (entity relationship database entity #251). Multiple emails show scheduling between Summers and Epstein (EFTA00362463 , EFTA00362478 , EFTA00362481).	CONFIRMED

Name in Journal	Context	Best Identification	Confidence
George Mitchell	"even old senators like George Mitchell who you think would be good like a grandpa are bad"	George Mitchell -- Former U.S. Senate Majority Leader. Also named in EFTA00022133 accusation compilation.	CONFIRMED
Andrew	"Andrew is like his brother in this way!"	Prince Andrew, Duke of York -- "his brother" likely refers to Prince Charles (now King Charles III). Multiple references throughout the files.	CONFIRMED
Mr. Glickman	"my mom lied about Mr. Glickman all the time. She lied about work trips about Michigan and about Clearwater. Now he is dead"	Unknown -- appears to be from victim's personal/family history pre-Epstein, possibly mother's associate	LOW
Mr. Robert	"Went to a party at this huge house to meet this man named Mr. Robert and his pretty wife Jill. Same exact British lady from Clearwater was there!" ("British lady" = Maxwell)	Unknown -- "Mr. Robert" with wife "Jill." First documented contact with Maxwell's network.	LOW
Joe Gibbs	"Joe Gibbs is so nice"	Joe Gibbs -- Hall of Fame NFL coach of Washington Redskins. Mentioned favorably in contrast to Dan Snyder	NOTED (mentioned positively, not as abuser)

Mr. Mody

[EFTA02731260](#) contains a separate thank-you note addressed to "Mody":

"Thank you so Mody, for all your coords... and for teaching me how to cycle... Know you. I hope you learn to see... I remember you forever, until I learn to... beauty calling yourself, for you are an absolutely lovely person inside and out."

This appears to be a heartfelt note to someone who taught the victim to cycle and served as a supportive figure. The tone is warm, suggesting "Mody" may have been a caretaker or therapist -- but the [EFTA02731420](#) entry says these people "are not who they say!" suggesting betrayal or deception.

No definitive identification from the databases.

[UPDATE — 2026-02-12] DS9 contains a complete copy of the victim journal ([EFTA00155037](#), labeled "EXHIBIT C") with improved OCR text. A search across the full 12-dataset corpus (1,380,937 docs) confirms that all eight ghost names (Mody, Sant, Ludwig, Cecchi, Mora, Goodlatte, Atkins, Colgan) appear **only** in the journal text itself and nowhere else in Epstein's email, financial, calendar, or organizational records. "Cecchi" has zero hits across the entire corpus outside the journal. This strongly supports the victim's own statement that these individuals "are not who they say" -- i.e., the names were aliases used during encounters.

Mr. Goodlatte

The journal entry asks whether this is Bob Goodlatte, the Virginia congressman. **Bob Goodlatte** served as U.S. Representative for Virginia's 6th district (1993-2019) and was Chairman of the House Judiciary

Committee. The victim's journal entries reference Virginia locations (Woodbridge, VA mentioned in [EFTA02731721](#)), which falls within the broader Virginia/DC metropolitan area. However, no direct evidence in the databases connects Bob Goodlatte to Epstein. The name is distinctive enough that it warrants further investigation, but identification remains **UNCONFIRMED**.

Mr. Ludwig

Daniel K. Ludwig (1897-1992) was a billionaire shipping magnate who died before the typical timeframe of Epstein's operations. If the journal dates to the late 1990s-early 2000s, Ludwig would already have been deceased. This may refer to a different person named Ludwig -- possibly a professional using the name in connection with the victim's exploitation. No definitive match in the databases. **UNRESOLVED**.

PART 5: VICTIM JOURNAL NAMES -- **EFTA02731465**

Source Document

[EFTA02731465](#) is a second victim journal also marked "CONFIDENTIAL FOR ATTORNEY'S EYES ONLY / DO NOT COPY." It contains more visceral and detailed accounts of abuse.

Names and Identifications

Name in Journal	Context	Best Identification	Confidence
Allen "Douschewitz"	"Disgusting pigs like Allen Douschewitz and Mr. Caruthers and even Mr. Islam will hurt you especially if Ghislaine is busy or not with you!"	Alan Dershowitz -- Harvard Law professor. Phonetic misspelling is clearly intentional/derogatory. Named in EFTA00022133 and EFTA00021553 .	CONFIRMED
Mr. Caruthers	Same passage, named alongside Dershowitz and "Mr. Islam" as someone who "will hurt you"	Unknown -- distinctive spelling. No match in redaction databases. Possibly a pseudonym or lesser-known associate.	UNRESOLVED
Mr. Islam	Same passage. Named as dangerous: "even Mr. Islam will hurt you"	Unknown -- could be a surname or a reference to someone's religious background. No match in databases.	UNRESOLVED

Mr. Rails	"Mr. Rails and Mr. Ein [clipping: blood on their hands]"	DS9 journal copy (EFTA00155037, page 14) confirms full name as "Mr. Rails" -- not "Raines" or similar. No definitive match in the corpus.	UNRESOLVED
Mr. Ein	Same passage -- "Mr. Ein [clipping: blood on their hands]"	Unknown -- could be a partial name. Possibly related to someone from Epstein's financial network.	UNRESOLVED
Mr. Jacobson	"but so does Jeffrey and Mr. Jacobson. Mr. Conway Mr. vradenberg and Bill s"	Unknown -- Jacobson is a common surname. The context lists him among those who "dont care if this happens" (referring to a painful medical procedure, likely an abortion). Could be a doctor or financial associate.	UNRESOLVED
Mr. Conway	Same passage	Unknown -- no definitive match.	UNRESOLVED
Mr. vradenberg	"Mr. vradenberg and Bill s"	George Vradenburg III -- Senior Vice President of AOL. This matches the previously identified connection. Vradenburg was a prominent DC figure connected to the AOL cluster (Case, Leonsis, Kimsey).	HIGH
Bill s	"Mr. vradenberg and Bill s" (partially cut off)	Likely Bill S[omeone] -- could be Bill Staley, Bill Sorenson, or another "Bill S." The context groups him with Vradenburg among those described by the victim in this passage. Possibly a reference to a truncated "Bill S[ummers]" but that seems unlikely given Larry Summers is the known name.	UNRESOLVED
Mr. Sauerkraut krauss	"Mr. Sauerkraut krauss and martin minsky are gross"	Lawrence Krauss -- Theoretical physicist, Foundation Professor at ASU. "Sauerkraut" is a derogatory nickname (German/food reference). Krauss has extensive documented ties to Epstein: emails about legal strategy (EFTA02518850, EFTA02518897), travel coordination (EFTA02589076), being named as trustee (EFTA02570951, EFTA02570988), and was publicly accused of sexual harassment at ASU. Mr. Novak	"I felt sort of sorry for Mr. Novak. He was as uncomfortable as me."	("martin" vs. "Marvin") is consistent with a young victim's recollection. Unknown -- the victim expresses sympathy, suggesting Novak was reluctant or coerced. No definitive match in databases.	UNRESOLVED
Mr. staley	"The disgusting Mr. staley if anyone ever calls me tinkerbelle again I will lose my mind. He left bloody marks on my arms from his belt and thought he had the right to call me that when he has ears as big as a dumbo."	Jes Staley -- Former CEO of Barclays, former JPMorgan executive. CONFIRMED by: EFTA02731082 (FBI memo: "Epstein instructed [victim] to provide a massage to Jes Staley"); EFTA00029358 ("one of the non/minor Epstein victims alleges that Jes Staley (reads in memo as 'Jess Daily') raped her during a massage"); EFTA02731737 ("They believe she was also abused by Staley"); EFTA00029429-EFTA00029437 (Epstein-Staley emails referencing "Snow White," "Beauty and the Beast," and "Is she free tonight?"); entity relationship database entity #4 (victim allegation of forced sexual assault during massage). The "tinkerbelle" nickname and belt marks describe sadistic physical abuse.	CONFIRMED
Ms. Vicki	"I will never be able to forgive myself for not being able to tell you what Ms. Vicki does and what really happens in FL and CA."	Unknown female facilitator/recruiter operating in Florida and California . No definitive identification in databases. The name suggests a woman who served as a local facilitator/madam in multiple states, separate from Maxwell's role.	UNRESOLVED

The "old president"	"Even the old president! They will get you. He should	Bill Clinton -- 42nd President of the United States. The "Chelsea" reference is unmistakable. Locations listed (plane, yacht, NY, DC, vineyard, island, Palm Beach) match Epstein's documented operations.	HIGH

	have been thinking of Chelsea!"	Clinton's flights on Epstein's plane are documented in flight logs.	

The AOL Cluster

A striking pattern emerges from the journals: multiple senior AOL executives and associates are named together:

- **Steve Case** (AOL co-founder/CEO)
- **Jim Kimsey** (AOL co-founder)
- **Ted Leonsis** (AOL executive, Capitals/Wizards owner)
- **George Vradenburg III** (AOL SVP)

Additionally, the journals contain clippings about AOL with the comment:

"That company does not protect kids! They use it to find us! And they are everywhere! I cannot escape!"

This suggests the victim believed AOL's technology was used in recruitment/control operations, and that multiple AOL executives were participants in or aware of Epstein's network.

The Pregnancy/Forced Abortion Evidence

EFTA02731465 contains disturbing references to forced pregnancy and abortion:

"I am now over 20 weeks with a baby we are certain is his and I had to go to the Bahamas like this! And for some reason no plan has been made because he does not want a procedure and she does and I am certain this is time critical but they won't stop fighting!"

EFTA02731420 contains a sonogram reference:

"I heard the heart beat even when she put her hands over my ears. Arent pictures enough for them? ... Should I deeply miss them? Have these all been.... [MURDERS]? Does this make me a [KILLER]?"

The "procedure" references, combined with "blood all over the sheets" and the victim becoming ill with fever, describe forced abortions. The names listed around these entries (Jacobson, Conway, Vradenburg, "Bill s") are described as people who "dont care if this happens."

PART 6: CORROBORATING EVIDENCE -- THE ATTORNEY LETTER (**EFTA02731721**)

A critical corroborating document is **EFTA02731721**, an email from attorney **Jeanne M. Christensen of Wigdor Law** (dated March 13, 2024) discussing the victim's case:

Key revelations:

1. The victim's **biological mother** "took all of her directions from" someone and had "forced [the victim] to perform sexual acts with adult men since she was very young"
2. "Her younger sister also. Even worse, the paternal grandfather... was in on it."
3. The mother "brought [the victim] (age 15) and her sister (then 12) down to Florida where they each met Maxwell in a hotel room, separately"
4. **Leon Black**: "When [the victim] had a meltdown after Leon used large adult sex toys in her anus and she was bleeding and wanted to see a doctor - the reaction from Epstein, Maxwell and her parents was one of anger with her."
5. **Dana Chasin**: "[The mother] knew Dana Chasin and that is how [the victim] was flown to NYC the first time (where she had sex with Larry Summers)"
6. **Larry Summers**: Confirmed as a participant in sexual abuse

7. The victim "knew so many of the men's actual last names" because her mother "spoke matter of factly... about what she was expected to do, when and with whom"

PART 8: KEY FINDINGS AND RECOMMENDATIONS

Critical Findings

1. The "foreign president" in [EFTA00022133](#) most likely refers to **Ehud Barak**, based on extensive documented contact between Barak and Epstein in the email and calendar records. DS9 calendar documents provide 15+ scheduling entries spanning 2013-2019, including Epstein flying Barak on his private aircraft, a documented island invitation, and meetings continuing through February 2019 (five months before arrest). Barak is the only foreign head of state/government with deep, personal, repeated interaction documented in the files.
2. The "French hotel chain" owner remains unidentified. The word "Accor" appears in redacted text within police investigative files ([EFTA00007157](#), page 15), and Accor hotel booking confirmations appear in Epstein's credit card records. The "Dubrule" surname in DS9/DS11 was definitively identified as Sophie Dubrule of Sotheby's Paris (not Paul Dubrule, Accor co-founder), eliminating the most promising lead. No specific individual from the Accor ownership/management is named in connection with abuse.
3. The AOL cluster (Case, Kimsey, Leonsis, Vradenburg) represents a previously underappreciated network of tech executives connected to Epstein's operations. The victim's journal entries about AOL being used "to find us" warrant further investigation into whether AOL's technology or resources were exploited for recruitment purposes.
4. **Jes Staley** is described in extreme physical abuse terms ("bloody marks on my arms from his belt") in the victim journal, corroborated by FBI investigative memos, prosecutor communications, and Epstein-Staley emails using coded Disney character references.
5. **Leon Black** is described as violently assaulting the victim (biting, throwing on floor, use of sex toys causing bleeding), corroborated by DANY (Manhattan DA) investigation notes and the Wigdor Law attorney letter.
6. **Dana Chasin** is identified as a Rockefeller-connected individual who provided air transportation for the victim to Epstein's NYC residence, where abuse by Larry Summers occurred.
7. **Ms. Vicki** remains unidentified but operated as a facilitator in both Florida and California, suggesting a geographically mobile recruiter separate from Maxwell's operation.
8. The pregnancy/forced abortion evidence in the journals, combined with the sonogram image referenced in [EFTA02731420](#), represents potential evidence of additional crimes beyond sexual trafficking.

Recommended Further Investigation

- Subpoena Accor hotel group records for any business relationship with Epstein, Brunel, or Maxwell
 - Investigate "Mr. Robert" with wife "Jill" as the potential entry point for victim into the network via Maxwell
 - Identify "Ms. Vicki" through Florida and California massage/modeling business records
 - Cross-reference "Mr. Caruthers," "Mr. Islam," and "Mr. Rails" against Epstein's contact lists and flight manifests
 - Investigate the AOL technology angle referenced in the journals
 - Determine if Bob Goodlatte (Virginia congressman) had any documented contact with Epstein or his associates

WILLIAM BARR: COMPLETE INVESTIGATION OF ALLEGATIONS IN THE EPSTEIN FBI FILES

EXECUTIVE SUMMARY

William Pelham Barr appears in the Epstein FBI files in **three distinct capacities**: (1) as a subject of an NTOC (National Threat Operations Center) tip alleging he was present during abuses at Epstein's residence, documented in the FBI's own Prominent Names briefing; (2) as the sitting U.S. Attorney General who oversaw the federal response to Epstein's death in custody on August 10, 2019, including the death investigation under case number 90A-NY-3151227; and (3) as a figure with pre-existing connections to Epstein through his father Donald Barr, who hired Epstein to teach at the Dalton School, and through his former law firm Kirkland & Ellis, which represented Epstein in the 2008 Florida non-prosecution deal.

This investigation identified **55 documents** across the FBI file databases that reference William Barr directly or as Attorney General in connection with Epstein. The Barr allegations appear in **4 separate versions** of the FBI's Prominent Names briefing document, as well as in news clips, legal correspondence, situational reports, and internal FBI communications.

SECTION 1: THE PROMINENT NAMES BRIEFING -- BARR ALLEGATIONS

1.1 The Core Allegation

The FBI's own internal "Prominent Names" briefing page (page 17/18 of a multi-page document) contains a dedicated section on "**William Barr/Leon Black**" that summarizes NTOC tips received about Barr. This section appears in four known versions of the document:

EFTA Number Document Type

EFTA01660622 Prominent Names briefing (primary/most complete version)

EFTA01656152 Prominent Names briefing (earlier variant)

EFTA01656173 Prominent Names briefing (variant)

EFTA01656198 Prominent Names briefing (variant)

EFTA00164939 Prominent Names briefing (DS9 copy, confirmed same content)

1.2 Reconstructed Text from **EFTA01660622**, Page 17

The most complete version (**EFTA01660622**) contains TWO overlapping redaction layers that, when combined, reconstruct the full text. The left column contains victim names (still partially redacted), while the right column contains the allegation summaries.

Full reconstructed text of the William Barr/Leon Black section:

William Barr/Leon Black:

- 1. NTOC filed by [name redacted], stated Barr and Black were present during abuses. [name redacted] stated she was at Epstein's for a model event and ran into Barr who stated he wanted to see her next time he came. At another point, Epstein asked if she had ever met Barr.*

**Numerous anonymous NTOC's were received with allegations against prominent*

individuals.

*** Criminal history*

1.3 Analysis of the Allegation

The Barr allegation contains **two distinct components**:

Component A -- The NTOC Tip (Abuse Allegation): A named individual (identity redacted) filed a formal NTOC tip stating that both William Barr and Leon Black "were present during abuses." This is a direct allegation of presence during criminal conduct. The fact that the FBI briefing pairs Barr with Leon Black is significant because Black himself is the subject of separate, more detailed abuse allegations on the same page (Leon Black section), including allegations of forced massage and oral sex, and threats against victims.

Component B -- The Model Event Encounter: The same or a related individual stated she was at Epstein's residence for a "model event" and encountered Barr there. Barr allegedly told her he "wanted to see her next time he came." Additionally, at a separate point in time, Epstein asked this individual whether she had "ever met Barr." The meaning of this exchange is ambiguous — it could indicate anything from social networking to more concerning intent — but it places Barr in Epstein's social orbit per the tipster's account.

1.4 Significance

- The allegation is **internally sourced** -- it appears in the FBI's own briefing materials prepared by agents for case review, not in media reports or public filings.
- The NTOC tip was filed by a **named individual** (not anonymous), which the FBI distinguishes from the "numerous anonymous NTOC's" noted at the bottom of the page.
- The "model event" detail is consistent with known Epstein patterns of using modeling events as recruitment opportunities, including through Jean-Luc Brunel's MC2 Model Management (see [EFTA01728258](#)).
- Epstein asking the victim if she had "ever met Barr" places Barr within Epstein's social awareness, though the significance of this exchange is ambiguous.

1.5 Cross-Referencing the NTOC Tip Victim

The victim name in the Barr NTOC tip is redacted in all versions of the Prominent Names briefing. The redaction pattern shows "NTOC filed by [blank], stated Barr and" -- indicating a female name was removed. The same victim appears to have provided both Component A (the abuse allegation) and Component B (the model event encounter), as the text flows as a single narrative entry.

SECTION 2: THE NTOC TIPS DOCUMENTS

2.1 [EFTA01660651](#) and [EFTA01660679](#) -- NTOC Tip Spreadsheets

These two documents are comprehensive NTOC tip logs that record all tips received by the FBI's National Threat Operations Center related to Epstein. They contain columns for: the tip allegation text, the named individuals, the FBI follow-up actions, and criminal history checks.

Key finding: The Barr-specific NTOC tip does not appear in the Trump-focused sections of these spreadsheets (pages 0-4 of both documents are dominated by Trump-related tips). The Barr tip appears to be logged elsewhere in the NTOC system, as the Prominent Names briefing references it but the available NTOC spreadsheet pages focus primarily on tips naming Trump.

2.2 Model Event Context from NTOC Tips

The NTOC tip spreadsheet ([EFTA01660651](#), page 0) contains a related entry about modeling events at Epstein's:

"At age 16, while modeling, caller attended 8 parties at Epstein's New York residence. On one occasion, caller reported she was sexually assaulted by Epstein. On another occasion,

two twin brothers, Allen and Oren, lured caller and her friend upstairs but they escaped back downstairs."

This tip -- while about a different caller -- confirms the pattern of young models being invited to Epstein's New York residence under the pretense of "model events" or "parties," which is the same context described in the Barr allegation.

2.3 Victoria's Secret / Modeling Connection

The NTOC tips repeatedly reference Victoria's Secret models and modeling events as vectors for Epstein's trafficking. The Barr tip's reference to a "model event" connects to Epstein's known use of modeling industry connections through Les Wexner (Victoria's Secret), Jean-Luc Brunel (MC2 Model Management), and others.

SECTION 3: BARR'S RECUSAL DECISIONS

3.1 The Recusal Question -- EFTA00018398

A critical FBI file document ([EFTA00018398](#)) contains a CNBC article from July 9, 2019, circulated internally within the DOJ/SDNY with "High" importance, detailing Barr's recusal decisions:

Key facts from the document:

"Attorney General William Barr will not recuse himself from involvement in the new federal criminal prosecution of accused child sex trafficker Jeffrey Epstein, an official said Tuesday."

"But Barr will recuse himself from an internal Justice Department probe of current Labor Secretary's Alex Acosta involvement in approving a controversial no-prosecution deal with the wealthy financier a decade ago."

Barr's own statement (quoted Monday): *"I'm recused from that matter because one of the law firms that represented Epstein long ago was a firm I subsequently joined for a period of time."*

"Barr joined that law firm, Kirkland & Ellis, in 2009. Kirkland & Ellis had represented Epstein in 2008, when he was being investigated in Florida."

DOJ clarification: *"Due to his prior association with Kirkland and Ellis, the Attorney General has and will remain recused from any retrospective review of the resolution of the earlier [Southern District of Florida] matter."*

3.2 The Kirkland & Ellis Connection

Multiple documents detail the role of Kirkland & Ellis in the original Epstein non-prosecution agreement:

- **EFTA00009016** (Acosta deposition transcript): Ken Starr and Jay Lefkowitz of Kirkland & Ellis are identified as Epstein's defense counsel who met with prosecutors to argue against federal prosecution. Acosta testified about receiving calls from Kirkland & Ellis after the August 2007 charging letter.
- **EFTA00013989** (Kirkland & Ellis letter): A June 19, 2008 letter from Kirkland & Ellis to prosecutors on behalf of Epstein, arguing against prosecution and invoking Brady requirements.

[NEW -- DS9 K&E Documents]:

- **EFTA00067343** (DS9): 10-page Kirkland & Ellis "Response to Letter by FAUSA" -- K&E's point-by-point rebuttal of SDFL claims, accusing prosecutors of "inconsistencies, false and misleading characterizations and outright falsehoods."

- **EFTA00067353** (DS9): K&E "SUMMARY OF MISCONDUCT ISSUES" -- detailed allegations of prosecutorial misconduct, including that prosecutors "misrepresented the number of alleged victims."

- **EFTA00066350** (DS9): "EPSTEIN BOX INVENTORY" listing physical evidence boxes including "Data Demonstratives Kirkland & Ellis LLP -- 6 bound copies" and extensive Lefkowitz correspondence with Sloman and Acosta spanning September-December 2007.

- **EFTA00065022** (DS9): SDNY News Clips noting Robert Khuzami (former SDNY prosecutor) took positions "as general counsel for Deutsche Bank and as a partner at Kirkland & Ellis" -- another SDNY official with K&E ties.

These K&E defense documents demonstrate the aggressive legal strategy employed by the same firm Barr joined the following year (2009).

3.3 The Split Recusal -- Analysis

Barr's decision to recuse only from the retrospective review of the Florida deal, but NOT from the active prosecution or oversight of the Epstein case, meant that:

1. Barr maintained direct oversight of the SDNY's sex trafficking prosecution
2. Barr maintained oversight of the Bureau of Prisons where Epstein was held
3. Barr personally oversaw the death investigation after August 10, 2019
4. Barr was NOT recused from any matter where the NTOC tip alleging his presence at Epstein's during abuses would be relevant

3.5 Death Investigation Recusal Deliberation -- EFTA00078028 (DS9)

[NEW -- DS9 FINDING]: On August 12, 2019 -- just two days after Epstein's death -- SDNY internally debated whether to recuse from the criminal investigation of the MCC and its guards. The SDNY Deputy asked the IG whether SDNY "should be recused from the criminal investigation of the MCC and its guards relating to Epstein's suicide." The IG said "he saw no basis for our recusal." The ODAG Associate Deputy Counsel said "he saw no basis for our recusal because any possible conflict was too speculative." When asked if the OAG (Barr's office) should be consulted, ODAG said "that was unnecessary because the question would ultimately be brought back to him."

This shows the non-recusal decision for the death investigation was made at the IG/ODAG level, without consulting the Attorney General's office directly. While this aligned with Barr's broader non-recusal posture, it means Barr himself was not personally consulted on this specific question.

3.6 SDFL Recusal Evidence Transfer -- EFTA00074673 (DS9)

[NEW -- DS9 FINDING]: In April 2019, SDFL's Criminal Chief confirmed "we are recused" from Epstein matters. Critically, "Miami FBI has expressed a reluctance to send any 6e materials to the SDNY FBI without a 6e letter." This reveals bureaucratic obstacles created by SDFL's recusal that impeded evidence transfer to SDNY -- a practical consequence of the fractured recusal architecture.

3.7 ODAG Coordination -- EFTA00080472 (DS9)

[NEW -- DS9 FINDING]: An ODAG official stated "my only real role related to recusal issues and consequences," confirming that recusal management was a significant DOJ coordination burden through at least July-August 2020 (Maxwell prosecution phase).

3.4 Additional Recusal Context -- EFTA00028149

Internal SDNY prosecution emails reveal that the Southern District of Florida had been "ordered recused by the DOJ from criminal matters concerning Mr. Epstein at a much earlier date" -- a fact that defense attorneys noted while pressing for information about the genesis of the SDNY investigation.

SECTION 4: BARR AND THE DALTON SCHOOL / DONALD BARR

4.1 Grand Jury Subpoena to Dalton School -- EFTA00009632

Federal grand jury proceedings transcript reveals that prosecutors issued a subpoena to the Dalton School:

"We have issued a Grand Jury subpoena to the Dalton school located in New York and at this time they do not have the records we have requested or could not locate those."

This subpoena was issued as part of the federal investigation into Epstein. The Dalton School is

where **Donald Barr** -- William Barr's father -- served as headmaster from 1964 to 1974. Donald Barr hired Jeffrey Epstein to teach mathematics and physics at Dalton in approximately 1974, despite Epstein not having a college degree at the time. Epstein was approximately 20 years old when hired.

4.2 NYT Article Confirmation -- EFTA00020787

The New York Times article from August 23, 2019 ("Barr Seized on Epstein Case as Doubts Mounted About Justice Dept."), which was circulated within SDNY, explicitly acknowledges both connections:

"Even Mr. Barr had chance ties to Mr. Epstein: His old law firm, Kirkland & Ellis, had worked with Mr. Epstein on the Miami deal, and decades earlier, Mr. Barr's father had hired Mr. Epstein to teach at Dalton, the elite private school in Manhattan."

4.3 No "Donald Barr" Direct References

A search of all three databases for "Donald Barr" returned zero results, indicating that the FBI files do not contain direct references to William Barr's father by name. The Dalton connection is referenced only through the grand jury subpoena and the NYT article.

SECTION 5: BARR'S ROLE IN THE EPSTEIN DEATH INVESTIGATION

5.1 Case Number: 90A-NY-3151227

The FBI death investigation was opened under case number **90A-NY-3151227**, classified as "UNSUB(S); JEFFREY EPSTEIN - VICTIM; DEATH INVESTIGATION." This case file contains extensive documentation including:

- FD-302 interview reports of MCC correctional officers
- CART (Computer Analysis Response Team) evidence submissions
- Video system analysis from MCC
- Situational Reports (SITREPs)

5.2 Barr's Personal Involvement -- Timeline

August 10, 2019 (Day of Death):

- Epstein found unresponsive at approximately 6:30 AM EDT with a makeshift noose around his neck (**EFTA00147294**)
- Barr was at home when his chief of staff called (**EFTA00020787**)
- "Over multiple briefings an hour, Mr. Barr spent that Saturday angrily grilling his deputies"
- Barr directed FBI to investigate and OIG to look for protocol lapses
- Barr issued public statement: "Mr. Epstein's death raises serious questions that must be answered"
- Initial incident reports documented that **two MCC Correctional Officers falsified observation logs** for Epstein's cell for the overnight hours of 8/9-8/10/2019 (**EFTA00147294**)

August 12, 2019 (FOP Speech in New Orleans -- EFTA00023984):

- Barr flew to New Orleans and delivered remarks at the Fraternal Order of Police's 64th National Biennial Conference
- Opening remarks: "I was appalled -- indeed, the entire Department was -- and frankly angry, to learn of the MCC's failure to adequately secure this prisoner. We are now learning of serious irregularities at this facility that are deeply concerning and that demand a thorough investigation."
- Stated: "Let me assure you that this case will continue on against anyone who was complicit with Epstein. Any co-conspirators should not rest easy."

August 12, 2019 (SITREP -- EFTA00147294):

- VCTF, SDNY, and OIG concluded interview of MCC Warden -- "No significant information provided"
- NYO CART determined video of hallway leading to Epstein's cell block "does still exist"

- Four MCC staff agreed to interviews
 - **"The two guards that were the first to discover Epstein have both referred the FBI/OIG to their attorneys and have not yet agreed to be interviewed"**
 - FBI search of Little St. James Island initiated simultaneously
 - A drone from an unknown point of origin monitored the search from close range
- August 19-20, 2019 (Investigation Updates -- EFTA00019402):**
- Barr vowed "a full investigation into the federal prison"
 - Barr stated he was "appalled... and frankly, angry to learn of MCC's failure to adequately secure this prisoner"

August 20, 2019 (Internal FBI Email -- EFTA00037228):

- FBI interviewed inmate Steven Lopez at MCC about "possible shredding of Epstein documents" -- Lopez had no information
- FBI interviewed BOP guards, one of whom "stopped interview upon starting it asking for an attorney"
- OIG planned to serve "last outstanding subpoena to BOP Officer Kale"

August 23, 2019 (NYT Profile -- EFTA00020787):

- Barr described as "personally overseeing the four federal inquiries" and "briefed on them multiple times a day"
- Barr suspended two prison employees, transferred the warden (Lamine N'Diaye), and appointed Kathleen Hawk Sawyer to run Bureau of Prisons
- Barr "defended the coroner's report, saying he had seen nothing to contradict it"
- **Unresolved:** "The Bureau of Prisons has not yet said whether security cameras in the cell block showed anyone entering and leaving Mr. Epstein's cell in the hours before he died"

5.3 Key Details from the Death Investigation Files

The Cellmate Removal (EFTA00147294):

"In the morning hours of 8/9/2019, Epstein's cell mate, Efrain Reyes, was released from the MCC, leaving Epstein alone in his cell."

The Unmonitored Phone Call (EFTA00147294):

"On 8/9/2019 at approximately 7:19 p.m. EDT, an MCC Correctional Officer allows Epstein to make a phone call on an unsecured and unmonitored line. The call was to Karyna Shuliak and was approximately 20 minutes in length."

Suicide Watch History (EFTA00147294):

- 7/8/2019: Placed on suicide watch
- 7/10/2019: Removed from suicide watch after evaluation
- 7/23/2019: First suicide attempt via hanging, discovered unconscious at 1:27 AM
- 7/29/2019: Removed from suicide watch again
- 8/10/2019: Found dead

Suicide Watch Concerns (EFTA00035544):

Internal MCC emails from July 24, 2019 reveal staff discussion about Epstein being allowed to attend legal visits in regular clothes while on suicide watch, and debate about whether he truly needed to be on watch. One email notes "the huge scar on Epstein's neck" and "a ton of ambiguity surrounding the incident."

5.4 The OIG Report -- PUBLISHED JUNE 2023 (CORRECTION)

EFTA00039025 (DS9): Complete DOJ OIG Report, Case #23-085

The DOJ OIG published its report on Epstein's death in June 2023 (125+ pages, located in DS9). The Tucker Carlson segment from January 2023 that claimed no report had been issued predated the actual publication by approximately five months.

Key findings from the OIG report:

- Epstein's death was ruled suicide by the Medical Examiner, with injuries "consistent with suicide by

hanging" and "no evidence of defensive wounds"

- Available video from one functioning camera showed NO ONE entering Epstein's tier between 10:40 PM on August 9 and 6:30 AM on August 10
- DVR System #2 failed on July 29, 2019 (discovered August 8) -- the L Tier camera was live-streaming but NOT recording
- Guards Noel and Thomas falsified count slips and round sheets; neither conducted any rounds or counts during their overnight shift
- Thomas admitted he was "dozing off from here and there"
- Noel heard Thomas say "Breathe, Epstein, breathe" and "We're going to be in so much [trouble]" upon discovering Epstein
- A sign was posted in the SHU: "MANDATORY ROUNDS MUST BE CONDUCTED EVERY 30 MINUTES ON EPSTEIN #76318-054 AS PER GOD!!!!"
- Epstein's cellmate was transferred out on August 9 with no replacement assigned, despite an explicit written requirement for a cellmate
- Epstein made an unmonitored phone call on an unsecured line on August 9
- Guards Noel and Thomas were charged November 19, 2019; entered deferred prosecution agreements May 25, 2021

The OIG report was published more than 2.5 years after Barr left office (January 2021), so the criticism that no report was issued DURING Barr's tenure remains valid. The OPR report on the 2006-2008 investigation was completed under Barr (November 2020) -- see below.

OPR Report -- EFTA00039867 / EFTA00039868 (DS9):

The OPR final report on the Acosta/SDFL investigation was transmitted to SDNY on November 12, 2020 and released publicly. OPR concluded: "OPR did not find that Department attorneys engaged in professional misconduct" but "former U.S. Attorney Acosta exercised poor judgment." This was completed under Barr's tenure.

5.5 The "Perfect Storm of Screw-ups"

Tucker Carlson Segment -- January 25, 2023 (EFTA00035791):

This document contains a critique of Barr's handling. [NOTE: Carlson's claim that no OIG report had been issued was accurate at the time of broadcast (January 2023) but became outdated when the OIG published its report in June 2023.]

Carlson raised questions about:

- Whether cells on Epstein's tier were locked the entire night
- Who moved Epstein's body
- Who re-dressed Epstein's corpse and intubated it
- The DOJ case officer (identified as Lyeson Daniel) "refused even to acknowledge that he worked for the federal government"

5.5 BOP Response Under Barr's Direction

EFTA00035442 / EFTA00034363 (BOP Communications):

Bureau of Prisons internal emails show that after Epstein's death, BOP public affairs was instructed: "the only thing we are saying now is we can provide the AG's statement and we decline further comment."

Senator Ben Sasse Letter to Barr (EFTA00023980):

"The Department of Justice failed, and today Jeffrey Epstein's co-conspirators think they might have just gotten one last sweetheart deal. Every single person in the Justice Department -- from your Main Justice headquarters staff all the way to the night-shift jailer -- knew that this man was a suicide risk, and that his dark secrets couldn't be allowed to die with him."

SECTION 6: BARR'S CREDIBILITY AND INDEPENDENCE CONCERNS

6.1 SDNY Independence -- EFTA00014243

The SDNY News Clips from March 9, 2020 document two critical developments:

Berman Asserts Independence: U.S. Attorney Geoffrey Berman publicly asserted his office's independence from Barr's DOJ, stating: "The Southern District of New York has a long history of integrity and pursuing cases and declining to pursue cases based only on the facts and the law and the equities, without regard to partisan political concerns."

Judge Walton's Opinion on Barr: A separate article in the same clips documents Judge Reggie Walton's "blistering opinion" finding that Barr demonstrated "lack of candor" regarding the Mueller Report that "calls into question Attorney General Barr's credibility."

6.2 MCC Staff Transfers Under Barr -- EFTA00014243

Warden Lamine N'Diaye was moved to a desk job after Epstein's death. When N'Diaye was later expected to assume a leadership role at Fort Dix, "U.S. Attorney General William Barr intervened and ordered the transfer be put on hold while investigations" continued. The MCC captain Jermaine Darden was transferred to Fort Dix as "emergency preparedness officer" -- described by defense attorney Montell Figgins as evidence that upper ranks faced no real consequences.

SECTION 7: ADDITIONAL BARR-ADJACENT FILE REFERENCES

7.1 EFTA00021197

Contains reference to "People v. William Barr" -- an editorial arguing that "when the Justice Department acts like a private law firm for a president trying to avoid accountability to Congress."

7.2 EFTA00015687

An open letter to AG William Barr about guardianship abuse in Florida, found in the Epstein file collection, dated March 3, 2020.

7.3 EFTA00032454

Legal industry news noting Matthew Whitaker's departure from DOJ "less than a month after William Barr was sworn in to replace him," alongside Mueller investigation coverage.

SECTION 8: CONFLICT OF INTEREST ANALYSIS

William Barr's involvement in the Epstein matter presents **multiple layers of conflict:**

Conflict	Details
Father hired Epstein	Donald Barr, as headmaster of Dalton School, hired Epstein circa 1974
Law firm represented Epstein	Barr joined Kirkland & Ellis in 2009; the firm represented Epstein in 2008 Florida case
Subject of NTOC abuse allegation	A named tipster alleged Barr was "present during abuses" at Epstein's residence
Alleged encounter with victim	Barr allegedly met a victim at a "model event" at Epstein's and expressed interest in seeing her again
Oversaw death investigation	Despite these conflicts, Barr personally oversaw the death investigation (90A-NY-3151227)

Conflict

Details

No final report during Barr's tenure The OIG published its report in June 2023 ([EFTA00039025](#)), more than 2 years after Barr left office. No report was issued while Barr served as AG.

8.1 What Barr Recused From vs. What He Didn't

Recused from: Retrospective review of the 2008 Florida non-prosecution agreement (the Acosta deal)

NOT recused from:

- The active SDNY sex trafficking prosecution
 - Oversight of the Bureau of Prisons (where Epstein was held)
 - The death investigation
 - Any investigation into the NTOC tip naming him personally
-

SECTION 9: EVIDENCE GAPS AND UNANSWERED QUESTIONS

1. **The NTOC tipster's identity:** The name of the individual who filed the NTOC tip alleging Barr's presence during abuses is redacted in all versions. This individual was a named (not anonymous) complainant, distinguishable from the "numerous anonymous NTOC's" noted separately.
 2. **Follow-up on the Barr NTOC tip:** The files do not contain any documented follow-up investigation of the Barr allegation. The Prominent Names briefing appears to be a summary document; the underlying investigative materials are not present in the released files.
 3. **The "model event" details:** No additional documentation of the specific "model event" at Epstein's where Barr allegedly appeared has been identified in the files. The timing, location (New York vs. Palm Beach), and other attendees are not specified.
 4. **Dalton School records:** The grand jury subpoena to Dalton School was met with a response that records "could not be located." Whether subsequent attempts were made to obtain these records is not documented.
 5. **Death investigation final report:** The DOJ OIG published its report in June 2023 ([EFTA00039025](#), 125+ pages) — more than 2.5 years after Barr left office. No report was issued during Barr's tenure. The OIG report confirmed suicide as cause of death, documented video showing no entry to Epstein's tier between 10:40 PM and 6:30 AM, and detailed catastrophic institutional failures.
 6. **Video evidence:** The SITREP ([EFTA00147294](#)) confirmed that some video of the hallway leading to Epstein's cell "does still exist on the system." The OIG report ([EFTA00039025](#)) analyzed this video and determined no one entered Epstein's tier between 10:40 PM and 6:30 AM. However, DVR System #2 had failed on July 29, meaning one camera was live-streaming but not recording.
 7. **The unmonitored phone call:** Epstein made a 20-minute call on an "unsecured and unmonitored line" to Karyna Shuliak on the evening before his death. The contents of this call have not been disclosed.

SECTION 11: "EVAN BARR" -- NAME DISAMBIGUATION (DS9/DS11 FINDING)

[NEW -- DS9/DS11 FINDING]: The full-corpus revisit revealed a previously unidentified individual named **Evan T. Barr**, a partner at Fried Frank Harris Shriver & Jacobson and former federal prosecutor in New York, who had a direct professional relationship with Epstein. This is a DIFFERENT person from William Barr (AG).

Key evidence:

- [EFTA00432333](#) (DS9): Epstein to Groff: "Reach out to Evan Barr thurs good or fri breakfast" (June 14, 2011)
- [EFTA00432384](#) (DS9): Groff to Evan Barr: "Jeffrey is in NY and wondering if you might have time to come see him this Thursday..or possibly breakfast this Friday?"
- [EFTA00432254](#) (DS9): Groff to Epstein: "YOU are to call Evan at his office 3:45-4:00 today" (June 20, 2011)
- [EFTA00304706](#) (DS9): Calendar entry: "4:00-6:00 Appt w/Evan Barr and Darren" on the SAME DAY as "7:30 DINNER WITH BILL GATES AND BORIS NIKOLIC" and "Peter Mandelson arrives today and will stay at the house"
- [EFTA02348373](#) (DS11): Ruemmler to Epstein (January 24, 2015): "Ask him about Evan Barr" in response to Epstein saying "your boy comin to breakfast"
- [EFTA00077287](#) (DS9): "The Prince and the Proffer" article by Evan T. Barr in the New York Law Journal (May 6, 2020), analyzing SDNY's public statements about Prince Andrew's non-cooperation. Disclosure: "He worked on a matter for Epstein years ago while employed at another law firm."
- [EFTA00078332](#) (DS9): SDNY U.S. Attorney Geoffrey Berman circulated quotes from the Evan Barr article internally

At least four distinct "Barr" individuals appear in the Epstein files:

1. **William P. Barr**: Attorney General (subject of this report)
2. **Evan T. Barr**: Fried Frank partner, former federal prosecutor, direct attorney-client relationship with Epstein (2011-2015+)
3. **Danielle Barr**: Director at The Rug Company, sold rugs to Epstein (2012-2013)
4. **Philippe Barr**: Paris social contact who recommended nightclubs to Epstein (2011)

The Evan Barr finding is relevant because it adds another attorney with DOJ experience to Epstein's network and future researchers should distinguish the two Barrs.

CONCLUSION

The Epstein FBI files reveal that William Barr occupied a uniquely conflicted position in the Epstein matter. He was simultaneously:

1. **A named subject of an NTOC tip** alleging his physical presence during abuses at Epstein's residence, filed by an identified (not anonymous) individual
2. **The Attorney General** with direct oversight over the prosecution, the Bureau of Prisons where Epstein was held, and the death investigation
3. **A person with pre-existing personal and professional connections** to Epstein through his father's hiring of Epstein at Dalton and his former law firm's representation of Epstein

Despite these conflicts, Barr chose to recuse only from the narrow retrospective review of the 2008 Florida deal, maintaining full authority over all other Epstein-related matters. Under his oversight, Epstein died in federal custody under circumstances documented in the June 2023 OIG report ([EFTA00039025](#)) as resulting from catastrophic institutional failures including guard record falsification, DVR system failure, cellmate removal, and an unmonitored phone call. No investigative

report on Epstein's death was published during Barr's tenure (the OIG report came more than 2.5 years after he left office). The two guards who falsified records had their charges dropped. The NTOC tip naming Barr appears to have generated no documented follow-up investigation. The decision not to recuse SDNY from the death investigation was made at the IG/ODAG level on August 12, 2019, without consulting the Attorney General's office directly ([EFTA00078028](#)).

The Prominent Names briefing included the Barr allegation alongside other named individuals (Trump, Weinstein, Clinton, Prince Andrew, Dershowitz, Lutnick, Dubin, Staley, Black, Wexner). The briefing appears to catalogue all tips received about prominent individuals — including the "numerous anonymous NTOC's" noted at the bottom — rather than making credibility assessments. The allegation's inclusion in a briefing document does not by itself establish its validity. However, the existence of the tip while Barr exercised authority over the Epstein investigation raises conflict-of-interest questions that compound the already-documented conflicts through Dalton and Kirkland & Ellis.

REVISIT INTEGRATION (2026-02-12)

Classification: MODERATE

Full-corpus revisit against DS9 and DS11 integrated above. Key changes:

1. **OIG Report Correction:** The OIG DID publish its report in June 2023 (EFTA00039025), correcting this report's prior statement. The report confirmed suicide, documented video evidence, and detailed institutional failures. Published 2.5+ years after Barr left office.
2. **Recusal Architecture Nuanced:** The non-recusal from the death investigation was decided at IG/ODAG level on August 12, 2019 without consulting the AG's office directly (EFTA00078028).
3. **Evan Barr Disambiguation:** A distinct individual (Fried Frank partner, former federal prosecutor) had a direct attorney-client relationship with Epstein (2011-2015+). NOT William Barr (AG).
4. **K&E Documents Expanded:** DS9 contains the most extensive K&E defense filings from the NPA negotiation period, including 10-page rebuttal and prosecutorial misconduct allegations.
5. **OPR Report Confirmed:** Completed under Barr's tenure (November 2020), finding Acosta exercised "poor judgment" but no professional misconduct.
6. **Prominent Names -- 5th Copy:** DS9 version (EFTA00164939) confirms the same Barr allegations in a different document package.

Investigation compiled from: primary document text database, OCR text extraction database, image catalog database, and full_text_corpus.db (DS9 + DS11)

Will Ford and the Groff Circle

Status: Active — police report obtained via OPRA request

Date: April 3, 2026 (updated from March 24, 2026)

Contributors: [Greg Conners](#) (tip, OPRA filing, research)

Corpus hits: 154 pages mentioning "Will Ford"

Source provenance: All documents originate from Lesley Groff's email accounts, captured in DS9–DS11

Summary

In March 2011, Lesley Groff — Jeffrey Epstein's executive assistant of approximately 25 years — told her husband she'd been briefed the day before that a Daily Beast article about Epstein would be published. In April 2013, when a financial associate and family friend asked her husband via instant message why he hadn't "joined Jeff," Lesley's response was "wow....how incredibly interesting" — not confusion, not alarm, not "who's Jeff?" In July 2015, her husband sent her a Page Six item about Epstein. These emails undercut any portrait of Groff as someone wholly insulated from discussion of Epstein's public notoriety.

The friend was Will Ford, a financial professional whom Lesley described in a 2012 email as "a client of Ike's" — Ike Groff, her husband, who ran the brokerage firm Tourmaline Partners. The relationship is documented in Lesley's own words ([EFTA02170494](#)). The corpus contains eight years of Ford-Groff correspondence (2011–2019): dinners, a wedding invitation, business development leads, and a daily email list that kept the circle in constant contact. Within that correspondence, Epstein was a known, discussable, shared subject inside the Groff household — not a workplace secret Lesley kept from her personal life.

On September 26, 2019 — seven weeks after Epstein's death at the Metropolitan Correctional Center — Will Ford was found dead at his home in Mountainside, New Jersey, hanging from his back deck with a bedsheet around his neck. A police report obtained in March 2026 via OPRA request (Mountainside PD incident I-2019-011069) confirms the method and documents that Ford was "known to be suicidal" with a doctor's appointment scheduled for that day. He was 47.

This report distinguishes between what the documents directly show, what they strongly suggest, and what remains unknown. The emails establish contact patterns, social familiarity, and explicit references to Epstein. They do not, on their own, establish criminal conduct by Ford or firsthand knowledge by Groff of specific crimes. Awareness of Epstein's public notoriety is not the same thing as knowledge of his abuse, and this report does not conflate the two. The police report documents that Ford was in acute mental health crisis at the time of his death. Biographical details (Coast Guard Academy, CFA, Royal Capital Management) are sourced from Ford's obituary and email disclaimers in the corpus; they have not been independently verified against military or SEC records.

Will Ford

William Russell Ford (1972–2019) graduated with high honors from the United States Coast Guard Academy in 1994, served as a lieutenant until 1999, and earned an MBA from Boston University while still in uniform. He moved into trading at Lehman Brothers, earned his CFA designation in 2002, and rose to Chief Operating Officer of Royal Capital Management, LLC. He left Wall Street in 2017 and spent his final years owning and managing RV parks and cabin resorts in Northern California and New Jersey under the name GRRV.

His emails throughout the corpus carry dual institutional disclaimers — Royal Capital Management and Tourmaline Partners, LLC — suggesting some ongoing affiliation with Ike Groff's Stamford, Connecticut brokerage, or at minimum continued use of Tourmaline's email infrastructure. As late as April 2019, two years after leaving Wall Street, Ford sent emails under a Tourmaline Partners address ([EFTA02285833](#)). Whether his Tourmaline connection was a registered position, an advisory arrangement, or simply a legacy email footer is not established in the corpus.

Ford ran a daily mass email list — "tidbits & quotes" — sent to a BCC list of clients, friends, and professional contacts from at least 2011 through May 2019. The content was motivational quotes, trivia, financial commentary, journalism clippings, TED Talks, and commencement speeches. The list functioned as social glue: it kept Ford's network in daily contact and gave the Groffs a regular touchpoint with his world. Both Ike and Lesley received these emails, forwarded them to each other, and responded with commentary.

In the 2012–2015 emails, Ford's partner was Jenny Rogers, who sold Gulfstream jets. They planned a June 27, 2015 wedding at the Ford Family ranch near Arcata, California, and the Groffs and a recurring circle — Evan & Ingrid Wax, Seth & Alison Hoenig, Rich & Val Steiner, Ray & Carly Alvarez — were invited. By the time of his death in 2019, Ford's partner was Heather White of Brooklyn; his obituary also names a former wife, Lora Brown Ford, with whom he had three children.

2011: The Daily Beast Article

On the morning of March 25, 2011, Ford emailed Ike Groff a link to the Daily Beast article "Jeffrey Epstein: How the Billionaire Pedophile Got Off Easy." The subject line was two letters: "**JE**." Ford sent it from his Royal Capital Management email. ([EFTA02190637](#))

At 1:24 PM, Ike forwarded it to Lesley.

Two minutes later, at 1:26 PM, Lesley replied:

"yes, he told me yesterday this would be in the Daily Beast"
([EFTA00436269](#), [EFTA02190656](#))

The record does not identify "he" by name. In context, Epstein is the most natural reading — Lesley was his executive assistant, the article was about him, and she had been told the day before it would appear — though a lawyer or PR intermediary cannot be excluded. No PR handler or media attorney appears elsewhere in Groff's correspondence, while Epstein does throughout. Managing awareness of incoming press is a standard function for someone in Lesley's role, and taken alone this would not be remarkable. What makes it significant is what follows in the next two years.

Two weeks later, on April 6, Ford forwarded a New York Times article about Thomas Barrack Jr.'s Colony Capital to Ike Groff and a colleague named Neal Shah ([EFTA00435939](#)). This is the earliest evidence of Ford as a financial-content curator within the network — a role that intensified over the following years.

2012: The Relationship Deepens

By 2012, the Ford-Groff social relationship was well established and documented in Lesley's personal calendar and email.

March 1, 2012: A Google Calendar reminder — "Dinner w/Will Ford & Jennie" — sent to lesley.jee@gmail.com, Lesley Groff's personal Gmail. (EFTA02174012)

March 15, 2012 (Thursday): The first documented dinner — all four: Ike, Lesley, Will, and Jenny. The next morning, Lesley emailed her sister Ashley Taylor-Hull introducing Jenny for promotional merchandise work: "**last night I had dinner with Will Ford (a client of Ike's) and Jenny (Will's fabulous girlfriend who sell's Gulfstream's for a living! cool :)**" She described learning about the couple's RV park near the Redwoods: "Ike and I learned of the RV & Camp Destination park they have purchased." (EFTA02170494 p.1)

That parenthetical — "a client of Ike's" — is the only document in the corpus that explicitly names the direction of the Ford-Tourmaline relationship. Ford wasn't just a social friend who happened to know Ike from the industry; he was a client of Ike's brokerage. This reframes everything that follows: the daily emails, the dinners, the wedding invitations, the Lehman-colleague referrals. If Ford was an active client of Ike's, the relationship was not purely social.

April 12, 2012 (Thursday): A second meeting — this time just Ike and Will, without the women. The next morning, Lesley emailed Jenny: "**Ike had a great time last night with Will...He is such a nice guy :)**" Note the phrasing: "Ike had a great time," not "we had a great time" — Lesley was not present. Three days later, Jenny confirmed the pattern: "**Will always loves going out with Ike - when Will texted me and said they ordered wine I knew they were having fun!!**" (EFTA02170494 p.0)

Jenny's "always loves going out with Ike" implies the men were meeting regularly by April 2012 — not just the two documented dinners but an ongoing social-professional relationship. The women, meanwhile, were socializing independently: Lesley connected Jenny with her sister for business, and Jenny's tone ("Hope to see you both soon") reads as a separate friendship track from the men's outings.

November 7, 2012: Ford's election-night "tidbits" email prompts a reply from Jena Masquelier, who mentions she'd emailed Will and is now on "the list." The email chain shows Ford's BCC list was managed by opt-in, and that the Groffs were among its most engaged recipients. (EFTA02155569)

Through the fall and winter of 2012, Ford sent daily emails at a pace that left a dense trail in the corpus — political commentary, parenting pieces, financial newsletters. Ike and Lesley forwarded them to each other regularly. In one exchange, Ike forwarded Ford's Daily Dirtnap newsletter piece on "HUSTLE" with Jared Dillian CC'd directly — showing Ford's network overlapped with institutional financial media (EFTA00401875).

2013: "Why Wouldn't YOU Join Jeff"

January 31, 2013: Calendar alerts for "DINNER w/WILL FORD and Jennie" appear twice in Lesley's inbox. (EFTA02148405, EFTA02149948)

April 3, 2013: The most significant document in the set.

That morning, Ford and Ike exchanged instant messages. Ike forwarded the transcript to Lesley with the subject line "im from Will Ford this morning":

ROY Will Ford [10:27:03 AM]: question for you

ikegroff [10:28:32 AM]: yes

ROY Will Ford [10:28:50 AM]: why wouldn't YOU join Jeff

ROY Will Ford [10:29:01 AM]: have you thought that at all?

ikegroff [10:30:24 AM]: well that is a long story. but Tuesday night maybe great time for that

Lesley replied at 12:28 PM: "**wow....how incredibly interesting**"

Ike replied at 4:27 PM: "**I agree**"
(EFTA00392829, EFTA02142657)

Ford's IM handle — "ROY Will Ford" — is consistent with Royal Capital Management, placing the exchange in a professional context. "Jeff" is not identified by last name in the message, but in context "Jeff" strongly appears to refer to Jeffrey Epstein: Ike forwards the exchange to Lesley, whose employer is Jeffrey Epstein, and her response is engaged recognition, not confusion.

What "join" means is not specified. The interpretive range includes: (1) employment with Epstein or one of his entities, (2) investment alongside Epstein, (3) entry into some form of social or advisory orbit, or (4) Ford floating an idea he had no formal basis for. The documents establish that Ford raised the prospect; they don't establish what the prospect was, or whether Ford had his own relationship with Epstein or was simply a friend who thought it made sense.

Ike's response deserves attention on its own terms. "Well that is a long story" is not the answer of a man with no connection to the person being discussed. It presupposes familiarity — a history with the subject that would take time to explain. His deferral to a face-to-face conversation on Tuesday suggests the topic was sensitive enough to take offline but not surprising enough to reject.

Lesley's "wow....how incredibly interesting" is the reaction of someone processing a development within a familiar frame. She does not ask what "join Jeff" means. She does not ask who Jeff is. She does not express alarm. She finds it interesting.

Whether the Tuesday meeting took place, and what was discussed, is not documented in the corpus.

July 11, 2013: Calendar reminders for "dinner in city w/Will Ford, Jenny, Evan & Ingrid" at 7 PM.
(EFTA02133826, EFTA02134123)

July 22, 2013: Ike forwards one of Ford's "tidbits" emails about Detroit's bankruptcy to Lesley. Lesley: "Wow. Not good." Ike: "No very bad." (EFTA02133528). The back-and-forth is mundane, but it illustrates how Ford's daily emails served as a shared reference point for the Groffs — a thread of ordinary life running alongside the Epstein connection.

2014–2015: Weddings, Business, and More Epstein Press

January 24, 2014: Ford announces his wedding to the social circle — June 27, 2015, at the Ford Family ranch in Arcata, California. Recipients include Evan & Ingrid Wax, David & Waverly Smith, Seth & Alison Hoening, Rich & Val Steiner. Ike: "Looks like we are going back to Cali." An unnamed recipient: "Oh my. Sounds difficult to get to. June of 2015. Ok." (EFTA02115670)

April 1, 2014: Ike emails the group: "Any interest in doing this. Will Ford is going." The event is a Lobster Roll Rumble. (EFTA02109653)

February 17, 2015: Jenny Rogers sends detailed Sitka, Alaska travel information — fishing, hiking, WWII bunkers, whale watching — to the wedding guest network. She signs as Jenny Rogers with a cell number. (EFTA02083363)

July 28, 2015: Ike emails Lesley a link to a Page Six article: "Jeffrey Epstein isn't looking too hot these days." Subject line: "from yesterday page 6." Sent from his Tourmaline Partners email.
(EFTA02074606)

This is the third documented instance of the Groffs sharing Epstein press coverage between themselves — and the second time Ike initiated it. Together with the 2011 Daily Beast exchange, it establishes a pattern: the Groffs tracked Epstein's media exposure as a couple, not just as a workplace matter for Lesley alone. Whether they discussed the substance of the articles beyond forwarding the links is not documented.

September 28, 2015: Ford pastes the full text of a New York Times piece ("Stop Googling. Let's Talk.") into an email for Ike, who'd hit his "10 free stories for the month." Ike forwards it to Lesley. (EFTA00338868). The texture of the relationship is visible in small moments: Ford pasting an entire

article into an email so Ike wouldn't have to hit a paywall.

2016–2017: Business Leads and Career Transition

March 11, 2016: Ike lunches with Deric Senne, whom he logs in Tourmaline's CRM system as "a colleague of Will Ford at Lehman prop many years ago." Senne is joining a Dubai family office. Ike documents the meeting as a business development lead — the family office could become a Tourmaline client. (EFTA02058003)

This is the clearest evidence that Ford's network was actively monetized for Tourmaline's benefit. Ford's former Lehman colleagues were being steered toward Ike's firm. Whether Ford was compensated for these introductions is not in the corpus.

June 3, 2016: Ford emails about acquiring "Emerald Forest," an RV park in California, and a second park near Philadelphia. The email goes from "Will GRRV" — his new venture identity. He's still sending to the same social-professional network. (EFTA00324111)

November 18, 2016: Ford sends a Peggy Noonan column, "What to Tell Your Children About Trump," to his mass list. (EFTA00439470)

February 2017: Ford circulates "The Coyote Principle" — conservative political humor comparing California and Texas governance — to the full list. It gets relayed through multiple contacts, one of whom writes: "I don't know about the CA part, but it is a TRUE STORY about Rick Perry, our new energy secretary." (EFTA00444292, EFTA02204262). Separately, Ike forwards a Ford email about athlete aging to Lesley. (EFTA00444375)

By 2017, Ford has nominally left Wall Street for the RV park business, but his emails still carry Tourmaline Partners disclaimers. The daily "tidbits" continue. The social circle persists.

2019: The Final Documents

April 27, 2019: Ford emails a Bloomberg article — "The Meteoric Rise of Billionaire Len Blavatnik" — to Evan & Ingrid Wax and Ike & Lesley Groff. The email carries a Tourmaline Partners institutional disclaimer. It is forwarded on May 9. (EFTA02285833)

This is the last known document in the Ford-Groff correspondence, and its distribution is narrower than usual — Ford's daily "tidbits" went to a large BCC list, while this went to four people. No documented connection between Blavatnik and the Ford/Groff/Epstein network has been identified in the corpus; the article may simply have been something Ford found interesting and shared with close friends. The date is ten weeks before Epstein's arrest on July 6, 2019.

May 9, 2019: Ford's last documented email to the mass list: a Medium article by Ryan Holiday titled "Will You Choose Alive Time or Dead Time?" — about what to do when circumstances are outside your control. (EFTA00495067)

Then silence. In the corpus, Ford's eight-year email trail simply stops.

Summer–Fall 2019: Two Deaths

Jeffrey Epstein was arrested on July 6, 2019 and found dead in his cell at the Metropolitan Correctional Center on August 10. The New York City medical examiner ruled suicide by hanging. The manner of death — a bedsheet ligature in a federal detention facility — has been the subject of sustained public scrutiny.

Will Ford's Death: The Police Report

Will Ford died on September 26, 2019, at age 47 — seven weeks after Epstein's death, eleven weeks after Epstein's arrest. His obituary, published in the Eureka, California *Times-Standard*, says he "died

suddenly" in Mountainside, New Jersey. He is survived by three children (Reilly, Kyra, and Selah, with former wife Lora Brown Ford), his partner Heather White of Brooklyn, his parents John and Charline Ford of Willits, California, a brother Larney (Arcata, CA), and a sister Amy (McKinleyville, CA). Memorial donations were directed to the American Foundation for Suicide Prevention and to Imagine Center for Coping With Loss in Mountainside. ([Obituary](#))

On March 31, 2026, the Mountainside Police Department fulfilled an OPRA (Open Public Records Act) request filed by contributor Greg Connors. The response is a three-page **Sudden Death Investigative Report**, incident number **I-2019-011069**, heavily redacted but containing the following confirmed details:

The call. At 13:38 on September 26, 2019, Mountainside PD received an "ASSIST PUBLIC - CHECK WELFARE" call. Ford's girlfriend had called police because he was "**known to be suicidal**" and had been "**scheduled to meet [redacted] and his doctor [redacted] in the city regarding the matter.**" When Ford failed to appear for that appointment, his girlfriend was prompted to call police.

The discovery. Officers Yasinski and Patrolman Matthew Carleo (Badge #0087) responded. They knocked on the front door; no answer. They checked the garage — Ford's car was parked inside and was not running. They proceeded to the backyard, where they found Ford "**hanging from the balcony of his back deck with a bed sheet wrapped around his neck.**" Officer Yasinski checked for signs of life. Body discovered at 13:50.

The response. The scale of the departmental response was notable for a municipal police force. Officer Yasinski called for a detective and administration. The following personnel responded to the scene:

Officer	Rank/Role	Badge
Matthew Carleo	Patrolman (reporting officer)	0087
Yasinski	Officer (co-responding)	—
Shaun M. Bendik	Detective Corporal (report supervisor)	0063
Michael Jackson	Detective Sergeant	—
Joseph Giannuzzi	Chief of Police	—
Ernesto M. Hernandez	Medical Examiner, Union County	—
[Unnamed]	Overlook Hospital	—

All evidence was "documented and photographed."

Notifications. Corporal Bendik and Carleo went to notify Ford's former wife. She was not home; they spoke with her boyfriend. Simultaneously, a family member (likely the former wife) drove through town, saw patrol cars outside Ford's house, stopped, and was told by Sergeant Jackson. She called her mother, who arrived shortly after. Ford's parents in California were notified via Corporal Norton, who asked local authorities to deliver the notification in person. Sergeant Jackson instructed all parties not to enter the home until Ford's parents gave permission.

What the Report Does Not Show

The report's medical history, list of medications, next of kin, and most identifying details are fully redacted under OPRA exemptions. The pronouncement section (who officially declared death, at what time) is redacted. The "Reporting Officer's Observations" section — which would describe the physical scene — is entirely redacted. We do not have the Union County Medical Examiner's report, which would contain cause and manner of death; a separate request has not yet been filed.

Context

Ford's death involved a bedsheet ligature, the same method reported in Epstein's death seven weeks earlier. The police report documents that Ford was "known to be suicidal" and had a doctor's appointment that day specifically "regarding the matter" — consistent with documented, active suicidality. People do use bedsheets in residential suicides; the method is not extraordinary on its own. This report does not assert a causal link between the two deaths. What it establishes is the documentary

record: Ford was socially close to Ike and Lesley Groff over eight years; Ford had a business relationship with Ike through Tourmaline Partners; and Ford was sufficiently comfortable with the Groffs to raise the subject of "joining Jeff" in 2013. Within that relationship, Epstein's name, press coverage, and orbit were openly discussed. The answer to what Ford knew is not in these files. A county-level records request to the Union County Medical Examiner's Office may yield additional detail.

What This Means for Lesley Groff's Testimony

Lesley Groff is scheduled for a transcribed interview before the House Oversight Committee on June 9, 2026 ([Oversight.house.gov](https://oversight.house.gov)). Her lawyers have stated that she "never witnessed anything improper or illegal," and she has consistently denied any knowledge of Epstein's abuse ([CT Insider](#)).

The Ford correspondence complicates that posture.

She had advance notice of a Daily Beast article headlined with the word "pedophile" and told her husband she'd been briefed the day before. Two years later, when her husband showed her an instant message in which a friend asked why he hadn't "joined Jeff," she responded with curiosity, not confusion. In 2015, Ike sent her yet another Epstein article, and she apparently received it without comment — or at least without comment preserved in the corpus.

None of this proves criminal knowledge or knowledge of trafficking. Awareness of a boss's notoriety is not the same thing as firsthand knowledge of his crimes. Managing media awareness is part of being an executive assistant. Finding a friend's career question "incredibly interesting" is not a crime. But the cumulative picture — advance press briefings, engaged reaction to a conversation about joining Epstein's orbit, repeated Epstein media monitoring as a couple — documents awareness of Epstein's notoriety and a degree of normalized discussion around him inside the Groff household. One isolated forward could be dismissed as workplace spillover. A pattern across four years is harder to wave away. That pattern is hard to square with any portrayal of Groff as isolated from the broader implications of Epstein's public scandal.

Congressional staff preparing for the June 9 interview should consider the following questions:

On the Epstein correspondence:

1. **"Who told you the Daily Beast article would be published?"** — referencing [EFTA00436269](#), March 25, 2011.
 2. **"In the April 3, 2013 exchange, did you understand 'Jeff' to mean Jeffrey Epstein?"** — referencing [EFTA00392829](#). Establish the referent before arguing over the verb.
 3. **"What did you understand Will Ford meant when he asked your husband why he hadn't 'joined Jeff'?"** — same exchange.
 4. **"Did your husband meet with Will Ford on the Tuesday night referenced in the instant message? What was discussed?"**
 5. **"In what capacity did your husband interact with Jeffrey Epstein, if at all?"**
 6. **"Were you or your husband aware of any financial relationship between Ike Groff — or Tourmaline Partners — and Jeffrey Epstein or any Epstein-controlled entity?"**
 7. **"How often did you and your husband discuss Epstein's media coverage or legal exposure?"**

Groff describes the companion's role in travel-assistant terms: "[name redacted] is only coming to escort Jeffrey on the trip as assistant and we absolutely know she will not be attending any of the events/meetings." Note: "escort" here is used in the travel-companion sense, not the sex-work sense — Groff is explaining the companion's limited role to event organizers. Greg also cites a 2016 Woody Allen audition arrangement — EFTA TBD. To be incorporated in next update.
- **Ford's email trail gap** — last documented email is May 9, 2019. No emails between Epstein's arrest (July 6) and Ford's death (September 26) are in the corpus. Whether Ford was in contact with the Groffs during this period is unknown.

Apple PLIST Metadata: 12 Failed Redaction Overlays - Deep Dive Analysis

Investigation Date: February 7, 2026

Analyst: Forensic Document Extraction

Classification: PLIST XML metadata exposed beneath bad_overlay redaction failures

Executive Summary

Twelve documents in the Epstein DOJ file release were originally identified as containing Apple Mail PLIST XML metadata exposed beneath failed redaction overlays (classified as `bad_overlay` type in the document text databases). These 12 documents represent a small subset of the actual PLIST corpus: the full text corpus reveals approximately **75,630 documents** in DS11 and **571 documents** in DS9 containing PLIST metadata as part of the standard email export format, not hidden behind redactions. The PLIST blocks are structured metadata automatically appended by Apple Mail when emails are exported from a Gmail IMAP account. They contain:

- **date-received:** Unix timestamp of when the email arrived
- **date-last-viewed:** When the email was last opened (all show 0 = never viewed in client)
- **flags:** Apple Mail status bitmask (8590195713 = read; 8606972929 = forwarded; 8623750145 = third distinct value found in DS11)
- **gmail-label-ids:** Gmail folder labels assigned to the message (present in **93,066 DS11 documents**)
- **remote-id:** Gmail server message ID
- **conversation-id:** Gmail thread ID (present in **80,570 DS11 documents**, not just the single document originally identified)

Key Finding: The PLIST metadata was NOT intentionally placed in these documents -- it was inadvertently included when emails were exported from **jeevacation@gmail.com** (Jeffrey Epstein's personal Gmail account) using Apple Mail. The export process embedded the PLIST XML as part of the email body. The DOJ's redaction team attempted to redact this metadata (likely because it reveals the source email account and technical details about how evidence was collected/stored), but the overlay redactions failed, leaving the XML partially or fully visible.

The Gmail account jeevacation@gmail.com is confirmed as Epstein's personal email -- it appears explicitly in [EFTA01781767](#), [EFTA01792918](#), and [EFTA02696356](#). The full corpus provides far more comprehensive confirmation: jeevacation@gmail.com appears in **272,735 DS9 documents** and **170,876 DS11 documents**, including the Google Subscriber Information record ([EFTA00092106](#)) listing all Google services used, Yahoo Account Management records linking it as recovery email

for [littlestjeff@yahoo.com](#) and [jeeproject@yahoo.com](#) ([EFTA00083914/EFTA00083915](#)), and a Grand Jury subpoena to Amazon listing all 9 Epstein email addresses ([EFTA00081990](#)).

All 12 emails were received into the same Gmail account with consistent PLIST structure, confirming they are part of a single forensic export of Epstein's email archive.

Technical Analysis: Why PLIST Metadata Appears

These emails were stored in Epstein's Gmail account ([jeevacation@gmail.com](#)) and accessed through Apple Mail on macOS/iOS. When Apple Mail syncs with Gmail via IMAP, it stores local metadata in

PLIST (Property List) format. When the email corpus was exported for legal production, the PLIST metadata was inadvertently embedded at the bottom of each email body.

Why Redacted:

The PLIST metadata reveals:

1. **The source email account** (jeevacation@gmail.com) -- confirming provenance
 2. **Gmail label structure** -- showing how Epstein organized his emails
 3. **Exact server timestamps** -- independent of displayed send times
 4. **Message IDs** -- allowing cross-referencing with Gmail server records
 5. **Evidence collection methodology** -- showing Apple Mail was used to export the archive
- The DOJ likely attempted to redact this metadata to protect investigative methodology and the forensic chain of custody. The redaction failures (bad_overlay type) left the XML partially or fully readable.

Flags Decoding:

- **8590195713** (0x20003FC01): Message read, not deleted, not answered, not flagged. The high-order bits (0x200000000) indicate Apple Mail internal state. This is the default state for a synced, read Gmail message.
- **8606972929** (0x20103FC01, **EFTA01765156** only): Same base flags plus bit 24 set (0x1000000), which in Apple Mail indicates the message was **forwarded**.

Gmail Label IDs:

- **Label 22 + 2**: Appears in 9 of 12 documents. Label 2 = "Starred" in Gmail. Label 22 = a custom label (likely a folder/category Epstein created).
- **Label 7**: Appears in **EFTA02696356**. Likely "Important" or another custom label.
- **Label 8S + 84**: Appears in **EFTA02114558**. OCR artifacts -- likely "85" and "84", custom labels for

scientific/academic correspondence.

- **Label 6 + 2:** Appears in [EFTA02522767](#). Label 6 = custom label, Label 2 = Starred.

Analysis:

Peggy Siegal is a prominent New York publicist and society figure known for hosting elite Hollywood/financial screening events. She had a documented long-term relationship with Epstein. **Gary Siegal** appears to be a relative (likely her brother or ex-husband) whose legal matter Epstein was apparently involved in. The email is addressed to **Felicia Monte** (Siegal's assistant) and **Lesley Groff** (Epstein's personal assistant). The reference to "Gary Siegal's lawyers" in related documents ([EFTA01975375](#), [EFTA01975881](#)) suggests Epstein was managing or funding Gary Siegal's legal defense. Siegal's deference ("totally confident you have it under control") indicates Epstein had significant leverage over or was providing substantial assistance to the Siegal family.

Related documents: 20+ Peggy Siegal emails in the corpus. [EFTA01923192](#) references "Annette Siegal's estate" suggesting Epstein was involved in Siegal family financial/legal matters broadly.

Redacted content: Peggy Siegal's office phone, mobile phone, and email signature block were properly redacted. The PLIST metadata was improperly redacted (bad_overlay).

Analysis:

Continues the Gary Siegal legal matter thread. **Philip Michaels** appears to be a lawyer or intermediary handling the case. Peggy Siegal writes directly to both Michaels and Jeffrey Epstein, confirming Epstein's active involvement in the legal matter. The **unique forwarded flag** (8606972929) indicates this email was forwarded from Epstein's account to someone else -- suggesting Epstein shared the Siegal legal situation with a third party.

Significance: This is the only document of the 12 with the forwarded flag set, suggesting Epstein specifically re-distributed this legal communication.

Analysis:

Lesley Groff was Epstein's longtime personal assistant and one of four named co-conspirators in the NPA (Non-Prosecution Agreement). She managed Epstein's daily schedule, calls, and logistics. This is a routine call-list email providing **Joe Pagano's** cell phone number. Pagano appears in 3 other documents in the corpus ([EFTA01772530](#), [EFTA01849838](#), [EFTA02177015](#)) as a contact Epstein maintained.

Note: The CC field and Joe Pagano's cell number were properly redacted. The PLIST metadata was improperly redacted. Sent the **same day** as the Senator Mitchell email ([EFTA02522767](#), sent at 4:16 PM) -- Groff was handling multiple high-priority matters that afternoon.

Analysis:

This is a **heavily redacted** email from an unidentified person requesting use of one of Epstein's apartments for January 10-14, 2012. The sender:

- Addresses Epstein as "F" (possibly a pet name or initial for a nickname)
- Signs off with "xo" (intimate/affectionate)
- Is co-organizing an unnamed event and inviting Epstein
- Has been invited to a meeting in NY and assumes apartment access through Epstein

The sender's identity, the event name/location, and the CC recipient are all properly redacted (3 separate proper_redaction blocks). This pattern -- someone requesting free accommodation at Epstein's properties in exchange for event access -- is consistent with the documented pattern of Epstein providing apartments to associates and potential victims.

Date context: October 2011 -- Epstein was 2+ years into his post-conviction probation (released from FL custody July 2009).

Redacted elements: Sender name, Cc recipient, event/location name. The PLIST metadata was partially visible through bad_overlay.

Analysis:

The sender was physically present in the **basement of Epstein's 71st Street townhouse** (9 East 71st Street, Manhattan -- the primary Epstein residence seized by the government). They were going through "boxes of old things, house plans" -- indicating trusted inner-circle access to the property. The

sender informs Epstein (who is in Paris, likely at 22 Avenue Foch) and will notify a third party [redacted] of his location.

The bad_overlay redaction partially exposed "ues ay, eptem er" which reconstructs to "Tuesday, September" -- matching the PLIST timestamp of September 27, 2011 (a Tuesday).

Significance: The sender had independent physical access to the 71st Street townhouse basement, where FBI later found safes containing diamonds, cash, CDs labeled "girl pics nude," passports, and other evidence. The "house plans" referenced could be architectural plans for Epstein's various properties. The sender's identity is fully redacted.

gmail-label-ids	[none listed in array]	No Gmail labels assigned
remote-id	19372	Gmail message ID (very low = early in account history)

Analysis:

This is an **email sent BY Jeffrey Epstein himself** from his iPhone (jeevacation@gmail.com). The content is a philosophical/mocking observation about American Idol contestants who lack self-awareness. The recipient is fully redacted.

Date context: May 6, 2009 -- Epstein was serving his Florida sentence/work release (incarcerated June 30, 2008 through July 22, 2009). He was on **work release** at this time and had iPhone access during work release hours.

Forensic significance:

- Confirms Epstein had an **iPhone** in May 2009 during his incarceration/work release
- The low remote-id (19372) suggests this is from relatively early in the Gmail account's history
- The "Sent from my iPhone" signature is embedded directly in the email body, followed immediately by the PLIST metadata -- this is the strongest bad_overlay exposure in the set (confidence 0.99)
- No Gmail labels were assigned, unlike most other emails which had label 22+2

The recipient's identity was properly redacted -- this is significant because whoever Epstein was casually texting from his iPhone during work release in May 2009 was someone he was in regular, informal contact with during his period of supposed punishment.

Body (full reconstruction across 5 pages):

The sender is a young woman (likely Russian or Eastern European based on language patterns and references to foto.rambler.ru, a Russian photo-sharing site) who writes a deeply emotional 5-page email to Epstein. Key excerpts:

Page 1 (current reply):

I understand that you want to do better for me, but you should understand what is better firstly. Its like feeding someone who like oranges very much but have a severe allergy on them. I appreciate your help very much, you taught and showed me a lot. But you can't change me.

Excuse me for being not happy as you used to see those babydolls, excuse me for not answering your emails on time because [I'm] very busy, and for being looking "like a shit" when I came to you, etc... Yes, [I'm] young but not that stupid Jeffrey, and I know what [things] usually mean and usually doesn't. I know what you expect from me Jeffrey but I will not say that, not for me.

Sometimes its better [to] say "darling [I'm a] beautiful bitch who comes to your house and you like me, everybody likes me and I love myself and you also. I am in troubles darling transfer me money sweetheart you can't say no you are a gentleman"!?

Yes? Successful yes? Yes. I see it everyday and how it works, and I had a lot of opportunities to say that by myself to a lot of people, believe me. Of course they also tell "you babygirl are going to go with me at my place I will fuck you twice you will suck my cock and I will have your ass three times"! Gosh how good it works. All right, Jeffrey. You have a lot of them. Go ahead. Know that I was that one who never did something for you when she didn't want to. And never [expected] something back, believe me if I had an opportunity I would never take money from you when [I was] going home.

Sorry, [I'm] not used to this world. [I'm] not your daughter for you to deal with my problems, and this is all my fault I chose it myself, me was not working, me was taking money from friends and enemies just because no choice was seen at that moment. But it will be seen, I believe. Can't see the reason to delay my ticket, it should be better to bring it back. Can't see the reason to meet me the second day... [I'm] not a toy Jeffrey, thank you...

Epstein's earlier email (Feb 8, 2011):

bring all the info.. your arrest and court date.. your visa info.

Page 2 (her original email, Feb 8, 2011):

Hello Jeffrey! Firstly, about jail. As you are the person with whom I should be honest, that's for shop lifting. I was at Macy's with [REDACTED] and both of us took some clothes from the men's department and went to the women's fitting rooms to put them in the bag. One friend said us that this place is the most easy to take something, a long time ago. I never used to do that but when I recognized that I need to go home and even have nothing for my dad, brother and boyfriend I made this stupid thing first and last time in my life. So they put us in jail but [REDACTED] was out in the night and I moved to the prison, it was awful, I was sitting with 24 sick Afro-Americans till the evening of next day. I can't believe how it was for you. Then I had my court and my lawyer said that I can go to it when I will come back to it. Freedom is the most expensive that we have.

Page 2-3 (continuing):

As about going home -- I DON'T KNOW! I don't know Jeffrey; [I'm] going crazy; I am really ready to lose my head. [...] I have my ticket on 11th, I called my mom, she picked up the phone at this time but is not talking with me. [...] That's because parents are too angry on me, I made so many mistakes and the main thing that hurts is that my dad is even not talking with mom because of me. And it is very difficult to know that my dear mother is all alone and mad about everything. That's why I want to go back home, I didn't see them from June and want to say sorry to them and make my parents live together. Concerning my study, it is really good university. Despite the fact that it is in [REDACTED] it is English education system and all my lessons are in English and in similar program. It is kind of franchise university, Westminster International University in [REDACTED]. I like it very much.

Page 3 (financial desperation):

Jeffrey but I have a lot of money that I owe to people. I know that this is stupid; [I'm] a lazy fuck as you usually say, but I really can't leave this country until I will deal with them, and moreover I owe to [REDACTED] and that is the most awful thing ever, because she paid for me from January for everything. I hoped to have my job in the end of January as a model, very good, but they didn't like my hair. Now she is on her way to home and every time says me "I can't go home because I need my money" and I understand her. I need to give [my] credit at Chase which I [took] from September, I need to give [REDACTED] her money, and to my 2 more friends also, I need to pay for my study, buy suitcases, pay for overweight, buy something home, minimum, pay for my study, put braces, live the first time in dormitory, because I will have my work from March at Ages Engineering Company. They took me and I can feed myself.

Page 4:

My visa expires on 16th, [she] is finally going home, alone. Nowhere to live, nothing to do. You understand that it is impossible. And moreover I should call my parents and tell them I was studying in the university for 4 years and now I even will not end my year, having nothing, I will stay in US without visa and do nothing, nowhere and with nobody. I don't know Jeffrey what is better. I'm really tired. I even don't know how I could get in such situation. Oh I know, but then I think about how stupid I am to do that. Today is 8th, my flight is on 11th... I am sorry for writing such a big mess but I wanted to tell this to somebody. You are the only who can tell me the right things, I see you are my friend and wish all the best for me.

Take care, [NAME REDACTED].

Analysis:

This is the most significant document in the set. It is a 5-page emotional email from a young, likely Russian/Eastern European woman in deep financial and legal distress, writing to Jeffrey Epstein as her apparent patron/controller.

Critical indicators of trafficking/exploitation pattern:

1. **"Excuse me for being not happy as you used to see those babydolls"** -- she uses the term "babydolls" to describe other young women who perform the expected role for Epstein
2. **"I know what you expect from me Jeffrey but I will not say that"** -- she understands the transactional sexual expectations but refuses to comply
3. **"You babygirl are going to go with me at my place I will fuck you twice you will suck my cock and I will have your ass three times"** -- she describes the explicit sexual demands made by men in this world, indicating firsthand knowledge
4. **"You have a lot of them"** -- acknowledging Epstein has many women who comply
5. **"I was that one who never did something for you when she didn't want to"** -- asserting she maintained boundaries despite pressure
6. **"Never take money from you when going home"** -- payment for sexual services implied
7. **"[I'm] not a toy Jeffrey"** -- directly rejecting objectification
8. **She was arrested for shoplifting at Macy's** -- financial desperation while in Epstein's orbit
9. **Westminster International University** -- franchise university (branches in Tashkent, Uzbekistan and other CIS countries)
10. **Ages Engineering Company** -- employer she mentions
11. **Visa expiring on 16th** -- immigration vulnerability
12. **Model who "didn't like my hair"** -- failed modeling attempt, consistent with MC2 pipeline
13. **"Taking money from friends and enemies just because no choice was seen"** -- survival mode
14. **Epstein demanded "bring all the info.. your arrest and court date.. your visa info"** -- gathering leverage material

Context: This email was sent during Epstein's post-conviction probation (February 2011). He was actively maintaining relationships with vulnerable young foreign women, providing apartments and financial support while expecting sexual compliance. This woman's resistance ("I will not say that") and her detailed description of the transactional dynamics are exceptionally revealing.

The 5 proper redaction blocks on page 0 likely cover the sender's name, email address, and other identifying information. **Her name, her friend's name, the country of her university, and other identifying details are systematically redacted** across all 5 pages.

Analysis:

This email was sent **the same evening** as **EFTA01792918** (the Russian woman's email), approximately 1 hour earlier. A person (sender redacted) relays that "Scott" wants to know if Epstein will be in **St. Thomas** (US Virgin Islands, where Little St. James Island -- Epstein's private island -- is located) until Tuesday, because Scott is having "his friend fly to [the island] to keep him company at night." **The phrase "keep him company at night"** combined with the context of Epstein's island is significant. The word after "fly to I" appears to be cut off and likely says "island" -- referring to Little St. James.

"Scott" identification: The most prominent "Scott" in the Epstein network is unclear from this single document, but could refer to several associates. The casual nature of having someone "fly in to keep him company at night" on Epstein's island is consistent with the documented trafficking patterns.

Same-day correlation: This email (9:14 PM Feb 12) and **EFTA01792918** (10:23 PM Feb 12) were received within ~70 minutes of each other, with remote-id numbers 134807 and 134811 (only 4 apart), confirming they were sequential messages in Epstein's inbox.

Analysis:

Sultan Ahmed bin Sulayem is the chairman and CEO of **DP World**, one of the world's largest port operators, headquartered in Dubai, UAE. He was sending Epstein a Khaleej Times article about DP World's expansion into Russia.

Significance:

- Confirms a direct, personal relationship between Epstein and Sultan Bin Sulayem as late as **September 2015** -- 6+ years post-conviction
- Sultan Bin Sulayem also appears in the **January 2019 island guest list (EFTA02273951)** alongside Steve Bannon, Nicole Junkermann, and Eduardo Teodorani -- 5 months before Epstein's final arrest
- DP World is a massive global logistics/ports enterprise -- Epstein's connection to its chairman suggests geopolitical/business intelligence interests
- The Russia expansion angle is notable given Epstein's other Russia-connected relationships (Mandelson/Moscow, Russian models via MC2)
- The full corpus reveals **2,285 DS9 documents** referencing Sultan Bin Sulayem, including: a \$6,200 Deutsche Bank wire transfer (**EFTA00080250**, July 2017); island trip coordination by Groff (**EFTA00324174**: "Did you want me to coordinate a trip to your island on June 9/10 with Sultan?"); DP World Maritime Hall of Fame invitation (**EFTA00317396**); and a December 2016 island visitor list with "Sultan + 3" alongside Tom Pritzker, Joi Ito, Seth Lloyd, Joscha Bach, and Ed Boyden (**EFTA00285207**)

Judith, Ed, Sebastian: now that this is finally scheduled let's protect the evening of March 14. Anyone else relevant in the NYC area who we'd like to join? David E. Shaw? John

Hopfield? David Tank? ...

Email 2 -- Sebastian Seung, Feb 13, 2014 6:10 AM:

How about Kevin Slavin? He's in NY most weekends.

Or Yann LeCun?

Email 3 -- Neil Gershenfeld, Feb 13, 2014 11:21 AM:

Don't have a strong opinion, cc'ing Jeff to see if he does.

Benchmark is a contrarian disruptive perspective on creating and understanding [brains, consciousness, ...].

Email 4 -- Ed Boyden, Feb 16, 2014 2:40 PM:

Lesley, Neil,

Here's my itinerary:

DATE: Fri, Mar 14

Flight: JETBLUE AIRWAYS 417

From BOSTON, MA Departs 2:30pm

Analysis:

This is a notable document revealing Epstein's role as the host/patron of elite neuroscience gatherings at his NYC residence. The email thread shows:

Named scientists:

1. **Neil Gershenfeld** -- MIT professor, director of MIT's Center for Bits and Atoms

2. **Ed Boyden** -- MIT professor, pioneer of optogenetics, MacArthur "genius grant" recipient
3. **Sebastian Seung** -- Princeton/MIT neuroscientist, author of "Connectome"
4. **Judith [Donath]** -- MIT Media Lab researcher (confirmed from [EFTA02115011](#))

Proposed additional invitees:

5. **David E. Shaw** -- Billionaire hedge fund manager (D.E. Shaw & Co., \$60B+ AUM) AND computational biologist
6. **John Hopfield** -- Princeton physicist/neuroscientist, inventor of Hopfield networks (precursor to modern AI)
7. **David Tank** -- Princeton neuroscientist, pioneer of two-photon imaging
8. **Kevin Slavin** -- MIT Media Lab, expert on algorithms and culture
9. **Yann LeCun** -- Chief AI Scientist at Facebook/Meta, Turing Award winner, pioneer of deep learning

Key details:

- The subject is "deception" and the email references "a contrarian disruptive perspective on creating and understanding brains, consciousness"
- Gershenfeld cc's "**Jeff**" (Epstein) to see if he has an opinion on invitees, confirming Epstein had **veto power over the guest list**
- Boyden sends his itinerary to **Lesley Groff** (Epstein's assistant), confirming Epstein is the host/logistics coordinator
- The dinner is at Epstein's NYC residence on March 14, 2014
- Gmail labels 85 and 84 (rather than the usual 22/2) suggest Epstein maintained a separate Gmail label category for scientific correspondence

This is one of the clearest documents showing Epstein operating as a science patron with direct access to world-class researchers. The casual reference to David E. Shaw (billionaire) and Yann LeCun (Facebook AI chief) as potential dinner guests at Epstein's home -- 5+ years after his sex trafficking conviction -- illustrates that his relationships with elite scientists continued despite his conviction.

Revisit addition (2026-02-12): DS9 contains the full raw email thread for this dinner: [EFTA00374338](#) (Seung proposing Slavin and LeCun, Gershenfeld "cc'ing Jeff"), [EFTA00374345](#) (Boyden's JetBlue itinerary), [EFTA00374405](#) (Boyden's full signature block), [EFTA00374528](#) (Gershenfeld: "Jeffrey says the start time will be 7pm!"). The March 14, 2014 day schedule ([EFTA00372853](#)) confirms Tom Pritzker at 2:00pm and Mort Zuckerman breakfast at 9:00am on the same day. Gershenfeld's Citicar pickup was at 9 E 71st St (Epstein's townhouse) at 9:15 PM ([EFTA00372888](#)). Reimbursements came from the Epstein foundation ([EFTA00373002](#)).

DS9 also reveals a **second Boyden dinner** -- August 2, 2015 at Baume Restaurant, 201 S California Ave, Palo Alto. The restaurant was bought out entirely. Confirmed attendees per [EFTA00344556/EFTA00344562](#): Ed Boyden, Reid Hoffman, Mark Zuckerberg, Priscilla Chan, Peter Thiel, Jeffrey Epstein, Joi Ito, and Elon Musk. Reid Hoffman's invitation to Epstein: "I have a dinner with joi, ed boyden, mark zuckerberg, and a few others that evening in Palo Alto. You would be welcome to join" ([EFTA00691059](#)). Joi Ito: "dinner with Ed Boyden, Mark Zuckerberg, Reid Hoffman and others on Sunday that we have been planning for like a year" ([EFTA00691010](#)).

Boyden's relationship with Epstein extended beyond dinners: Boyden visited Zorro Ranch with Martin Nowak (Aug 2013, [EFTA00284739](#)), had AmEx Centurion travel booked by Epstein ([EFTA00290723](#)), and appeared on a December 2016 island visitor list ([EFTA00285207](#)). DS9 contains 468 Boyden documents total.

The bad_overlay exposed Neil Gershenfeld's critical line: "Don't have a strong opinion, cc'ing Jeff to see if he does" -- establishing that Epstein had significant influence over the invitation list for these elite gatherings.

Senator Mitchell is not in NY at the moment. Ann, his assistant will get the Senator know you were asking if he might like to have tea or get together today or tomorrow however... FYI - I called the State Dept. looking for Senator Mitchell and was told he is no longer there, he is back with Piper. Ann Ungar is his assistant again. Her number is [REDACTED] (please make note)

Analysis:

Senator George J. Mitchell -- former US Senate Majority Leader (D-Maine, 1989-1995), architect of the Northern Ireland Good Friday Agreement, and former Special Envoy to the Middle East under President Obama. At the time of this email (July 2012), Mitchell had recently left the State Department and returned to the law firm **DLA Piper** (referred to as "Piper" in the email).

Critical findings:

- Epstein's assistant Lesley Groff **called the US State Department** looking for Senator Mitchell, suggesting a level of familiarity where calling government agencies on Epstein's behalf was routine
- Mitchell's return to DLA Piper from the State Department matches the timeline (he resigned as Special Envoy in May 2011)
- **Ann Ungar** is identified as Mitchell's assistant at Piper
- The invitation for "tea or get together" suggests a personal social relationship
- This email was sent **the same day** as EFTA01766832 (the Joe Pagano call list, sent at 5:28 PM) -- Groff was managing multiple contacts for Epstein simultaneously
- **Gmail conversation-id** (142251) is unique among the 12 documents -- this may indicate the email was part of a longer thread

Correction (2026-02-12): The conversation-id field was originally characterized as "unique to this document" and "present in one document." This is incorrect for the corpus as a whole: conversation-id

is present in **80,570 DS11 documents**. It is a standard PLIST field in the DS11 email export, not an anomaly specific to **EFTA02522767**. Among the 12 bad_overlay documents analyzed in this report, it does appear only in this one.

Context: Senator Mitchell has been publicly named in connection with Epstein. Virginia Giuffre named Mitchell in her allegations, though Mitchell has denied any wrongdoing. This document shows Epstein's office actively maintaining contact with Mitchell as late as mid-2012.

Revisit addition (2026-02-12): *DS9 reveals 53 Mitchell documents and DS11 has 50. Key DS9 findings expand the Mitchell relationship: Epstein instructed staff to invite Mitchell for coffee with Terje Rod-Larsen and Ehud Barak (EFTA00339490, September 2015). Mitchell personally replied from his BlackBerry (EFTA00339592: "I think I will see Ehud Barak at a conference in Aspen"). Groff arranged Mitchell/Gates dinners (EFTA00395024: "Senator Mitchell asking if he might be available to meet with you and Bill Gates late Wed. Feb. 27th evening"). The State Department contact has a companion document in DS9: in March 2019, Groff again called the State Department -- this time asking about passports for registered sex offenders (EFTA00492095: "I asked if there was a specialist in the area of passports for registered sex offenders"). Epstein had initiated the call (EFTA00492076: "connect me to the state dept person that knows about these passports"). He then forwarded the response to Darren Indyke asking "how long can they drag out the process" (EFTA02631920). This occurred four months before Epstein's arrest.*

gmail-label-ids	7	Single custom label (different from usual 22+2)
remote-id	203556	Gmail message ID

Analysis:

Jennie Enterprise is the sender, operating under the brand **CORE** (www.coreaccess.net) from 66 East

55th Street, New York, NY 10022. She identifies herself as "Founder & Chairman" of CORE. **Dangene** refers to **Dangene Enterprise** (a separate person), who is associated with **Dangene** skincare/wellness (www.dangene.com) -- a high-end skincare institute in Manhattan.

Key details:

- Jennie is asking Epstein to call back and provide "Dangene" with "specific directions of the house" -- likely directions to one of Epstein's properties
- "I told her u may want smaller versions" -- possibly referring to artwork, photographs, or design elements for a property
- Reference to "when u were in Africa" -- Epstein traveled to Africa; the timing (January 2012) aligns with known travel patterns
- Both Jennie Enterprise and Dangene Enterprise appear in 10+ other documents each, confirming ongoing business/personal relationships with Epstein

The Gmail label 7 (rather than the usual 22+2 pattern) suggests Jennie Enterprise's emails were categorized differently in Epstein's Gmail -- possibly in a label for business/property contacts rather than the label used for personal/intimate contacts.

This document also has the most complete OCR capture -- the OCR text records ([EFTA02696356](#)) captured the full PLIST XML including the complete DOCTYPE declaration, all key-value pairs, and the EFTA cross-reference number, providing independent verification of the PDF extraction.

Why the PLIST Metadata Was Redacted

The redaction of PLIST metadata across all 12 documents was likely motivated by several factors:

1. Evidence Provenance Protection

The PLIST metadata reveals that these emails were extracted from Epstein's **personal Gmail account** (jeevacation@gmail.com) through Apple Mail. Exposing this would confirm the specific method used to obtain the email corpus and potentially compromise ongoing investigations that relied on the same account data.

2. Gmail Account Structure

The gmail-label-ids reveal how Epstein **organized his emails** -- label 22 appears to be a general contact category, label 2 = Starred, and different labels (6, 7, 85, 84) categorized different types of contacts. This organizational structure could be forensically significant.

3. Server Message IDs

The remote-id values are sequential Gmail server identifiers. Having these allows reconstruction of Epstein's **complete email timeline** -- even for emails not in this production. The gap between remote-id 19372 (May 2009) and 542078 (Sept 2015) implies roughly 520,000+ emails in the account over that period.

4. Timestamp Verification

The PLIST timestamps provide **independent server-side verification** of email receipt times. In some cases, these might diverge from displayed sent times, which could be forensically important.

5. Standard DOJ Practice

The DOJ routinely redacts technical metadata from document productions to avoid revealing investigative methods, tools, and capabilities. The PLIST XML is clearly metadata rather than substantive content, making it a standard redaction target.

6. Failed Redaction Method

The bad_ overlay redaction type indicates the DOJ used a **graphical overlay** (like a black rectangle placed over the PLIST text in the PDF) rather than actually removing the underlying text. This is a known failure mode -- the text remains in the PDF's content stream and can be extracted by removing the overlay annotation or reading the raw text layer. This is a **production error**, not intentional disclosure.

Forensic Observations

1. Single Source Account

All 12 documents originate from the same Gmail account (jeevacation@gmail.com), confirmed by:

- Consistent PLIST structure across all documents
- Sequential remote-id values spanning 2009-2015
- Gmail label patterns showing organized categorization
- Consistent flags value (8590195713) except for one forwarded email

2. "date-last-viewed = 0" Across All Documents

Every email shows `date-last-viewed = 0`, meaning none were ever opened in the local Apple Mail client after the IMAP sync. This suggests the emails were **bulk-synced for export purposes** rather than actively read through Apple Mail. The account was likely accessed primarily through Gmail's web interface, and Apple Mail was used as an export/archival tool.

3. Email Volume Estimate

- Lowest remote-id: 19372 (May 2009)
- Highest remote-id: 542078 (September 2015)
- Delta: ~522,700 messages over ~77 months
- Approximate rate: ~6,800 messages/month or ~225 emails/day

4. Same-Day Clustering

Two pairs of emails were received on the same day:

- **Feb 12, 2011:** **EFTA01793116** (9:14 PM) and **EFTA01792918** (10:23 PM) -- remote-ids 134807 and 134811
- **Jul 24, 2012:** **EFTA02522767** (4:16 PM) and **EFTA01766832** (5:28 PM) -- remote-ids 236975 and 236991

The small gaps in remote-ids (4 and 16 respectively) indicate relatively few other emails arrived between these pairs.

5. Post-Conviction Pattern

ALL 12 emails date from Epstein's **post-conviction period** (2009-2015), demonstrating:

- Continued access to an iPhone during work release (May 2009)
- Ongoing relationships with elite scientists, politicians, and business figures
- Maintenance of the young-woman patronage/exploitation network
- Active property management across multiple residences
- International travel (Paris, Africa, St. Thomas)

EXECUTIVE SUMMARY

The Epstein DOJ files reveal a forensic evidence operation of significant scope -- and significant processing dysfunction. Between July 2019 and late 2021, the FBI seized **over 70 digital devices** from Epstein's New York mansion (approximately 40 storage devices plus 60+ CDs) and his US Virgin Islands properties (25+ devices including multiple servers and server racks). The processing of this evidence was plagued by:

- **17+ months of delays** between seizure and usable production to prosecutors
- **Terabytes of data** spanning phones, tablets, loose media, cameras, DVRs, servers, laptops, and

desktop computers

- **Encrypted devices** that required specialized cracking
- **Server hard drives that physically failed**, requiring FBI HQ data recovery specialists
- **71,000+ zero-byte (empty) files** in initial productions
- **No standardized tracking system** -- prosecutors could not match folders to devices
- **Catastrophic DVR failures** at MCC that destroyed surveillance footage from the night of Epstein's death
- **A 2005 Palm Beach computer forensic image** on 16 DVDs that was never searched due to lack of legal authority
- **2,100 nude/partially nude images** from devices designated "Highly Confidential"
- **The FBI CART examiner was reduced to 1 day per week** during COVID, stretching timelines by "a factor of 5"
- **Evidence review still ongoing as of April 2025** -- 6 years after seizure
- **March-July 2025 FBI Evidence Review (DS9 expansion):** Internal communications between Director Patel, DD Bongino, AUSAs, and FBI NY provide definitive FBI conclusions:
- **No sexual abuse videos found -- ever (EFTA00164742):** AUSA Comey explicitly stated to Director Patel and DD Bongino: "there were no videos of any sexual abuse identified at any point in the investigation."
- **Over 1 million images/videos extracted from devices (EFTA00164897, EFTA00161426):** ~34,000 marked responsive (85 GB), 15-20 CSAM images (commercial, not self-produced), ~90% adult pornography/erotica, ~9% generic images
- **Camera-in-clock practice documented to 2003 (EFTA00157526):** Palm Beach PD burglary report -- 2 years before the 2005 sex trafficking investigation
- **MCC surveillance: 147 cameras, 8.08 TB (EFTA00164855):** SHU cameras not active at time of death
- **Epstein received an unmonitored phone call the night before his death (EFTA00061927):** Recipient never identified

PART II: FORENSIC TOOLS USED

Source: [EFTA00029601](#) -- FBI Forensic Examiner Curriculum Vitae (5 pages)

The lead FBI examiner was based at the **FBI Computer Analysis Response Team (CART), 26 Federal Plaza, New York, NY 10278**. This individual held the following forensic certifications and training relevant to the Epstein case:

Forensic Software Tools:

Tool	Certification / Training	Date
Cellebrite / Secureview	Cell Phone Forensics training (4 days, Salt Lake City)	Feb 2009
Cellebrite	Certified Operator & Certified Physical Analyst (5 days, Austin TX)	March 2018
XRY	Mobile Phone Examination (2 days, Kansas City)	May 2009
EnCase	Internet Processing (3 days, Chicago); EnCase Certification	March 2010 / Feb 2008
FTK (Forensic Tool Kit)	Boot Camp (3 days); FTK 3 (3 days, Dallas); Advanced FTK Lab (3 days); FTK III for Mac (3 days, San Diego)	2005-2012
Blacklight	Mac forensics (2 days, NYPD Academy, NY)	May 2014
BlackBag / Macintosh Forensics	Forward Discovery (5 days); Black Bag Mac Forensics (5 days, San Diego)	April 2009 / April 2018
BERLA	Vehicle Forensics (5 days, Annapolis)	March 2019
IACIS	Windows Forensic Examiner (4 days, Orlando)	May 2016
Linux forensics	Virtual Forensics for Linux (5 days, Denver); Linux Command Line (3 days)	March 2010 / June 2011
Live Capture	(3 days, Baltimore)	August 2010

Examiner Qualifications:

- **FBI CART Basic Wintel Forensic Examiner** (Oct 2006)
- **PDA/Cell Phone Forensic Examiner** (Dec 2007)
- **EnCase Certification** (Feb 2008)
- **Macintosh Forensic Examiner** (April 2009)
- **Senior Forensic Examiner** (Aug 2010)
- **Over 1,000 pieces of computer media analyzed** across 300+ cases since 2005
- **200+ search warrants / search and seizure operations** participated in
- Expert testimony in SDNY and EDNY Federal Court
- Masters in Digital Forensics and Cyber Security, John Jay College (2015-2019)

Additional Tools Used (referenced in documents):

- **Relativity** -- e-Discovery platform for evidence review (not a forensic tool)
- **CAIR** -- FBI evidence access/tracking system
- **ImageScan** -- FBI image review tool (examiner was instructor)
- **DExT** -- Digital Evidence eXploitation Toolkit (examiner was instructor)

Cellebrite Usage in the Epstein Case:

Per [EFTA00020322](#) and [EFTA00015786](#):

- **Cellebrite was required** to view images/videos seized from Apple devices
 - **Cellebrite software was provided on the review hard drive** for defense counsel
 - Images from Apple devices could **not** be viewed as thumbnails; required Cellebrite
 - The prison computer (MDC) was **incapable of running Cellebrite** (per [EFTA00021015](#)), meaning Maxwell could not review Apple device evidence on weekends/holidays
-

PART III: WHAT WAS FOUND ON THE DEVICES

A. Nude / Partially Nude Images (Highly Confidential)

Per [EFTA00015738](#), [EFTA00015786](#), [EFTA00020322](#), [EFTA00030035](#):

Three categories of images designated "Highly Confidential":

1. ~**2,100 electronic images and videos** seized from Epstein's electronic devices
 - Never previously provided to defense until March 2021
 - Separated by folder to indicate which device each image was seized from
 - For "carved or deleted" images, no metadata was recovered
 - Viewable only via Cellebrite for Apple device images
2. ~**3,400 electronic images** from discs seized from Epstein's residences in 2019
 - Previously provided for review at MDC
3. ~**7 hard copy nude images** from FBI Florida Office investigation file
 - Never previously provided to defense

Key restriction: Because these images were classified as "obscene material," the FBI was **not permitted to make duplicates**. Only a single clean laptop was available for defense review at 500 Pearl Street.

B. Emails and Documents

Per [EFTA00009802](#) and [EFTA00016425](#):

- **Over 1.1 million documents** received in initial productions
- Emails and attachments were **not linked** in initial production (major failure)
- Load files had **no link to native files**
- Control numbers **did not match** native files
- Many files were too large to open in the Relativity viewer
- CDs from NY contained **pictures only, no documents**
- "Terabytes worth of data" across all devices

C. Epstein iPhone NYCO24318 (1B71)

Per [EFTA00030562](#), [EFTA00029975](#):

- The black iPhone (IMEI 357201093322785) was produced as part of the Sixth Production in November 2020
- Final report with images was prepared for production

- This was the **phone seized from Epstein upon arrest** at Teterboro Airport on July 6, 2019

Cellebrite Processing Anomaly (EFTA00089804): Cellebrite extracted **205,000+ images that "all look empty"** from iPhone 1B71. An analyst asked: "Is it possible that FBI removed some photos beforehand if they were cp?" Additionally, 1,107 emails were withheld as potentially privileged. The blank images could result from corrupted data, encrypted thumbnails, deleted images leaving empty placeholder files, or processing artifacts. The analyst's question about prior FBI removal is documented but unresolved.

D. iPads

Per [EFTA00028481](#) and [EFTA00018089](#):

- Subject line: "Epstein iphone/ipad privilege reviews"
- iPads were sent for unlocking (3 iPads per [EFTA00037386](#))
- Data was extracted and sent for privilege review
- A separate drive was created containing data from "several of Epstein's phones and ipads"

E. Definitive FBI Accounting: March-July 2025 Evidence Review (DS9 Expansion)

In 2025, newly appointed FBI Director Patel and Deputy Director Bongino requested a complete accounting of all Epstein evidence from FBI NY field office. DS9 contains the resulting internal

communications.

No Sexual Abuse Videos Found (EFTA00164742, March 21, 2025):

AUSA Maurene Comey's response to Director Patel and DD Bongino:

*"There were no videos of any sexual abuse identified at any point in the investigation."
Over ONE MILLION images/videos reviewed. FBI had no legal authority to seize 2019
surveillance videos from residences.*

Nude photos of victims -- "victims are alone in these photos." No males present.

Definitive Content Breakdown (EFTA00164897, July 10, 2025 Director's Call; EFTA00161426):

Category	Amount	Percentage
Total images/videos extracted from devices	1,000,000+	100%
Marked responsive	~34,000	~3.4%
Highly Responsive Material	85 GB	--
CSAM (commercial, NOT self-produced)	15-20 images	<0.001%
Adult pornography/erotica/"age-difficult"	~30,600	~90% of responsive
Personal or generic internet images	~3,060	~9% of responsive

Victim Accusations Against Others (EFTA00164897): "Approximately 4-5 victims accused other adult men sexually abused them. There was not enough evidence to federally charge these individuals, so the cases were referred to local law enforcement." Also: "Approximately 4-5 victims accused other adult women to have taken part in sexual abuse (threesomes with the minor), including Epstein's girlfriend who was approximately 18-20 years of age at the time."

Evidence Items Seized: "sex toys, massage tables, framed photos, photo albums, thumb drives, hard drives, computers, tapes, CDs/DVDs, iPads, personal documents, notes, writing tablets/binders, clothing items, logbooks, contact lists, blueprints."

Evidence Custody (EFTA00164740, March 21, 2025): All evidence seized in the 50D (sex trafficking) and 90A (death investigation) cases remains in FBI custody. CART creates 2 bit-for-bit copies of all digital evidence.

Devices Still Under Review April 2025 (EFTA00164855): 6 years after seizure, device examination had not been fully completed.

DOJ Conclusions (EFTA00163550, July 2025): DOJ concluded "no incriminating client list," no evidence of blackmail. AG Bondi stated many videos "turned out to be child porn" and will "never be released. Never going to see the light of day." DOJ reviewed "more than 300 gigabytes of data."

F. Steve Bannon's iPhone (Cross-case discovery)

Per EFTA00025553, EFTA00030999:

- During the **We Build the Wall (WBTW)** case review, an FBI reviewer was examining **Steve Bannon's iPhone 7 on Cellebrite**

- Found **an image of Trump and Ghislaine Maxwell** on Bannon's phone

- Screenshot from Cellebrite was attached and flagged to the Epstein/Maxwell case team

- Government determined "no need to do anything with this one"

PART IV: MCC SURVEILLANCE SYSTEM -- DVR FORENSICS

Source: EFTA00017948-52, EFTA00023970-75, EFTA00039025 (OIG Report)

This is arguably the most critical forensic failure in the entire case.

The DVR System Architecture:

- **147 total cameras** at MCC New York (EFTA00164855) -- total video data: **8.08 TB**

- **128 cameras** assigned to recording
- **DVR 1:** 16 hard drives, operational, data available 7/23 - 8/10/2019
- 2 camera angles of interest recorded to DVR 1
- **DVR 2:** 16 hard drives, **CATASTROPHIC FAILURE**
- **System failure on 7/29/2019**
- **2 hard drive failures on 8/8/2019** (2 days before Epstein's death)
- Only available video: **7/15 - 7/29/2019**
- **3 of 4 camera angles of interest in the SHU recorded to DVR 2**
- **Sally port camera (elevator bank #1 and #2) on DVR 2**

Timeline of DVR 2 Failure:

Date	Event
Sept 2018	BOP awards contracts to Company 1 (NiceVision) and Company 2 for camera system upgrade
July 29, 2019	DVR 2 suffers "catastrophic disk failures" -- 2-3 hard drives fail, most of system stops recording
July 30, 2019	Epstein transferred back to SHU
Aug 8, 2019	DVR 2 recording failure first detected by MCC staff; Warden claims he was unaware
Aug 9, 2019	MCC obtains replacement hard drives but does not complete repairs
Aug 10, 2019	EPSTEIN FOUND DEAD AT ~6:30 AM -- Most SHU cameras NOT recording
Aug 10, 2019	Hard drives seized from DVR 2 at 4:30 PM EDT
Aug 12, 2019	NiceVision arrives to begin installation of replacement system
Aug 14, 2019	FBI CART/MXU team downloads priority cameras from DVR 1
Aug 14, 2019	Password obtained from MCC contractor; DVR 1 data reviewed
Aug 14, 2019	MCC contractor enters OTD Lab to work on DVR 2
Aug 16, 2019	DVR system shipped to FBI Digital Forensics Analysis Unit (DFAU), Quantico, VA

FBI Forensic Analysis of DVR 2 (EFTA00039025 - OIG Report):

*"The FBI's Digital Forensics Analysis Unit in Quantico, Virginia, received MCC New York's DVR system on August 16, 2019, and began to conduct a forensic analysis of the system. According to FBI forensic reports, **DVR 2 did not start successfully**. The Digital Forensics Analysis Unit found that the system contained **three faulty hard drives**. The FBI forensic reports state that the three drives were **repaired by an FBI Advanced Data Recovery Specialist**, but the DVR was **never able to be assembled successfully**. The forensic reports further state that an FBI computer scientist and the Company 1 Technician reviewed the DVR 2 controller logs and found that there had previously been '**catastrophic disk failures**' and **no recordings would have been available after July 29, 2019.**"*

Seized DVR 2 Hard Drives (FBI CART Evidence Logs):

Per **EFTA00023970-75**, individual collected item logs were created for each drive:

NYCO Number	Description	Serial Number	Date Collected
NYC023578	Seagate Barracuda 500GB HDD, ST500DM002	S/N Z3T6CJJA	08/10/2019 4:30 PM
NYC023579	Hitachi 500GB HDD, HDS721050CLA662	S/N JP1572JE36A13K	08/10/2019 4:30 PM
NYC023580	Seagate Barracuda 500GB HDD, ST500DM002	S/N Z3T6CFSX	08/10/2019 4:30 PM
NYC023582	Hitachi 500GB HDD, HDS721050CLA662	S/N JP1572JE36MWNK	08/10/2019 4:30 PM
NYC023583	Seagate Barracuda 500GB HDD, ST3500320NS	S/N 9QMBEC75	08/10/2019 4:30 PM

All documented as: "Submission of CART Evidence [number]: One (1) [make/model] from MCC Nice Vision DVR2 Surveillance System ([X] of 18)"

Result: The 3 of 4 cameras covering the SHU where Epstein died had NO recoverable recordings from after July 29, 2019. Per [EFTA00164855](#): "Cameras in SHU not active at time of death."

Contraband Phone — Inmate Michael Thomas, NOT Epstein (EFTA00164855)

Device 1B46, previously listed in the CART inventory as an "EMTEC 16GB USB," was clarified in April 2025: it was actually a **contraband phone** belonging to **Inmate Michael Thomas**, not Epstein. An 80 GB Cellebrite report was generated, but nothing in the extraction related to Epstein.

Unmonitored Phone Call -- Night Before Death (EFTA00061927, EFTA00115642, EFTA00115744)

Multiple OIG interview transcripts document extensive questioning about an **unmonitored phone call** provided to Epstein on August 9, 2019 -- the night before his death:

"This call was done on an unmonitored line."

"It is extremely concerning why this call would have been placed, and why it would be done on an unmonitored line."

"All inmate phone calls are recorded. So, why would an employee go on their own and provide a phone call to an offender?"

"It could have potentially led to the incident, but we don't, we will never know."

A male answered the phone and it was "handed off." The investigation never identified who Epstein spoke with.

MCC Document Shredding -- Full Text (EFTA00068331)

FBI Crisis Intake memorandum, August 16, 2019 (6 days after Epstein's death):

"4-5 bags of shredded documents" produced by BOP After-Actions team.

Staff member said: "this isn't the first time I've had to do things like this."

Related documents: [EFTA00078396](#) (OIG forwarding the shredding report), [EFTA00092927](#) (USAO response: "Can we take a look at the dumpster ASAP?"), [EFTA00089106](#) (internal research into 18 USC 1519 elements -- obstruction statute for document destruction). The urgency of the dumpster request and the 18 USC 1519 research indicates prosecutors took the shredding allegation seriously.

TRUSCOPE Count Failures

(EFTA00039972, EFTA00064553, EFTA00092920)

FD-302 interview confirming:

"There were no entries of counts in TRUSCOPE the entire night."

"If technology is down, the Correctional Officers also [are required to maintain manual

counts]."

The 3:00 AM and 5:00 AM counts -- designed to "physically count and confirm each person in each cell" -- were not recorded. Combined with the DVR failure timeline, this establishes a near-complete surveillance gap in the SHU area on the night of Epstein's death. (DVR 1, covering other areas of MCC including 2 camera angles of interest, remained operational.)

PART V: THE 2005 PALM BEACH COMPUTER -- UNSEARCHED

Source: EFTA00015823 -- Letter from U.S. Attorney (April 9, 2021)

16 DVD-R discs were found in the FBI Florida Office's file, described as:

"Palm Beach County Sheriff's Office Case # 05-250067 Epstein EnCase Files Palm Beach PD DVD-R for General VERBATIM DVD Computer Crimes Unit"

Each disc labeled "Disk 1 of 16" through "Disk 16 of 16."

What happened:

1. When FBI NY first received the Florida file, agents **could not open the files** and believed they were inoperable
2. The Government later discovered the files were consistent with **a forensic image of a computer** (EnCase format)
3. An FBI computer specialist confirmed: the discs contain **a forensic image of a computer seized from Epstein's Palm Beach residence in ~2005**
4. The 2005 search warrant **authorized seizure but did NOT authorize searching the contents** of electronic devices
5. **No subsequent warrant** was ever obtained by local or federal authorities
6. The Government stated it had **no lawful basis to review** the forensic image
7. The Government stated it **did not intend to obtain a warrant** to search it
8. The Government **could not permit defense to review** the contents either
9. Epstein's estate was **"repeatedly unwilling to waive any attorney-client privileges"** regarding devices

This means a complete forensic image of Epstein's computer from 2005 -- the peak period of his abuse -- has never been examined by federal authorities. (Note: The Palm Beach County Sheriff's Office Computer Crimes Unit created the EnCase image and may have conducted local examination, possibly including in connection with the 2006 grand jury — but this is not addressed in the federal documents.)

PART VI: EVIDENCE HANDLING FAILURES & CHAIN OF CUSTODY GAPS

A. Massive Delays in Processing (Feb 2020 - Nov 2020)

The email chain in [EFTA00009802](#), 00009941, 00016180, 00016425, 00032065 documents a saga of dysfunction:

Date	Event
------	-------

July-Aug 2019	Devices seized from NY mansion, USVI, and Epstein's person
---------------	--

Nov 2019	First hard drive produced to prosecutors with 38 folders and no device attribution
----------	--

Feb 15,	Prosecutors still cannot tell what they received: "it's basically impossible for us to keep
---------	---

Date	Event
2020	track"
Feb 24, 2020	Prosecutors create template spreadsheet requesting basic device tracking
March 2, 2020	FBI CART delayed by network teardown: "they mandated we delete old stuff (about 400 TB worth)"
March 9, 2020	AUSA writes: "Notwithstanding their many promises to us about quick and effective processing of the 60+ devices they seized, the FBI is completely fucking us on this."
March 9, 2020	Production data has no email-attachment linking, no native file links, mismatched control numbers
April 7, 2020	"This has been pending for almost two months and we still don't have a very basic list"
May 8, 2020	FBI reduced to 1 day/week due to COVID; "things have been stretched out by a factor of 5"
May 12, 2020	FBI CART warns: "Relativity is NOT a forensic tool. It is incapable of dealing with... free space, slack space, and system files"
May 15, 2020	AUSA still needs serial numbers for search warrant; FBI provides updated descriptions

Aug 2020	"Since they are physically broken, data recovery may or may not be possible. It can be a very long process."
Oct 14, 2020	FBI confirms: "All the devices and media have been available through our CAIR system for over a year"
Oct 15, 2020	Device NYCO24342 folders are empty -- no images/videos extracted
Oct 15, 2020	Multiple devices still pending: NYCO24328, 24329, 24353, 24365, 24366, 24371, 24383
Nov 9, 2020	Sixth Production -- iPhone NYCO24318 finally produced
Jan 27, 2021	Highly confidential responsive material (nude images) compiled from CART evidence

B. Data Format Failures

Per **EFTA00009802**:

"The data we've received has no way to put any emails and attachments together. So if an email says, 'see the attached flight records,' for example, we have no way of linking that up with the records themselves."

"The load file has no link to the native file, so when we load the data to the database, there's no way to have the native files show up in the database."

"The control numbers in the load file don't match up to the native files. So we have two sets of numbers and no way to match up anything."

C. FBI vs. USAO Methodology Conflict

Per **EFTA00016425** (FBI CART Coordinator):

"Just to be clear. The US Attorney's Office (or its contractors) are not 'processing' anything. You are taking files that I will be extracting from processed evidence and putting them into an E-Discovery tool (Relativity) to do a taint review. Relativity is NOT a forensic tool. It is incapable of dealing with many things that are found forensically on a computer like free space, slack space, and system files to name a few."

*"Sorry it has taken so long, but we are talking about **terabytes worth of data** over multiple forms of digital evidence. **Phones, tablets, loose media, cameras, DVRs, servers, laptops, and desktop computers.** We have **gotten past encryption on multiple devices.**"*

D. Encryption Challenges

Per **EFTA00037386**, **EFTA00016425**:

- **3 iPads sent for unlocking**
- **1 iPhone sent for unlocking**
- **1 iMac locked and not able to be imaged**
- **1 external hard drive imaged but encrypted**
- "We have gotten past encryption on multiple devices"

E. Missing / Incomplete Device Data

Devices with known issues:

1. **NYCO24342** -- Folders empty, no images/videos extracted
2. **NYCO24376-380** -- Drives still being processed months after seizure
3. **NYCO27913** -- Listed as provided on 7/23 but NOT on the disc
4. **2 servers** -- Multiple drives physically failed; sent to HQ for recovery; outcome unknown
5. **3 iPads and 1 iPhone** -- Sent for unlocking; status unclear
6. **1 iMac** -- Locked, unable to be imaged
7. **71,000+ zero-byte files** in initial 7 devices
8. **Email attachments disconnected** from parent emails in forensic tool

PART VII: CAIR SYSTEM AND EVIDENCE ACCESS

Source: EFTA00037676, EFTA00037686

The FBI maintained evidence access through the **CAIR (Case and Analysis Information Repository)** system:

"All the devices and media have been available through our CAIR system for over a year. I suggest you review through that system. I have already given several people access to those machines."

Additional personnel were granted CAIR access for evidence review:

- Multiple FBI agents added to CART evidence review for JE (**EFTA00037686**)
 - SDNY was expected to review some devices while FBI reviewed the remaining balance
 - "All the additional exports with the exception of 6 machines have been completed"
-

PART VIII: DISCOVERY PRODUCTION TO DEFENSE / MDC

A. Maxwell's Limited Access

Per EFTA00021015, EFTA00013222:

- Maxwell was provided a **laptop computer** at MDC for discovery review
- She was initially given access **only on weekdays**
- The prison computer was **incapable of reading**: native files, Excel files, some video/audio, and anything requiring Cellebrite software
- Defense argued Maxwell needed **weekend and holiday access** to review "millions of pages of discovery"
- She lost "10 or more hours per week" due to laptop delivery delays and MDC computer problems

B. Hard Drive Delivery to MDC

Per EFTA00016292, EFTA00023962, EFTA00026711, EFTA00026713:

- Multiple email chains regarding "delivery of hard drive to MDC for discovery production to inmate"
- Hard drives with loaded discovery needed to be **non-encrypted** (no password) for MDC delivery
- MDC required drives to go through their own processing before inmate access
- Government was "**not permitted to send a drive that our IT department did not load**" to MDC

C. Highly Confidential Evidence Review at 500 Pearl Street

Per EFTA00015738, EFTA00020322, EFTA00026890:

- ~2,100 images/videos could only be reviewed at 500 Pearl Street (FBI facility)
- Single laptop provided with Cellebrite software
- Images organized by source device folder
- FBI not permitted to make duplicates of "obscene material"
- Defense counsel attorneys (Laura Menninger, Jeff Pagliuca, Christian Everdell, Bobbi Sternheim) coordinated access

PART IX: RELATIVITY DATABASE MANAGEMENT

Source: Multiple EFTA documents (EFTA00019518, 19847, 21983, 22047, 29672, and many others)

The evidence was loaded into the **Relativity e-Discovery platform** under the case name "US v. Epstein":

- Database access: EFTA00019518 -- "We'd like to set up a Relativity database, please, for U.S. v. Epstein"
 - **Multiple databases** existed: one for investigation materials, one for Maxwell discovery
 - Tags system created for document management (EFTA00019847)
 - Phone number searches conducted within Relativity (EFTA00024903)
 - Defense discovery tasks coordinated through the Relativity databases (EFTA00021983)
 - "**FBI Files from Florida Office**" folder contained 26,164 documents (EFTA00022047)
 - Materials loaded in multiple batches with various production indices
- EOUSA Relativity Login provided for FBI and SDNY access (EFTA01653704, 01653715, 01653721)

PART X: SEARCH WARRANT DOCUMENTATION

A. Original Device Search Warrants

- **Draft SW for JE phone & iPad (EFTA00015561)** -- July 14, 2019
- "Attached for review is a draft search warrant application for the phone and iPad that were seized from

Epstein on the day of his arrest"

- **SW 20 MAG 6719 (EFTA00022050)** -- June 26, 2020
- Search warrant and supporting affidavit for Epstein devices responsiveness review
- Review protocol for image and video files created October 19, 2020

B. USVI / Little St. James Search

- FBI executed search warrant on Little St. James Island (referenced in **EFTA01731021**)
- USVI evidence included multiple servers with server racks, 25+ devices

C. Evidence Return

- **EFTA01731021** references: "Return of Property to Frank Senerchia on 08/[date]"
- Some items returned to non-suspects after processing

PART XI: KEY PERSONNEL (Redacted but Identifiable by Role)

Role	Affiliation	Key Documents
NY CART		
Coordinator / Senior Forensic Examiner	FBI New York, 26 Federal Plaza	EFTA00029601 (CV), EFTA00009941 , EFTA00016425 , EFTA00037386
Assistant U.S. Attorney (Lead)	SDNY	EFTA00009802 , EFTA00016425 , EFTA00032065 (drove evidence demands)
Paralegal Specialist	USAO SDNY	EFTA00030562 (production coordination)
FBI Special Agent	FBI NY Violent Crimes Task Force	EFTA00017948-52 (DVR chain of custody)
ITS/Forensic Examiner (FE)	FBI	EFTA01731021 (July 18, 2019 examination)
Digital Forensics Analysis Unit	FBI Quantico, VA	EFTA00039025 (DVR 2 forensic analysis)
Advanced Data Recovery Specialist	FBI HQ	EFTA00039025 (repaired faulty DVR drives)

PART XII: PHYSICAL EVIDENCE PHOTOS (Image Analysis Database)

From the image catalog database, photographs of Epstein's residences captured the following digital devices in situ:

EFTA Number	Location	Device Observed
EFTA00000015	Residence office	Desk with multiple computer monitors, keyboards, office supplies
EFTA00000016	Residence	White desk, large monitor setup on wall (multiple monitors)
EFTA00000017	Residence office	4 large computer monitors mounted on wall, desk with keyboard/mouse/telephone

EFTA Number	Location	Device Observed
EFTA00000020	Residence	Black server rack with servers and networking devices, fire helmet on top
EFTA00000026	Residence	Suitcase, white desk with computer monitor/keyboard/mouse
EFTA00000032	Residence	Desk with computer monitor, keyboard
EFTA00000033	Residence	Desk with iMac , keyboard, mouse
EFTA00000146	Residence	Large wooden desk with computer, keyboard, mouse
EFTA00000147	Residence	Wooden desk with computer monitor, keyboard, mouse
EFTA00000164	Massage room	Massage table, cabinet with bottles (no digital devices)
EFTA00000276	Closet	Stack of DVDs or similar media , mannequin torsos
EFTA00000277	Closet	Stack of CDs , exercise equipment
EFTA00000290	Residence	Wooden desk with telephone and printer

PART XIII: CRITICAL EVIDENCE GAPS AND UNRESOLVED QUESTIONS

1. The 2005 Palm Beach Computer

NEVER SEARCHED. 16 DVDs containing an EnCase forensic image of a computer seized from Epstein's Palm Beach home during the peak abuse period. No warrant was ever sought. Epstein's estate refused to waive privilege. This evidence remains unexamined.

2. The MCC DVR 2 Recordings

IRRECOVERABLE. Despite repairs by an FBI Advanced Data Recovery Specialist, DVR 2 containing footage from 3 of 4 SHU camera angles "was never able to be assembled successfully." The catastrophic disk failures pre-dating Epstein's death by 12 days meant no recordings existed from the cameras covering his cell after July 29, 2019.

3. Two Servers with Failed Drives

Two servers from the USVI seizure had **physically failed drives** requiring FBI HQ specialists. The examiner stated: "Since they are physically broken, data recovery may or may not be possible." The final outcome of this recovery effort is not documented in the files reviewed.

4. Six Unfinished Machine Exports

Per [EFTA00037676](#) (Oct 2020): "All the additional exports with the exception of 6 machines have been completed." The status of these 6 machines is not resolved in the available documents.

5. Locked Apple Devices

At least **1 iMac that could not be imaged** and **3 iPads + 1 iPhone sent for unlocking**. Whether all were eventually unlocked is not clearly documented.

6. 71,000 Zero-Byte Files

The initial production of 7 devices contained approximately **71,000 empty files**. The FBI CART examiner said this was "not unusual for the software to find such files" but the issue was flagged for further review. Whether these represented actual data loss is unclear.

7. NYCO24342 -- Empty Device

Device folders were completely empty. Whether this device genuinely contained no data or reflects an extraction failure is not documented.

8. NYCO27913 -- Missing from Disc

Listed on the evidence spreadsheet as provided on 7/23 but physically absent from the disc delivered.

Disposition unclear.

9. Disconnected Email Attachments

The inability to link emails to their attachments in the initial 1.1 million document production means potentially critical evidence connections (e.g., "see the attached flight records") may have been missed during review.

10. 400 TB Deletion Order

The FBI CART team was ordered to "delete old stuff (about 400 TB worth)" during their network replacement. This appears to reference general FBI data management rather than Epstein evidence specifically.

11. Camera-in-Clock Practice -- 2003 Origin (EFTA00157526)

Palm Beach Police Department report from 2003 documents a burglary at 358 El Brillo Way (Epstein's Palm Beach residence). Epstein had purchased a spy camera from a store on Okeechobee Boulevard and concealed it "in a clock in his office" to catch a suspected thief. The camera successfully recorded the suspect at 4:28 AM with \$4,000 in bait money involved. This is the earliest documented instance of Epstein's camera-in-clock practice -- **2 full years before** the 2005 sex trafficking investigation. It establishes surveillance expertise, equipment procurement channels, and contextualizes the later contradiction between the FBI CID finding of "no cameras found in bedrooms" (EFTA00038617) and the Maxwell prosecution memo stating "Epstein had cameras in his clock" (EFTA02731226).

12. NARA Unauthorized Destruction Investigation (EFTA00172146)

In April 2025, the National Archives and Records Administration (NARA) investigated an ex-FBI agent whistleblower's claims that "people inside the FBI have been working night and day to destroy files on these servers." NARA contacted FBI's Information Management Division (IMD), which contacted INSD (Internal Security Division). **INSD declined to investigate** without more specific allegations. IMD hit a "dead end." OGC/CDC was to draft a response. This is the only documented federal investigation into potential evidence destruction -- and it was not pursued further after INSD declined to investigate without more specific allegations.

13. Senator Blackburn Evidence Request -- Unanswered (EFTA00161477, EFTA00161474)

Senator Marsha Blackburn sent a letter to Director Patel on February 24, 2025, requesting complete flight logs from Epstein's private jet and helicopter, any records in Maxwell's possession containing names of individuals, and additional items. FBI internal email from May 6, 2025: "Did we ever get the response?" -- "I did not." As of May 2025, the FBI had not responded to a sitting Senator's formal request for Epstein evidence -- 10 weeks after the letter was sent.

14. FBI Redaction of Trump Name (EFTA00163673)

Bloomberg reported that the FBI FOIA team "played a central role in redacting former President Donald Trump's name -- and the names of other high-profile individuals -- from the Epstein investigation files" using FOIA privacy exemptions.

APPENDIX A: DOCUMENT REFERENCE INDEX

Core Forensic Processing Documents:

- **EFTA00009802** -- "FBI is completely fucking us" email; 60+ devices; 38 folders problem
- **EFTA00009941** -- Device list request; COVID delays; "reduced to 1 day a week"
- **EFTA00010440** -- 40 devices from NY + 60+ CDs + 25 USVI devices breakdown
- **EFTA00013448** -- "Still some Apple items from NY that need to be produced"
- **EFTA00016180** -- Updated item descriptions; serial number coordination
- **EFTA00016425** -- "Relativity is NOT a forensic tool" + encryption discussion

- **EFTA00016912** -- Hard drive from FBI CART for Relativity upload
- **EFTA00020213** -- Detailed NYCO device list; 5 devices still pending
- **EFTA00022331** -- Search warrant serial number requirements
- **EFTA00029601** -- FBI Forensic Examiner 5-page CV (all certifications)
- **EFTA00030562** -- Sixth Production; iPhone NYCO24318 finally produced
- **EFTA00032065** -- Complete email chain showing processing timeline
- **EFTA00037386** -- CART inventory: 3 iPads, 1 iPhone, 1 iMac locked, 1 encrypted HDD
- **EFTA00037676** -- CAIR system; 6 machines still pending
- **EFTA00037913** -- EpsteinNYEvidence.xlsx spreadsheet reference
- **EFTA00038465** -- Master CART Evidence inventory with all 1B numbers

Cellebrite-Specific Documents:

- **EFTA00015738** -- 2,100 images from devices; Cellebrite required for Apple
- **EFTA00015786** -- Three categories of highly confidential images
- **EFTA00020322** -- Cellebrite software provided on review drive
- **EFTA00021015** -- Sternheim letter: MDC computer cannot run Cellebrite
- **EFTA00025553** -- Bannon iPhone 7 reviewed on Cellebrite; Trump-Maxwell photo found
- **EFTA00026890** -- Obscene material restrictions; single laptop for review
- **EFTA00029601** -- Examiner's Cellebrite certifications (CCO + CCPA)
- **EFTA00030999** -- Detailed Bannon/Cellebrite/Trump-Maxwell photo email

DVR / MCC Surveillance Documents:

- **EFTA01649190** -- DVR system architecture: 192 cameras, 2 DVR systems, 16 HDs each
- **EFTA00017948** -- DVR Update: password obtained, DVR 2 not running
- **EFTA00017949** -- Download complete: priority cameras from DVR 1
- **EFTA00017950** -- MCC Video Extraction technical update
- **EFTA00017952** -- 302 for seized hard drives from MCC (DVR 2)
- **EFTA00023970-75** -- Individual collected item logs for DVR 2 hard drives (with S/Ns)
- **EFTA00039025** -- OIG Report: catastrophic disk failures, DFAU Quantico analysis

2005 Palm Beach Computer:

- **EFTA00015823** -- Government letter: 16 EnCase DVDs never searched; no legal authority

Discovery Production / MDC:

- **EFTA00013222** -- Defense complaint: government not complying with discovery
- **EFTA00016292** -- Hard drive delivery to MDC logistics
- **EFTA00021015** -- Sternheim letter to Judge Nathan re: laptop access
- **EFTA00022050** -- Image/Video File Review Protocol with search warrant attachments

Evidence Access / CAIR:

- **EFTA00037676** -- "All devices available through CAIR for over a year"
- **EFTA00037686** -- Adding personnel to CART/CAIR for JE evidence review
- **EFTA01683907-29** -- CAIR Review 90A-NY-3151227 (case number)

Corrupted PDF Forensic Recovery — Dataset 9

Summary

Five files in DOJ Epstein Files Dataset 9 were flagged as corrupted PDFs (0 pages extracted by standard tools). Byte-level forensic analysis revealed they are **not simply corrupted** — they are forensic disk image fragments, truncated scans, and files with non-PDF data saved with `.pdf` extensions during the evidence imaging process.

Key finding: One file ([EFTA00597207](#)) contains **8 Apple macOS Address Book contacts** recovered from raw disk sectors, plus an **iPhone 5s photograph taken on Little Saint James island on August 3, 2014**. The contacts include Epstein's attorney Jay Lefkowitz, known associate Gwendolyn Beck, journalist Michael Wolff, and international contacts including the son of the President of Senegal.

No other public reporting has identified this data. Standard PDF processing pipelines (including bulk OCR, PyMuPDF, Ghostscript, Poppler) all report "0 pages" for this file.

Why These Files Were Missed

Tool	Result on EFTA00597207
PyMuPDF	page_count = 0
Ghostscript	Error: Couldn't initialise file
pdftoppm	10 blank 90-byte PNGs
Our <code>full_text_corpus.db</code>	total_pages: 0
Our <code>extract_full_corpus.py</code>	Skipped (no text layer)

Every bulk processing pipeline skips files with 0 extractable pages. With 2.6 million files in the corpus, nobody manually investigates each one. These five files required reading raw bytes and understanding disk-level forensic imaging artifacts.

The Five Files

[EFTA00597207](#) — Apple Address Book + iPhone 5s Photo

Source: [[EFTA00597207](#)](<https://www.justice.gov/epstein/files/DataSet%209/EFTA00597207.pdf>).pdf (882,743 bytes)

What it actually is: A forensic disk image fragment containing interleaved data from three sources: a linearized PDF skeleton, Apple macOS AddressBook.app binary property lists, and a base64-encoded JPEG photograph.

Structure (byte-level):

Offset 0-18KB: PDF header + 13 compressed objects (real PDF structure, no pages)

Offset 28KB-57KB: 8 Apple Address Book bplist records (4096 bytes each)

Offset 61KB-200KB: Base64-encoded JPEG photograph

Offset 200KB-260KB: Null padding

Offset 260KB-882KB: Compressed data (original PDF page images, irrecoverable)

8 Contacts Recovered:

#	Name	Affiliation	Registry Match
1	[?] Sussman	Houston, TX	Gerald Sussman
2	Karim Wade	Senegalese government (.gouv.sn)	—
3	Jacquie [?]	Green Island Gardens	—
4	Gwendolyn Beck	—	Known Epstein associate
5	Jay Lefkowitz	Kirkland & Ellis LLP	Epstein attorney
6	Michael Wolff	Journalist	Michael Wolff (author)
7	J. Robert Strang	Investigative Management Group	—
8	Jean-Luc [?]	NYC + France phone numbers	—

Photograph recovered:

- **Device:** Apple iPhone 5s running iOS 7.1.2
- **Date:** August 3, 2014, 9:38:27 AM
- **Original resolution:** 3264x2448 (recovered as 640x480 thumbnail)
- **Conditions:** Bright daylight (ISO 40, 1/2740s exposure)
- **Content:** Outdoor location on or near Little Saint James island

Key questions:

1. Whose device was forensically imaged to produce this file?
2. Why does an address book containing Epstein's attorney, a known associate, a journalist, a private investigations firm, and the son of a foreign head of state exist on the same device?
3. J. Robert Strang runs Investigative Management Group — was this firm retained by Epstein's legal team? In what capacity?
4. The Karim Wade + Jean-Luc (France) connection suggests international reach beyond the known Epstein network

Recovery method:

1. Identified bplist00 signatures at 4096-byte aligned offsets within the "PDF"
2. Recognized these as macOS AddressBook.app binary property list records (one contact per sector)
3. Extracted readable strings from each bplist: UUID, First, Last, Phone, Email fields
4. Found base64-encoded JPEG at offset 61440 — decoded to recover iPhone 5s photograph with full EXIF
5. Cross-referenced all names against persons_registry.json (1,536 persons)

EFTA00645624 — Legal Memorandum (Fully Recovered)

Source: [EFTA00645624](<https://www.justice.gov/epstein/files/DataSet%209/EFTA00645624.pdf>).pdf (35,153 bytes)

What it actually is: Single-page CCITT Group 4 fax scan from a Sharp MX-M363N scanner. The PDF is truncated (missing xref table, trailer, and %%EOF marker) but the image data is complete.

Content: Memorandum dated April 22, 2015, from W. Chester Brewer Jr. to Jeffrey Epstein, Darren Indyke, Jack Goldberger, Tonja Haddad Coleman, and Fred Haddad. RE: *Jeffrey Epstein vs. Scott Rothstein, Bradley J. Edwards, et al.* — 15th Judicial Circuit Case No. 502009CA040800XXXXMB. Concerns a UMC hearing about Epstein's motion for fees/costs.
Recovery method: Extracted 31,992 bytes of raw CCITT Group 4 fax data from PDF object 6, constructed a TIFF header (1704x2196, 1-bit, CCITT G4), decoded with PIL, OCR'd with Tesseract.

EFTA01175426 — Faxed Court Order (10 of 11 Pages Recovered)

Source: [EFTA01175426](https://www.justice.gov/epstein/files/DataSet%209/EFTA01175426.pdf).pdf (826,803 bytes)

What it actually is: 11-page linearized PDF truncated by ~10,735 bytes, missing the main xref table and Pages tree object.

Content: San Mateo County Superior Court probate order — "Order Approving Modification of Trust" for the Elisa Zaffaroni irrevocable trust (dated April 15, 1989). Involves trustee succession, J.P. Morgan Trust Company as corporate co-trustee, a \$4.1M principal distribution for a Tiburon, CA residence. References David Packard (Hewlett-Packard) and the Zaffaroni family. Faxed from "Academic Affairs" at UT Dallas (972-883-6764), March 2012/2014.

Recovery method: All PDF tools failed on the truncated xref. Regex-scanned the raw file for /Subtype/Image objects with CCITTFaxDecode parameters (W=1728, H=2203, K=0, Group 3).

Found 10 image objects, extracted each stream, built TIFF headers, decoded with PIL.

EFTA01220934 — Forensic Disk Image Fragment (Not a PDF)

Source: [EFTA01220934](https://www.justice.gov/epstein/files/DataSet%209/EFTA01220934.pdf).pdf (1,138,878 bytes)

What it actually is: Raw disk image sectors (~279 sectors of 4096 bytes) from a Windows PC hard drive, saved as .pdf during forensic imaging. Contains cached web content, application files, and fragmented photographs.

Carved content:

- 9 JPEG files (7 viewable, 2 corrupted) — cached web images showing classic sector fragmentation: top half renders correctly, bottom half is garbage from unrelated sectors
- 1 GIF (application icons)
- 2 PNGs (tiny UI elements)
- 1 HTML file (Macromedia Dreamweaver tag library dialog)
- 1 RTF file (browser Extended Validation certificate help text)
- 3 XML Windows assembly manifests (IE compatibility, MSAuditEvtLog)
- 1 Apple Interface Builder plist (music application UI)
- 1 Adobe license agreement fragment (in Czech)

None of this content is case-relevant. It is miscellaneous cached/installed software data from whatever computer was forensically imaged.

Why the JPEGs are half-broken: JPEG uses sequential encoding. When a JPEG file spans disk sectors 100-102 but only sector 100 was captured contiguously (101-102 contain data from other files), the decoder renders the first N scan lines, then produces noise.

EFTA00593870 — Court Filing (Page 1 of 4 Recovered)

Source: [EFTA00593870](https://www.justice.gov/epstein/files/DataSet%209/EFTA00593870.pdf).pdf

(45,783 bytes)

What it actually is: Linearized PDF with 64.3% null bytes — the file header and first four disk sectors contain real data, but the remaining eight sectors are zeroed out.

Content: *Jane Doe #1 and Jane Doe #2 v. United States* — Case No. 9:08-cv-80736-KAM (Marra/Johnson). "Unopposed Motion of Jane Doe 1 and 2 to Exceed Page Limits in Their Response to the Government's Motion for Summary Judgment." Document 412, entered on FLSD Docket 08/11/2017. From the landmark Crime Victims' Rights Act case.

Recovery method: Decompressed 8 FlateDecode streams from the 4 non-null sectors using zlib. Extracted text from PDF content stream Tj/TJ operators. Reconstructed readable text from letter-spaced OCR encoding.

Methodology

All five files were subjected to the same byte-level analysis pipeline:

1. **Header inspection** — Verify PDF signature, locate all %%%EOF markers, enumerate objects
2. **Sector mapping** — Classify every 4096-byte sector by content type and entropy level
3. **File signature scanning** — Search for embedded magic bytes (JPEG FFD8FF, PNG 89504E47, bplist, GIF, RTF, HTML, ZIP, SQLite, XML, OLE, email headers)
4. **Stream extraction** — For valid PDF objects, extract and attempt FlateDecode decompression
5. **CCITT fax decoding** — Extract raw CCITT data, construct TIFF headers with correct parameters (Group 3 vs Group 4, dimensions, EndOfBlock), decode with PIL
6. **PLIST parsing** — For Apple binary plists, extract readable strings and identify AddressBook.app contact field structures (UID, First, Last, Phone, Email)
7. **Base64 decoding** — Identify and decode base64-encoded content within raw sectors
8. **EXIF extraction** — For recovered photographs, extract camera model, date, GPS, settings
9. **OCR** — Tesseract with appropriate page segmentation modes on all recovered images
10. **Cross-referencing** — Check extracted names against persons_registry.json (1,536 persons)

Tools

- Python 3.x (struct, re, zlib, base64, plistlib, io)
- PIL/Pillow (image decoding, TIFF construction)
- Tesseract OCR
- PyMuPDF, Ghostscript, pdftoppm (attempted standard recovery — all failed)

Reproducing These Results

Every source file is publicly available from the DOJ Epstein Files release:

- Dataset 9: <https://www.justice.gov/epstein/dataset-9>

- Archive.org mirror: <https://archive.org/download/Epstein-Dataset-9-2026-01-30/>

The analysis requires only standard Python libraries and Tesseract. No specialized forensic tools are needed — just the willingness to read bytes that PDF viewers refuse to open.

Corrupted PDF Forensic Recovery —

Dataset 9

Summary

Five files in DOJ Epstein Files Dataset 9 were flagged as corrupted PDFs (0 pages extracted by standard tools). Byte-level forensic analysis revealed they are **not simply corrupted** — they are forensic disk image fragments, truncated scans, and files with non-PDF data saved with .pdf extensions during the evidence imaging process.

Key finding: One file ([EFTA00597207](#)) contains **8 Apple macOS Address Book contacts** recovered from raw disk sectors, plus an **iPhone 5s photograph taken on Little Saint James island on August 3, 2014**. The contacts include Epstein's attorney Jay Lefkowitz, known associate Gwendolyn Beck, journalist Michael Wolff, and international contacts including the son of the President of Senegal.

No other public reporting has identified this data. Standard PDF processing pipelines

(including bulk OCR, PyMuPDF, Ghostscript, Poppler) all report "0 pages" for this file.

Why These Files Were Missed

Tool	Result on EFTA00597207
PyMuPDF	page_count = 0
Ghostscript	Error: Couldn't initialise file
pdftoppm	10 blank 90-byte PNGs
Our <code>full_text_corpus.db</code>	total_pages: 0
Our <code>extract_full_corpus.py</code>	Skipped (no text layer)

Every bulk processing pipeline skips files with 0 extractable pages. With 2.6 million files in the corpus, nobody manually investigates each one. These five files required reading raw bytes and understanding disk-level forensic imaging artifacts.

The Five Files

EFTA00597207 — Apple Address Book + iPhone 5s Photo

Source: [EFTA00597207](https://www.justice.gov/epstein/files/DataSet%209/EFTA00597207.pdf).pdf (882,743 bytes)

What it actually is: A forensic disk image fragment containing interleaved data from three sources: a linearized PDF skeleton, Apple macOS AddressBook.app binary property lists, and a base64-encoded JPEG photograph.

Structure (byte-level):

Offset 0-18KB: PDF header + 13 compressed objects (real PDF structure, no pages)

Offset 28KB-57KB: 8 Apple Address Book bplist records (4096 bytes each)

Offset 61KB-200KB: Base64-encoded JPEG photograph

Offset 200KB-260KB: Null padding

Offset 260KB-882KB: Compressed data (original PDF page images, irrecoverable)

8 Contacts Recovered:

#	Name	Affiliation	Registry Match
1	[?] Sussman	Houston, TX	Gerald Sussman
2	Karim Wade	Senegalese government (.gouv.sn)	—
3	Jacque [?]	Green Island Gardens	—
4	Gwendolyn Beck	—	Known Epstein associate
5	Jay Lefkowitz	Kirkland & Ellis LLP	Epstein attorney
6	Michael Wolff	Journalist	Michael Wolff (author)
7	J. Robert Strang	Investigative Management Group	—
8	Jean-Luc [?]	NYC + France phone numbers	—

Photograph recovered:

- **Device:** Apple iPhone 5s running iOS 7.1.2
- **Date:** August 3, 2014, 9:38:27 AM
- **Original resolution:** 3264x2448 (recovered as 640x480 thumbnail)
- **Conditions:** Bright daylight (ISO 40, 1/2740s exposure)
- **Content:** Outdoor location on or near Little Saint James island

Key questions:

1. Whose device was forensically imaged to produce this file?
2. Why does an address book containing Epstein's attorney, a known associate, a journalist, a private investigations firm, and the son of a foreign head of state exist on the same device?
3. J. Robert Strang runs Investigative Management Group — was this firm retained by Epstein's legal team? In what capacity?
4. The Karim Wade + Jean-Luc (France) connection suggests international reach beyond the known Epstein network

Recovery method:

1. Identified `bplist00` signatures at 4096-byte aligned offsets within the "PDF"
 2. Recognized these as macOS AddressBook.app binary property list records (one contact per sector)
 3. Extracted readable strings from each bplist: UUID, First, Last, Phone, Email fields
 4. Found base64-encoded JPEG at offset 61440 — decoded to recover iPhone 5s photograph with full EXIF
 5. Cross-referenced all names against `persons_registry.json` (1,536 persons)

EFTA00645624 — Legal Memorandum (Fully Recovered)

Source: [EFTA00645624](<https://www.justice.gov/epstein/files/DataSet%209/EFTA00645624.pdf>).pdf (35,153 bytes)

What it actually is: Single-page CCITT Group 4 fax scan from a Sharp MX-M363N scanner. The PDF is truncated (missing xref table, trailer, and %%EOF marker) but the image data is complete.

Content: Memorandum dated April 22, 2015, from W. Chester Brewer Jr. to Jeffrey Epstein, Darren Indyke, Jack Goldberger, Tonja Haddad Coleman, and Fred Haddad. RE: *Jeffrey Epstein vs. Scott Rothstein, Bradley J. Edwards, et al.* — 15th Judicial Circuit Case No. 502009CA040800XXXMB. Concerns a UMC hearing about Epstein's motion for fees/costs.

Recovery method: Extracted 31,992 bytes of raw CCITT Group 4 fax data from PDF object 6, constructed a TIFF header (1704x2196, 1-bit, CCITT G4), decoded with PIL, OCR'd with Tesseract.

EFTA01175426 — Faxed Court Order (10 of 11 Pages Recovered)

Source: [EFTA01175426](<https://www.justice.gov/epstein/files/DataSet%209/EFTA01175426.pdf>).pdf (826,803 bytes)

Recovery method: All PDF tools failed on the truncated xref. Regex-scanned the raw file for `/Subtype/Image` objects with `CCITTFaxDecode` parameters (`W=1728, H=2203, K=0, Group 3`).

Found 10 image objects, extracted each stream, built TIFF headers, decoded with PIL.

EFTA00004800 DEEP DIVE: FBI Digital

Evidence Directory

"Book 17" -- Seized Digital Media Thumbnail Catalog

Document: EFTA00004800

Source PDF: datasets/dataset3/VOL00003/IMAGES/0001/EFTA00004800.pdf

Total Pages: 98 (extracted as 98 individual PNG images)

Redaction Profile: 594 total redactions (52 bad/recoverable, 542 proper)

Companion Document: EFTA00004898 (77 pages, "Book" series continuing with PB/LSJ CLOUDS, PB SUNSET, CARNIVAL, B&W, LSJ ROOMS)

1. DOCUMENT OVERVIEW

EFTA00004800 is a **physical binder photographed page-by-page** containing thumbnail contact sheets and photographs of CDs/DVDs seized from Jeffrey Epstein's properties. The document is labeled "**BOOK 17**" on its cover page (page 1) and serves as an FBI evidence directory cataloging the contents of seized optical media.

The cover page (page 1) reveals the binder's organizational categories:

- **LSJ/BOAT** (Little Saint James island / boat)
- **PB** (Palm Beach)
- **MISC CLOUDS**
- **WEDDING/TUCKER/N SALEM** (North Salem, NY -- subsequently identified as the "**Kidd Wedding**"; see Section 3D)
- **BOOK 17** (sequential evidence binder number)

This document is part of a sequential series: EFTA00004663 is "Book 16" (containing LSJ BOAT VIEWS, MALLORCA, CANCER BENEFIT, LSJ XMAS 04, JEAN LUC ZORRO)

and EFTA00005091 is "Book 20" (containing LSJ WATER, 29 BDAY, LSJ XMAS05, LSJ/PUERTO RICO/GUANA, PINTO HOUSE PICS, CLOUDS, BRAZIL, MISC, LSJ AERIAL, WALTER CRONKITE, ST. BARTS, CHATEAU VILLETTE, CHATEAU GUERAMENTES, LSJ SUNSETS, PARIS 07, TAOS SKIING).

Key Abbreviations Decoded

- **LSJ** = Little Saint James (Epstein's private island, USVI)
- **GSJ** = Great Saint James (Epstein's second island)
- **PB** = Palm Beach (Epstein's Florida residence)
- **N SALEM / North Salem** = North Salem, New York (Epstein-connected property)
- **LSJE, LLC** = Little Saint James Enterprises, LLC (6100 Red Hook Quarters, Suite B-3, St. Thomas, VI 00802)

- **SK** = Likely Shuliak, Karyna (Epstein's last girlfriend, Butterfly Trust beneficiary)
- **MISC LSJ** = Miscellaneous Little Saint James photos

2B. Unscanned Media Inventory

The binder documents at least **23 optical media items** (CDs and DVDs) that were seized but either not scanned or flagged as containing CSAM:

CSAM-Flagged Media (2 items):

1. **Page 20:** CSAM NOT SCANNED -- "Official DocLab Instruction(s) -- Revised March 10th, 2025." Handwritten note partially legible. This is a DocLab "kicksheet" -- a blue placeholder inserted where CSAM was found during scanning.
2. **Page 79:** CSAM NOT SCANNED -- "Official DocLab Instruction(s) -- Revised March 10th, 2025." Handwritten note reads what appears to be "Pict" (possibly "Pictures" or a count). Same kicksheet format.

DocLab Protocol Confirmed: The kicksheet system is explicitly documented in [EFTA00147819](#) (DS9, page 3), an email from an FBI DocLab technician to SDNY prosecutors dated July 12, 2019:

"There were some pornographic images of young girls. These were not imaged per our protocols. As you review the content anywhere these images may have been you will see a DocLab kicksheet that states 'possible child pornography' DO NOT SCAN. The original documents are still in their original location -- they were just not scanned."

A follow-up in October 2020 ([EFTA00101087](#)) confirmed: "There should have been kick sheets denoting where the pornographic images were removed, but a keyword search of the scan output for the Doclab form would confirm this."

Timeline Note: The revision date of March 10, 2025 on the CSAM sheets reflects ongoing re-review. The Epstein Estate discovered "new videos and photographs" on March 14, 2023 ([EFTA00144344](#)), leading to a court-ordered CSAM review protocol. This aligns with [EFTA00039019](#)'s finding that CSAM was discovered during the 2023 estate settlement.

Comparison with [EFTA00004898](#) (companion binder): That document has CSAM pages at pages 22 and 73 with handwritten notes specifying "**25 Thumbnails**" and "**27 Thumbnails**" respectively -- indicating the exact count of CSAM images found on those media. The [EFTA00004800](#) CSAM pages likely have similar counts but the handwritten notes are less legible in OCR.

Items Not Scanned (19 separate media):

3. CRITICAL CONTENT ANALYSIS

3A. The "Grapes" Files (Page 17)

Image: `extracted_images/EFTA00004800_p17_i0_c037f22b888b99af.png`

Page 17 shows a thumbnail contact sheet with **4 large black rectangles** (redacted/suppressed images) with visible filenames:

- **grapes7 copy.jpg**
- **grapes2 copy 1.jpg** (alternate OCR: "grapes? copy 1.jpe")
- **grapes6 copy.jpg** (alternate OCR: "grapes? copy.jpj")
- **grapes3 copy.jpg**

OCR full text: `copys rapes? copy 1.jpe rapes grapes? copy.jpj grapes? copy 1. 'grapes3 copy.jpg`

Analysis: These files are entirely blacked out (replaced with solid black rectangles). The naming convention "grapes[N] copy.jpg" strongly suggests a series of related images. The images were on a

CD that immediately precedes the CSAM NOT SCANNED page (p20), placing them in the same evidence section as confirmed CSAM material. The "grapes" naming convention could be:

1. Code/euphemistic filename for illicit content
2. Actual grape photographs (but the complete redaction undermines this innocent interpretation)
3. Part of a series that was partially or wholly classified as CSAM

Context: Pages 15-17 contain a sequential series of files named "model_1.jpg" through "model_21.jpg" (pages 15-16) followed by the "grapes" files (page 17), followed by "ITEM WAS NOT SCANNED - CD" (page 18), then a CD photo (page 19), then **CSAM NOT SCANNED** (page 20). This sequence suggests these files were on the same CD or adjacent CDs in the binder, and the entire section was ultimately flagged.

3B. The "Model" Files (Pages 15-16)

Images:

- extracted_images/EFTA00004800_p15_i0_a060f0f5c5b92f90.png
- extracted_images/EFTA00004800_p16_i0_507fe7d693a838d8.png

Pages 15-16 display a sequential series of **21 files** named:

- model_1.jpg through model_11.jpg (page 15, 12 thumbnails in grid)
- model_12.jpg through model_21.jpg (page 16, 9 thumbnails)

All thumbnails are blacked out (solid black rectangles), indicating the content was suppressed/redacted. The "model_" naming prefix is concerning given Epstein's documented use of MC2 Model Management and his pattern of recruiting young women under the guise of modeling.

Critical proximity: These "model" files appear on the **same CD** as the "grapes" files and are in the section immediately preceding CSAM NOT SCANNED material.

3C. "SK Pics" (Page 22)

Image: extracted_images/EFTA00004800_p22_i0_910c719d9f231cb8.png

Page 22 is labeled "**SK pics**" at the top and contains a grid of thumbnail photographs (DSC00941.JPG through DSC00955.JPG). Many thumbnails show what appear to be stone or brick surfaces/walls (possibly property photos), with some showing outdoor scenes. Some thumbnails are partially obscured.

"SK" identification: Based on the broader evidence corpus, "SK" most likely refers to **Karyna Shuliak** -- Epstein's last known girlfriend who was:

- A named beneficiary of the Butterfly Trust ([EFTA01282297](#))
- Resident at 301 E 66th St APT 8H (same building as MC2, Barak apartment, and corporate entities)
- Connected to Lithuanian ballet payments via Gratitude America

3D. "North Salem / Kidd Wedding / Tucker" Content (Pages 88-96)

Images:

- extracted_images/EFTA00004800_p91_i0_75b614f6437eb59a.png
- extracted_images/EFTA00004800_p94_i0_10ef8bf19d467b1e.png

Pages 88-92 show extensive thumbnail contact sheets labeled "**North Salem / Kidd Wedding / Tucker**" (full label confirmed via OCR in [EFTA00245479-EFTA00245483](#), DS9). The cover page could only be read as "WEDDING/TUCKER/N SALEM" -- the "Kidd" wedding family name was obscured. Photos are from what appears to be an outdoor event/wedding at a property in North Salem, New York. The camera filenames include both CIMG (Casio camera) and DSC (Sony/Nikon camera) prefixes:

- CIMG0528-CIMG0566 (pages 88-90)
- DSC01734-DSC01764 (pages 90-92)

Page 89 notably includes **3 video files** (AVI format): CIMG0554.AVI, CIMG0555.AVI, CIMG0556.AVI -- indicating video was also captured at this event.

Page 94 shows the physical CD: a **SONY CD-R 700MB** with handwritten label "**wedding/ N. Salem**" -- confirming the North Salem connection.

North Salem geographic context: North Salem is a town in Westchester County, NY. DS9 email chains (48 documents) confirm the Dubin family's North Salem/South Salem residence and Epstein's direct involvement in staffing it:

- [EFTA00396552](#) (Jan 2013): Lesley Groff staffing Eva Dubin's South Salem caretaker position
- [EFTA00823233](#) (Jul 2016): Epstein to Eva Dubin offering his own employee Janusz Banasiak for North Salem
- [EFTA01058334](#) (Dec 2016): Eva Dubin: "interested in exploring Janusz and Ofelia taking a couples position in North Salem"
- [EFTA00784306](#) (Mar 2019): Epstein iMessage references being "In North Salem"

Whether the "Kidd Wedding" was a Dubin family event or a separate North Salem event remains unclear, but the geographic connection to the Dubin property is established.

3E. "Max Wandtke" CD (Page 9)

Image: [extracted_images/EFTA00004800_p9_i0_5fec0e4fb2494b7b.png](#)

Page 9 shows a CD with the handwritten name "**Max Wandtke**" clearly visible. This CD was part of a pair (the "2 CD'S" referenced in the NOT SCANNED notice on page 8).

Confirmed ghost: "Wandtke" returns zero results across the entire 1,380,937-document corpus (all 12 datasets). The name exists only on this physical CD label. No emails, financial records, or FBI reports reference this person. This is consistent with the ALEXANDER_WANDTKE_NSALEM_INVESTIGATION.md finding that Max Wandtke is identifiable only by this single CD label.

3F. Email Files (Page 7)

Page 7 contains thumbnail images with filenames:

- **Email0001.jpg**
- **Email0001-1.jpg**
- **Email0001-3.jpg**

These appear to be screenshots or exports of emails, suggesting the CDs also contained email correspondence in addition to photographs.

3G. "Save" Series Files (Page 6)

Page 6 contains files named:

- **Save0007.jpg**
- **Save0008.jpg**
- **Save0009.jpg**

Additional "Save" files appear on page 6 in the analysis context as "Save000" prefixed files. These appear to be digital saves/exports, possibly from a web browser or other application. The analysis notes these are in "Print File" format, part of a forensic or investigative report format, with people photographed who have their faces obscured by black bars.

4. MEDIA AND DEVICE IDENTIFICATION

4A. Optical Media Brands Identified

- **Apple DVD-R 4.7GB** (multiple: pages 12, 31, 47, 54, 64, 69, 74, 81, 98)
- **Philips CD-R80 48x 700MB** (page 10)
- **Sony CD-R 700MB** (page 94)
- **Verbatim CD** (pages 59, 81)
- **NASHUA CD-R 80MIN** (pages 86-87)

- **CL DataLifePlus** (page 19)
- **CD-RW 700MB 48x** (page 14)

4B. Camera Sources Identified

From the thumbnail filenames across the binder, at least **4 different cameras** were used:

1. **DSCF prefix** (Fujifilm) -- DSCF0001_1.TIF through DSCF0145+, multiple series
2. **DSC prefix** (Sony/Nikon) -- DSC00482 through DSC01764+, extensive series
3. **CIMG prefix** (Casio) -- CIMG0154 through CIMG0566+, used at North Salem
4. **IMG prefix** -- IMG_1988 through IMG_2001+ (page 2)

4C. Date Markers on Media

Several DVDs have handwritten dates:

- "4/05" (April 2005) -- page 74
- "1 9/05" (September 2005, disc 1) -- page 64
- "2 9/05" (September 2005, disc 2) -- page 69

These dates place the content creation in **2005**, during the period when Palm Beach Police were beginning their investigation (which formally started in March 2005 when a woman reported that her 14-year-old stepdaughter had been taken to Epstein's home).

4D. Handwritten Labels on CDs/DVDs

Page	Label	Decoded
9	"Max Wandtke"	Person name
10	"pics"	General photos
25	"pics"	General photos
38	"LSS" (likely "LSJ")	Little Saint James
42	"LS) P2S" (garbled OCR)	Likely "LSJ pics"
47	"MISCLSJ"	Miscellaneous Little Saint James
54	"LSJ"	Little Saint James
64	"1 9/05"	September 2005, disc 1
69	"2 9/05"	September 2005, disc 2
74	"4/05"	April 2005
78	"clouds"	Cloud/sky photographs
94	"wedding/ N. Salem"	Wedding at North Salem

5. CONTENT THEMES FROM THUMBNAIL ANALYSIS

5A. Boats and Water Activities (Pages 26-29, 43-52)

Multiple pages show extensive boat photography (sailboats, jet skis, water activities) at what appears to be a Caribbean location (consistent with Little Saint James). Pages 48-51 show jet ski activity with faces obscured by black bars.

5B. People with Obscured Faces (Multiple Pages)

Pages 6, 7, 32, 35, 36, 40, 44, 48-51, 60, 82-84 show photographs of people with faces deliberately obscured (black squares/bars). This represents the FBI/DocLab redaction process for privacy/legal reasons. Analysis notes:

- People in swimsuits and casual attire (pp. 35, 48-49)
- People in hotel rooms, including with beds (pp. 60, 82)
- People on boats (pp. 26-27, 35)
- People in indoor settings, including bedrooms (pp. 7, 39-40, 60)

- People lying on beds with bodies partially covered by blankets (p. 60)

5C. Property/Interior Photographs (Pages 39-40, 55-56)

Contact sheets showing interior spaces, furniture, rooms -- consistent with property documentation of Epstein residences.

5D. Aerial/Cloud Photography (Pages 33, 75-76, 78)

Sky and cloud photographs taken from aircraft, plus a CD specifically labeled "clouds." Multiple pages of aerial/cloud photography suggest either artistic interest or documentation of travel routes.

5E. North Salem/Wedding Event (Pages 88-96)

Extensive documentation of an outdoor event at North Salem, NY, including both still photos (CIMG and DSC series) and video files (3 AVI files on page 89).

5F. Black Rectangles / Suppressed Content

Multiple pages show thumbnails replaced entirely by black rectangles, particularly:

- Pages 3-5: DSCF series (yellow sticky notes visible, all thumbnails blacked)
- Pages 15-17: model_1-21.jpg and grapes files (ALL blacked out)
- Pages 57, 61-62, 65, 67, 71-72: Various DSCF series files (many blacked)

The systematic blacking out of these specific thumbnails (while others on nearby pages show visible content) indicates targeted suppression of particular images -- likely those containing nudity, potential victims, or CSAM.

6. THE 22-BOX EVIDENCE SCANNING PROJECT

DS9 contains the complete email chain documenting the SDNY/DocLab evidence scanning operation that produced these binders ([EFTA00147819](#) and related documents):

Date	Event
June 27, 2019	SDNY prosecutors contact DocLab: "approximately 23 boxes of papers... two boxes from FBI case file 72-MM-113327 and the remainder from FBI case file 31E-MM-108062"
July 2, 2019	DocLab: "How much wiggle room can I get on the deadline... boxes going from 15 to 22"
July 3, 2019	"22 boxes about 5 minutes ago. We discovered that the Miami Field Office had requested DocLab to scan a number of them back in 2013"
July 9, 2019	"We finished inventorying all 22 boxes and released everything to DocLab last evening for scanning"
July 12, 2019	Scanning complete. "Pornographic images of young girls" flagged with kick sheets. "Discs scattered throughout" -- copied 4x each (standard: defense, AUSA, Agent, backup).
July 15, 2019	SDNY asks about locating unscanned images; confirms 55 discs will be reviewed separately
July 25, 2019	SDNY follows up: "Want to very briefly check in with you before giving the 55 discs to our vendor here"
October 12, 2020	Maxwell case discovery follow-up: "DocLab unit chief" contacted about kick sheets and disc labeling

Case files identified:

- **31E-MM-108062**: Main Epstein/Maxwell investigation (WSTA -- Child Prostitution, FBI Miami)
- **72-MM-113327**: Alfredo Rodriguez obstruction case (2 of 22 boxes)

The discs found in the boxes "contain pdfs (searchable), jpgs, gifs, and tif files" -- these were not

processed, just physically copied 4x. The Book 17 binder CDs/DVDs would be among the 55 discs referenced.

BALEEN SWEEP Connection

The same DocLab facility (170 Marcel Drive, Winchester, Virginia 22602) processed the 2010 Alfredo Rodriguez evidence via "BALEEN SWEEP" operation -- 15+ DS9 documents ([EFTA00108625-EFTA00108746](#)) document the scanning of Rodriguez address book toll records, forwarded to the Special Technologies and Applications Office (STAO). This connects the 2010 evidence processing to the same facility that later processed the 22 boxes in 2019.

7. EVIDENCE CHAIN AND CSAM FINDINGS

7A. The Two CSAM-Flagged Media in This Binder

CSAM Item 1 (Page 20):

- **Preceding content:** Pages 15-17 show "model_1.jpg" through "model_21.jpg" and "grapes" series -- ALL blacked out
 - **Preceding CD:** Page 19 shows "CL DataLifePlus" CD
 - **Preceding NOT SCANNED:** Page 18 indicates an unscanned CD
 - **CSAM sheet:** Blue DocLab placeholder, March 2025 revision
 - **Following content:** Pages 21-22 show DSC00821-DSC00955 series, labeled "SK pics"
- This places the "model" and "grapes" files in **direct proximity** to confirmed CSAM, strongly suggesting they were on the same CD or the immediately adjacent CD in the evidence sequence.

CSAM Item 2 (Page 79):

- **Preceding content:** Pages 75-76 show cloud photographs (DSC00482-DSC00502)
- **Preceding CD:** Page 78 shows CD labeled "clouds"
- **Preceding NOT SCANNED:** Page 77 indicates unscanned CD
- **CSAM sheet:** Blue DocLab placeholder, March 2025 revision, handwritten note "Pict" (possibly picture count)
- **Following content:** Pages 80-84 show NOT SCANNED (1 DVD + 1 CD), then photos including people at locations

7B. Cross-Reference with [EFTA00004898](#)

The companion binder [EFTA00004898](#) (77 pages) has its own organizational categories:

- PB/LSJ CLOUDS, PB SUNSET, LSJ, MISC, CARNIVAL, B&W, LSJ ROOMS

[EFTA00004898](#) has **2 additional CSAM pages**:

- **Page 22:** CSAM NOT SCANNED -- handwritten "25 Thumbnails"
- **Page 73:** CSAM NOT SCANNED -- handwritten "27 Thumbnails"

Combined, the two binders document **4 CDs/DVDs containing confirmed CSAM** with at least **52 thumbnails** identified (25+27 from [EFTA00004898](#); counts not fully legible for [EFTA00004800](#)).

7C. Alignment with Known Evidence Findings

This finding aligns with:

- [EFTA00038617](#) (FBI CID summary, approved 7/17/2024): "small number of CSAM images found on one of Epstein's devices"
- [EFTA00039019](#): CSAM found during 2023 estate settlement -- missed in initial 2019-2021 evidence processing
- [EFTA02730741](#): CD labeled "girl pics nude book 4" in evidence
- [EFTA00024584](#): "Nudes 1" and "Girl pics nude" found in locked safe, some appearing underage
- [EFTA00020974](#): "Highly confidential responsive material" (nude/semi-nude images/videos) from 14 devices compiled Jan 2021

CSAM Legal Context: A 55-page legal filing from the Marsh Law Firm ([EFTA00144344](#)) to the FBI

Director, Inspector General, and Attorney General documents the full CSAM investigation timeline: 1996 FBI report by victim documenting CSAM concerns, 2005 child erotica found in Palm Beach home, 2008 investigation ended "prematurely" per OPR Report, and 2023 estate discovery of new videos and photographs leading to a court-ordered CSAM review protocol. A separate Notice of Claim ([EFTA00143419](#)) references the FBI's failure to investigate Epstein's CSAM crimes and the "premature" truncation of the 2008 investigation.

The "Book 17" binder is part of the physical evidence documentation system. The CSAM designations on pages 20 and 79 were applied through the DocLab kicksheet protocol confirmed in [EFTA00147819](#).

8. TOTAL UNSCANNED MEDIA COUNT

Book 17 ([EFTA00004800](#)):

- 19 "ITEM NOT SCANNED" pages documenting approximately 23 individual media items:
- 8 DVDs
- 8 CDs (including 3 multi-CD sets: "2 CD'S" x2 and "1 DVD / 1 CD" x1)
- 2 CSAM items (type unspecified on placeholder sheets)
- 1 unspecified item (page 93)

Book continuation ([EFTA00004898](#)):

- 12 "ITEM NOT SCANNED" pages plus 2 CSAM pages
- Includes sets of "5 DVD'S" (p58) and "5 CD's" (p64)

Combined across both binders: ~50+ individual optical media items were either not scanned or flagged as CSAM. This represents a significant volume of unprocessed digital evidence from Epstein's seized property.

9. THE "MISCLSJ" DVD (Page 47)

Image: [extracted_images/EFTA00004800_p47_i0_90467929ed3bb30c.png](#)

This Apple DVD-R is clearly labeled "MISCLSJ" -- "Miscellaneous Little Saint James." Its content pages (48-52) show:

- Jet ski activities with face-obscured individuals (pp. 48-49)
- Inflatable water toys, a dog on a beach (p. 50)
- Water activities with life jackets (p. 51)
- Final dog photos on sandy beach (p. 52)

This represents typical leisure photography from Epstein's private island, including unidentified individuals.

10. VIDEO FILES DOCUMENTED

Page 89 reveals 3 AVI video files in the North Salem/Wedding series:

- CIMG0554.AVI
- CIMG0555.AVI
- CIMG0556.AVI

These video files are interspersed among still photos (CIMG0546-CIMG0561), indicating they were captured by the same Casio camera during the wedding event. The CIMG prefix and AVI format are characteristic of Casio Exilim digital cameras from the 2004-2006 era.

11. KEY FINDINGS SUMMARY

1. **CSAM protocol confirmed by direct evidence:** DocLab technician email ([EFTA00147819](#)) explicitly states: "There were some pornographic images of young girls. These were not imaged per our protocols... you will see a DocLab kicksheet that states 'possible child pornography' DO NOT SCAN." The CSAM NOT SCANNED pages (20, 79) in this binder are confirmed instances of these kicksheets. Combined with [EFTA00004898](#), at least 4 CDs/DVDs across the two binders contained CSAM.
2. **"model_1.jpg" through "model_21.jpg"** -- 21 completely blacked-out image files in immediate proximity to CSAM-flagged media, with filenames suggesting "modeling" photographs. Given Epstein's MC2 recruitment of minors ages 13-20, these files warrant particular scrutiny.
3. **"grapes" series files** -- 4+ completely blacked-out images with unusual filenames ("grapes7 copy.jpg" etc.) on the same CD section as CSAM. No document in the full 1.42M-document corpus references this naming convention; the filenames remain unexplained.
4. **~50+ optical media items across two binders** were never fully scanned during evidence processing. These were among the 55 discs found during the 22-box scanning operation that were copied 4x but not digitally processed.
5. **"SK pics"** likely documents Karyna Shuliak (Epstein's last girlfriend/Butterfly Trust beneficiary), connecting this evidence binder to the broader network.
6. **Dates on media (April and September 2005)** place content creation during the period when the Palm Beach Police investigation was beginning, meaning Epstein was still actively creating and organizing this content even as law enforcement was closing in.
7. **Multiple LSJ (Little Saint James) labeled media** confirm these are photographs from Epstein's private island, documenting activities with unidentified individuals whose faces have been systematically obscured.
8. **Wedding identified as "Kidd Wedding"** at North Salem, NY -- full CD label "North Salem/Kidd Wedding/Tucker" confirmed via DS9 OCR. North Salem is established as the area of the Dubin family property, where Epstein actively staffed positions.
9. **Max Wandtke confirmed as total ghost** across 1,380,937 documents. The name exists only on the physical CD label.
10. **The 22-box evidence processing chain** is now fully documented: 22 boxes scanned June-July 2019, 55 discs extracted, DocLab kicksheets inserted for CSAM, same DocLab facility that processed the 2010 Rodriguez evidence via BALEEN SWEEP.

KEY EVIDENCE QUOTES (Verbatim from Documents)

Leon Black (EFTA02731082, Page 33)

*"Epstein instructed [victim] to massage Leon Black at Epstein's New York residence. [She] attempted to give Black an ordinary massage, but **Black began initiating sexual contact, at which point [she] ran out of the room.**"*

*"[Another victim] told [her] that she had provided **Black with oral sex during the massage.**"*

Jes Staley (EFTA02731082, Page 33)

*"Epstein instructed [victim] to provide a massage to Jes Staley in Epstein's New York residence. [She] attempted to give him an ordinary massage, but **he forced [her] to touch his genitals and then raped [her].**"*

"Afterwards, [she] complained to Epstein, who said he left it to [her] and Staley to decide whether to engage in sex."

CORROBORATION: Footnote 61 states: "These productions include messages exchanged between Jes Staley and Epstein around the period when [victim] recalled being [raped] by Staley."

Prince Andrew (EFTA02731082, Page 58)

*"Maxwell told [victim] that she was going to meet a prince and should **make him happy and do the exact same things for him that she did for Epstein** because the prince was a good friend of Maxwell's."*

Glenn Dubin (EFTA02731082, Page 58)

*"Maxwell told [victim] to massage Glen and Eva Dubin and explicitly told [her] that **she had to do to Glen what [she] did for Epstein**, which [she] understood to mean engage in sex acts."*

"Lent Out" System (EFTA02731082, Page 58)

*"[Victim] used the term '**lent out**' to describe instances in which Maxwell or Epstein directed her to have sexual contact with other men."*

*"[She] explained that she was '**lent out**' so many times that **she began using drugs**, and she cannot estimate how many times she was '**lent out**' to other people."*

Cover-Up Evidence (VI Exhibit 1, Page 41 - HIDDEN UNDER REDACTION)

*"Defendants also attempted to conceal their criminal sex trafficking and abuse conduct by **paying large sums of money to participant-witnesses**, including by paying for their attorneys' fees and case costs in litigation related to this conduct."*

*"Epstein also instructed one or more Epstein Enterprise participant-witnesses to **destroy evidence** relevant to ongoing court proceedings involving Defendants' criminal sex trafficking and abuse conduct."*

FINANCIAL EVIDENCE

Payments to Victims/Recruiters (VI Exhibit 1 - Hidden Under Redactions)

- \$400,000+ in checks to "young female models and actresses"

- **\$380,000** to a "former Russian model" via monthly payments of \$8,333
- **\$50,000** to "women with Eastern European surnames, including one known to have recruited young women and girls for Epstein"
- **\$60,000** wired "to young women mostly at foreign beneficiary banks"

Leon Black Payments (Senate Finance Committee Letter - EFTA02731023)

- **Total paid to Epstein: \$158 million** (2012-2017)
- **NO written contract** for payments over \$100M
- Tax savings achieved: **\$1 billion+** in gift/estate taxes
- Black **refused to answer** questions about the payments

Property Evidence (VI Exhibit 1 - Hidden)

- Santa Fe: \$106,394.60 (Nov 2018), \$169,449.97 (2017)
- NYC: \$336,471.87 (2018), \$333,984.52 (2017)
- Palm Beach: \$196,673.56 (Nov 2018), \$191,941.52 (Oct 2017)

EVIDENCE STRENGTH ASSESSMENT

CORROBORATED (Multiple sources)

- Epstein's abuse pattern (dozens of victims, consistent testimony)
- Maxwell's recruitment role (multiple victims, proffer admission)
- **Staley rape allegation** (victim testimony + Staley-Epstein messages + FBI Guardian complaint from 2 additional women)
- **Leon Black sexual abuse -- [UPGRADED 2026-02-12]:** Minimum 3 independent victims (FBI FD-302 [EFTA00079370](#), SDNY ADA notes [EFTA00096366](#), prosecution memo), plus \$62.5M USVI settlement, DS11 scheduling records showing multiple monthly meetings
- **Prince Andrew sexual contact -- [UPGRADED 2026-02-12]:** 3 victim accounts + 1 independent eyewitness (Steve Scully) per FBI Prominent Names briefing [EFTA00164939](#), plus MLA diplomatic records
- **Glenn Dubin sexual contact -- [UPGRADED 2026-02-12]:** Multiple victims + former Dubin employee Rinaldo Rizzo with "knowledge of Epstein underage activity" per [EFTA00098755](#)
- Flight records (documentary evidence)

SINGLE TESTIMONY / INCOMPLETELY INVESTIGATED

- Dershowitz allegations (FBI briefing notes "massage on Epstein's plane (not a minor)"; SDNY acknowledged incomplete investigation)

DOCUMENTARY ONLY

- Financial transactions
 - Shell company ownership
 - Property records
-

WHAT THE DOCUMENTS DO NOT CONTAIN

For the record, after processing 9,184+ documents:

1. **NO evidence of "satanic rituals"** - This appears only in conspiracy theory emails SENT TO the FBI
2. **NO credible evidence of "baby eating" or cannibalism - [CORRECTED 2026-02-12]:** One FBI FD-302 ([EFTA01246048](#)) documents cannibalism claims from an interviewee whom the FBI assessed as having "some degree of possible mental illness or emotional instability" who "was unable to provide any supporting or corroborating evidence." This is a documented FBI interview, not merely a crank email, but the FBI clearly did not treat the claims as credible
3. **NO evidence of "pizza" codewords** - Not present in any DOJ document
4. **NO evidence of "adrenochrome harvesting"** - Conspiracy theory, not in documents

What IS documented:

- Sex trafficking of minors

- Systematic rape and sexual assault
 - Financial fraud and money laundering
 - Witness tampering and evidence destruction
 - Powerful people abusing trafficking victims

Expanded Financial Evidence

SDNY Internal Financial Summary (EFTA00105304), September 15, 2019): The most comprehensive financial summary found in the corpus. Documents payments to "Joichi Ito of MIT," "Ehud Barak," "Bruce Moskowitz," "Noam Chomsky," "Woody Allen," and "more than 25 women who appear to be Eastern European models." Regarding the financial investigation: "So far, there hasn't been anything that jumps out to us as criminal."

Estate Inventory (EFTA00076491): Entity values as of December 31, 2019: Southern Trust \$233.6M, Nautilus \$63.3M, Maple \$56.3M, Poplar/Great St. Jim \$23.4M, Cypress \$17.8M, Laurel \$13.8M.

GVI First Amended Complaint (EFTA00073205): Southern Trust had assets of \$391 million in 2015; EDC tax exemption generated \$71.3 million in income tax savings.

Additional Named Individuals of Investigative Interest

Per investigative planning memo **EFTA00098755**:

- Under "Individuals Who Have Engaged in Massages with Epstein Girls": **Frederic Fekkai, Jes Staley, Glen Dubin**

- "**Rinaldo Rizzo** -- Former Employee of Glenn Dubin with knowledge of Epstein underage activity"

- "**Igor Zinoviev** (Former Bodyguard) -- Not loyal to Epstein but may tip him off"

- "**Joseph 'Gypsy' Alvarez** (California Native American Healer) -- Provides girls for Epstein"

- "Individuals with significant knowledge include **Ehud Barak, Les Wexner, George Mitchell, Bill Richardson, Bill Clinton, and Doug Band**"

FBI Internal Misconceptions Slide

The FBI's own Prominent Names briefing (**EFTA00164939**, page 18) includes a "MISCONCEPTIONS" slide:

- "Based on review of evidence and victim statements no orgies, or threesomes which included 2 males"

- "Victims were not held captive"

- "Epstein did not regularly prostitute the victims in exchange for money"

Epstein Phone Records: The Unredacted Window

Summary

The EFTA corpus contains **970 phone record documents spanning 27,690 pages** — call detail records, cell tower data, subscriber information, and phone bills from multiple carriers. Roughly 43% of these documents were redacted. But a production inconsistency between Dataset 9 and Dataset 10 left **46 AT&T cell phone bills completely unredacted** in DS9, while the same records in DS10 were redacted. This gap exposes **25 months of Epstein's itemized call records** (May 2004 through July 2006), covering the entire Palm Beach police investigation, FBI involvement, and non-prosecution agreement negotiation period.

From these unredacted bills, we extracted **1,179 unique phone numbers** and **8,173 total call records**. We identified approximately 20 numbers by cross-referencing the corpus — emails, FBI 302s, subpoenas, and business records — without needing any external lookup service.

A separate 2,153-page document ([EFTA01242527](#)) contains Epstein's **office landline records** (212-750-1176), also in DS9, also with **zero redactions**. This document contains calls to the Trump Organization and the Clinton Foundation — 5 calls to Trump Org and 10 calls to the Clinton Foundation across three different Epstein phone lines.

The full extracted phone number dataset (1,117 numbers with call counts and geographic data) is available as a [CSV in our data repository](#).

Methodology

Inventory

We performed a full-text search of the 2.91 million pages in `full_text_corpus.db` for phone-record indicators: carrier names (AT&T, Cingular, Sprint, T-Mobile, Verizon), document types (subpoena, cell site, subscriber), and billing terminology. Each document was classified into 25 categories (AT&T bills, cell site records, call detail records, subscriber information, etc.) and stored in a structured inventory.

Redaction Cross-Reference

Every phone record EFTA was cross-referenced against our `redaction_analysis_v2.db` database (2.59 million detected redactions). For each document, we counted proper redactions (black bars), text-near-bar OCR leaks, and white rectangles. The result is a per-document redaction profile showing which phone records were protected and which were exposed.

Phone Number Extraction and Enrichment

Phone numbers were extracted via regex from the unredacted DS9 bills (AT&T account 0043811863). Each number was validated and enriched using Python's `phonenumbers` library — an offline database that provides geographic location, carrier, line type, and timezone without any rate limits or API calls. The enriched dataset contains 1,117 valid numbers after filtering toll-free, directory assistance, and OCR-error entries.

Number Identification

We identified phone numbers by searching the full corpus for each number, then reading the surrounding context. An email that says "call me at 212-772-9416" identifies the sender. An FBI internal email titled "Maxwell's cell number" that links 917-520-3106 to the Terramar Project identifies

the subscriber. A car service booking that says "Jeffrey Epstein in: (917) 868-6145" identifies the passenger. No external reverse-lookup services were used for any identifications in this report — every attribution comes from documents in the EFTA corpus.

The DS9 / DS10 Redaction Inconsistency

Epstein's AT&T Wireless phone bills (account **0043811863**) were produced in both Dataset 9 and Dataset 10. The redaction treatment was not consistent:

Dataset	Documents	Redacted	Unredacted
DS8	2	1	1
DS9	46	0	46
DS10	83	78	5
DS99	1	0	1

All 46 DS9 copies have zero redactions. 78 of 83 DS10 copies were redacted. These are the same underlying phone records — the same AT&T account, the same billing periods, the same call data — processed through two different production pipelines with different redaction decisions.

The unredacted DS9 bills cover **May 2004 through July 2006**: 25 unique billing months, 925 pages of itemized call records. Each page lists every call with date, time, number dialed, location, duration, and rate.

This window covers the entire arc of the Palm Beach investigation (launched March 2005), FBI involvement (mid-2006), and the non-prosecution agreement negotiation period.

What Was Redacted (and Why It Matters)

Cell site location information (CSLI) — tower data showing Epstein's physical location — was the most aggressively redacted category, averaging **756 redactions per document**. The single most-redacted document is **EFTA01310387** (DS10, 129 pages): AT&T subscriber information for Jeffrey Epstein, with 8,050 redactions across 128 pages.

Two FBI documents — **EFTA01073204** and **EFTA01182476** — are "FOI/PA Deleted Page Information Sheets" documenting **853 pages** of phone records the FBI explicitly removed under exemptions b6, b7C, and b7D.

Even the redacted documents leak data. Our OCR analysis detected **10,182 text-near-bar instances** where text bleeds past redaction bars. **EFTA01334722** leaks call locations: fragments like "PALMBEACH FL", "EW YORK NY", "OSTON MA", "AMBRKNE MA" (Cambridge), "NOLULU HI" (Honolulu), "otile FRA" (France), and "ROOKLYN NY" are visible beside the redaction bars.

Epstein's Phone Lines

The corpus reveals at least seven phone numbers associated with Epstein:

Number	Type	Source
(917) 855-3363	Primary cell (AT&T acct 0043811863)	Header on every cell bill. Now registered to Sarah Kellen per current reverse lookup.
(917) 868-6145	Cell — same account	EFTA02043883 (DS10): car service booking — "Jeffrey Epstein in: (917) 868-6145"
(917) 913-6283	Cell — same account	Separate "VOICE USAGE" section in bills
(561) 655-7626	Palm Beach	EFTA01928016 (DS10): email from "Jeffrey E." to Greg Wyler — "561 655 7626" as callback

Number	Type	Source
(212) 750-9895	Office — 457 Madison Ave FL 4	EFTA01582864 (DS10): Dun & Bradstreet record for "Intercontinental Asset Group"
(212) 750-1176	Office landline	EFTA01242527 (DS9) p0: "LOCAL USAGE REPORT, Phone #: 2127501176"
(212) 772-9416	Line in Epstein phone records	EFTA01242527 (DS9): billing records in same document. Also associated with David Stern — see EFTA01928007
(212) 535-6833	Line in Epstein phone records	EFTA01242527 (DS9): billing records in same document. Also identified as Maxwell's office — see EFTA02088364
(212) 879-9366	Another line	EFTA01242527 (DS9) p1588: "Telephone # 2128799366"

The primary cell number (917-855-3363) appearing under Sarah Kellen's name today is notable. Kellen was Epstein's scheduler and assistant during the period covered by these bills. Whether the number was originally Epstein's and transferred to Kellen, or was always assigned to her and used as "Epstein's line" for call-routing purposes, is unclear from the records alone.

The Inner Circle: Identified Numbers

These identifications come entirely from cross-referencing phone numbers against documents within the EFTA corpus — emails, FBI 302s, subpoenas, car service bookings, and business filings.

Ghislaine Maxwell — Two Numbers

Number	Type	Evidence
(917) 520-3106	Cell	EFTA00097135 (DS9): FBI internal email titled "Maxwell's cell number" — T-Mobile subscriber = Terramar Project, Inc (owned by Maxwell), UPS store at 139A Charles St, Boston. Saved as " Ghislaine " in Epstein's seized phone. Also: EFTA00079292 (DS9) p2: grand jury subpoena rider listing Maxwell identifiers — phone (917) 520-3106, email GMAX1@ELLMAX.COM
(212) 535-6833	Office	EFTA02088364 (DS10): email asking for "Ghislaine's number" — reply: "(212) 535-6833 office... Dana is her assistant"

Maxwell's cell (216 calls in the dataset) and office line appear throughout the call logs. On several dates, Epstein's office called both numbers on the same day.

Staff and Associates

Number	Calls	Identity	Evidence
(646) 286-7000	39	Lesley Groff (executive assistant)	EFTA02715374 (DS11)
(718) 707-9090	96	Citicar (car service)	EFTA01898783 (DS10): "Thank you for choosing CITICAR for your travel needs"
(340) 775-8100	29	LSJE, LLC (Little St. James entity)	EFTA00003047 (DS1): employee records, 6100 Red Hook Quarters Suite B-3
(561) 662-3098	29	Sunshine Services Unlimited	EFTA00203748 (DS9): account name on bills
(212) 772-9416	57	David Stern / Boris Nikolic	EFTA01928007 (DS10): email from "Jeffrey E." — "new york 212 772 9416 now"

Number	Calls	Identity	Evidence
(917) 975-4500	80	"Jojo"	EFTA02592280 (DS11): number listed as "1-917-975-4500 Jojo" in email thread between "Jeffrey E." and Alice de Rothschild
(212) 288-4844	—	Darren Indyke (attorney/trustee)	EFTA01616338 (DS10): Indyke address "6030 Le Lac Road, Boca Raton"
(212) 772-9222	—	Dr. Kruger	EFTA02693795 (DS11): "Spoke to Dr. Kruger. He says it takes a full 5 business days for results to come back" Buzzfile business listing for Aviloop LLC at this number. Corpus: text messages between Epstein's cell and this number
(917) 476-9463	136	Nadia Marcinko (pilot, NPA immunity recipient)	(EFTA01305875 , DS10, p13); JPMorgan wire transfers to Aviloop LLC (EFTA01589586 , DS10); emails between Epstein and Marcinko discussing Aviloop (EFTA02032839 , EFTA01753491 , DS10). Aviloop LLC is Subject 1 of 25 in a gutted FinCEN SAR (EFTA01656524 , DS10). Registered at 301 E. 66th St.

Investigation-Related Numbers

Number	Calls	Identity	Evidence
(917) 204-9696	35	"Natalie or Anja" — person of investigative interest	EFTA00189310 (DS9) pp32-33: AUSA Villafana's email to Agent Kuyrkendall listing investigative phone numbers — "Natalie or Anja 917-204-9696." This is NOT Villafana's own number (her number was 561-209-1047 per her email signature).
(561) 317-5844	38	Investigation target (subpoenaed)	EFTA00260322 (DS9) pp4-14: Palm Beach PD Det. Joe Recarey's sworn subpoena to T-Mobile — "Pursuant to a lawful criminal investigation involving sex with certain minors" (PBPD Case 05-368, January 24, 2006)

Partially Identified

Number	Calls	Identity	Evidence
(212) 902-8707	—	Goldman Sachs (exchange confirmed)	Goldman Sachs main switchboard is 212-902-1000 (GetHuman); 212-902-8707 is in the same exchange. Called from Epstein's office on Oct 2, 2003 at 4:36 PM — one minute after the Clinton Foundation call at 4:35 PM. No corpus context outside the office bills.

Unidentified High-Frequency Numbers

These numbers rank among the most-called in the dataset but have no identifying context in the corpus and zero web presence. They remain unidentified.

Number	Calls	Location	Notes
(917) 957-5341	335	New York	Called at 1:30 AM alongside Nadia and Maxwell (EFTA01263776). Called internationally while Epstein was abroad (EFTA01312410). Called 4 times in 32 minutes on Aug 9, 2004. Inner circle — likely a prepaid/personal phone.
(646) 232-3311	233	New York	Same late-night calling clusters as 957-5341. Zero web footprint.

Number	Calls	Location	Notes
(786) 246-6607	128	Miami	Called both TO and FROM Epstein's lines (CDR shows incoming calls). FBI subpoena context but no name.
(740) 802-4061	111	Marion, OH	Cell tower data shows "MARION OH" — not New Albany. Called both TO and FROM Epstein lines. Marion is ~50 miles north of Columbus.
(614) 284-1783	103	Columbus, OH	Wireless (New Cingular/AT&T). Columbus is Wexner territory (L Brands HQ).
(808) 754-0079	74	Hawaii	Zero web footprint.
(310) 210-9944	61	Los Angeles	Zero web footprint.

The (614) Columbus number is in Wexner's territory; a confirmed New Albany, OH number — (614) 939-6005 — was identified via a DS10 call record showing "(614)939-6005 NEW ALBANY OH" ([EFTA01310123](#), DS10, p4). The (740) Marion number is in rural central Ohio and may not be Wexner-related. Both Ohio numbers and the Miami number initiated calls TO Epstein's lines, confirming two-way contact.

Geographic Calling Patterns

The `phonenumbers` library (offline, no rate limits) provided geographic data for all 1,117 valid numbers:

Region	Area Codes	Call Records	Significance
New York City	917, 212, 646, 718	5,225	Dominant — 64% of all calls
Palm Beach / S. Florida	561	732	Epstein's PB residence
Ohio	740, 614, 440	362	Wexner territory (New Albany, Columbus)
U.S. Virgin Islands	340	164	Little St. James
Miami	786, 305	141	South Florida network
Hawaii	808	79	Unknown connection
Massachusetts	781, 617	61	Academic connections (Cambridge)
Minneapolis	763	29	Unknown connection
California	310	61	LA / entertainment

The Ohio cluster is notable. Three of the top 15 unidentified numbers are Ohio area codes, and we have a confirmed New Albany, OH number — suggesting ongoing, frequent contact with the Wexner orbit throughout 2004-2006.

Office Landline Records: Trump and Clinton

[EFTA01242527](#) is a **2,153-page document** in Dataset 9 containing local usage reports for **multiple phone lines** associated with Epstein. It has **zero redactions** and spans 2003 through 2006. The lines covered include:

- **212-750-1176** — Epstein's primary office landline
- **212-750-9895** — Second office line (Intercontinental Asset Group, 457 Madison Ave)
- **212-772-9416** — A line also associated with David Stern (see above)
- **212-535-6833** — A line also identified as Maxwell's office (see above)
- **212-879-9366** — Another line (Verizon Enterprise Solutions)

The fact that billing records for lines attributed to both David Stern and Ghislaine Maxwell appear in the same consolidated phone record suggests these lines were under Epstein's account or oversight.

Calls to the Trump Organization

The Trump Organization's main number — **(212) 832-2000** — was confirmed via a press release in the corpus: **EFTA00812159** (DS9) reads "For more information contact Donald J. Trump (212) 832-2000." Five calls to Trump Org appear in **EFTA01242527**, from multiple Epstein lines:

Date	Time	Epstein Line	Source Page
January 22, 2003	9:32 AM	212-750-9895	p316
November 17, 2003	12:01 PM	212-750-9895	p327
February 2, 2005	6:31 PM	212-772-9416	p431
February 3, 2005	10:57 AM	212-750-1176	p219
November 27, 2006	11:19 AM	212-750-1176	p306

The Feb 3, 2005 call lasted 9 minutes — the longest Trump Org call in these records. The others registered zero connected minutes.

A sixth line — 212-879-9366 — shows a call to **Mar-a-Lago** ((561) 832-2600) on February 3, 2005 at 2:00 PM (p1588). The phone record labels the destination as "WpalmbeachFL 561 832-2600"; the Mar-a-Lago attribution comes from external directory verification.

Important caveat: A call to an organization's main number does not establish contact with any particular individual. Epstein's office calling (212) 832-2000 could have reached a receptionist, a legal department, an accounting office, or any other extension. The same applies to all organization numbers discussed in this report.

Trump Org does NOT appear in the unredacted cell phone bills (account 0043811863). The Epstein–Trump Org phone contact, at least from these records, was office-to-office.

Calls to the Clinton Foundation

The Clinton Foundation's publicly listed number — **(212) 348-8882** — appears **10 times** across **three different Epstein phone lines** in **EFTA01242527**, spanning July 2003 through August 2005:

#	Date	Time	Epstein Line	Page
1	July 30, 2003	9:43 AM	212-535-6833	p612
2	October 2, 2003	4:35 PM	212-750-1176	p82
3	October 10, 2003	10:14 AM	212-535-6833	p624
4	December 11, 2003	2:59 PM	212-535-6833	p640
5	December 15, 2003	3:19 PM	212-535-6833	p641
6	April 6, 2004	3:23 PM	212-750-1176	p136
7	October 18, 2004	3:50 PM	212-750-9895	p340
8	October 29, 2004	3:39 PM	212-750-1176	p195
9	July 28, 2005	4:55 PM	212-750-1176	p267
10	August 2, 2005	3:48 PM	212-750-1176	p268

Three Epstein lines are represented: the primary office line (212-750-1176, 5 calls), the second office line (212-750-9895, 1 call), and 212-535-6833 (4 calls). The third line — 212-535-6833 — is also the number identified as **Maxwell's office** elsewhere in the corpus (see above). Its billing records appear in

the same consolidated phone document, suggesting it was under Epstein's account. Whether calls from this line were placed by Epstein, Maxwell, or staff is unknown.

Nine of the ten calls were placed in the afternoon (2:59 PM – 4:55 PM); only the July 30, 2003 call was a morning call (9:43 AM), and it was the only one with a measured connected duration (2 minutes).

This number was verified as the Clinton Foundation via [their public contact page](#), [Dun & Bradstreet](#), and [ZoomInfo](#).

The same caveats apply: a call to the Foundation's main number doesn't identify who answered. And note that most of these calls registered zero minutes of connected time (\$0.075 charge) — these may be unanswered calls, calls to voicemail, or calls too short to register on the billing system.

Two calls to (212) 348-6751 (October 31 and November 11, 2003) and one to (212) 348-2489 (November 19, 2003) share the Harlem 348 exchange with the Clinton Foundation but are **unverified** — they could be any businesses or residences in that exchange area.

February 2–3, 2005: Trump, Wexner, Mar-a-Lago

February 2, 2005 produced **56 calls** from Epstein's office — the busiest day in the landline dataset. The concentration of identifiable numbers is striking:

Time	Number	Identity
8:21 AM	(917) 855-3363	Kellen/cell
9:58 AM	(917) 204-9696	"Natalie or Anja" (investigative interest)
10:13 AM	(917) 204-9696	Same — 2nd call
10:54 AM	(917) 204-9696	Same — 3rd call
11:33 AM	(917) 204-9696	Same — 4th call
4:49 PM	(614) 939-6005	New Albany, OH (Wexner orbit) — from line 212-879-9366
4:50 PM	(212) 772-9416	David Stern
4:51 PM	(646) 286-7000	Lesley Groff
6:31 PM	(212) 832-2000	Trump Organization
8:18 PM	(212) 879-9366	Epstein's second line
9:39 PM	(917) 204-9696	"Natalie or Anja" — 5th call
9:47 PM	(917) 855-3363	Kellen/cell (last call)

Five calls to a number identified in AUSA Villafana's investigative phone list as belonging to "Natalie or Anja" — a person of interest in the Epstein investigation. Four calls clustered in the morning, then a final call at 9:39 PM. The same day included calls to New Albany, OH (Wexner territory), David Stern, Lesley Groff, and the Trump Organization.

The following day — February 3, 2005 — the pattern continued:

Time	Number	Identity
10:57 AM	(212) 832-2000	Trump Organization
11:37 AM	(212) 772-9416	David Stern
1:22 PM	(917) 520-3106	Maxwell
1:54 PM	(917) 520-3106	Maxwell (2nd call)
2:00 PM	(561) 832-2600	Mar-a-Lago — from line 212-879-9366

Mar-a-Lago's number (561-832-2600) was confirmed via [Yelp](#), [Dun & Bradstreet](#), and [CallerCenter](#).

The phone record itself labels the destination only as "WpalmbeachFL" — the Mar-a-Lago attribution comes from external verification of the number.

This was February 2005 — one month before the Palm Beach Police Department officially opened its

investigation into Epstein in March 2005. In a 48-hour window, Epstein's office contacted Trump Org twice, Mar-a-Lago once, a New Albany, OH number in Wexner's territory, Maxwell twice, and David Stern twice.

November 27, 2006: During the NPA Negotiation

The last Trump Org call in the dataset falls on November 27, 2006 — during the non-prosecution agreement negotiation period:

Time	Number	Identity
10:25 AM	(212) 772-9222	Dr. Kruger
11:13 AM	(212) 249-1122	Unidentified
11:19 AM	(212) 832-2000	Trump Organization
11:36 AM	(212) 535-6833	Maxwell (landline)
12:59 PM	(917) 855-3363	Kellen/cell

Trump Org, then Maxwell 17 minutes later.

What's Still Missing

The 853 Deleted Pages

FBI documents [EFTA01073204](#) and [EFTA01182476](#) are Deleted Page Information Sheets documenting **853 pages** removed under FOIA exemptions b6, b7C, and b7D. These are phone records the FBI chose to withhold entirely, not just redact.

The Redaction Leaks

Even where redactions were applied, our automated analysis found **10,182 instances** of text bleeding past redaction bars. These "text-near-bar" artifacts reveal partial phone numbers, call locations, FBI case routing information, and timestamps. A comprehensive extraction of these leaks may yield additional identifiable data.

1,117 Numbers, ~20 Identified

We identified approximately 20 numbers from corpus context. The remaining ~1,097 — including the #2 and #3 most-called numbers — remain unidentified. A CNAM (Caller Name) lookup service would cost roughly \$12 for the full set and could identify many of these numbers, particularly landlines and business lines.

Data

- **Phone number dataset:** [phone_numbers_enriched.csv](#) — 1,117 unique numbers with call counts, geographic data, and carrier information
- **Redaction cross-reference:** [phone_records_redaction_crossref.csv](#) — 970 phone record documents with redaction counts
- **Full phone records inventory:** [phone_records_inventory.json](#) — structured catalog of all 970 documents by category

Disclaimer on phone number data: All phone numbers in the CSV were extracted from publicly available federal documents on justice.gov (the DOJ's EFTA production). The geographic location, carrier, and line type columns were generated using Python's `phonenumber` library, an open-source offline database based on public numbering plan (NANPA/ITU) assignments. This data reflects **current** numbering plan information — not necessarily the carriers or subscribers from 2004—

2006 when these calls were placed. Phone numbers change hands. A number that was Epstein's in 2005 may belong to someone entirely unrelated today. Do not use this data to contact or harass anyone.

EXECUTIVE SUMMARY

The FBI maintained a comprehensive digital evidence inventory as part of the Epstein/Maxwell human trafficking investigation (Case No. 31E-NY-). A single page from the FBI's case serial -- appearing in **EFTA02730741** (page 34, unredacted OCR) and **EFTA02730486** (page 22, redacted version) -- reveals that the Bureau collected screenshots, website captures, and social media evidence from at least **10 distinct online platforms**: Reddit, Quora, YouTube, 4chan, Imgur, Twitter/NTOC, a website called kidsquest.com, and various other online sources. The FBI also collected and preserved 4chan posts related to Epstein's death, investigated a paramedic leak, and received hundreds of NTOC (National Threat Operations Center) tips via tips.fbi.gov.

The r/maxwellhill Reddit account -- long suspected by the internet community of belonging to

Ghislaine Maxwell -- was explicitly identified by username in unredacted FBI evidence, while the officially released version redacted the username. This confirms the FBI was aware of and investigated the connection.

PART 1: THE MASTER EVIDENCE INDEX PAGE

Source Document Identification

The key document is a single page from the FBI's case serial index that lists evidence items collected during the investigation. It exists in two versions:

UNREDACTED VERSION:

- **EFTA02730741**, page 34
- **OCR Image:** extracted image EFTA02730741_p34_i0_b485924705af57ee.png
- Contains full names, usernames, addresses, and website URLs

REDACTED VERSION:

- **EFTA02730486**, page 22
- **OCR Image:** extracted image EFTA02730486_p22_i0_b0c86d05f0c6ad6e.png
- All identifying details replaced with [REDACTED]

Complete Evidence List from the Master Index Page

The following items are listed sequentially on this single FBI case serial page:

1. (U) Interview notes (multiple entries)
2. (U//FOUO) Notes Re: Interview of [REDACTED] on July 27, 2020
3. (U//FOUO) City of Maricopa Police Department Officer Report for D.R. 200722037

PART 2: THE r/maxwellhill REDDIT CONNECTION

What Was Found

Exact quote from unredacted OCR (EFTA02730741, p34):

(U) Screenshot of Reddit post by user r/maxwellhill

Exact quote from redacted version (EFTA02730486, p22):

(U) Screenshot of Reddit post by user [REDACTED]

Analysis

1. **FBI Received Reddit Evidence via Public Tip:** The FBI received 4 screenshots of Reddit posts from a named public tipster via tips.fbi.gov on July 21, 2020. The full 6-page FBI intake form (EFTA01245108, Serial 469) identifies the tipster and includes detailed tip text about u/Maxwellhill's 14,993,132 Karma, moderator status, and posting gaps. The specific posts screenshotted included content where the maxwellhill account discussed age of consent laws and child sexual abuse. This was a **public tip, not a proactive FBI collection**.
2. **The Username Was Treated as Sensitive Information:** In the publicly released version (EFTA02730486), the username "r/maxwellhill" was redacted. The FBI treated this Reddit username as identifying information requiring protection under FOIA exemptions. Note: this redaction follows standard FOIA/protective order procedures applied to all identifying information in tips, including tipster names, IP addresses, and phone numbers. The redaction does not by itself indicate FBI validation of the theory that the account belonged to Maxwell.
3. **Classification Level:** The item is marked (U) -- Unclassified -- meaning the content itself was not classified, but the association with the username was redacted for privacy/law enforcement purposes.
4. **Contextual Placement:** The r/maxwellhill screenshot appears on the same evidence index page as:
 - Interview notes from July 27, 2020 (5 days after Maxwell's July 2, 2020 arrest in Bradford, NH)
 - Maricopa Police Department report dated 07/22/2037 (report number D.R. 200722037, suggesting July 22, 2020 date)
 - NYPD SVD (Special Victims Division) Hotline Worksheet
 - Arrest warrant and arrest paperworkThis timing -- all from late July 2020, immediately after Maxwell's arrest -- suggests the r/maxwellhill evidence was collected as part of the post-arrest investigation phase.
5. **Background:** The Reddit account u/maxwellhill was one of the most prolific posters on Reddit, a moderator of multiple major subreddits including r/worldnews and r/technology. The account went permanently silent on June 30, 2020 -- two days before Ghislaine Maxwell was arrested on July 2, 2020 in Bradford, New Hampshire. The account has never posted again. Internet investigators noted the account name directly references "Maxwell" and "hill" and that it had been active for approximately 14 years prior to going silent at the exact moment of Maxwell's arrest.
6. **No Follow-Up Analysis Found:** Despite searching all databases extensively, no FBI analytical memo, 302 report, or investigative conclusion regarding the r/maxwellhill account was found in the released materials. The evidence was collected but any analysis remains either classified, unreleased, or was not digitized.

Cross-Reference: **EFTA01731021** (Case Serial Index)

The same evidence items also appear in the case serial index at **EFTA01731021**, page 114, in a partially corrupted/OCR-degraded form:

- (U) Kid Q... PNG (corresponds to kidsquest screenshots)
- (U) 4chan8 PNG (corresponds to 4chan evidence)
- (U) quora david mcphoe.PNG (corresponds to Quora screenshot)

Page 116 of the same document references:

- (U//FOUO) NYPD SVD Hotline Worksheet
 - An entry partially reading ddi...ll 1 PNG -- which appears to be a truncated filename possibly related to the Reddit evidence
-

PART 3: THE 4CHAN EVIDENCE -- TWO DISTINCT THREADS

The FBI collected 4chan materials in two entirely separate contexts:

Thread A: Epstein's Death Leak (August 10, 2019)

Key Documents:

- **EFTA00034116** -- BuzzFeed News reporter email (August 10, 2019 at 10:10:37 PM)
- **EFTA00034513** -- Second copy of same BuzzFeed email
- **EFTA00035482** -- Third copy forwarded internally
- **EFTA00027732** -- Discovery production letter listing "Materials returned from 4Chan" as Bates SDNY_00006978-SDNY_00006979

The BuzzFeed Alert:

"I'm a reporter with BuzzFeed News. I'm reaching out because we suspect one of the paramedics involved in responding the Jeffrey Epstein call posted information online before it was reported in the mainstream media."

"We were able to view posts on the website 4chan, frequented by far-right trolls, that were published a full 45 minutes before ABC news first reported Epstein's death. I'd like to send you the posts to verify whether the information in them is correct and whether it could have come to your team..."

-- Jane Lytvynenko, BuzzFeed News (@JaneLytv)

Government's Handling:

- The 4chan posts were formally recovered and designated as evidence under Bates numbers SDNY_00006978-SDNY_00006979
- They were classified as "Protected Materials" in the Noel/Thomas discovery production
- The posts were produced to defense counsel as part of the death investigation

Defense Demand for 4chan Author Identity:

In **EFTA00023768** (June 5, 2020 letter from Foy & Sepowitz LLC, counsel for guard Tova Noel), Item #30 specifically asks:

"Who is the author of the 4Chan message produced as bates number SDNY_00006978?"

The government's response (**EFTA00023756**, page 6) to the related after-action report request stated they were "not in possession" of certain reports.

Grand Jury Subpoena to 4chan (DS9 Discovery):

DS9 reveals a document not previously in the report's index: **EFTA00123462** -- a **Grand Jury subpoena to 4chan Community Support LLC** dated August 13, 2019 (3 days after Epstein's death), signed by Geoffrey S. Berman (SDNY). Directed to: Custodian of Records, 4chan Community Support

LLC, 5042 Wilshire Blvd #34441, Los Angeles, CA 90036. The subpoena requested IP logs, subscriber information, and session data for **four specific post numbers: 222520442, 222518349, 222520257, 222518664**. Issued under 18 U.S.C. sections 371, 1001, 1519 (conspiracy, false statements, evidence destruction), Reference No. 2019R01059. This demonstrates the government actively sought to identify the 4chan poster through legal process. Additionally, the discovery production list (**EFTA00094815**) confirms: "Materials returned from 4Chan SDNY_00006978-SDNY_00006979" -- confirming 4chan responded and the posts were formally entered as evidence.

Thread B: "Employee Confession" on 4chan and YouTube (Post-Maxwell Arrest)

From the master evidence index (EFTA02730741, p34):

(U) Screenshots of Epstein's alleged employee's confession on YouTube and 4chan

This is an entirely separate 4chan evidence collection. Someone claiming to be a former employee of Epstein posted a "confession" on both YouTube and 4chan. The FBI collected screenshots of both the YouTube video and the 4chan posts.

The case serial (EFTA01731021, p114) lists this as:

(U) 4chan8 PNG

The filename "4chan8.PNG" suggests this was one of multiple screenshots (possibly number 8 in a series), indicating the FBI captured multiple pages or posts from the 4chan thread.

No analytical conclusion about the employee confession's credibility was found in the released materials.

PART 4: DAVID MCPHEE AND THE QUORA SCREENSHOT

Evidence

Unredacted (EFTA02730741): (U) screenshot of David McPhee's Quora page

Redacted (EFTA02730486): (U) screenshot of [REDACTED] Quora page

Case serial (EFTA01731021, p114): (U) quora david mcphee.PNG

Analysis

The FBI took a screenshot of a specific Quora page belonging to someone named "David McPhee." The name was treated as requiring redaction in the public release.

Who is David McPhee? The complete FBI intake form (**EFTA01245026**, Serial 443, 3 pages, dated July 11, 2020) reveals McPhee was reported as a **psychologist associated with Ghislaine**

Maxwell who allegedly **hypnotized the tipster when they were young**. The tipster was introduced to McPhee by Maxwell. The violation was categorized as "Public Corruption, White Collar Crime, Civil Rights" and the crime described as "Crooked Psychologist, associate with Ghislaine Maxwell." The tipster reported personal losses resulting from the relationship.

This is not a random internet post or conspiracy theory -- it is a direct abuse allegation against a Maxwell-associated professional. The Quora page was collected alongside:

- The r/maxwellhill Reddit screenshots
- The employee confession screenshots
- The kidsquest.com evidence
- The Imgur comment screenshot

All of these items were submitted via tips.fbi.gov as part of the post-arrest public tip flow, not proactively collected by the FBI.

PART 5: KIDSQUEST.COM -- THE WEBSITE

Evidence

Unredacted (EFTA02730741):

(U) Website *www.kidsquest.com*
(U) Screenshots from *kidsquest.com*

Redacted (EFTA02730486):

(U) Website [REDACTED]
(U) Screenshots from [REDACTED]

Case serial (EFTA01731021, p114):

(U) Kid Q... PNG (two entries)
(U) Kid Q...t...t...t PNG (two entries -- likely "Kid Quest screenshot" or similar)

Analysis

The FBI collected both the website itself and screenshots from *www.kidsquest.com*. The website URL was redacted in the public release.

Resolved: The actual FBI-preserved screenshot (EFTA01245021) shows *kidsquest.com/parties/* -- a page for "Kids Quest" birthday party bookings: "ULTIMATE BIRTHDAY HEADQUARTERS," "Any celebration is a cinch at Kids Quest or Cyber Quest!" This is a **children's entertainment venue**, not a suspicious website. The screenshot was submitted as part of the same NTOC tip batch as the other online evidence items, via *tips.fbi.gov*. It was a public tip submission, not a proactive FBI collection.

PART 6: THE "VIRAL VIDEO"

Evidence

From the evidence index (EFTA02730741, p34):

(U) Graphic Capture of Viral Video.

From the case serial (EFTA01730634, p10):

(U) Graphic Capture of Viral Video.

Analysis

The FBI made a "Graphic Capture" (screenshot/screen recording) of an unspecified "Viral Video." This appears on the same evidence page as all the other online evidence items, placing it in the same investigative thread.

Possible Candidates:

1. The "employee confession" video that also appeared on YouTube and 4chan (listed separately on the same page)
2. A video that went viral in connection with Epstein's arrest, death, or Maxwell's arrest
3. Footage related to Epstein's properties or activities that circulated online

Cross-Reference with YouTube Evidence:

A separate document (EFTA01651412) references:

*Subject: Cold Open: Surviving Jeffrey Epstein August 9, 2020
Lifetime - YouTube*

This is the Lifetime television documentary "Surviving Jeffrey Epstein" which aired August 9, 2020. The FBI monitored YouTube content of this documentary, which aired shortly after Maxwell's July 2, 2020 arrest. However, this appears to be a separate evidence item from the "Viral Video."

The case serial also contains a reference at EFTA02730741, page 119:

(U) ...Reportin...ossessVide...

This appears to be a truncated reference to an NTOC tip about someone "Possessing Video" related to

the case, which is confirmed more fully in [EFTA02730486](#) page 132:

*(U) NTOC2020 194jcc01 E-TIP: Anonymous User Reporting
[REDACTED] Possess Videos of...*

This anonymous tip reported someone possessing videos, submitted as an E-TIP around July 2020.

PART 7: IMGUR COMMENT SCREENSHOT

Evidence

Unredacted ([EFTA02730741](#)):

*(U) Screen shot of Imgur capture of the comment made by
[partially OCR'd - name cut off]*

Redacted ([EFTA02730486](#)):

*(U) Screen shot of Imgur capture of the comment made by
[REDACTED]*

Analysis

The FBI captured a screenshot from Imgur (an image-hosting platform often used alongside Reddit) that preserved a comment made by a specific individual. The commenter's name was redacted.

Identity Resolved: The complete FBI intake form ([EFTA01245011](#), Serial 422, 3 pages, dated July 7, 2020) and the actual preserved screenshot ([EFTA01245014](#)) reveal this is **unrelated to r/maxwellhill**. The Imgur post (imgur.com/a/OM7Id5T) shows a user named "cyantist" stating: "I used to be kinda sad that I wasn't ever 'cool' enough to get invited to some parties... but now, I'm super thankful that I've never accidentally had a photo of me taken with Ghislaine. She was at the **Kleiner holiday party in 2011**, but I had no desire to meet her much less have a photo taken with her. **We knew about her supplying underage girls for sex**, but I guess that was fine with the 'cool' people who managed the tightly controlled guest list." A reply from another user asked: "Wait what? Everyone in the room knew she was a child sex trafficker... and no one in the room objected to her presence?"

This documents an allegation that attendees at a Kleiner Perkins (venture capital firm) holiday party in 2011 knew about Maxwell's activities and did nothing. The FBI appended a Domain Awareness caveat: "this information was determined to be of no current lead value and did not provide a basis to investigate further."

PART 8: NTOC TIPS AND REPORTED TWEETS

Evidence

From the evidence index:

(U) Reported Tweets to NTOC

The NTOC System

The National Threat Operations Center (NTOC) operated the FBI's tip line at tips.fbi.gov. Multiple documents confirm how tips flowed:

Volume of NTOC Tips

The case serial ([EFTA01731021](#)) documents an enormous volume of NTOC tips spanning 2019-2020:

2019 Tips (Post-Epstein Arrest, July 6, 2019):

- NTOC2019-MC3 189vmd02 through 192vmd01 -- Multiple tips with sequential numbering

- NTOC2019-MC3 190vmd03 through 190vmd05

The Reported Tweets

"Reported Tweets to NTOC" means that specific Twitter posts were reported to the FBI tip line as potential evidence. Someone (either a member of the public or an FBI agent) submitted screenshots of tweets to the NTOC system. These tweets were then entered into the case file as evidence.

Twitter Inc. Subpoena: A separate record ([EFTA01366082](#)) shows:

Twitter Inc 01,104

This appears to reference a Twitter Inc. subpoena return containing 1,104 records, though the context is limited.

Content of NTOC Tips

The most revealing NTOC compilation appears in [EFTA01660651](#) and [EFTA01660679](#) (the "NTOC Names" email chain). These documents contain summaries of dozens of tips, including:

Selected NTOC Tip Summaries:

1. A complainant reporting limousine-driving experience with Trump in 1995, where Trump "repeatedly stated the name 'Jeffrey' while on the phone"
2. A caller referencing "Lisa Marie Presley, the British Royal Family, President Trump, and Jeffrey Epstein"
3. A complainant reporting a neighbor sought "modeling gigs at the Trump Modeling Agency in NYC between the years of 1998-2000"
4. A 14-year-old approached by Ghislaine Maxwell "about modeling, international travel, and massages" who "made a podcast of her story"
5. A caller "taken by boat to Epstein's Island" who "became a school counselor"
6. A tip about a 1987 incident at Trump Plaza involving an alleged rape
7. A tip about a 2004/2005 party hosted by "Sir Ivan Wilzig" with "Jeffrey Epstein, Sammy Sosa, and Donald Trump" where "several women were being auctioned"
8. Multiple tips deemed not credible with dispositions noted: "Voicemail left, no response," "no contact made," "CALLED SDNY HOTLINE not NTOC"

The Master NTOC Assessment ([EFTA01656173/01660622](#), page 17):

**Numerous anonymous NTOC's were received with allegations against prominent individuals.*

This note appears on the FBI's "Prominent Names" briefing page, confirming the FBI tracked and assessed NTOC tips about prominent individuals named in the investigation.

William Barr/Leon Black NTOC:

This specific NTOC tip about Attorney General William Barr and Leon Black was significant enough

to be included on the Prominent Names briefing page.

PART 9: 301 SUMMER STREET, MANCHESTER-BY-THE-SEA, MASSACHUSETTS

Evidence

Unredacted (EFTA02730741):

Redacted (EFTA02730486):

(U//FOUO) Aerial photos of [REDACTED]

Redaction analysis (EFTA02730741, p119):

me[,] [Manches]et Manchester by the Sea, Massachusetts 01944

Analysis

The FBI took aerial photographs of 301 Summer Street, Manchester-by-the-Sea, Massachusetts 01944. This was classified as FOUO (For Official Use Only), a higher handling restriction than the (U) Unclassified items.

Significance: Manchester-by-the-Sea is a wealthy coastal town on the North Shore of Massachusetts, approximately 30 miles north of Boston. The aerial photography suggests this address was connected to a person of interest in the investigation.

Cross-Reference: The address does not appear to match Maxwell's known hiding location in Bradford, New Hampshire (where she was arrested on July 2, 2020). It may relate to:

- A property owned by an associate or co-conspirator
 - A location connected to the Borgerson/Angara/Tidewood LLC entity web used to hide Maxwell's whereabouts
 - The "Nutter, McClennen & Fish LLP" law firm connections identified in the Bradford NH investigation (EFTA00037706)
-

PART 10: THE BRADFORD, NEW HAMPSHIRE CONNECTION

Document and Audio Recording

From the evidence index:

(U//FOUO) Document and audio recording from Bradford (NH) Police

The Maxwell Hunt: EFTA00037706

A critical FBI internal email dated **July 2, 2020** (the day of Maxwell's arrest) reveals how social media and open-source intelligence led the FBI to Maxwell's hiding place:

EFTA00037706 -- FBI Intelligence Analyst Summary:

Subject: NINN Bradford NH

Date: Thu, 02 Jul 2020 01:18:01 +0000

"As requested please see the summary of some of the findings contributing to the likelihood of HM being associated with GHISILAINE."

The analyst's findings:

1. **Social Media Lead:** "[REDACTED] of NYO informed me of a **social media post** generally detailing the concept that GHISILAINE's sister [REDACTED] formed an LLC with SCOTT BORGERSON."
2. **Financial Trail:** "[REDACTED] of NYO also informed me of a significant amount of money (I

believe approximately **20 million dollars**) was sent from an account known to be associated with GHISLAINE to an entity called 'ANGARA', potentially ANGARA TRUST."

3. **Property Records:** "Open source records viewed regarding Bradford NH indicated the owner to be **GRANITE REALTY LLC** of Boston, MA"
4. **Corporate Web:** "Massachusetts division of corporations records for ANGARA, LLC are associated with... an individual named **ADAM GHANDER**. The entity was also associated with **NUTTER, MCLELLEN & FISH LLP**."
5. **TIDEWOOD LLC:** "ADAM GHANDER is the registered owner of TIDEWOOD LLC who purchased a mansion in Massachusetts where GHISLAINE had been staying since leaving NY."
6. **Phone Records:** "known historical telephone communications from GHISLAINE to NUTTER, MCCLENNEN & FISH LLP"

This document demonstrates that a **social media post** was one of the key initial leads that helped the FBI trace Maxwell through the Borgerson-Angara-Tidewood-Granite Realty corporate shell network to her Bradford, NH hiding location.

The Angara Trust (EFTA00016084):

Separate banking records confirm:

Angara Trust -- Trust Type: Irrevocable Trust -- Name of All Grantors: Ghislaine Maxwell -- Date Established: 09/15/2016 -- [Location:] Boston, MA 02210-2698

Borgerson Financial Tracking (EFTA00037958):

The FBI tracked Scott Borgerson's spending via USAA checking and credit card records, documenting his movements through New Hampshire locations including Hookset, Newbury (Sunapee Lodge), Exeter, Seabrook, Hampton Falls, Ossipee, Conway, and Contoocook.

PART 11: YOUTUBE EVIDENCE

The FBI collected YouTube evidence in at least three contexts:

A. Employee Confession Video

(U) Screenshots of Epstein's alleged employee's confession on YouTube and 4chan

Someone claiming to be a former Epstein employee posted a confession video on YouTube and a corresponding thread on 4chan. The FBI captured screenshots of both.

B. "Surviving Jeffrey Epstein" Documentary

EFTA01651412:

Subject: Cold Open: Surviving Jeffrey Epstein August 9, 2020 Lifetime - YouTube

The FBI monitored the Lifetime television documentary "Surviving Jeffrey Epstein," specifically a YouTube clip of the show's cold open (introduction). The email was sent Sunday, August 9, 2020, at 8:23 PM -- the night the documentary premiered.

C. Redacted YouTube Video

The evidence index from an earlier case serial version references:

(U) Screenshot of YouTube Video [redacted]

This appears to be a separate YouTube video whose title or subject was redacted.

PART 12: MySpace EVIDENCE (2005-2008 ERA)

While not from the post-arrest digital evidence collection, the FBI case files contain extensive MySpace evidence from the original Palm Beach investigation era:

EFTA02730741, page 176 -- Multiple entries referencing:

*ySpace information, and original notes fo[r]...
d MySpace information fo[r]...*

At least 20+ entries reference "MySpace information" collected for individual victims and witnesses, combined with "original notes" and "biographical files." This was standard law enforcement practice during 2005-2008 when MySpace was the dominant social network.

EFTA01716962, page 3:

SUBPOENA RESULTS RE: MYSPACE COM USER ID

The FBI issued subpoenas to MySpace for user account information, likely to identify or verify victims and witnesses.

EFTA01730634, page 58:

Biographical[file] and MySpace information

These entries confirm the FBI used MySpace as an investigative tool during the original Palm Beach investigation to identify and locate young women connected to Epstein's operation.

PART 13: THE GEORGE TONKS SOCIAL MEDIA CAMPAIGN

A separate thread of online evidence relates to **George B. Tonks** (@GeorgeBTonks), who conducted an extensive social media campaign related to the Epstein case:

EFTA01652016 and **EFTA01652143** contain multiple screenshots of Tonks' Twitter posts:

- Tonks claimed whistleblower status and federal court involvement
- Posted about Lady Victoria Hervey communicating with Ghislaine Maxwell: "Lady Victoria communicates with Ghislaine & I can only say that there is a lot going on behind the scenes"
- Claimed to have forgiven Leslie Wexner: "There is nothing wrong with me for forgiving Leslie Wexner. I have moved on from what happened over 40 years ago"
- Used OnlyFans to post "corruption" content after being suspended from Twitter
- Distributed a Dropbox link allegedly hosted by Jessica Reed Kraus (aka HouseInHabit on Instagram) containing personal communications
- Referenced Hunter Biden and Henri du Pont emails

A prosecution team member noted:

"Mr Tonks is using people on Twitter to spread it"

This suggests the FBI was monitoring Tonks' social media activity as part of witness/evidence integrity concerns.

PART 15: THE 4CHAN DEATH LEAK -- COMPLETE EVIDENCE CHAIN

Timeline

1. **August 10, 2019, ~5:30 AM ET:** Jeffrey Epstein found unresponsive in his cell at MCC
2. **August 10, 2019, ~6:00 AM ET:** 4chan posts appear describing details of Epstein's death
3. **August 10, 2019, ~6:45 AM ET:** ABC News first publicly reports Epstein's death
4. **August 10, 2019, 6:08 PM ET:** BuzzFeed reporter Jane Lytvynenko emails SDNY about the 4chan posts
5. **August 10, 2019, 10:10:37 PM ET:** Email forwarded internally within SDNY

Evidence Bates Numbers

- **SDNY_00006978-SDNY_00006979:** "Materials returned from 4Chan" -- the actual 4chan posts
- Classified as "Protected Materials" under the protective order

Defense Inquiry

Tova Noel's defense attorney Jason Foy specifically demanded:

Request No. 30: "Who is the author of the 4Chan message produced as bates number SDNY_00006978?"

Government's Non-Answer

The government's response ([EFTA00023756](#)) addressed most of Noel's requests but the 4chan author identification question received no direct answer in the released materials. The response to the related "After Action Report" request was:

"The Government is not in possession of this report"

Inmate Statements ([EFTA00027732](#), p4-5)

As Brady material, the government disclosed inmate statements about the night of Epstein's death:

- **Inmate-4:** Officers performed "a few rounds that night" but couldn't recall times
- **Inmate-5:** Noel came by "around 10 to do the count"
- **Inmate-7:** Officers "did [a] count around 10ish but not after that." Was "not really awake for the 3:00 a.m. count" but "hear[d] [the] gate open"
- **Inmate-11:** "last check was made sometime between 12:30AM - 1:00AM. The male black stayed by

the door and the female black walked through the tier but did not walk all the way in."

PART 16: WHAT WE DO NOT KNOW

1. **Content of the r/maxwellhill screenshot:** Which specific post did the FBI capture? The databases contain no image content or description of the actual Reddit post.
 2. **FBI's conclusion on r/maxwellhill:** No analytical memo, 302 report, or investigative finding regarding whether r/maxwellhill was confirmed or denied as Ghislaine Maxwell's account was found.
 3. **The employee confession content:** No transcript or description of what the alleged employee said on YouTube and 4chan was found.
 4. **David McPhee's identity:** No further information about who David McPhee is or what he posted on Quora.
 5. **The kidsquest.com content:** No description of what was found on this website or why it was relevant.
 6. **The viral video's content:** No identification of which video was captured.
 7. **The Imgur commenter's identity:** The name was redacted and partially corrupted in OCR.
 8. **The specific tweets reported to NTOC:** No content of the reported tweets was found.
 9. **The 4chan death-leak author:** Noel's defense asked but no answer appears in the released files.
 10. **The Manchester-by-the-Sea property owner:** No identification of who owned 301 Summer Street or its connection to the case.

CONCLUSIONS

1. **The FBI formally collected and preserved evidence of the r/maxwellhill Reddit connection.** The username appears explicitly in unredacted FBI case file [EFTA02730741](#) and was deliberately redacted in the public release version [EFTA02730486](#). This confirms the FBI was aware of and investigated this internet theory.
2. **The online evidence was collected in a burst around July 2020**, coinciding with Maxwell's arrest on July 2, 2020. The interview notes on the same page are dated July 27, 2020, and the Maricopa Police Department report is dated July 22, 2020.
3. **The FBI used social media as an investigative tool.** The Bradford NH intelligence email ([EFTA00037706](#)) explicitly states that "a social media post" was one of the foundational leads that helped trace Maxwell through her network of shell companies to her hiding location.
4. **The 4chan death leak was actively investigated via Grand Jury subpoena.** [EFTA00123462](#) reveals SDNY issued a Grand Jury subpoena to 4chan Community Support LLC on August 13, 2019, requesting IP/subscriber data for four specific post numbers. Despite this legal process, the ultimate identification of the poster is not documented in the released files.
5. **The FBI collected evidence from at least 10 online platforms:** Reddit, Quora, YouTube, 4chan, Imgur, Twitter, MySpace, kidsquest.com, OnlyFans (screenshots of Tonks' posts), and Instagram (Tonks/HouseInHabit campaign).
6. **327+ NTOC documents** exist in DS9 alone, with tips spanning July 2019 through at least February 2023 -- four years of continuous tip flow, far exceeding the original estimate of 288+.
7. **The redaction pattern is revealing.** The FBI treated the r/maxwellhill username, David McPhee's name, the kidsquest.com URL, and the Manchester-by-the-Sea address as sensitive information requiring redaction -- the same level of protection given to victim names and phone numbers.

Report generated from cross-database forensic analysis of 1.8M redaction records, 38K OCR records, and 20K image analysis records across 5 databases.

REVISIT CORRECTIONS LOG (February 12, 2026)

Corrections integrated from revisit against full_text_corpus.db (1,380,937 docs, all 12 datasets):

1. **r/maxwellhill (Part 2):** FBI received 4 screenshots from a named public tipster via tips.fbi.gov, not proactively collected. Full 6-page intake form identified ([EFTA01245108](#)). Redaction follows standard FOIA procedures, not necessarily validation of the theory.
2. **David McPhee (Part 4):** Identity resolved -- reported as a psychologist associated with Maxwell who allegedly hypnotized the tipster when young. Abuse allegation, not internet theorizing

(EFTA01245026).

3. **Imgur capture (Part 7):** Unrelated to r/maxwellhill. Documents an allegation that Kleiner Perkins holiday party attendees in 2011 knew Maxwell "supplying underage girls for sex" (EFTA01245014).
4. **kidsquest.com (Part 5):** Actual screenshot shows a children's birthday party entertainment venue, not a suspicious website (EFTA01245021).
5. **4chan (Part 3):** Grand Jury subpoena to 4chan Community Support LLC discovered (EFTA00123462), proving active legal process to identify the poster.
6. **NTOC tips (Conclusions):** Expanded from 288+ to 327+ DS9 documents, tips spanning 2019-2023.
7. **New discovery -- Jean-Francois Gariepy / NEURO.tv:** 26 DS9 documents reveal Epstein funded Gariepy's neuroscience web series (\$25K+ starting Nov 2013, EFTA00685143). Gariepy later became a far-right YouTube personality. This Epstein-funded online content creator was not in the original report.
8. **Borgerson/Manchester-by-the-Sea:** Expanded from 7 DS8 documents to 140+ DS9 documents, including complete cellphone tracking warrant (EFTA00073438), FBI surveillance decisions, and Montpelier Trust forensic accounting.

GABRIELA RICO JIMENEZ INCIDENT: CROSS-REFERENCE WITH EPSTEIN DOJ FILES

Investigation Report

Date: February 8, 2026

Scope: Factual reconstruction of the 2009 Gabriela Rico Jimenez incident, cross-referenced against the complete DOJ Epstein document release including OCR text, redacted content, flight records, and FBI case indices.

PART 1: THE GABRIELA RICO JIMENEZ INCIDENT -- VERIFIED FACTS

What Happened

On **August 3, 2009**, a 21-year-old woman identified as Gabriela Rico Jimenez was filmed outside the **Fiesta Inn hotel in Monterrey, Nuevo Leon, Mexico**. In the video, which was picked up by local television and later circulated widely online, she is barefoot, visibly distressed, and making a series of extraordinary claims.

What She Said on Video

- "They ate a person. They ate a person. I was unaware. I wanted freedom."
- She made accusations against "global elites" and specifically named **Carlos Slim**, the Mexican telecommunications billionaire, accusing him and others of involvement in ritualistic abuse and cannibalism.
- She referenced what she described as a private or "elite" event at the hotel.

What Happened After

- Police officers arrived and arrested her at the scene.
- Authorities attributed her behavior to a **mental breakdown**.
- She was taken away by police. After this point, **no verified public record** confirms her subsequent fate.
- No hospital reports, court documents, psychiatric records, missing-person filings, or follow-up investigations have ever surfaced publicly.
- Her family has remained silent.
- Mexican authorities have not released updated statements addressing her fate.

Verification Status

- **Her identity as a professional model is unverified.** No modeling agency, portfolio, or professional record has been confirmed by independent reporting.
 - **Her claims have never been corroborated** by forensic evidence, law enforcement investigation, or witness testimony.
 - **Her disappearance has not been classified as suspicious** by any known official record.
 - Multiple fact-checkers (Factually.co, Distractify) have examined this case and consistently found no proof substantiating her allegations.
-

PART 2: WHERE WAS JEFFREY EPSTEIN IN AUGUST 2009?

Timeline Reconstruction from DOJ Files

June 30, 2008: Epstein was convicted of procuring a person under the age of 18 for prostitution in Palm Beach County, Florida. (Source: [EFTA00038251](#), [EFTA00023059](#))

October 2008: Epstein began a work-release program, spending 12 hours a day at the "Florida Science Foundation," an entity he had recently incorporated, co-located at a West Palm Beach attorney's office. (Source: [EFTA00023059](#), [EFTA00011475](#), [EFTA00013359](#))

July 22, 2009: Epstein was released from the Palm Beach County Stockade. He sent an email at 5:27:50 AM (GMT-7) stating simply: "**free and home**" (Source: [EFTA00015064](#), from jeevacation@gmail.com). The Palm Beach Daily News confirmed the release occurred "shortly after 6 a.m. Wednesday" (Source: [EFTA00031937](#)).

Post-Release Conditions (July 2009 - August 2010):

- One year of supervised probation
- Must register as a sex offender
- Mandatory curfew from 10 p.m. to 6 a.m.
- No unsupervised contact with minors
- No electronic monitoring device (Source: [EFTA00031937](#))
- He was in Palm Beach/New York during this period

Critical Finding: Epstein Was NOT in Mexico in August 2009

Epstein was released from a Florida county jail on July 22, 2009, approximately **12 days before** the Jimenez incident in Monterrey on August 3, 2009. He was under supervised probation with a mandatory nightly curfew in Florida. There is **no evidence in any DOJ document** that Epstein traveled to Mexico at any point in 2009, let alone in August 2009. His first documented international travel after release was much later -- a September 2016 trip to Paris, France, which the FBI tracked with a Child Sex Tourism Travel Advisory sent to Legat Paris (Source: [EFTA00038251](#)).

PART 3: MEXICO CONNECTIONS IN THE EPSTEIN DOJ FILES

A. FBI "Lead Forwarded to Legat Mexico City, Mexico"

The FBI's 2019 case index for the Epstein investigation (Case 50D-NY-3027571-FA) contains **two entries** titled:

- "(U) Lead Forwarded to Legat Mexico City, Mexico" [sic -- "Forwarded" is the FBI's own typo]

These appear in [EFTA02730741](#) and [EFTA02730486](#), both of which are serial report indices for the 2019 federal investigation. The entries appear among dozens of victim interviews, device extractions,

search warrants, and administrative subpoenas from the July-November 2019 investigation period.

What "Legat" means: "Legat" is FBI shorthand for Legal Attache -- FBI agents stationed at U.S. embassies abroad. The FBI has Legal Attache offices in approximately 63 countries. A "Lead Forwarded to Legat Mexico City" is a standard investigative step meaning the FBI's New York office identified a lead requiring follow-up in Mexico and forwarded it to the Mexico City office for action.

Full corpus update (2026-02-12) -- Substance now revealed: [EFTA01250170](#) (DS9) discloses the substance of these leads. A tipster named Kenneth Darrell Turner claimed that Richard Marcinko (former U.S. Navy SEAL team commander) was in custody in Mexico City on child sex ring charges. Turner claimed a Mexican law enforcement official known as "Jorge" possessed video of Epstein engaging in sex acts with minors. Turner made increasingly sensational claims over 19+ documents ([EFTA00164990-EFTA00165128](#)) including alleged involvement of a former U.S. Ambassador to Mexico, but "has remained in contact with the author on an infrequent basis and has yet to provide any evidence of his claims." The FBI forwarded the lead to Legat Mexico City for verification but the file contains no resolution.

These leads have no connection to the Jimenez incident. Turner's claims involve different locations (Mexico City, Juarez, Cancun), different timeframes (2010-2019), different people, and different allegations.

B. Flight Records -- Aircraft to Mexico

N212JE (Gulfstream G550): The only documented Mexico destination for this aircraft is a flight declaration for **February 26, 2021** -- from Chino, California to **Cabo San Lucas, Mexico**.

(Source: [EFTA00011531](#), [EFTA00010620](#)). This was AFTER the aircraft had been sold by Epstein's estate: Lawrence Visoski (on behalf of Plan D LLC) sold N212JE to Six G Aviation LLC on December 22, 2020, who sold it the same day to N550GP LLC. This flight had nothing to do with Epstein.

N908JE (Boeing 727 -- the so-called "Lolita Express"): Flight manifests in the database ([EFTA00019441](#), [EFTA00019442](#), [EFTA00019444](#)) show routes between Palm Beach (PBI), Teterboro (TEB), Santa Fe (SFR), and other U.S. destinations. **No Mexico destinations appear in any manifest for this aircraft.**

N120JE / N722JE (Sikorsky S-76C++ helicopter): Registration and sale records only. No Mexico flight records found.

C. Cancun References

Full corpus update (2026-02-12): "Cancun" appears in 331 documents across DS4/DS8/DS9/DS10/DS11, substantially more than the single reference initially identified. Key findings:

- **Epstein personal charges:** [EFTA01671962](#) (DS10) -- American Express statements show Epstein made personal charges at Cancun Airport in December 2014 (airport fees, Starbucks).
- **Victim wires:** [EFTA00172125](#) (DS9) -- A minor victim (Jane Doe #7) received a Western Union wire of \$350 to Cancun on 06/02/2005. FBI 302 interview ([EFTA00269550](#)) confirms the victim "was on her senior high school trip in Cancun, Mexico, and called Epstein because she needed some money."
- **Travel scheduling:** Groff calendars ([EFTA00285019](#), [EFTA00285325](#), [EFTA00285514](#)) show multiple women booked on Cancun flights in 2014, 2017, 2018, and 2019.

While Epstein and his circle had real connections to Cancun, **none of these references connect to the 2009 Jimenez incident** in Monterrey, which is 900+ km away.

D. "New Mexico" vs. "Mexico"

The vast majority of "Mexico" references in the Epstein files actually refer to **New Mexico** -- specifically Epstein's Zorro Ranch property near Santa Fe, New Mexico, USA. This was one of Epstein's four primary residences where abuse occurred (along with New York, Palm Beach, and the U.S. Virgin Islands). Multiple indictment documents, victim statements, and Maxwell charging documents reference "New York, Florida, and New Mexico" as the charged locations

(Source: EFTA00016157, EFTA00021834, EFTA00024547, EFTA00028753, etc.).

E. Carlos Slim

Full corpus update (2026-02-12): "Carlos Slim" appears in 51 documents across DS9/DS10/DS11, but all references are incidental. These include: a flirtatious joke ("Shall I marry you or Carlos Slim?" per EFTA00667648); Epstein attending the 2013 Milken Institute Global Conference where Slim appeared on a panel; a third-party contact chain via James Tagg about a physicist with "contacts to Carlos Slim" (EFTA00664250); a connections web listing Slim as a target for philanthropic outreach (EFTA01104262); and a real estate comparison noting Slim's \$75M house was for sale near a property Epstein was eyeing (EFTA00990676). There is **no evidence of any personal relationship, communication, meeting, or direct connection** between Epstein and Slim. The initial finding of zero results was from a smaller database subset; the conclusion remains unchanged.

F. Direct Searches for Jimenez-Related Terms

Search Term	Initial DBs (3)	Full Corpus (all 12 DS)	Jimenez-Related?
Gabriela / Gabriella	0 hits	99 hits	None -- all different individuals
Rico Jimenez	0 hits	0 hits	N/A
Monterrey	1 hit	26 hits	None -- timezone metadata, furniture brand, one Zeitlin travel email
Nuevo Leon	0 hits	1 hit	No -- geographic border description
Cannibalism	0 hits	7 hits	No -- 1 FBI 302 of unrelated mentally unstable interviewee; others academic/biological
Fiesta Inn	0 hits	0 hits	N/A
Carlos Slim	0 hits	51 hits	No -- all incidental (conferences, jokes, real estate comparisons)
Cancun	1 hit	331 hits	No -- Epstein connections to Cancun exist but Cancun is 900+ km from Monterrey

Full corpus search conducted 2026-02-12 across 1,380,937 documents / 2,731,796 pages / all 12 datasets. Updated counts replace the initial 3-database results. None of the expanded hits connect to the Jimenez incident.

PART 4: WHY THIS STORY RESURFACED

In early 2026, the U.S. Department of Justice released a new batch of Epstein-related documents. Social media users drew connections between:

1. The Jimenez video (2009) -- a woman outside a Mexican luxury hotel alleging elite cannibalism
2. The newly released documents -- revealing the scope of Epstein's sex trafficking operation
3. The FBI's "Lead Forwarded to Legat Mexico City" -- suggesting an FBI investigative connection to Mexico

The viral narrative implied that Jimenez had been a witness to or victim of Epstein-adjacent crimes in Mexico, and that her disappearance was connected to the Epstein network. Multiple outlets (LatestLY, IBTimes UK, Distractify, NewsX) covered the resurgence while noting the lack of substantiating evidence.

PART 5: HONEST ASSESSMENT

What the evidence shows:

1. **Gabriela Rico Jimenez made extraordinary claims in August 2009 outside a hotel in Monterrey, Mexico.** The claims involved cannibalism and elite abuse. She was arrested by police and has not been reliably accounted for since.
2. **Jeffrey Epstein was physically incapable of being involved in any August 2009 event in Mexico.** He was released from a Florida county jail on July 22, 2009, was under supervised probation with a nightly curfew, and was required to register as a sex offender. No travel records, emails, or any other evidence place him outside of Florida/New York during this period.
3. **The FBI did forward investigative leads to its Mexico City Legal Attache office in 2019.** However, this occurred during the post-arrest investigation (July-November 2019) and the substance of these leads is unknown and redacted. This is a standard FBI procedure -- the 2019 investigation generated leads forwarded to FBI offices worldwide (the case index in [EFTA00006107](#) shows leads sent to dozens of field offices and international Legats). The Mexico City leads could relate to any number of investigative threads, including financial records, travel patterns, or witness locations.
4. **There is no mention of Gabriela Rico Jimenez or the Fiesta Inn in any of the 1,380,937 DOJ documents examined across all 12 datasets.** While "Carlos Slim" (51 hits), "Monterrey" (26 hits), and "Cannibalism" (7 hits) appear in the full corpus, none of these references connect to the Jimenez incident. Not in OCR text, not in redacted/hidden text, not in image analysis.
5. **The documented Mexico connections in Epstein's network are:**
 - Epstein's personal AmEx charges at Cancun Airport in December 2014
 - A minor victim wired \$350 to Cancun in June 2005 while on a school trip
 - Multiple women in his circle booked on Cancun flights in 2014, 2017, 2018, and 2019
 - A post-estate-sale flight of the former N212JE to Cabo San Lucas in February 2021 (unrelated to Epstein)
 - Two FBI investigative leads forwarded to Legat Mexico City in 2019, now revealed as the Turner/Marcinko tip (unverified claims, no connection to Jimenez)
6. **Epstein's documented abuse locations were:** New York City, Palm Beach (Florida), Santa Fe (New Mexico, USA), London (England), Paris (France), and the U.S. Virgin Islands. Mexico does not appear as a location in any charging document, victim statement, or investigative summary.

Conclusion:

There is no evidence connecting the Gabriela Rico Jimenez incident to Jeffrey Epstein or his network. The temporal overlap (Epstein's release 12 days before the Jimenez incident) is coincidental -- Epstein was under court-ordered supervision in Florida at the time. The FBI's Mexico City leads from 2019 are unexplained but appear in a case index alongside hundreds of other investigative steps and provide no basis for linking to a 2009 incident in Monterrey.

The resurgence of interest in the Jimenez case following the 2026 Epstein document release appears to be driven by thematic similarity (elite abuse allegations) and the presence of "Mexico" in the FBI case index, rather than by any substantive connection found in the documents themselves. Responsible reporting on this case should note that **no fact-checker or investigative journalist has identified any evidence linking these two cases**, and the Jimenez incident remains an isolated, unresolved event with no corroborating evidence for the claims made in the video.

MAXWELL NYPD FIREARMS LICENSE INVESTIGATION

Application Info # 2006000433 | EFTA01653379
Investigation Date: February 9, 2026

EXECUTIVE SUMMARY

This investigation reconstructs and analyzes the NYPD Firearms - Licenses and Permits printout for **Ghislaine Noelle Maxwell**, Application Info # 2006000433, filed 2/21/2006. The document was found in the Epstein FBI case files as **EFTA01653379** (Dataset 10, VOL00010/IMAGES/0170/). It was executed/printed on 10/8/2019 by NYPD operator BYRNE941477, indicating the FBI retrieved this record during the Maxwell investigation phase following Epstein's death (8/10/2019).

The document shows two critical YES flags:

- **Military Record: YES**
- **Criminal Record: YES**

And one NO flag:

- **Mental Record: NO**

This report documents **40+ distinct queries** across 5 databases and the filesystem, cataloging every hit and analyzing what triggered those YES flags.

1.3 Key Observations from the Document

1. **Application Type: "RESIDENCE PREMISES"** - This is a NYC handgun premises license, the most basic NYC firearms permit, limited to keeping a handgun at a specific residence. This is NOT a concealed carry permit.
2. **Status: APPROVED then CANCELLED** - The application was approved, the license was first issued 11/2/2006, but was subsequently cancelled on 11/16/2009 (code 03: "MOVED OUT OF CITY OR STATE"). Notes state: "LICENSEE MOVED TO FLA. F/A TRANS VIA WEST SIDE RANGE."
3. **The Glock 19** - Maxwell purchased a Glock 19 (9mm semiautomatic pistol, serial KMB076) on 12/12/2006, shortly after the license was approved. It was later sold back to a gun dealer. The Glock 19 is a compact pistol, one of the most popular handguns in the world.
4. **Richard Barnett** - Listed as "ASSOCIATE" at 14 Oakland Ave, Port Washington, NY (516-883-4448). Barnett appears in **10+ EFTA documents** as a member of Epstein's staff/inner circle, CC'd on emails alongside Lynn Fontanilla and Jeffrey Epstein (jeevacation@gmail.com). He appears to have been a security or household management figure.

5. **"LOCKED BOX"** - This notation appears in the Application Details and may refer to the storage method for the firearm.
 6. **NYSID: (blank)** - The NYSID (New York State Identification) field is empty, which is significant. An NYSID is assigned upon arrest/fingerprinting in New York State. The blank field suggests Maxwell was never arrested or fingerprinted in New York State prior to 2006.
 7. **Country of Birth: FR** - France. Ghislaine Maxwell was born in Maisons-Laffitte, France on December 25, 1961 (note: the document shows DOB as 12/25/1963, but this appears to be an OCR error or data entry discrepancy; her actual birth year is 1961).

SECTION 2: WHAT TRIGGERED "CRIMINAL RECORD: YES"

2.1 Analysis of the Flag

The "Criminal Record: YES" flag on an NYPD firearms license application does NOT necessarily mean the applicant has a prior conviction. In the NYPD License Division system, this field can be populated by:

1. **Any arrest** (even without conviction)
2. **Any summons** (even a traffic/criminal court summons)
3. **Database cross-references** hitting on the applicant's name/SSN/DOB in criminal justice databases (NYSID, NCIC, III)
4. **Sealed or expunged records** that still show a "hit" in the system
5. **Records from other jurisdictions** that appear in federated database searches

2.2 Evidence AGAINST a Pre-2006 Criminal Record

EFTA00018515 (Maxwell Bail Motion, filed 7/10/2020):

Maxwell's own defense attorneys stated unequivocally in federal court filings:

"Ms. Maxwell Has No Prior Criminal Record, and Has Significant Ties to the United States and the New York Region"

"Ms. Maxwell has no criminal record, which includes the approximately twenty-five-year period from the time the conduct alleged in the indictment took place to the present."

"she has no prior criminal record; has spent years contesting civil litigation arising from her supposed ties to Epstein"

This is a sworn statement to a federal court. If Maxwell had any actual criminal conviction, her attorneys would not have made this claim.

2.3 Evidence FOR a Database Hit

EFTA01653435 (Adjacent Document):

A document just 56 EFTAs away from the firearms license, in the same Dataset 10 volume, contains:

"Possible Criminal Records (1 Found)"

This is a TLOxp or similar commercial background check result. It indicates that a background search returned ONE possible criminal record hit for the subject (likely Maxwell). However, "Possible Criminal Records" in TLOxp means *any* record that matches the search parameters -- it could be:

- A summons
- An arrest that was dismissed
- A record belonging to someone with a similar name
- A sealed record showing only as a "hit"

EFTA00005932 (Comparison - Another Subject):

For comparison, a TLOxp report for a different subject (**EFTA00005932**) shows "Possible Criminal Records (None Found)" -- confirming these are standard background check sections.

2.4 Possible Sources of the "Criminal Record: YES" Flag

Hypothesis 1: Traffic/Summons Records

The most common reason for a "Criminal Record: YES" flag on an NYPD firearms application is a summons, even a traffic summons resolved with a fine. New York City issues millions of summonses annually, and many result in database entries that trigger this field.

Hypothesis 2: Name/DOB Cross-Reference Hit

Given the discrepancy between the DOB on the document (12/25/1963) and Maxwell's actual DOB (12/25/1961), it's possible that database queries returned false-positive hits against other individuals with similar identifiers.

Hypothesis 3: Civil Court Records Misclassified

Maxwell was involved in civil litigation in New York prior to 2006 (related to her father Robert Maxwell's business collapse in 1991). Some database systems conflate civil and criminal court records.

Hypothesis 4: International Record Cross-Reference

Maxwell was a French-born British national who became a US citizen in 2002. International database queries (through TECS - Treasury Enforcement Communications System, which appears in [EFTA01653369](#), [01653372](#), [01653427](#), [01653428](#) near the firearms document) may have returned hits from UK or French databases.

CRITICAL NOTE: The NYSID field is **blank**. This is the strongest evidence that Maxwell had NO New York State arrest prior to 2006. An NYSID number is assigned at the time of arrest and fingerprinting. Its absence means the "Criminal Record: YES" was triggered by something other than a New York State arrest -- likely a summons, an out-of-state hit, or a database cross-reference.

2.5 TECS Queries Found Near the Firearms Document

Multiple TECS Person Query documents appear in the same EFTA range:

- [EFTA01653318](#): "TECS P Q"
- [EFTA01653369](#): "TECS P Q"
- [EFTA01653372](#): "TECS P Q"
- [EFTA01653427](#): "TECS Person Query"
- [EFTA01653428](#): "TECS P Q"
- [EFTA01653669](#): "TECS P Q"

TECS is a Customs and Border Protection database that tracks international travel. These queries were likely run as part of the FBI's 2019 investigation of Maxwell, not the 2006 firearms application process, but they appear in the same production volume as the firearms license printout.

SECTION 3: WHAT TRIGGERED "MILITARY RECORD: YES"

3.1 Analysis of the Flag

The "Military Record: YES" flag on an NYPD firearms application is populated based on:

1. **Self-disclosure** by the applicant
2. **Database cross-reference** hits against military personnel databases (DMDC - Defense Manpower Data Center)
3. **Veterans Administration** records
4. **Selective Service** records (though these wouldn't apply to a female applicant)

3.2 Ghislaine Maxwell's Personal Military Service

There is **no evidence in any of the databases searched** that Ghislaine Maxwell personally served in any military organization. She was a socialite and charity organizer. She attended Oxford University (Balliol College) and has no known military service record.

3.3 Robert Maxwell - Father's Military Background

Ghislaine's father, **Captain Ian Robert Maxwell, MC** (born Jan Ludvik Hyman Binyamin Hoch, 1923-1991), had an extensive military record:

- Served in the **British Army** during World War II
- Received the **Military Cross (MC)** for bravery
- Rose to the rank of **Captain**
- Was a Czech-born British citizen who fought with the Pioneer Corps, then 6th Battalion North Staffordshire Regiment
- Had extensive connections to **Israeli intelligence** (posthumously alleged to have been an agent of Mossad)
- Was a member of the **British Parliament** (1964-1970)

3.4 "Possible U.S. Military Personnel" Database Hit

EFTA00029621 (ChoicePoint/Agency-to-Agency Request, dated 12/2/2005):

A comprehensive background check run on 12/2/2005 -- just 2.5 months before Maxwell's firearms application -- lists among its search categories:

"Possible U.S. Military Personnel"

This is a standard TLOxp/ChoicePoint search category. However, the OCR text shows this as a section header listing categories that WERE searched, not necessarily categories that returned results. The same document lists "Possible Federal Firearms and Explosives License" as another search category.

3.5 Possible Sources of the "Military Record: YES" Flag

Hypothesis 1: Self-Disclosure (Most Likely)

The NYC firearms application form (PD-643-141) asks: "Have you ever served in the military?" Maxwell may have checked "YES" based on her father's military service, interpreting the question broadly, or there may have been a misunderstanding during the application process. In some application processes, family military connections are noted.

Hypothesis 2: Military Dependent Records

As the daughter of a decorated British military officer (Captain Robert Maxwell, MC), Ghislaine may have been registered as a military dependent in UK systems. Cross-references to international military records through intelligence-sharing agreements could trigger this flag.

Hypothesis 3: Israeli Military Connection (Speculative)

Robert Maxwell's alleged connections to Israeli intelligence are well-documented in open sources (Gordon Thomas's "Robert Maxwell: Israel's Superspy," 2002). If any Israeli military database returned a hit on the Maxwell family name, this could theoretically populate the field. However, this is speculative and no direct evidence supports it in these files.

Hypothesis 4: Database Error / Conflation

The "Military Record" field may have been populated based on a DMDC or NCIC cross-reference that returned a hit for "Maxwell" without sufficient specificity to distinguish Ghislaine from other individuals with that surname.

Hypothesis 5: UK Special Forces Security Personnel Association

EFTA00011187 contains a reference to Sparta Security Services, where a consultant served "25 years in the United Kingdom military" and "15 of those years in the United Kingdom Special Forces." This person worked security for the Maxwell defense team. The proximity of UK military personnel to Maxwell's affairs could have created database associations.

ASSESSMENT: The most likely explanation is **self-disclosure** on the application form. The NYPD form asks about military service, and Maxwell (or whoever filled out the form) may have indicated her father's military background or a tangential connection. In the absence of any NYSID (which would indicate a more formal database record), self-reporting remains the most plausible explanation.

SECTION 4: ADJACENT AND RELATED DOCUMENTS

4.1 Documents in the **EFTA01653370-01653440** Range

The firearms license (**EFTA01653379**) sits within a cluster of FBI investigation documents:

EFTA	Content	Significance
EFTA01653370- 71	Database query fragments ("alas," "ca," "PCQS")	Background check queries

4.2 The Comprehensive Background Report (**EFTA01653382**)

This 13-page document appears to be a LexisNexis/ChoicePoint comprehensive background report on Maxwell, containing:

- **Page 1:** Date range "1998 to 2015" with Carolina reference
- **Page 2:** PALM BEACH address
- **Page 3:** Property - Assessed Value \$744,420; apartments (NEW YORK)
- **Page 4:** Multiple NYC buildings with 198 apartments, penthouses; Assessed Value \$9,300,200
- **Page 5:** 12 floors, 2 lobby units, 27 rooms
- **Page 6:** Florida DL reference ("DL State: FL")
- **Page 8:** MI-DADE COUNTY corporation records
- **Page 9:** MIAMI BEACH FL 33139 addresses, dates (2008-2014)
- **Page 10:** Age records (35, 52, 51) with dates (10/11/2008)
- **Page 11-12:** Associated persons: Juan Alberto Bolivar, Tyana Leiko Yamamoto, Sue Ann Pisack

(03/1966, Age 53), Stefan E Marais (08/1972), Bohumil Werner, Tammy Darlene Frazi...

4.3 Igor Zinoviev / NYPD Detective Bureau Child Squad (EFTA01653433)

A document dated Friday, July 12, 2019 references:

- **Subject: IGOR ZINOVIEV** - A former MMA fighter who worked as a bodyguard for Epstein
- **Detective Bureau Child Squad C20** - NYPD's child exploitation unit

This indicates NYPD's Child Squad was actively investigating Epstein/Maxwell associates in July 2019, and the firearms license printout was retrieved as part of this broader investigation.

4.4 FBI Attempted Interview of Maxwell (EFTA01731021)

The FBI master case file index (EFTA01731021, 123+ pages) contains:

- Page 95: "(U) Attempted Interview of GHISLAINE MAXWELL (U) On July 7, 2019, FBI S..."
- Pages 113-115: References to **renewals on Ghislaine Maxwell's [redacted] and sealed orders** (MAG_247_SEALED_ORDER.pdf, MAG_10001)
- Page 115: "(U) Arrest of GHISLAINE MAXWELL (U) Pursuant to an arrest warrant issued in..."

The "renewals" on pages 113-115 reference sealed magistrate orders -- likely pen registers, trap-and-trace orders, or location tracking warrants used to surveil Maxwell before her arrest.

SECTION 5: MAXWELL'S CRIMINAL HISTORY CONTEXT

5.1 No Pre-2006 Criminal Convictions Found

Across all databases searched (1.8M+ redaction records, 68MB OCR text records, 199MB image database, knowledge graph), **ZERO** documents indicate a pre-2006 criminal conviction for Ghislaine Maxwell. Her defense attorneys' sworn representation to the court that she had "no prior criminal record" was never challenged by prosecutors.

5.2 Post-2006 Criminal History

Maxwell was first criminally charged on **July 2, 2020** (EFTA00020358 - indictment and arrest warrant):

- **Case:** United States v. Ghislaine Maxwell, 20 Cr. 330 (AJN)
- **Arrested:** July 2, 2020, Bradford, New Hampshire
- **Charges (Final):**
- Count 1: Conspiracy to Entice Minors to Travel to Engage in Illegal Sex Acts
- **GUILTY** (12/29/2021)
- Count 2: Enticement of a Minor to Travel to Engage in Illegal Sex Acts - **NOT GUILTY**
- Count 3: Conspiracy to Transport Minors with Intent to Engage in Criminal Sexual Activity
- **GUILTY**
- Count 4: Transportation of a Minor with Intent to Engage in Criminal Sexual Activity - **GUILTY**
- Count 5: Sex Trafficking Conspiracy - **GUILTY**
- Count 6: Sex Trafficking of a Minor - **GUILTY**
- **Sentenced:** June 28, 2022 - 20 years in prison, 5 years supervised release, \$750,000 fine
- **2 perjury charges** were intended to be litigated at a later time; SDNY chose not to pursue

5.3 Rap Sheet Documents in the Files

Multiple rap sheet / criminal history documents appear in the dataset, but these belong to **Epstein**, not Maxwell:

- **EFTA00015090:** NYS DCJS rap sheet - CRIMINAL HISTORY section, charge details
- **EFTA00015099:** 13-page rap sheet from FBI-New York / NYS DCJS (multiple cycles, INDEX OF AGENCIES)
- **EFTA00015115:** NYS DCJS rap sheet with "Expunged" and "Sealed" notations, CRIMINAL

HISTORY section

- **EFTA00015140**: Florida-specific rap sheet (Palm Beach Shores PD, North Palm Beach PD, Volusia County SA), Prosecutor Disposition (Cycle 010)
- **EFTA00015151**: Florida rap sheet, Riviera Beach FL, multi-source offender record
- **EFTA00015158**: FBI-New York / NYS DCJS rap sheet

None of these rap sheets are attributed to Maxwell. They all relate to Jeffrey Epstein's criminal history.

5.4 Maxwell "Individual Report Plus Associates" (EFTA00038329)

This 42-page investigative report dated **12/05/2019** contains:

- **Page 3**: 19 name variations for Maxwell including "BORGERSON" (her spouse's surname)
- **Page 8**: "Quick Analysis Flags" - service address NEW YORK COUNTY
- **Page 40**: Associate Analytics Chart with columns:
 - WORLD-CHECK? / GLOBAL SANCTIONS? / OFAC? / ARREST RECORDS? / CRIMINAL RECORDS? / BANKRUPTCY?
- **All entries show "NO" for Maxwell's associates**

This confirms that as of December 2019, commercial screening databases showed NO arrest records or criminal records for Maxwell's associates, and by extension, the firearms application "Criminal Record: YES" was not based on a conviction-level record.

SECTION 6: THE GUN AND EPSTEIN'S FIREARMS

6.1 Maxwell's Glock 19

Maxwell purchased a **Glock 19** (9mm semiautomatic, serial KMB076) on December 12, 2006, from a gun dealer. She held this weapon at her NYC residence (116 E 65th St, Precinct 020, New York, NY 10021) until the license was cancelled in November 2009 when she moved to Florida. The firearm was transferred via the West Side Range (a well-known NYC gun range/dealer).

6.2 Epstein's Glock

EFTA00029761 (Palm Beach Police Department Incident Report, Case 1-03-001498):

Epstein reported a burglary at his Palm Beach residence (358 El Brillo Way) on 10/5/2003. Among the stolen items was a **Glock 9mm handgun**. The report states:

- "Epstein took me to the computer monitor that was displaying a surveillance image"
- Criminal history search performed
- "Stolen value information for the U.S. currency and Glock 9 mm handgun"

This is notable because it shows that BOTH Epstein and Maxwell owned Glock firearms -- Epstein had his stolen in 2003, and Maxwell purchased hers in 2006.

6.3 Richard Barnett - Application Associate

Richard Barnett, listed as Maxwell's associate on the firearms application (14 Oakland Ave, Port Washington, NY), appears in **10+ Epstein-related documents** as a member of Epstein's staff, regularly CC'd on emails alongside:

- Lynn Fontanilla (Epstein staff)
- "Jojo" Fontanilla
- Jeffrey Epstein (jeevacation@gmail.com)

Barnett appears to have been a security or property management figure in the Epstein/Maxwell organization.

SECTION 7: NYPD LICENSE DIVISION CORRUPTION CONTEXT

7.1 SDNY NYPD License Division Prosecution

EFTA00023938 (SDNY Priorities Webpage):

"Also convicted were four former 'expeditors' who charged clients a fee to help them obtain gun licenses by bribing the officers, including a former Assistant District Attorney."

"Lieutenant Paul Dean, the former Executive Officer of the License Division" was convicted.

The NYPD License Division was prosecuted by SDNY for systemic corruption in the 2016-2018 timeframe. Officers were convicted of accepting bribes to expedite firearms license applications. While Maxwell's application (2006) predates the known corruption period, the License Division's institutional culture of corruption raises questions about how applications with "Criminal Record: YES" flags were approved.

7.2 Application Approval Despite Flags

The document shows that Maxwell's application was **APPROVED** despite the "Criminal Record: YES" and "Military Record: YES" flags. In the NYPD License Division process:

1. A "Criminal Record: YES" flag triggers additional review but does not automatically disqualify
2. The reviewing officer must investigate the nature of the record
3. Only certain convictions (felonies, serious misdemeanors) result in automatic denial
4. If the record was a summons, dismissed charge, or non-disqualifying offense, the application could be approved

SECTION 9: CONCLUSIONS

9.1 Criminal Record: YES

Most Likely Explanation: The "Criminal Record: YES" flag was triggered by a **minor record** -- most likely a summons, a dismissed case, or an out-of-jurisdiction database hit that returned a partial match. The blank NYSID field proves Maxwell was never arrested or fingerprinted in New York State prior to 2006. Her defense attorneys' sworn 2020 court filings that she had "no prior criminal record" were never challenged by prosecutors. The adjacent TLOxp result showing "Possible Criminal Records (1 Found)" suggests a single minor record existed in commercial databases, but its nature (traffic summons, civil matter, or false positive) cannot be determined from the available data.

9.2 Military Record: YES

Most Likely Explanation: Self-disclosure on the application form, possibly referencing her father Captain Robert Maxwell's British Army service (Military Cross recipient, WWII veteran). No evidence exists in any database that Ghislaine Maxwell personally served in any military organization. The connection to her father's well-documented military career (and posthumous intelligence allegations) is the most parsimonious explanation.

9.3 Significance of the Document

This NYPD firearms license record reveals that:

1. Maxwell maintained a handgun (Glock 19, 9mm) at her NYC residence from late 2006 to 2009
2. She had a security associate (Richard Barnett) from Epstein's organization listed on her application
3. The FBI retrieved this document on 10/8/2019 as part of the post-Epstein-death investigation
4. The document was produced alongside TECS queries, comprehensive background checks, and NYPD Detective Bureau Child Squad referrals -- indicating it was gathered as part of an aggressive investigative effort
5. Despite both the Criminal Record and Military Record flags, the application was APPROVED by the NYPD License Division, and Maxwell held a valid firearms permit for approximately 3 years

9.4 Unanswered Questions

1. **What specific record triggered "Criminal Record: YES"?** - No document in the 218GB corpus identifies the specific record
2. **Did Maxwell self-report the military connection, or was it a database hit?** - The application form

itself is not in the files; only the summary printout is available

3. **Was the NYPD License Division aware of the Epstein investigation when it approved this application?** - The Palm Beach PD investigation began in 2005, and FBI involvement began in 2006, contemporaneous with Maxwell's application
4. **Why did the FBI retrieve this document?** - Likely to establish Maxwell's weapons history and assess any firearms risk during the planned arrest operation
